OFFICE OF THE
INDIAN AGENT

Blackfoot Indian Agency,
Gleichen, May 10, 1940.

Attention: Education Branch

Dear Sir:

Re: Roofs - Old Sun School.

The heavy winds in this country have played havoc with the tar and gravel roofs of this institution and it was only this spring, when there has been a very great deal of rain, that it was noticed that they leaked badly in spots, especially when there was a heavy storm driving from the north. As they will, no doubt, gradually get worse and possibly seriously damage plaster, I have asked the local contractor, Mr. Michael, to give me a price on repairs.

I attach hereto Mr. Michael's estimates of the cost of supplying material and doing this work.

Awaiting your instructions, I remain,

Your obedient servant,

G. H. Gooderham,
Indian Agent.

The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,
O T T A W A, Ontario.

Attention: Education Branch

Dear Sir:

The Armature of the 1 H.P. Delco Electric Motor on the pumping plant at the Old Sun School has burned out and the motor is otherwise damaged, when it was overheated by the short circuit.

Another motor was borrowed to operate this plant, while the damaged one was sent to the Bruce Robinson Electric, Calgary, general agents for Delco products. This company now reports that it will cost between \$25.00 and \$30.00 to install a new armature and generally recondition this motor.

Will authority be granted to have this work done?

Your obedient servant,

G. H. Goodenham,
Indian Agent.

The Secretary,
Indian Affairs Branch,

AIR MAIL

Attention: Education Branch

Dear Sir:

The Delco pump on the main well of the Old Sun Boarding School got filled with water and the bearings and pins are burned out. These must be renewed and the machine overhauled.

As the school has another well with a pump which is supplying the present needs, we sent the disabled pump to the Bruce Robinson Electric, Calgary, general agents for Delco products, and they have now advised that it will cost \$31.66 to put it in working condition.

Please advise by Air Mail if this expenditure is authorized.

Your obedient servant,

G. H. Gooderham,
Indian Agent.

Attention: Education Branch

Dear Sir:

Re: Old Sun Indian School.

There are certain repairs and replacements that are necessary at this institution and some work that should be done if funds are available. May I be permitted to enumerate?:

*800
200
600*

(1) The upright water heating boiler has been leaking badly for the past month but it was kept in use until the school closed. The tubes have been rolled three times but are now beyond repair as they are leaking from the sides into the firebox; there is no alternative but to retube it. This boiler is a necessity and unfortunately is costly to keep in condition because of the soda and alkali in the water. No doubt the proper thing to do would be to install a water softener - but the initial expense is considerable. I inquired of the local steam fitter, L. Michael, and he states that he is prepared to take down the boiler, retube it and erect it again for the sum of \$160.00.

old

(2) The ashes from the big furnaces must be removed by buckets which are hauled to the surface with a windlass. The existing buckets have been in use for ten years -- there are two. They are now absolutely beyond repair and for some months every scheme has been tried to improvise a method of removal, but to no satisfaction. A pair of heavy iron buckets, with strong blacksmith iron handles, can be secured for about \$25.00.

The Secretary,
Indian Affairs Branch,
Dept. Mines & Resources,
O T T A W A, Ontario.

Indian Affairs. School Files.
(RG 10, Volume 6360, File 758-5, part 10)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

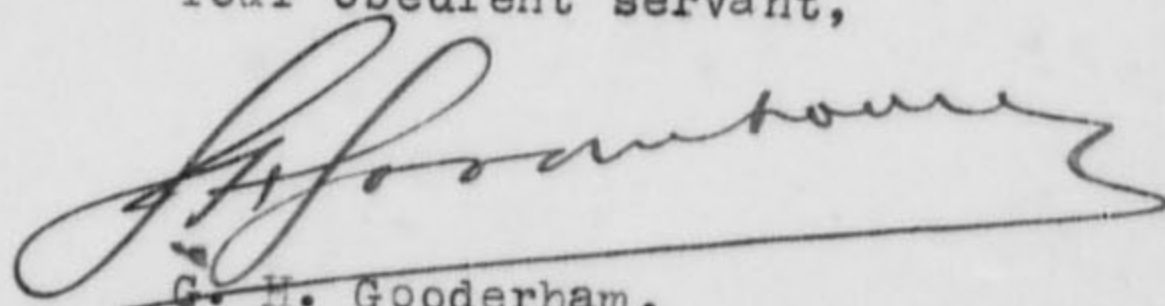

(3) The shaft, pinions and cogs of the Delco pump engine over the second well at the school have been cut by the sand and alkali water until they are so bad that they should be replaced. It is anticipated that these will cost about \$20.00.

(4) It has been the policy at this school to do a certain amount of interior painting each summer and the Department has supplied the material. A very good job has always been done and I would recommend that authority to purchase the following paint and painting material be granted, if funds are available:

Spar Varnish	5 gals.
Shellac	2 gals.
Inside White	5 gals.
Inside Ivory	5 gals.
Russet Brown	4 gals.
Battleship Grey	2 gals.
Black Engine Enamel	2 gals.
Boiled Linseed Oil	10 gals.
Turpentine	10 gals.
White enamel	2 gals.
Three inch Brushes	2
One inch Brushes	2
Lamp Black	5 lbs.

If authority for the above is granted, it would be appreciated if it was not delayed, so that work can proceed immediately.

Your obedient servant,

G. H. Gooderham,
Indian Agent.

The Secretary,
Indian Affairs Branch,
Dept. Mines & Resources,

Ottawa, July 15, 1940.

Dear Sir:

I am in receipt of your letter of the 10th instant, with reference to repairs and replacements required at the Old Sun Indian Residential School.

Eight hundred dollars (\$800.00) was provided for necessary repairs and improvements and new equipment at this school during the current fiscal year. Of this amount, approximately \$200.00 has been expended, leaving a balance of \$600.00 available.

You may, therefore arrange the following:-

1. Take down the upright water heating boiler, retube it and erect it again, for an amount of \$160.00. Provided you consider this cost is reasonable.
2. Purchase two heavy iron buckets with strong blacksmith iron handles, at a cost of - \$25.00
3. Replace shaft, pinions and cogs of the Delco pumping engine, at a cost of - \$20.00.

The Purchasing Agent is being requested to secure the paint and painting materials. It is noted that the painting will be done by the school staff, without cost to the Department.

Yours truly,

Philip Phelan,
Chief, Training Division.

Mr. G. H. Gooderham,
Indian Agent,
Gleichen, Alberta.

EX'D.
G

Memorandum:

MR. BAILEY

I attach account in favour of L. Michael, Gleichen, Alta., for \$129.52. Of this amount \$129.52 covers the cost of materials purchased. The reasons for authorizing this expenditure are as follows:

1. The armature of the 1 H.P. Delco electric motor on the pumping plant burnt out and had to be replaced immediately.
2. The Delco pump on the main well filled with water and the bearings and pins burnt out. These had to be supplied immediately.
3. Heavy winds during the latter part of April played havoc with the tar and gravel roofs and in order to avoid damage to the interior of the building the roofs had to be repaired at once.

The coding is as follows: 758-76-10-691.

Philip Phelan,
Chief, Training Division.

July 26, 1940.

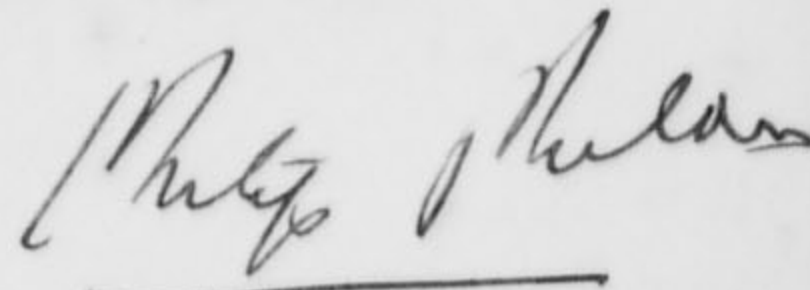

Memorandum:

MR. BAILEY

I attach account in favour of L. Michael, Gleichen, Alta., for \$199.52. Of this amount \$129.52 covers the cost of materials purchased. The reasons for authorizing this expenditure are as follows:

1. The armature of the 1 H.P. Delco electric motor on the pumping plant burnt out and had to be replaced immediately.
2. The Delco pump on the main well filled with water and the bearings and pins burnt out. These had to be supplied immediately.
3. Heavy winds during the latter part of April played havoc with the tar and gravel roofs and in order to avoid damage to the interior of the building the roofs had to be repaired at once.

The coding is as follows: 758-76-10-691.

AGENT'S REPORT ON BLACKFOOT AGENCY FOR MONTH OF JULY
x x x

SCHOOLS

All children were on holidays but both institutions were visited. At the Crowfoot school an inspection was made of the heating plant which has been in use for some 30 years and needed repairs badly. I am pleased to say that authority has been given for these repairs to be done and it is expected that the plant will be in good working order when school opens.

The same condition, only on a smaller scale, existed at the Old Sun School, this work is now done. The crops at both schools is very good; at the Old Sun a good crop of Alfalfa is being harvested while at the Crowfoot the Rev. Father Riou purchased about 80 tons of prairie hay from the Indians to augment the feed which he will harvest off the farm.

Dear Sir:

The attached account has just reached the Department. You should have it certified, attach it to proper voucher forms and then submit it for payment.

Is this the same machine that was repaired in August as covered by your voucher No. 231?

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Blackfoot Indian Agency,
Gleichen, Dec. 18, 1940.

Attention: Supt. Welfare and Training.

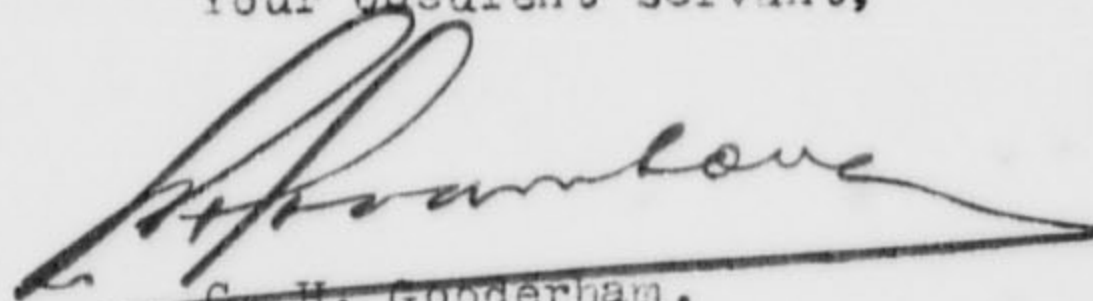

Dear Sir:

Your File No. 104-1-5

I am enclosing herewith Voucher No. 436
to cover the account of the Bruce Robinson Electric,
of \$ 33.65; this is for repairs to the motor on the
pump at Old Sun School, for which authority was given
on May 26th last.

Voucher No. 231 covered a $\frac{3}{4}$ HP Motor which
runs the return from the heating system at the same
school, a different motor.

Your obedient servant,

G. H. Gooderham,
Indian Agent.

The Secretary,
Indian Affairs Branch,
Dept. Mines & Resources,
O T T A W A, Ontario.

AIR MAIL

Attention: Supt. Welfare and Training

Dear Sir:

The Principal has today given me the information that the appropriation for Old Sun Residential School for the present fiscal year is \$1200.00, covering repairs and equipment. If such is the case, there are immediate requirements:

1. Paint and painting material, as per the attached list, which should not exceed \$125.00; labour to be supplied by the school.

2. An amount not exceeding \$750.00 should be provided to purchase building material for a workshop. This institution must have some place to carry out the program of training as outlined by Mr. Doucet. They now have a qualified woodwork instructor on the Staff but there is no place to carry on instruction. During the visit of Mr. Doucet various schemes for providing accommodation were considered, working on the assumption in all cases that very little money was available. The writer even suggested that a disused four-room Indian house might be moved to the school for the purpose; though such a building was not the best, it would be better than none. However, now that there appears to be an amount set aside in the estimates sufficient to supply the material for a proper workshop, it does not seem to be good business to move this old building, which would require a foundation and repairs amounting to two or three hundred dollars, and then never be the proper place to carry out a full course of training. If the sum of \$750.00 can be supplied with which to purchase building material, it will be excellent training for the pupils of the school to erect a proper type workshop, under capable supervision.

As something must be done immediately, and as the estimates for the fiscal year 1942/43 must go forward at once, please advise by wire or Air Mail whether or not the foregoing expenditures will be allowed.

Your obedient servant,

H. Gooderham,
Indian Agent.

The Secretary,
Indian Affairs Branch,
Dept. Mines & Resources,

AIR MAIL

Ottawa, August 22, 1941.

Dear Sir:

We have your letter of the 19th instant and have noted your recommendations. We are sending the list of your requirements, as stated in your requisition, to the Purchasing Agent.

With regard to the erection of a new workshop, valued at \$750.00, it is believed that this is not desirable at this time. It is considered that the unoccupied house with the adjoining barn, agreed upon at the time of Mr. Doucet's visit, would prove quite satisfactory. The Department is prepared to approve an expenditure not to exceed \$200.00 for the foundations and repair of the above-mentioned building.

We would like you to proceed without delay to the preparation of the foundations for the building and then to its transportation. We wish to have this building ready as soon as possible, in order that the children may not be delayed in their training.

Yours truly,

R. A. Hoey,
Supt. of Welfare and Training.

Mr. G. H. Gooderham,
Indian Agent,
Gleichen, Alberta.

Ottawa, September 10th, 1941.

Dear Sir:

This is to advise you that the fire insurance for a risk of \$80,000.00 on the "Old Sun" Indian Residential School near Gleichen, Alberta, will expire on October 1st, 1941. You are asked to inspect this property with a view to ascertaining as to whether or not the present risk is for a proper amount.

ASH
You are to place the renewal of this insurance with T. H. Beach, Gleichen, Alberta, for a term of three years. The policy should contain a clause to the effect that in the event of loss by fire payment will be made to the Indian Affairs Branch, Department of Mines and Resources.

Have the Agent submit his account in triplicate to you, upon which you will please forward it to the Department covered by your voucher also in triplicate for payment.

Yours truly,

M. McCrimmon

Attention: Education Branch

Dear Sir:

Re: Bake Oven - Old Sun
Boarding School

Earlier this month the Principal of the Old Sun School advised me that the kitchen matron was finding it impossible to bake bread without burning it. Furnaceman L. Michael of Gleichen was brought in and on investigation it was found that part of the firebox and assembly were burned out and the fire was coming directly into the oven.

Owing to the possible delay in getting repair parts I instructed Mr. Michael to make what temporary repairs he could. This he did by putting in ordinary bricks and fire bricks over the burned out portion. The bread can now be baked without much burning if the baker is careful to move the loaves about. However, this is not baking properly and as soon as possible permanent repairs should be made. Mr. Michael has submitted some data and plans which I submit herewith.

For your necessary action, please.

Your obedient servant,

G. H. Gooderham,
Indian Agent.

The Secretary,
Indian Affairs Branch,

Dear Sir:

I have your letter of the 18th instant with reference to the bake oven at the Old Sun Residential School. It is noted that you have made temporary repairs but I understand from your letter that the articles mentioned by Mr. Michael will be required soon. Insufficient information has been given to us to enable the order being placed by our Purchasing Branch and your letter did not state the approximate cost of the articles needed.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Memorandum:

ACTING DEPARTMENTAL PURCHASING AGENT

I attach account amounting to \$89.70 covering the cost of lumber purchased for repairs to the manual training building at the Old Sun Residential School.

In order to provide a suitable place for vocational work an unoccupied house was repaired. It was necessary to have the work done immediately in order that the building might be ready for the re-opening of the academic year. It would be appreciated if you would issue purchase order so that the account may be paid. The coding is as follows: 758-76-10-691.

Blackfoot Indian Agency,
Gleichen, Jan. 20, 1942.

Brantford Oven & Rack Co. Ltd.,
BRANTFORD, Canada.

Dear Sirs:

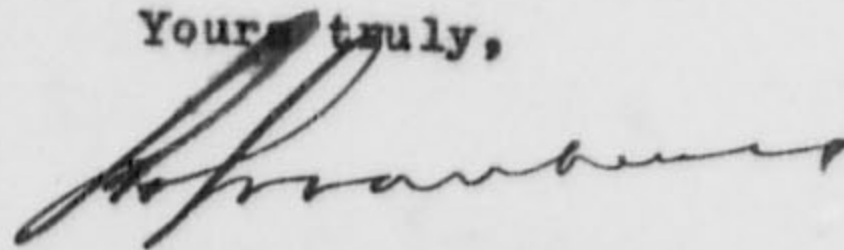

Your letter of the 13th, addressed to L. Michael of Gleichen, regarding repairs for a bake oven installed in the Old Sun School, Gleichen, was turned over to this office for a reply. Mr. Michael is the local plumber who does the necessary work on this reserve.

This oven was installed in this boarding school when it was erected in 1929/30. As all this business was transacted through the Architect's Branch, Dept. Mines & Resources, Indian Affairs Branch at Ottawa, I cannot state from whom the oven was purchased. If it is of any help, the oven parts have the following numbers:

Serial No. 1144
Fire Door Frame No. 401
Fire Door No. 358
Ash Pit Frame No. 299
Ash Pit Door No. H.89
Clean Out Door No. B.18

If this is not sufficient information, please communicate direct with the Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

Yours truly,

G. H. Gooderham,
Indian Agent.

Dear Sir:

Re: Bake Oven
Old Sun School

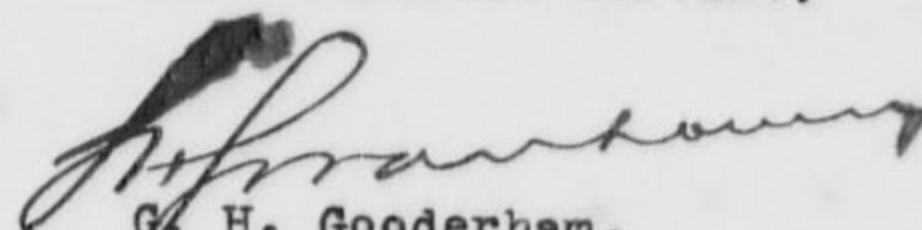

Further to your letter of December 24, 1941,
I attach hereto a copy of a letter addressed to the
Brantford Oven & Rack Co.

The Gleichen furnaceman, Mr. L. Michael, had
communicated with this company to get prices on repairs
for the oven, but there apparently was not sufficient
data given.

The Principal of the school advises me that the
temporary repairs are holding and the oven is in use.

For your information, please.

Your obedient servant,

G. H. Gooderham,
Indian Agent.

Dear Sir:

I have your letter of the 17th instant with reference to the repairs required to the bake oven at the Old Sun School. If you consider that the quotation submitted by L. Michael, namely, \$164.40, is reasonable you may arrange to have the work done immediately and the account submitted for payment before the end of March.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Attention: Superintendent Welfare & Training

Dear Sir:

The drainage system of the residential part of the Old Sun School has been blocked and waste water from the roof and laundry of the residence has been running into the basement. I made an inspection with the local plumber and found no other way to get at the trouble but to chop holes in the concrete floor. The first hole, based on experience from former similar trouble, did not make it possible to clean the drain and further cutting is being done in the direction of the disposal system. So far, the pipes wind around with many elbows, rises and dips, but it is expected that it can be eventually cleaned.

The foregoing is mentioned so that you might realize the difficulties encountered and the likely cost of around \$30.00 in clearing this. As it was an emergency I instructed the plumber to go ahead.

Your obedient servant,

G. H. Gooderham,
Indian Agent.

The Secretary,
Indian Affairs Branch,

Memorandum:

ACTING DEPARTMENTAL PURCHASING AGENT

I attach the under-mentioned accounts for which I should appreciate your issuing purchase orders:

1. Account of \$88.85 covering cost of lumber and material purchased from the Crown Lumber Company for the workshop at the Old Sun Residential School. In order to provide proper accommodation for the vocational work at this school we had an old building moved from one section of the reserve to the school property. It was necessary to renovate this and the Agent was authorized to purchase the necessary material in order that the building might be completed at the earliest possible date.
2. Account of \$170.60 in favour of L. Michael. You will note from the account that these were small expenditures made from time to time during the past year in order to keep the building in proper running order.

691. The coding is as follows: 758-76-10-

R.A. Hoey,

104-1-5

Ottawa,
March 12, 1942.

Dear Sir:

I have your voucher No. 524 amounting to \$170.60 in connection with plumbing repairs at the Old Sun School. I note that this expenditure was incurred from time to time throughout the past year. However, it now amounts to a considerable sum and it will be difficult for us to explain to the Purchasing Branch why authority was not obtained previous to the expenditure being incurred. It is possible that the school staff is not as careful of the equipment as might be expected.

There seems to be a considerable amount of labour which could have been done by some member of the staff. You will realize, of course, that it is difficult for us to obtain money for this work, owing to present conditions, and consequently staffs of Indian residential schools are expected to co-operate in every possible way in keeping expenditures low. I note from your letter of the 3rd instant that there will be a further expenditure of \$30.00 for labour. I trust that it will not exceed that amount.

Yours truly,

Mr. G.H. Gooderham,
Indian Agent,
Gleichen, Alta.

R.A. Hoey,
Supt. of Welfare & Training.

Ottawa,
May 16, 1942.

Dear Sir:

The Department finds it necessary to return voucher 33 issued in favour of L. Michael.

The second item on the account reads -- "Bake oven repairs \$130.90". More detailed information will have to be supplied regarding this item, showing the manner in which the charge was reached. Details will also have to be supplied for the second-last item on the account reading -- "Repairs to 2 H.P. motor \$11.50". Incidentally it is noted that the account is larger than the authority given in official letter of February 24, but I presume that this is due to the fact that repairs were made to the pump.

On reviewing the account I may say that it appears from this distance that Mr. Michael's charges are inclined to be rather high.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Mr. G.H. Gooderham,
Indian Agent,
Gleichen, Alta.

OLD SUN RESIDENTIAL SCHOOL:

At the Old Sun School, they have a large drier which they have very little use for, and the Matron stated that she would be glad to trade it for a mangle. If the Department would purchase this School a mangle, the drier could be shipped to the Blood Hospital, where one is badly needed.

FILE B/12

Attention: P.A. Hoey, Supt. Welfare & Training

Dear Sir:

Would it be possible to state what funds are available during the current fiscal year for development and repairs at the Old Sun Residential School?

Of immediate necessity are: (1) Motor Jack and repair to barn pump. Recently this was temporarily repaired at a cost of \$30.00 and this will be repeated if the unit is not properly equipped. The estimated cost of this is \$84.50.

(2) The Principal brought to the attention of Inspector Schmidt the desirability and need of a water tank and pump for a vegetable garden. It is noted that the estimated cost of this is \$217.00 and that it requires a galvanized tank and 350 feet of pipe. The Blackfoot Coal Mine will have the pipe and possibly a pumping unit for sale very shortly as a larger unit is being installed there. It is doubtful if the galvanized tank could be purchased now and I believe this unit would be more efficient. The whole thing could be purchased for considerably less than the amount estimated.

(3) Paint, to the value of \$125.00, is also required so that it may be applied during the summer holidays.

Your obedient servant,

G. H. Gooderham,
Indian Agent.

The Secretary,
Indian Affairs Branch,
Dept. Mines & Resources,

104-1-5

Ottawa,
May 30, 1942.

Dear Sir:

With reference to your letter of the 26th instant, the following expenditures are authorized at the Old Sun School:

1. Motor jack and repair to barn pump -- estimated cost \$84.50.
2. Purchase of water tank and pump for the vegetable garden -- estimated cost \$217.00.

It is noted that you can secure a suitable pumping unit from the Blackfoot Coal Mine.

With regard to the paint, it is doubtful if, under present conditions, this can be secured, but you should forward a requisition stating the quantities and colours required and the matter will be submitted to the Purchasing Branch.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:-

I return herewith Voucher #33 showing more detail of the material purchased by Mr Michael for repairs to the bake oven at Old Sun School, as requested in yours of the 18th ultimo.

With regards to charges for work done by Mr Michael, you will note that he charges at the rate of \$1.00 per hour for labour, and often does not show mileage in connection with his work. There is no mechanic available for most of the work done by Mr Michael nearer than Calgary, and if it becomes necessary to secure a man from that point, all travelling expenses would be charged. Mr Michael is a very capable mechanic with good equipment in his workshop.

Your obedient servant,

H. H. Gooderham

Attention: R.A. Hoey, Supt. Welfare and Training

Dear Sir:

I have to report that the tar and gravel roofs on the Old Sun School have been leaking badly in various places. In company with the Principal and local Tinsmith I inspected the building today; the walls of the residence, the two senior dormitories and the senior classroom show where recent rains had seeped through and discolored them. The Principal said that the water was so bad in these parts of the building during a sharp shower on the 13th that the pupils had to get out of bed and mop it up. On inspecting the roof, the flashing appeared to be in excellent condition but the tar had melted and considerable run away down the drain leaving the paper with very little gravel or tar on it in spots.

None of us have had enough experience with tar roofs to know exactly what the condition is nor where the leak might be and this letter is written to ask authority to secure the services of a capable roofing contractor to inspect it. The name of L. D. Reggin, of the Reggin Roofing and Metal Works, Calgary, was suggested. This is a dependable firm.

This matter is considered urgent.

Your obedient servant,

G. H. Gooderham,
Indian Agent.

Re: Repairs to Roof - Old Sun School

Dear Sir:

I desire to acknowledge receipt of your letter of the 15th instant and to state that you are authorized to have a representative of the Reggin Roofing and Metal Works, of Calgary, inspect the roof of the above-named school and submit an estimate of the repairs that may be urgently required. It is scarcely necessary to add that this work should be undertaken at the earliest possible date.

In the estimates of this year the sum of \$800 was set apart for repairs, painting, etc., at the Old Sun School. Of this amount approximately \$625.00 has been already spent.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Attention: R.A. Hoey, Supt. Welfare & Training

Dear Sir:

Re: Old Sun School roof
Your File No. 104-1-5.

In reply to yours of the 17th ultimo, I have to report that I immediately contacted Mr. Reggin of the Reggin Roofing and Metal Works and at his first opportunity he made an inspection of this roof.

Attached hereto is a copy of his report. In conversation with him, he was surprised to see such a poor job and asked if it wasn't a bonded roof. He intimated that such would be the only guarantee of a proper job being done and certainly the job which he inspected had not been properly done.

The cost of re-roofing is very large and it is realized here that it will possibly be very difficult to raise sufficient funds to do it at this time. There has been no real damage done by the leaking so far.

Awaiting your further instructions, I remain,

Your obedient servant,

G. H. Gooderham,
Indian Agent.

The Secretary,
Indian Affairs Branch,

104-1-5

Ottawa,
October 9, 1942.

Dear Sir:

I have your letter of the 6th instant, enclosing report regarding the roof at the Old Sun Indian Residential School. I note that the cost of a new roof is estimated at \$2610.00. It is not possible for the Department to consider any such expenditure at the present time. In reviewing our files I find that an expenditure of \$199.52 was made for this roof in July, 1940. The work at that time was done by L. Michael. Presumably whatever was done at that time has kept the roof in fairly good condition until the present time. While I realize that patching the roof may not be entirely satisfactory, the funds at our disposal will not allow us to incur any heavy expenditure. If you believe that repairs to the amount of \$200.00 would be of any assistance, authority is granted for an expenditure of this amount.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

REGGIN ROOFING WORKS

.... CALGARY

ALTA

October 20, 1942.

Mr G.H.Gooderham
Indian Agent
Gleichen, Alta

Dear Sir:-

With regard to your letter of October 14 we appreciate the fact that the Department may not feel like spending this amount of money at the present time. We have always taken the position that it is far better to sell a job which we know will give satisfaction, than to carry out repairs, unless conditions warrant doing the repair work.

There is no doubt that a certain amount of repairs would give some results, but would not be a job which could be guaranteed, as with patch jobs we simply undertake to do the best we can under the circumstances.

If it is your wish, we would be pleased to carry out repairs in the prominent weak spots to the best of our ability, and as far as we feel this type of work warrants, in order that there may be a degree of satisfaction along with it.

If you would like us to undertake this work we would be glad to make arrangements in the very near to do so.

If you wish to carry out repairs, we would like you to have the caretaker chip off a couple of pieces of pitch from the roof and send them in to us, in order that we might test the material, as the writer has seen so many roofs that he is not certain which type of material was used; whether it is pitch or asphalt, and for repair work we use the same quality material.

Awaiting your instructions in this matter.

Very truly yours

Reggin Roofing & Metal Works

L. D. Reggin.

Attention: Supt. Welfare and Training. OCT 27 1942

Dear Sir:

In reply to your letter of the 9th where authority was given to spend an amount of \$200.00 on repairs to the Old Sun School roof, I beg to report that I immediately communicated with Mr. Reggin and asked him what could be done for this amount. I am attaching hereto his reply.

If I interpret this correctly, there is no guarantee that the roof will not continue to leak. These roofs do not give any trouble in the winter time when it is frozen and dry and any loose snow can be shoveled off prior to a thaw. It is my recommendation that nothing be done at present, providing the roof can be properly repaired in the spring. The cost would then be included in the estimates for the fiscal year 1943/44.

Awaiting your instructions, I remain,

Your obedient servant,

G. H. Gooderham,
Indian Agent.

Blackfoot Indian Agency,
Gleichen, March 27, 1943.

Indian Affairs Branch, Dept. of Mines & Resources, Ottawa.

RE: Voucher No.498 favour of L.Micheal, Gleichen.

Authority was given in May 1942 for a motor jack repair to barn pump and the purchase of a water tank and pump for the vegetable garden. The total allowed was \$301.50.

Mr. Micheal has submitted an account to cover this of \$221.03. The pipe for the system has been supplied from the Blackfoot Indian Coal mine - 360' of 2" pipe valued at \$90; no account has been submitted for this.

The balance of the voucher represents repair work which Mr. Micheal has done at this institution and amounts to \$90.65.

The whole is submitted for payment please.

Indian Agent.
G.H. Gooderham.

AIR MAIL

Ottawa, April 1, 1943.

Mr. G. H. Gooderham, Indian Agent, Gleichen, Alberta.

I have your letter of the 27th ultimo,
enclosing voucher No. 498.

On reviewing this voucher it is found that all the items mentioned in your letter of May 26, 1942, had been purchased two months before. It would be appreciated if you would let me know why this information was not contained in your letter to which reference has just been made. When issuing the authority given in official letter of May 30, the Department was under the impression that the purchases had not yet been made.

With reference to the account for \$90.65, covering the cost of repair work, there is an item of November 4 reading "Labour on Dairy Sink \$6.00; bolts 40¢; gasket 20¢. Is the Department to understand that a charge of \$6.00 was made for labour in installing material costing 60¢? What has been said regarding the November 4 item applies also to the charges of November 5 and November 10, also November 26. A full explanation regarding the apparently heavy charges for labour will be necessary before payment of the account can be made.

More detailed information will be necessary regarding the item of \$28.00 for repairs on November 22. In the case of all items regarding labour, it will be necessary to show the number of hours the workman was employed and the rate per hour. This applies also to the account of February, 1943.

I am returning both these accounts in order that the necessary explanations may be supplied. I would appreciate receiving your reply at the earliest possible date, in order that, if it is decided to pay the accounts, cheque may be issued from the 1942-43 appropriation.

Encl.

Philip Phelan,
Chief, Training Division.

PLEASE QUOTE
FILE 104-1-5

AIR MAIL

Blackfoot Indian Agency,
Gleichen, April 5, 1943.

Indian Affairs Branch, Dept. of Mines & Resources, Ottawa.

Reference yours 104-1-5 of the 1st instant and
attached voucher number 498.

None of the items mentioned in my letter of May 26,
1942 were purchased until the dates stated in the accounts
submitted by Mr. Micheal; these were either in the latter
part of 1942 or early in 1943 as you will note.

In regard to the pump-jack, Mr Micheal had great
difficulty in securing it and when it arrived was so
busy on other jobs that he did not get it installed.
It must be repeated that your authority of May 30, 1942
exceeded the amount expended and furthermore the amount
of repairs of \$90.65 is just equal to the value of pipe
(the property of the Blackfoot Indians) for which no
charge has been made.

Now with regard to the repair account for \$90.65
I report as follows:

(a) All walls in the Old Sun School are metal lath
and plaster; when constructed fittings were attached
to walls by screws in wooden plugs. In time these dried
out and heavy sinks could not be maintained in place.
This was particularly true in the Dairy and to remedy
this defect bolts have been put through the wall from
another room, with plates to anchor them. The wall used
in this case, is solid brick and it took some time to
drill necessary holes; the material used, as noted, was
neglegable but skilled labour was required as there was
neither skilled labour nor necessary tools in the
institution.

OVER.

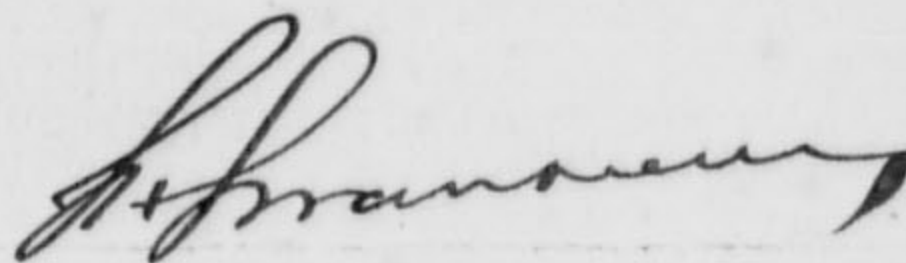

Indian Affairs. School Files.
(RG 10, Volume 6360, File 758-5, part 10)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

(b) The rate of pay in all cases, where not formerly indicated, were \$1. per hour. This may seem a lot but Mr. Micheal is an excellent mechanic and wastes no time.

(c) In regard to repairs to a 2 H.P. motor - This is part of the return unit of the heating system. The unit was installed the year following construction of the school, as the heating system was defective. This motor carried a heavy load for 10 years then ceased to function until repaired. The repairs were satisfactory and as the motor is an absolute necessity for heating the institution, the cost was considerably less than replacement.

Ottawa,
April 8, 1943.

Mr. G.H. Gooderham, Indian Agent, Gleichen, Alta.

I have your letter of the 5th instant, with reference to your voucher V 498. When the account was first submitted we considered that a number of the articles had been bought in February, 1942. It is now noted from your letter that these were not supplied until February, 1943.

When we wrote to you on May 30 we were under the impression that the supplying of the items mentioned in your letter of May 26 was urgent and consequently we gave authority for local purchase. If we had been aware that it would take nine months to secure the articles, we would have complied strictly with purchasing regulations and had the Purchasing Branch secure them. It is going to be rather difficult for us to explain the matter to them now. In future it is our intention to comply strictly with purchasing regulations. Consequently future requests will have to be forwarded to the Purchasing Branch. I feel that you should have advised us when there was such delay in Mr. Michael's supplying the items.

The bill of \$90.65 for repairs is in a different category from the other account. Consequently it would be appreciated if you would issue another voucher covering this account which is enclosed.

R.A. Hoey,
Supt. of Welfare & Training.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

I attach account amounting to \$221.03 which includes \$189.03 for equipment purchased for the Old Sun Indian Residential School. The main items of the account are \$62.00 for a heavy duty motor pump jack and \$75.00 for a tank. These two items total \$137.00.

On May 26, 1942, the Indian Agent wrote and advised that the two items just mentioned were immediately necessary, the motor jack to repair the barn pump and the water tank for the vegetable garden. In view of the emergency we authorized him to make local purchase. Recently he has forwarded the account and he states that the delay in securing these articles was due to the fact that Mr. Michael was unable to secure them and when he did secure them he was so busy with other jobs that he did not have time to install the pump jack. Under the circumstances it would be appreciated if you would issue purchase order so that the account may be paid. The coding is as follows: 758-76-10-691.

June 30, 1943.

G. H. Gooderham,
Indian Agent,
Gleichen, Alta.

Dear Sir:

After checking up our correspondence with you with regard to the Old Sun School roof, we believe that our quotations as given at that time would still be in order, and we feel that the complete job would be the more economical.

However, under the circumstances, there is no doubt that some repair work could be accomplished that would give you considerable service, and the only fair way to both parties to handle this type of repair work, would be on a material and labor basis, so that if you are allotted a certain amount, we would be only able to carry out repairs to the extent of that amount.

If it is necessary to have any fuller information in this regard, I would have to make a trip to Gleichen to go over this roof again.

I am enclosing a copy of both previous letters from you files and trust that we may hear from you.

Very truly yours,

REGGIN ROOFING & METAL WORKS.

L.D. Reggin

OFFICE OF THE
INDIAN AGENT

PLEASE QUOTE
FILE 12

Blackfoot Indian Agency,
Gleichen, July 6, 1943.

Indian Affairs Branch, Dept. of Mines & Resources, Ottawa.

May I refer you to correspondence in regard to the roof of the Old Sun Residential school, particularly to your letter of the 9th of October, 1942, file 104-1-5. When you stated that the department was not in a position at that time to make a large expenditure in repairing the roof but was prepared to spend \$200. if it would do any good.

As you will now realize nothing was done to the roof; the past spring was dry and there was no damage from moisture. In fact, the roof had been forgotten. If there is a very rainy season it is feared that there will be considerable damage done to ceilings and walls.

As a consequence, I took it upon myself to ascertain if there was any way that this could be repaired at less cost and tendered the Reggin Roofing Company, Calgary. On inquiry, we found that this firm was the only one that could supply the necessary material so I communicated with Mr. Reggin again.

Attached is a copy of his reply, which indicates that he has nothing further to recommend than in October, 1942. I also, by chance got talking to a representative of an oil and paint company, who sells a lot of plastic roof cement which is used extensively on the cheap construction roofs that are flat and not waterproof. I attach hereto a letter from the manager of the C.C. Snowden Co. with regard to the material. The cost would be only one-fifth of the bonded roof but it certainly would not be so durable.

Indian Affairs. School Files.
(RG 10, Volume 6360, File 758-5, part 10)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

It is not known how reliable this roof cement is but it is known that it is almost impossible to get the right ingredients for the bonded roof and the labour to do it.

Something should be done to this roof before fall and this information is submitted for your consideration.

G. H. Gooderham

Indian Agent.
G. H. Gooderham.

GHG/B

P. S. I just learned that the plastic roof coating is used on rubberoid roofing which has perished, and may not of any value over a tar and gravel roof. It would therefore appear that the Surodon product would be useless on this job. *GHG*

Mr. G. H. Gooderham, Indian Agent, Gleichen, Alberta.

I have your letter of the 6th instant,
with further reference to the roof of the Old Sun
School.

We have carefully considered the two
proposals and are not altogether satisfied with
either of them. In the case of the Reggin Roofing
Company, we have not the money in the present year's
appropriation sufficient to carry out their suggestion.
I note from your letter that you are not altogether
satisfied that the suggestion of the C. C. Snowdon
Estate would prove satisfactory. Under the circum-
stances, I am submitting the matter to the Surveys
& Engineering Branch, with a view to having one of
their officers visit the school and report.

EXT.

Ottawa, July 13, 1943.

Memorandum:

DIRECTOR, SURVEYS & ENGINEERING BRANCH.

Re: Old Sun Indian Residential School,
Blackfoot Indian Agency, near Gleichen, Alberta

Last fall, the Indian Agent wrote that the condition of the roof of the above noted school was not satisfactory and at that time forwarded the attached tender from the Reggin Roofing & Metal Works. As their tender involved an amount of \$2,610.00, which was not available in our appropriation, no work was done.

I am today in receipt of another letter from the Agent, in which he recommends that the roof be repaired. He has consulted the Reggin Roofing & Metal Works again and they consider that their previous quotation should be sufficient. The agent also secured a quotation from the Estate of C. C. Snowden. I attach this for your information.

It would be appreciated if you would have one of your officers inspect this roof at the earliest possible date and let us know what he considers should be done. For your information I may say that in the current year's appropriation we have an amount of \$600.00 for repairs and improvements to the Old Sun School. Consequently, if sufficient repairs can be made to put the roof in a reasonable condition, without incurring the heavy expense outlined in the quotation from the Reggin Roofing & Metal Works, it would be much easier for this Branch to handle the expenditure.

If your officer interviews Mr. C. P. Schmidt, Inspector of Indian Agencies, Calgary, he can make arrangements for reaching the Old Sun School.

AIR MAIL

Blackfoot Indian Agency,
Gleichen, August 3, 1943.

Indian Affairs Branch, Dept. of Mines & Resources, Ottawa.

On a recent visit to the Old Sun Residential School the upright water heating boiler was found to be leaking. The plumber and a man who is capable of moving and rolling the tubes was immediately contacted and it was learned that the services of this man could be secured now, but maybe not later. The cost of this work will not exceed \$25. if done now and I took the liberty of instructing him to do it. If left it would possibly be much more costly and the work would have to be done when the school is full of pupils.

Trust this meets with your approval.

FILE _____

July 2nd, 1943.

Mr. G. H. Gooderham,
Indian Agent,
Gleichen, Alta.

Dear Sir:-

We are in receipt of advice today from our representative Mr. Posey who had the pleasure of calling on you this week in connection with the roof cement required to repair the Indian School. According to his estimate it will require 300 gallons to complete the job and our special price to you is \$1.50 per Gallon less 10% on this quantity.

We are enclosing herewith a descriptive circular which will give you a very good idea of the material benefits that may be derived from the use of this Semi Plastic Cement.

You will also note that we handle a Heavy Plastic cement which is used to patch any cracks or crevices in the roof as well as for sealing up the flashings around the chimney and around the sides of the building should this be necessary. Should you require any of the Heavy Plastic we would recommend that it be allowed to set for a couple of days before applying the Semi Plastic cement over the entire surface of the roof.

This Material is easily applied, being semi liquid in form and requires no heating, and we will be pleased to supply you with the necessary brush for the purpose of application as this eliminates a considerable amount of labor. Our Semi Plastic cement sets to a hard rubber consistency that will not peel, chip or crack. It expands and contracts as the temperature varies, and properly applied should give you a roof as good as a new one.

Indian Affairs. School Files.
(RG 10, Volume 6360, File 758-5, part 10)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

The price of the Heavy Plastic cement is 16% per pound less 10%.

I think you will find the information contained in the circular enclosed will tell you anything that you may wish to know, but if there is any further information you require we will be only too glad to be of service to you. We can make shipment promptly and sincerely trust that we may have the privilege of being favored with your valued order. You may rest assured that you will get a finished job that you will be pleased with, not only for this year but for many years to come.

With kind regards, and thinking you for the courtesy extended our representative when he called.

Yours very truly,

ESTATE OF C.C. SNOWDON

Roof Cement and Preservative

A PRODUCT to be popular nowadays must be exactly as is represented. It must do everything that is claimed for it—it must produce exactly the results promised for it—it must be built on a firm foundation, the foundation of quality, and that quality kept up to standard. Not only one of these points but all of them are necessary for any product to make friends and keep them!

ELASTIC GRAPHITE LIQUID PURO PAINT

Without a doubt the most durable roof paint on the market.

This paint comes in liquid form, and can be applied with an ordinary paint brush. It is as near fireproof as a paint can be made. It is particularly good on tin, iron, canvas, paper and shingle roofs, and can be used on all types of iron work.

ELASTIC GRAPHITE PURO PAINT

makes your roof weatherproof. It will not blister or peel off under the most severe hot or cold conditions. A good general purpose roof preservative.

HOUSE PAINTS of all shades for inside and outside use.

BARN PAINTS—English Red—Grey and Green, White Trimming Paint.

SHINGLE PAINTS—Red, Green, Brown, Chocolate and Black.

VARNISHES—Interior and Exterior, Quick Drying. Makes a wonderful finish with high lustre.

Four-Hour Long Wearing FLOOR VARNISH. Easy to keep clean and finishes with beautiful shine.

Cement Paints - Kalsomine
Colored Varnishes - Floor Enamel

All our paint materials are specially manufactured from the purest raw materials to withstand the rigorous climatic conditions which we experience in Western Canada. Every gallon is guaranteed to give absolute satisfaction and you may be confident in our assurance that the application of any of our Paints, Varnishes and Shingle Stains will give you a finished job that you will be proud of and one that will be pleasing to the eye.

Remember these are guaranteed strictly highest quality Paints and Varnishes—every gallon guaranteed to give satisfaction.

Write for color card and special bargain prices.

The roof coating is not recommended for shingle roofs

Here is a Roof Coating you can depend upon!

ITS BASE is carefully chosen weather and waterproof oils, combined with asbestos fibre; its quality is high and kept uniform by studied manufacturing processes and careful supervision and the result is a product that will do everything that is claimed for it.

IN OUR SEMI-PLASTIC ROOF COATING the vehicle and asbestos fibre are combined in the proper proportions to produce a coating that can be applied with a brush or spreader. It can be used on practically any type of roof surface—tin, corrugated iron, paper, composition, gravel or concrete. It forms a one-piece weather and waterproof surface that offers the utmost resistance to attacks of changing weather conditions. One coat will usually seal small holes caused by rust pitting and reliven the surface, adding many years to its service.

Tin and corrugated iron surfaces usually require one and one-half gallons to the square (100 sq. ft.), paper and composition one and one-half to two gallons to the square, gravel three and one-half to five gallons to the square, and concrete, three gallons to the square.

Let us show you how quickly and easily your roofing problems can be solved by using SEMI-PLASTIC ASBESTOS ROOF COATING.

THIS IS a super-roof material but it will not accomplish the impossible. It is a "real roof coating" that will go a long way toward helping you reduce your roof troubles to a minimum. Our Semi-Plastic Asbestos Roof Coating is made of tested heavy bodied waterproofing oils, combined with Canadian Asbestos Fibre. The finished product is of a consistency thin enough to be applied with a brush or spreader, but thick enough to effectually stop leaks caused by rust pitting in the roof or by the drying out or weathering of other types of roof surfaces. Semi-Plastic Asbestos Roof Coating can be used on practically any type of roof surface with success assured (wood shingle excepted) if proper care is used in its application.

Semi-Plastic Asbestos Roof Coating is the result of years of experiment and practical use on all types of surfaces and in every kind of weather. The results have proven that with proper care in application this Semi-Plastic Asbestos Roof Coating will give utmost satisfaction.

HEAVY PLASTIC ROOF CEMENT is made heavy enough to apply with a trowel. It is used principally for patching cracks and breaks in roofing of all kinds, for flashing along fire walls, around chimneys, skylights and vent pipes, for mending leaks around rain-spouts, copings and valleys and for lining old rusted gutters—in fact, HEAVY PLASTIC ROOF CEMENT can be used wherever leaks occur or repairs are needed. As it sets, a tough film forms over the surface, protecting the material underneath and keeping it soft and pliable. It will adhere to any surface without cracking, bulging or breaking loose. It will expand and contract with changes in temperature.

HEAVY PLASTIC ROOF CEMENT is always ready for use—needs no heating or thinning, never settles in the package and needs no skilled labor to apply it. Keep a quantity on hand for emergencies. It is good economy and a wise precaution.

REGGIN ROOFING AND METAL WORKS

117 - 11th Avenue West,
Calgary, Alberta
October 5, 1942.

Mr. G. H. Gooderham,
Indian Agent,
Gleichen, Alta.

Dear Sir:

Re: Old Sun School Roof

As requested by you, I inspected this roof and found that the gravel covering in many places was never properly applied, leaving many bare spots along the wall and out on the roof, and there is no doubt in my mind that you will continue to have trouble with this roof until it is repaired.

With such a good structure as you have here, it would seem that the most economical policy would be to have this building re-roofed with a regular 20 Year Bonded Roof. This would be a more satisfactory and cheaper job than anything else we can suggest.

We submit for your information a quotation on a 20 Year Bonded asphalt and gravel roof (or pitch and gravel) whichever is available under present government restrictions. This along with complete reconditioning of flashings and the replacing of the broken lead connections to vent pipes, and the renewing of all sumps, in fact a complete reconditioning job, would cost \$2,610.00.

With regard to the possibility of simply repairing, we would point out that it would be necessary to take up considerable of the existing flashings and apply new portions of roof along the walls, and also to check over the entire roof to find all weak spots where the paper is now practically destroyed, and repair these. It would be almost impossible to give a figure on this repair work. It would be done on a straight time and material basis, as one would have to figure altogether too high to try and cover many of the spots which may not be seen until a thorough work over of the entire roof is carried out.

We still feel that even though this roof is repaired, it would not be a satisfactory job, as compared with the replacing of the existing roof.

Trusting this information may be of service to you, we are,

Very truly yours,

REGGIN ROOFING & METAL WORKS,

(Sgd) "L. D. REGGIN"

Dr. McGill:

Mr. Mills' opinions concurred in.
Will you kindly advise us of your wishes
in this matter. Copies of letters from
Reggin Roofing & Metal Works and the estate
of C.C. Snowden returned herewith.
26/8/43. J.M.W. J.M.W.

August 25, 1943.

Memorandum:

Re: Old Sun Indian Residential School,
Blackfoot Agency, Gleichen, Alberta.

With reference to your notation, dated the 14th ultimo, on Dr. McGill's memorandum to you of July 13th last, requesting an opinion from this Service, on the condition of the roof at the above, you are advised that under date of July 19th this Service requested Mr. Walker to have an inspection carried out by an officer from our Banff Staff, and to submit a complete report as soon as possible. For his information Mr. Walker was furnished with a copy of the report submitted to Indian Agent Gooderham by The Reggin Roofing and Metal Works of Calgary under date of October 5th, 1942, which embodied their estimate of \$2610.00 for work they considered necessary at that time.

We are now in receipt of Mr. Walker's report dated the 29th ultimo, which confirms comments by Mr. Reggin in his report of last October regarding the felt and gravel roof, namely that:

- (a) Insufficient pitch has been applied to the whole roof when it was being laid. At many points the felt is completely bare of pitch and gravel, and the several thicknesses of felt are improperly bonded to each other.
- (b) Gravel used on the roof, is of the pit run variety, and has apparently never been screened. It contains silt and loam in far greater proportions than could be considered wind deposited and is not bonded by pitch to the felt.
- (c) The felt has blistered, and in many places has cracked open, admitting water.
- (d) Galvanized iron flashings have pulled loose from their horizontal wall joints and require soldering at their vertical joints.
- (e) Roof hoppers require resetting and in some instances should be replaced.

After consideration of the above it is our opinion that the only satisfactory and economical method of rectifying the existing roof condition of the school, would be to remove all of the existing roof covering, and replace it with a new 4 ply felt and gravel

J. M. Wardle, Esq.,

- 2 -

roof, carrying a 20 year bond. Flashings should be removed reset, and where necessary replaced. A new wood cant strip should be installed, providing a 45° slope between horizontal roof deck, and vertical surfaces of parapets, chimneys, curbs or other projections.

The work should be carried out by contract, after competitive prices have been obtained, and should be based on a specification by this Service. Further the laying of the new roof should be supervised by this Service.

It is estimated that the total cost of the work including supervision and contingencies will approximate \$2800.00 exclusive of any damage to the roof deck, the extent and cost of which can only be determined when the upper covering is removed.

The enclosures which accompanied Dr. McGill's memorandum are returned herewith.

Memorandum:

DIRECTOR

Surveys & Engineering Branch

Re: Old Sun Indian Residential
School, Blackfoot Agency,
Gleichen, Alberta.

I have your memorandum of August 26, in connection with the above. The question of this expenditure was discussed this morning with the Chief Executive Assistant. Your memorandum refers to a report made by Mr. Walker.

On July 28 we received a letter from Indian Agent Gooderham reading, in part, as follows:

"Mr. W.H. Snelson, of the Engineering and Construction Service, Banff, visited this Agency on July 27 and made a thorough inspection of the roof of the Old Sun Residential School."

Before making a recommendation to the Minister, Mr. Jackson would like to have Mr. Snelson's report. It would be appreciated if you would forward me a copy of it so that I can hand the complete file to Mr. Jackson.

REGGIN ROOFING AND METAL WORKS

117 - 11th Avenue West,

CALGARY? Alta. August 5th,
1943.

C. M. Walker, Esq.,
Supervising Engineer,
Engineering & Construction Service,
BANFF, Alberta.

Dear Sir: Re: Old Sun School roof, Gleichen.

We regret that we were unable to meet your Mr. W. H. Snelson when passing through, but from the information supplied us by the foreman, Mr. Keen, we are of the opinion that your idea might be a very good one. We are, therefore, pleased to submit the following:

Scrape the existing gravel clear from the paper, thoroughly sweep, and apply a poured coating of hot pitch, embedding gravel in the same, for the sum of \$7.00 per square. This price is submitted with the understanding that you would supply, at the job, any gravel that is necessary, in addition to that which has been removed. Also, that necessary patches on existing roof would have to be extra, as we are unable to be certain how many weak spots we might find, and these of course, should be renewed.

With regard to the edge of the roof, we are of the opinion that this should be re-flashed with at least three plies of 15 pound felt, mopped into position, and coated before gravelling of the roof is undertaken. This would give you a renewal of the edges at all points and would cost approximately 30¢ per lineal foot, using 18" widths.

We trust this information may be of service to you, and assure you that we may be called on to go into the matter further with you at any time.

Very Truly Yours,

REGGIN ROOFING & METAL WORKS

DG

Sept. 20th, 1943.

Memorandum:

Re: Old Sun Indian Residential School,
Gleichen, Alberta.

Further to our memorandum of the 25th ultimo, in connection with the inspection of the roof at the above and as discussed with Mr. Pounder by our Architect, attached is a copy of an estimate from the Reggin Roofing and Metal Works of Calgary, forwarded under cover of Mr. Walker's letter of August 7th and based on repairs as suggested in alternative recommendation (B) of Mr. Snelson's report dated July 29th last.

The roof plans of the school show that approximately 110 squares of roofing would require treatment which on the basis of the Reggin estimate would consist of:

- (a) Removal of existing poor gravel,
- (b) Recovering existing roofing with pitch,
- (c) Applying gravel in hot pitch,

At the estimated cost of \$7.00 per square, the above would amount to \$770.00. It would further be necessary to flash 1350 feet of roof perimeter at the tendered price of 30¢ per lineal foot, amounting to \$405.00

The total amount involved therefore, would be \$1175.00 exclusive of any repairs or replacements to existing felt surfaces: resetting, replacing or repairing any metal cover flashings; and the provision and screening of gravel required over what could be salvaged from the poor material now in place. These latter items cannot be estimated until work is undertaken, but would increase the cost considerably.

In view however of Mr. Snelson's report on the existing condition of the roof, it is not considered advisable to carry out repairs to the present covering; but rather a new roof should be laid as recommended in our memorandum of August 25th last.

Re: Old Sun Indian Residential School
Blackfoot Indian Agency
Gleichen, Alberta.

Inspection of roof of main school
building.

Present Condition of Roof

During every heavy rain water runs down the walls of the Principal's residence both to the upper and lower floors and has discoloured and caused cracks in plaster. This also happens to the walls along the south side of the girls' dormitory room and water has leaked down along the lighting fixture in the centre of the room. Some leakage was also noted in the boys' dormitory room at the south end of the main building and also in the chapel which occupies the top floor of the west wing of the building.

All gravel roofs on main building were carefully examined. The appearance of the tar and gravel on the roofs indicates that over much of the area -

- (a) the pitch originally applied to the top of the paper did not stick.
- (b) the gravel applied was pit run and not properly cleaned and screened.

In many places there is no covering above the paper whatever. In other places there is a layer of fine sand and loam next to the paper, then a half inch layer of pitch mixed with fine sand and gravel above the fine material. This fine material has no pitch in it and prevents a bond between the gravel and tarpaper. All roofs have the appearance of a bad job. There are numerous cracks through the pitch and here and there these cracks extend through the paper permitting the entrance of water.

Cold or wet weather may have prevailed during the time the coat of pitch and gravel was being applied. The entire roof areas, in my opinion, contain far more fine silt and loam than could have been expected to have been deposited by wind blown dust.

The roof drains here and there should be reset and in places renewed. Pitch has run down and plugged some of them.

The flashing appears to be in good condition throughout but in places has become loose from the bricks and in other places needs to be resoldered at the joints. Leaks have developed here and there under the bottom of the flashing which is not bonded to the roof at bottom but extends out over the edge of where paper and brick meet, somewhat like an awning.

Recommendations

Patching in a general way is out of the question as it would be very difficult to determine where to patch as there are cracks in the gravel and pitch everywhere.

I would recommend:

- (A) That all of the old gravel and pitch roof be removed and a new built up roof carrying a twenty year bond be laid. If possible asphalt is to be used in the new roof in preference to pitch.

Indian Affairs. School Files.
(RG 10, Volume 6360, File 758-5, part 10)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

(B) Should lack of funds for this work make it impossible to lay a new roof as recommended above, then I would recommend that the leaky roofs be repaired in the following manner.

1. All loose gravel, earth, sand and silt to be entirely removed from the roof to be repaired by means of square mouth shovels, wire brooms, and brushes so that no loose or unstuck material whatever remains on the built up paper of the roof.
2. When clean the roof is to be well mopped with R.C.400 asphalt at the rate of .4 gallons per square yard, heated to a temperature of not less than 175° and then coated with washed and screened gravel that will pass a one-half inch screen and to be retained on a No. 4 screen. Additional roofing paper to be applied where necessary to extend from the present roof paper up under flashing to a proper bond with the edge of brick parapet walls.

This treatment to extend over & cover the entire area between parapet walls of any and each roof that is repaired. Care is to be exercised that the hot asphalt penetrates and seals all cracks in the old roof surface.

(C) One or other of the above recommendations should be carried out immediately in order that the leaks be stopped before the fall school term commences.

Any of the above work recommended should be done by a first class roofing firm only. I consider it out of the question to attempt any of this work with a day labour force as we would not have the proper equipment nor could we secure sufficient experienced labour.

(Sgd) W. H. Snelson.

Ottawa, September 21st, 1943.

Dr. McGill

As requested in Mr. Hoey's memorandum of September 3rd, I am enclosing, for your information, copy of Mr. Snelson's report on the roof of the Old Sun Indian Residential School, dated July 29th last, together with a copy of a letter from the Reggin Roofing and Metal Works, dated August 5th, which supplements this report and a copy of a memorandum from Mr. Mills, dated September 20th.

It will be noted that Mr. Snelson has recommended that all of the old gravel and pitch roof be removed and a new one laid but if lack of funds makes this impossible, as a second choice he recommended certain repairs. Subsequently the Reggin Roofing and Metal Works in their letter of August 5th to Mr. Walker submitted a quotation on possible repairs, although it will be recalled that in their letter of October 5th, 1942, they had definitely recommended a new roof rather than repairs.

As Mr. Mills has pointed out, no accurate estimate of the total cost of such repairs can be made as there is no means of determining in advance the amount of patching that would have to be done.

Mr. Mills' recommendation that a new roof should be laid is concurred in.

(Sgd) John A. Pounder
General Executive Assistant.

Memorandum:

DEPUTY MINISTER

Re: Old Sun Indian Residential
School, Blackfoot Indian
Agency, Gleichen, Alberta.

The roof of this building requires renewing and I enclose, for your information, memorandum of September 21 received from the Surveys & Engineering Branch, also a copy of Mr. Snelson's report, as well as quotation from the Reggin Roofing and Metal Works. It will be noted that the Surveys & Engineering Branch recommend a new roof and that the cost involved would be \$1175.00, plus some extras which it is apparently impossible to estimate. I should appreciate receiving your authority to authorize the Surveys & Engineering Branch to proceed with this work immediately.

H. W. H. H.

Director.

Re: Old Sun Indian Residential School
Blackfoot Indian Agency
Gleichen, Alberta.
Inspection of roof of main school
building.

Present Condition of Roof

During every heavy rain water runs down the walls of the Principal's residence both to the upper and lower floors and has discoloured and caused cracks in plaster. This also happens to the walls along the south side of the girls' dormitory room and water has leaked down along the lighting fixture in the centre of the room. Some leakage was also noted in the boys' dormitory room at the south end of the main building and also in the chapel which occupies the top floor of the west wing of the building.

All gravel roofs on main building were carefully examined. The appearance of the tar and gravel on the roofs indicates that over much of the area -

the pitch originally applied to the top of the paper did not stick.

the gravel applied was pit run and not properly cleaned and screened.

In many places there is no covering above the paper whatsoever. In other places there is a layer of fine sand and next to the paper, then a half inch layer of pitch with fine sand and gravel above the fine material. This fine material has no pitch in it and prevents a bond between the gravel and tarpaper. All roofs have the appearance of a bad job. There are numerous cracks through the pitch and here and there these cracks extend through the paper permitting the entrance of water.

Cold or wet weather may have prevailed during the time the coat of pitch and gravel was being applied. The roof areas, in my opinion, contain far more fine sand and loam than could have been expected to have been blown by wind blown dust.

The roof drains here and there should be reset and the gutters renewed. Pitch has run down and plugged some of the drains.

The flashing appears to be in good condition but in places has become loose from the bricks. In other places needs to be resoldered at the joints. There have been leaks developed here and there under the bottom of the flashing.

Esq.,
Engineer,
Banff, Alberta.

Indian Affairs. School Files.
(RG 10, Volume 6360, File 758-5, part 10)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the flashing which is not bonded to the roof at bottom but extends out over the edge of where paper and brick meet, somewhat like an awning.

Recommendations

Patching in a general way is out of the question as it would be very difficult to determine where to patch as there are cracks in the gravel and pitch everywhere.

I would recommend:

- (A) That all of the old gravel and pitch roof be removed and a new built up roof carrying a twenty year bond be laid. If possible asphalt is to be used in the new roof in preference to pitch.
- (B) Should lack of funds for this work make it impossible to lay a new roof as recommended above, then I would recommend that the leaky roofs be repaired in the following manner.
 - 1. All loose gravel, earth, sand and silt to be entirely removed from the roof to be repaired by means of square mouth shovels, wire brooms, and brushes so that no loose or unstuck material whatever remains on the built up paper of the roof.
 - 2. When clean the roof is to be well mopped with R.C.400 asphalt at the rate of .4 gallon per square yard, heated to a temperature of not less than 1750, and then coated with washed and screened gravel that will pass a one-half inch screen and be retained on a No.4 screen. Additional roofing paper to be applied where necessary to extend from the present roof paper up under flashing to a proper bond with the edge of brick parapet walls.

This treatment to extend over & cover the entire area between parapet walls of any and each roof that is repaired. Care is to be exercised that the hot asphalt penetrates and seals all cracks in the old roof surface.
- (C) One or other of the above recommendations should be carried out immediately in order that the leaks be stopped before the fall school term commences.

Any of the above work recommended should be done by a first class roofing firm only. I consider it out of the question to attempt any of this work with a day labour force as we would not have the proper equipment nor could we secure sufficient experienced labour.

Sept. 20th, 1943.

Memorandum:

Re: Old Sun Indian Residential School,
Gleichen, Alberta.

Further to our memorandum of the 25th ultimo, in connection with the inspection of the roof at the above and as discussed with Mr. Pounder by our Architect, attached is a copy of an estimate from the Reggin Roofing and Metal Works of Calgary, forwarded under cover of Mr. Walker's letter of August 7th and based on repairs as suggested in alternative recommendation (B) of Mr. Snelson's report dated July 29th last.

The roof plans of the school show that approximately 110 squares of roofing would require treatment which on the basis of the Reggin estimate would consist of:

- (a) Removal of existing poor gravel,
- (b) Recovering existing roofing with pitch,
- (c) Applying gravel in hot pitch,

At the estimated cost of \$7.00 per square, the above would amount to \$770.00. It would further be necessary to flash 1350 feet of roof perimeter at the tendered price of 30¢ per lineal foot, amounting to \$405.00.

The total amount involved therefore, would be \$1175.00 exclusive of any repairs or replacements to existing felt surfaces; resetting, replacing or repairing any metal cover flashings; and the provision and screening of gravel required over what could be salvaged from the poor material now in place. These latter items cannot be estimated until work is undertaken, but would increase the cost considerably.

In view however of Mr. Snelson's report on the existing condition of the roof, it is not considered advisable to carry out repairs to the present covering; but rather a new roof should be laid as recommended in our memorandum of August 25th last.

REGGIN ROOFING AND METAL WORKS

117 - 11th Avenue West,

CALGARY, Alta. August 5th,
1943.

G. M. Walker, Esq.,
Supervising Engineer,
Engineering & Construction Service,
BANFF, Alberta.

Dear Sir: Re: Old Sun School roof, Gleichen.

We regret that we were unable to meet your Mr. W. H. Snelson when passing through, but from the information supplied us by the foreman, Mr. Keen, we are of the opinion that your idea might be a very good one. We are, therefore, pleased to submit the following:

Scrape the existing gravel clear from the paper, thoroughly sweep, and apply a poured coating of hot pitch, embedding gravel in the same, for the sum of \$7.00 per square. This price is submitted with the understanding that you would supply, at the job, any gravel that is necessary, in addition to that which has been removed. Also, that necessary patches on existing roof would have to be extra, as we are unable to be certain how many weak spots we might find, and these of course, should be renewed.

With regard to the edge of the roof, we are of the opinion that this should be re-flashed with at least three plys of 15 pound felt, mopped into position, and coated before gravelling of the roof is undertaken. This would give you a renewal of the edges at all points and would cost approximately 30¢ per lineal foot, using 18" widths.

We trust this information may be of service to you, and assure you that we may be called on to go into the matter further with you at any time.

Very Truly Yours,

REGGIN ROOFING & METAL WORKS

OCT 1 1943

Ottawa, September 30, 1943

Memorandum to:

Dr. H.W. McGill

Re Old Sun Indian Residential School,
Blackfoot Indian Agency, Alberta.
Your File 104-1-5

Your memorandum of the 28th instant asking for authority to spend \$1175 in repairing the roof of this school has been noted. Apparently there is some misunderstanding on your part as to this expenditure. You state in your memorandum that the Surveys and Engineering Branch recommend a new roof and that the cost involved would be the above sum. If you will refer to the memoranda you forwarded, and which are returned herewith, you will observe that Mr. Snelson in his report of July 29th makes two recommendations:

1. that the old gravel and pitch roof be removed and a new built up roof carrying a twenty-year bond be laid;
2. or if funds should be lacking to carry out this work, he then recommends that the leaky spots be repaired by removing the loose gravel and then applying the necessary asphaltic material, at the same time applying additional roofing paper where necessary to extend the present roofing paper under the flashings. The cost to carry out this alternative recommendation is estimated to be \$1175.

You will observe that both the Surveys and Engineering Branch and the Roofing Company, who have also quoted on the alternative recommendation, strongly recommend that a new roof should be laid rather than do the repair job. It has also been noted that the estimated cost of \$1175 to carry out the alternative recommendation is not the total cost as the contractors clearly state that the Department would be expected to pay extra for any additional gravel that is required and for the necessary patching on the existing roof. It is suggested that these extras might increase the cost considerably.

Mr. Snelson has pointed out that the roof on this building has the appearance of a bad job. Will you please advise when the roof was laid and who performed the work and what was the cost. Is it the original roof that was on the building when it was first constructed.

If you will refer to Mr. Pounder's memorandum of the 21st instant you will note that the Roofing Company submitted a quotation on October 5, 1942, in which they definitely recommended a new roof rather than repairs. You will no doubt again wish to consider their reasons for this.

Chief Executive Assistant.

PLEASE QUOTE
FILE 12

Blackfoot Indian Agency,
Gleichen, Sept. 30, 1943

Indian Affairs Branch, Dept. of Mines & Resources, Ottawa.

Reference your file 104-1-5 and correspondence regarding the roof of Old Sun Residential School, Mr. Snelson of the Engineering and Construction at Banff inspected this in July and it was hoped that something would be done.

Very little of the Estimated outlay for the fiscal year has been expended; it was felt that the roof was the most urgently needed and to do the work properly it would take considerably more money than was allocated for the year. Items included in the Estimates were not urgently needed and furthermore were difficult to get. If, however, the roof could not be done, requisitions for some of these items will be submitted.

Fortunately it has been a very dry summer and fall but should the weather turn wet later in the year or early next spring considerable damage will be done at the school. It is realized that labour and material are very difficult to obtain and this letter is written to draw your attention to this matter again.

Indian Agent.

Memorandum:

DEPUTY MINISTER

Re: Old Sun Indian Residential School,
Blackfoot Indian Agency, Alberta.

I have your memorandum of September 30, in connection with the repairing of the roof at this school. This building was erected by contract in the fiscal year 1929-30 and there was no clause in the specifications requiring a guarantee on the roof. Our records do not indicate any expenditures on the roof since the construction of the building.

I have carefully reviewed all the correspondence from the Surveys & Engineering Branch and it is evident that they recommend a new roof rather than repairing the present one.

The Surveys & Engineering Branch estimate that the total cost of the work, including supervision and contingencies, will be approximately \$2800.00, exclusive of any damage to the roof deck, the extent and cost of which can only be determined when the upper covering is removed.

In view of the report that we have received and the further fact that the Indian Agent has written again urging the installation of a new roof to avoid further damage to the interior of the school, I should appreciate the approval of the Minister to transfer the necessary funds to the Surveys & Engineering Branch, in order that they may proceed with the work, as funds are available.

Indian Affairs. School Files.
(RG 10, Volume 6360, File 758-5, part 10)

Re: Water Supply at the Old Sun Residential School

About two weeks ago there was a noticeable decrease in the amount of water pumped from the two wells which supply this large institution and in the last week the supply decreased to a point where it was impossible to carry water to the upper floors even when no water was used in the laundry.

Mr. Snelson of the Engineering Branch, Banff was here inspecting the roof of this school and the situation was discussed with him. It was agreed that the water level must be lowered and an examination of the pump and equipment must be made.

The services of the local plumber, L. Michael were secured and he has today pulled the pipe of the smaller of the two wells and has found a broken pipe and worn cylinder leathers. Repairs are now being made and this well will be producing again tomorrow.

The larger well will be the real problem. ~~The~~ Mr. Snelson is fully familiar with this one, as he was called in a few years ago when it was found necessary to reduce the size of the casing and the cylinder. In recent months rods have been broken and this could be caused by air replacing water, or in other words, the water level had dropped and the unit continued to pump. The well is supplying some water; the plant is shut down and only operates at intervals for a few ~~short~~ hours.

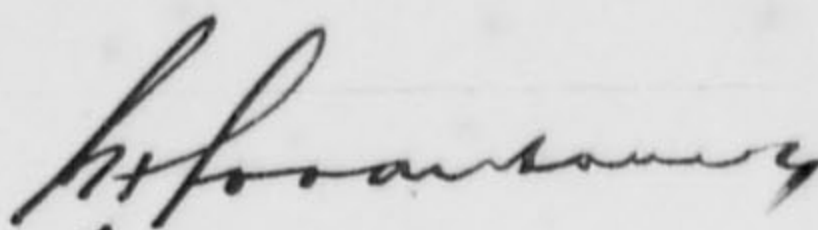

At present there is 2" cylinders on this pump and there is only one size smaller, 1 5/8". It is possible that the pump could be operated continually with this smaller cylinder.

Re: Old Sun School

Two Y Boiler Blow-off valves are urgently required for the heating plant at this institution. The present valves are leaking and one so badly that the steam boiler is not used.

It is hoped that these can be secured in Calgary and it is believed that the cost will run between \$20. and \$25 each. Have advised a steam fitter to order same and would ask that authority be given for this expenditure.

REPORT ON BLACKFOOT INDIAN AGENCY FOR THE MONTH NOVEMBER, 1943.

x

x

x

Agriculture;

Very little was done on the farms and many of the Indians had moved to winter quarters, or the coal mine, or to work off the reserve. Some grain was delivered under the quota system to Railhead and some feed was hauled to the stock camps. A large quantity of feed was cut and hammer-milled at the hospital farm, Farm B and Farm 4 feed lots.

Feed & Water:

Owing to the mild weather, large sloughs and the river were open. Some work was done on farm wells and a few wells in the river flats were put down or deepened. At the Old Sun Residential School the water supply was low and conservation measures had to be employed to look after the needs of this institution. It is believed that the very dry season has lowered the water level, especially shallow wells. There is no suffering from the lack of water.

December 16th, 1943.

Memorandum:

Re: New Roof, Old Sun Indian Residential School,
Gleichen, Alberta.

In correspondence dated the 4th and 11th instants,
we have been advised by Mr. Walker that work on the above has been
completed at the Contractor's tendered price of \$2848.00. Mr. Walker
advises also that there was no work which necessitated issuing an extra
work order, that operations have been carried out in accordance with
the specifications and that the work has been accepted on behalf of the
Department, as satisfactory in every respect.

When the tender of the Reggin Roofing and Sheet Metal
Works of Calgary was accepted, we anticipated that it would be
necessary to issue an extra work order, covering replacement and repairs
to materials in the roof deck which would not become evident until
work started. Our memorandum to you dated the 3rd ultimo dealt with
funds to be provided by the Indian Affairs Branch for the work; but
rather than the \$3000.00 we understood would be made available, only
\$2800.00, the amount of our Architect's preliminary estimate, was
actually transferred. While no funds were necessary for repairs to the
roof deck, it will be necessary to request the transfer to this
Service, of an additional amount of \$48.00 before the contractor's
certified account, now in our hands, can be paid.

J. M. Wardle, Esq.,
Director,
Surveys and Engineering Branch,
Dept. of Mines and Resources,

Re: Voucher 434

The expenditures on November 22nd and 24th are the only items, for which authority was given.

Mr. Michael and the Principal of the school stated that I was phoned on each occasion when the work, indicated on this account, was done and that they were instructed to proceed with it.

As everything was of an urgent nature, no doubt, this was true. I kept no memos and relied on my memory. If Mr. Michael had submitted his bill every month the work would have been recalled to memory. As you will see by notations, it was all necessary repair work to the plant. It is therefore, submitted and it is hoped that it will be paid.

Re Old Suns Residential School;

On inspection of this institution, it was found that two toilets in the boy's washroom in the basement were broken beyond repair and some of the tanks needed repairs. These toilets are needed; the cost of replacement and repairs will amount to about ~~\$\$\$~~ \$35.00.

The main pumping plant needed new washers and the sewerage system from the laundry was plugged. As these required immediate attention, I instructed L. Michael to go work on them. The pumping plant is fixed, but as yet the stoppage in the sewer has not been located; the cost of this work should not total \$20.00 and may be much less.

Would authority be given to replace the toilets please.

Indian Agent

RE: Old Sun Res. School Septic System.

On the 8th. I inspected the disposal plant at Old Sun School at the request of the principal. I found that it was plugged and the source of the trouble was not visible. He had endeavoured to clear by the usual methods with school-boy labour but with no results. Sewrage was backing into the school, therefore some immediate action was necessary.

The services of two good Indians was secured and they started digging around the various tanks and then along the pipe line. They worked the balance of the week and got it sufficiently operative to clear the school.

Another inspection was made today after consultation yesterday with the local plumber, L. Michael.

The large chamber had been uncovered, we found the seeage is partly solidified and it must be bailed out before the system will operate properly again. Also found quite a few 6" and 8" glazed tile broken; these must be renewed before the line is covered in again.

Made arrangements for the purchase of 40' of 8" and 20' of 6" tile from Medicine Hat and the Indians are proceeding to clear out chamber.

The cost of the tile and replacing by a competent man will be about \$50.00 and it is estimated that the labour will cost \$150.00, therefore the total cost will be \$200.00.

(OVER)

-/2 -

The system was installed in 1930; water plus tar, sand and gravel off the big roof has slowed up the action of the plant and existing conditions had to be dealt with as quickly as possible. It was only today that the actual condition was known. Trust it was in order to proceed.

Could an accountable cheque of \$150.00 be air-mailed to pay for labour? These workmen will not wait for their wages. They receive 50¢ per hour.

G. H. Gooderham,
Indian Agent.

Schools;

Both schools were inspected and found in good order.

At the Old Suns, the septic system gave a lot of trouble but has now been cleared and should operate properly for some time. Classes are large at this institution and the two teachers have a lot to do. A Graduates' dinner was attended; ex-pupils are showing definite improvement in their organization and the manner in which such affairs are carried off.

At the Crowfoot School there is a vast improvement in the appearance of grounds and buildings. Class-rooms are not so crowded as there are 3 classes and 3 teachers. Pupils are bright and cheerful and we'll put one room up against anything in this Province for singing - they're good. At both schools, well prepared farm land has been cropped and good gardens planted. These farms and gardens are good examples for the Indians.

Re attached Voucher # 155-----\$ 129.75

Covering work and material supplied to plant at Old
Sun Residential School, authority for nearly everything was ob-
tained, as will be noted.

It is regretted that Michael did not render his account
monthly and particularly at the end of the fiscal year, but we
are fortunate that his services are available, these days, and
must make allowances. He cannot retain helpers and works night
and day over a large district.

Re Old Sun's Res. School

There are certain repairs - mainly doors - urgently required on the main building and large barn of this school:-

(a) On the School building:

Double outside door Boys' side, doors to toilet room and bathrooms - inside, towel racks boys' washroom, small locker for laundry, outside basement door - Principal's quarters.

(b) On the Barn:

Double doors to front and back, 2 side doors, loft door and bull pen door.

All doors have been repaired and patched at various times but now the wood is perished and considerable must be renewed.

The total cost is estimated at \$270.00 of which \$185.00 is labour.

185
Attached is a requisition for the material and a copy of an offer to do the work from W.A. Reid, Gleichen. Mr. Reid is a competent carpenter and would do a good strong job.

G. H. Gooderham,
Indian Agent.

Memorandum:

DEPUTY MINISTER

Re: Old Sun Indian Residential School,
Blackfoot Indian Agency, Electoral
District of McLeod, Alberta.

Indian Agent Gooderham reports that urgent repairs are necessary at the above-mentioned school and W.A. Reid, Carpenter, Box 136, Gleichen, Alberta, offers to do the necessary work for \$185, exclusive of the cost of material. Mr. Gooderham considers the quotation reasonable and states that Mr. Reid is a competent carpenter and would do good work. I should appreciate having your authority to employ Mr. Reid.

Re paint supplied by G. F. Stephen's Co. on purchase order #26113 to the Old Sun's Residential School, the Principal requested me to see it and to inspect a wall on which some of it was used; I did so.

This paint was not making as good a job as another brand which the painter used. It appeared to lack body. The manager of the Calgary branch of Stephen's was phoned and asked if first quality paint was supplied. He said it was.

This is brought to your attention as it is our belief that this paint is not so good as some other brands which have been used.

The school authorities are supplying all the labour and contend this paint will take much longer to apply and more paint will be used than if a better paint was purchased.

I do not profess to know much about paint but I pass on this information for consideration when placing future orders.

G. H. Gooderham

ADDRESS REPLY TO
PURCHASING DIVISION

[Handwritten signature]
Memorandum

PLEASE QUOTE
FILE 15-6

OTTAWA September 15, 1944.

Mr. R.A.Hoey

I wish to acknowledge and to thank you for your memorandum of the 14th instant, (file 104-1-5) and Mr. Gooderham's comments re quality of paint supplied by G.F.Stephens & Co., for the Old Sun Residential School, Gleichen, Alberta, on purchase order #26113.

We appreciate the necessity of purchasing good paint, and welcome reports from the various Indian Agents regarding the quality of the product supplied for the various buildings under the jurisdiction of the Indian Affairs Branch.

To facilitate most complete investigation of Mr. Gooderham's complaint, I would suggest that he arrange to forward to the undersigned for testing purposes a one-quart sample of one or more of the colours. This sample should be thoroughly mixed and truly representative of the product supplied.

For purposes of comparison, it would be appreciated if you could arrange to secure for us the comment of the Principals of two or more other Western Indian Residential Schools regarding the quality of paint recently supplied by the same company. These might include the Crowfoot School (P.O. 26174) and the Muscowequan School (P.O. 26064).

[Handwritten signature: Davidson]

Ottawa, February 11th, 1933.

Sir:-

You will know that when Old Sun Residential School, on the Blackfoot Reserve, was destroyed by fire in June, 1928, that it was impossible to rebuilt at that time until the Blackfoot Indians consented to loan \$80,000.00 from their interest account to enable the work to proceed. The Department paid \$40,000.00 from Appropriation and \$80,000.00 from the funds of the Blackfoot Band, with the expectation that this money would be returned to the Band account. Owing to financial stringencies the money has not been returned to the account and it is considered that the Indians' interest in the building should be protected by placing fire insurance thereon.

Accordingly it has been decided to place \$40,000.00 fire insurance on the building itself in which the Indians have an interest, no insurance on the contents. You should consult Mr. C. A. McKinnon, Insurance Agent, of Drumheller, Alberta, to have this insurance placed on the building for \$40,000.00. You should be able to give Mr. McKinnon full particulars as to the construction of this building which is considered fireproof. There is also water provided in case of fire and other precautions taken and it should be possible to secure a low rate of fire insurance on such building. It is advisable that the Insurance Agent himself should go over the building to determine the class of risk on which he is placing the insurance. The policy should be made to read that loss, if any, is payable to the Deputy Superintendent General of Indian Affairs, and be forwarded here.

Your obedient servant,

(SIG) A. F. MACKENZIE

Secretary.

September 6, 1928.

Dear Sir:-

In reply to yours of the 31st ult. I enclose herewith the petition which the Blackfoot Indians signed in connectuon with the building of a new school.

The petition was taken around the Reserve by the Revd. Mr. Gibney at the request of the Chiefs. Before he did so, he asked me if it was in order and I stated that I could see no objection. The Chiefs and some of the Indians who are Protestants approached me at the same time and stated that in their belief, the Members of the Band would be glad to ask the Department to loan sufficient money from Band Funds to arect the school, provided it could be built this year. The petition was completed and handed to me by Mr. Gibney on August 4 th.

The Indians want a school and at that time (July) were afraid that the children might be sent to other schools. Even if a school could not be provided during the present school year, I am satisfied that the Indians are prepared to advance necessary funds to proceed with construction in time to allow occupancy in the fall of 1929.

It is hoped that Day-schools can be started by October 1st at the latest. If the Indians keep their promise, the pupils of Old Sun's will continue school work as usual. Health conditions will be watched and the Church authorities have supplied considerable clothing from other points for the children of the poor parents who cannot purchase necessary clothing.

Your obedient servant,

Indian Agent.

Duncan G. Scott Esq.
Deputy Superintendent General
Dept. of Indian Affairs,
OTTAWA, Ont.

O t t a w a
August 31, 1928.

Dear Mr. Gooderham:

I am under the impression that both Archdeacon
Tims and Dr. Westgate informed me there was a largely-
signed petition of the Blackfeet, urging the Department
to replace the Old Sun's Indian Residential School at
once and asking that Band Funds be loaned for this
purpose until such time as reimbursement could be made
from Parliamentary Appropriation. Please let me know
the facts of the case.

Yours very truly,

(SIG.) DUNCAN C. SCOTT
Deputy Superintendent General

G. H. Gooderham, Esq.,
Indian Agent,
Gleichen, Alta.

Blackfoot Indian Agency,
Gleichen, Sept. 20th, 1944.

Indian Affairs Branch, Dept. Of Mines & Resources, OTTAWA.

On the recent visit of ^{Mr.} McCrimmon to Calgary,
The matter of the Blackfoot Band loan of \$80,000.00 to
assist in paying for the Anglican School erected on this
reserve in 1929/30 came up for discussion.

It ran in my mind at the time that there was
correspondence with Deputy Superintendent General, Duncan
C. Scott. On referring to files, the Attached are copies
of letters. The petition is on file but nothing further.

The renewal of the insurance at October 1st,
1944 brought this to mind.

For your information, please.

G. H. Gooderham,
Indian Agent.

REPORT ON BLACKFOOT INDIAN AGENCY FOR THE MONTH SEPTEMBER, 1944.

XX

XX

XX

Schools;

During this month, preparations for the fall term was the order of the day at the schools. Plant and equipment was checked and necessary repairs, additions and replacements made, where possible. Painting and cleaning was done., At The Old Suns there are a number of changes in staff. This is the only Anglican school in Western Canada, with a full staff and they look a capable lot. The farm at this school was badly hailed but a good crop of feed has been harvested including native hay and alfalfa. Some grain is being threshed and the garden will supply requirements..

Blackfoot Indian Agency,
Gleichen, Oct. 6th, 1944.

Indian Affairs Branch, dept. Of Mines & Resources, OTTAWA.

Re Old Suns Res. School Water Supply.

The supply of water to this institution has been below normal for the past three weeks.

The Principal and staff checked plant to the best of their ability and increased the air pressure with the aid of a motor unit from the Agency; there was only temporary improvement and for some days the pressure has been low and water can only be supplied in limited quantity to the basement and ground floors.

It is feared that the water level and supply in one of the wells has dropped and possibly the table is lower in all three wells. However, there is nothing to substantiate this surmise until the plants are thoroughly checked. I have therefore secured the services of two mechanics to pull pipe and check all plants. They are not the men usually employed as their services are not available.

The situation can be very serious but it is hoped all available water in the two wells connected to the main building will be saved when the plants are in perfect running condition. If not, will authority be given to get Mr. Snelson of the Engineering Branch, Banff, to inspect it, please.

G. H. Gooderham,
Indian Agent.

Mr. G.H. Gooderham, Indian Agent, Gleichen, Alta.

I have your letter of the 6th instant,
with reference to the water situation at the
Old Sun School. I trust that the situation will
not prove as serious as it might and that a
further supply of water will be available. I am
requesting the Surveys & Engineering Branch to
authorize Mr. Snelson to go to the Old Sun School,
if requested by you.

Memorandum:

DIRECTOR

Surveys & Engineering Branch

I am in receipt of a letter from Mr. G.H. Gooderham, Indian Agent, Gleichen, Alberta, in which he states that the lack of water at the above-mentioned school is causing some concern. The Agent is still hopeful that sufficient water will continue to be available. However, if further difficulty arises he would like to be able to have Mr. Snelson come to the school. It would be appreciated if you would authorize Mr. Snelson to visit the Old Sun School, provided he has such a request from Indian Agent Gooderham.

Re. Old Suns Residential Boarding
School - Staff Quarters.

Herewith a copy of a letter from the Principal
asking for furnishing to equip bedrooms for new staff.

In 1930, rooms were equiped for all staff; later,
a nurse was added and the Principal found some equipment
for her room.

Now he is asking for a general assistant, male,
and a general assistant female. These additional staff
are needed and if granted by the M.S.C.C., bedrooms must
be equiped for them. It is presumed that this would be
done by the branch?

Regarding the staff sitting-room, we can think of
no better place to put some comfortable furniture, if the
branch falls heir to it, than in a residential boarding
school; the work is monotonous and surroundings drab.

Re piano - Since this instrument is an intrigal part
of every boarding school, (or should be) it is hoped it can be
supplied.

G. H. Gooderham,
Indian Agent.

(COPY)

OLD SUN INDIAN RESIDENTIAL SCHOOL
(Church of England)

Gleichen, Alberta
Dec. 8th, 1944.

Mr. Gooderham,
Indian Agency,
Blackfoot Reserve.

Dear Mr. Gooderham,

My enrollment has reached a point where I am having to get two more members of my staff. We increased by one some time ago and in order to accommodate her I had to equip one bedroom with children's furniture. I need this now so I am without the necessary beds and furniture for three rooms. Could you please ask the Department for authority to purchase the following articles to equip these rooms.

- single bed*
- 3 Steel beds with springs - 3'x3'3"-walnut finish.
 - 3 Mattresses-~~6~~ 3'x3'3"- ~~spring filled~~
 - 6 Pillows
 - 2 Dressers with mirrors- walnut finish.
 - 2 Wash stands- walnut finish.
 - ~~3. Carpets Wilton, 2(21'x30') and 1(21'x30')~~
 - 6. Occasional arm chairs
 - 3 common bedroom chairs.

Our Staff sitting room is also very inadequately equipped. We have only three wicker arm chairs and a wicker settee for two. These are by no means comfortable and only accommodate five out of the twelve staff members. Our ladies work much harder than most people in ordinary jobs and need some measure of comfort in their off hours. Would you please ask for authority to purchase:

2 Chesterfield sets complete. (2 couches & 4 arm chairs)

The best kind to get for an intitution like this would be some like we have in officers messes-leather and substantial. There should be a number of these available now.

A number of our children are now taking piano lessons and we have no piano in the school. At present I am lending one of my own for this purpose. Can you also bring this to the notice of the Department and ask them to provide us with one.

Yours very sincerely,

SIG. JOHN W. HOUSE.

Principal.

Ottawa,
December 20, 1944.

Mr. G.H. Gooderham, Indian Agent, Gleichen, Alta.

I have your letter of the 12th instant, with reference to furnishings for the Old Sun Residential School. I have discussed the request with the Acting Director and it has been decided to supply the beds, mattresses, pillows, dressers, wash stands and chairs.

With reference to the furnishings for the staff sitting room, you should bring this matter to our attention next spring. At the present time we feel that it is inadvisable to purchase new chesterfields etc., as the cost of these is quite high and it is difficult to obtain good quality. There should be considerable furniture available from Air Force stations in the near future. However, we will not obtain these free of charge, as all service equipment is being handled through the Crown Assets Allocation Committee and we have to make some payment.

Regarding the piano, it is often possible to obtain a good, second-hand piano at a very reasonable cost. You might make some inquiries and let me know if one is available in Calgary or vicinity.

Memorandum

Mr. R.A.Hoey

With reference to your requisition for bedding equipment and furnishings for staff at Old Sun Indian Residential School, Gleichen, Alberta, (your file 104-1-5), please be advised that the beds, springs, mattresses and pillows, are being ordered by this office.

I would suggest that Inspector Schmidt make a selection of moderately-priced dressers, wash stands, and chairs, from Calgary sources, and that when delivery has been taken, invoice for these four items be sent to this office for usual action.

Mr. C. P. Schmidt, Inspector of Indian Agencies,
C a l g a r y, Alberta.

Recently we received a letter from Indian Agent Gooderham, requesting furnishings for two new rooms which the Principal of the Old Sun School is equipping for additional staff. The Purchasing Agent has authorized the purchase, from Calgary sources, of the following:-

- 2 dressers with mirrors,
- 2 wash-stands,
- 6 occasional arm chairs,
- 3 common bedroom chairs.

It is desired that moderately priced furnishings be secured. When delivery has been made, you should forward the usual voucher, in duplicate, for payment.

RE: Old Sun Residential School EX'D.
File 104-1-5

On receipt of yours of the 20th December the Principal of the School was advised that it was decided to furnish bedrooms for New Staff. A letter from Rev. Mr House today states that two extra staff agents have been engaged to arrive near the end of this month (January) and asking if it is possible to have the furnishings before they arrive.

If it would help, I might be lucky enough to locate this stuff in Calgary and would try if the expenditure is authorized.

December 29, 1944.

Dear Sir:

Subject: One sample of White Paint submitted for analysis
as per your letter of November 27, 1944; File No.
54221-15-6

Lab. No. M 247/44

Received November 27, 1944.

In the following table are given the results of the tests on the above-named sample:

TABLE		
Tests conducted by JWC RN		
Test	Found	Specification No. <u>1-GP-28</u>
1. Colour	White	As required
2. Hiding power	Complies	400 sq. ft. per gallon
3. Flash point	100°F+	100° F min.
4. Drying time	About 12 hrs.	10-16 hours
5. Coarse particles	Complies	0.2% on 7½ micron; 2.0% on a 44 micron, max.
6. Volatile matter	10.5%	8.0% max.
7. Water content	2.4%	0.5% max.
8. Pigment	62.2%	57% max.
9. Durability	Complies	Withstand 10 cycles

The test on this paint reveals that it must have been made to Specification 1-GP-28 and not to Specification 1-GP-74.

exterior It will be observed that the sample submitted is slightly high in volatile matter, test 6, and is high in water content, test 7. *interior*

Yours very truly,

E. Viens

January 17th., 1945.

Dear Sir:-

Subject: One sample of paint submitted for analysis as
per your letter of December 13th., 1944. File
No. 54,221-15-6.

Lab. No. M 248/44 - Received Dec. 15th., 1944.

In the following table are given the results of the tests on the above-named sample:-

TABLE

Tests conducted by RH JAC

<u>Tests</u>	<u>Found</u>	<u>Specification No.</u> <u>1-SP-34</u>
1. Colour.....	White-Complies	White
2. Consistency.....	18 secs.	1.0 secs. max.
3. Hiding power.....	80%	75% min.
4. Gloss.....	Very glossy (No machine avail- able)* would exceed	
5. Flash point.....	10 units.	10 units max.
6. Drying time:-	100°F+	95°F min.
(a) Touch.....	4 hrs.	4 hrs. max.
(b) Hard.....	Less than 18 hrs.	18 hrs. max.
7. Coarse particles & skins.....	Complies	2.0% max. on 44 micron
8. Skinning.....	Complies	shall be non-skinning
9. Volatile.....	25.6%	25% max.
10. Water.....	Trace	1.0% max.
11. Pigment content.....	35.8%	60% min.
12. Lead Content.....	Less than 0.5%	0.5% max.
13. Flexibility.....	Fails	No cracking on 1/2" rod
14. Washability.....	Complies	shall not be marred
15. Colour retention.....	Complies	No darkening or colour change

This sample of paint is quite glossy (see colour chip attached) and not flat as required, test 4. It is low in pigment, test 11, and fails in flexibility, test 13.

* This machine is not available on the market at present.

Yours very truly,

E. Vicens

Memorandum

Mr. R.A. Hoey

Please find herewith copies of analyses of paint tested in the Public Works Department laboratories at Ottawa.

From the information furnished, particularly the report dated 17th instant on paint supplied on P.O. 26113 for the Old Sun Residential School, at Gleichen, Alberta, it would appear that Mr. Gooderham's complaint was justified.

Consideration will be given to these reports in placing future orders. If any similar complaints regarding the quality of paint supplied are received from Indian Agents, we will be pleased to investigate each case as thoroughly as possible.

INSPECTOR OF INDIAN AGENCIES

CANADA

INDIAN AFFAIRS BRANCH

DEPARTMENT
OF
MINES AND RESOURCES

401-11A. C.E.

FEB 9 1945
Calgary, February 7th, 1945.

Indian Affairs Branch, Dept. of Mines & Resources,
O T T A W A .

Reference your letter No. 104-1-5 of the 4th ultimo, authorizing the purchase of furniture for staff rooms at the Old Sun Indian Residential School, Blackfoot Agency, I beg to enclose herewith Calgary Voucher No. 91, amounting to \$180.00, in favour of the Dominion Furniture Store, Calgary.

I looked at samples at the following places in Calgary, viz., Hudson's Bay Company, T. Eaton Company, Ltd., and Neilson Furniture Company, but did not find any suitable chairs, those on hand being either high-priced, easy chairs (Chesterfield style) ranging in price from \$30.00 upwards, or cheaply-finished chairs, without springs, which I did not consider suitable for the purpose, i.e., a Staff living room. I also called at Brock's (Western) Company, Ltd., Wholesalers, but they did not have a dresser or a suitable chair on hand.

The six (6) occasional chairs which I purchased from the Dominion Furniture Store, at an average price of \$19.50, are very good, well-finished, with spring-filled cushions, and I know they will be appreciated by the School Staff. The two (2) dressers, which I purchased at a cost of \$27.50 each, were also sold to me at a reduced price. (This firm are preparing to put on their February sale.)

Wash-stands are no longer being made, and there are none on hand. I had in mind buying two 4-drawer chests in lieu of these, but could not get any under \$25.00 or \$30.00 each, so I decided not to buy same, but instead, to allow more money for a better type of chairs.

C. Pant. Schmidt,
Inspector of Indian Agencies,
Alberta Inspectorate.

INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE B/12

Blackfoot Indian Agency,
Gleichen, July 27, 1945.

Indian Affairs Branch, Dept of Mines & Resources, Ottawa.

Attention Schools Section:

An explanation is due on Vouchers No. 184 and
No. 185.

There is a 50 tube upright boiler in use at the
Old Suns Residential School; it supplies all hot water for
the institution.

Early in the year it commenced to leak and A. T.
Robinson, a boiler man, was employed to repair it. He could
only do a temporary job as the tubes were old and many were
beyond re-rolling. It was kept in use till the middle of
June when it would no longer hold water.

Cranes Ltd. was contacted and fortunately had
sufficient long length pre-war tubing to renew this unit.
This was ordered with a gate valve to replace a leaky one
connected with the large water line to the main heating
boilers.

Then Robinson and a helper were employed to retube
it and put in new connections. The whole is now as good as
new.

The work is well done and the time includes the early
repair work. The cost appears to be high but the services of
qualified men are now at a premium.

The Vouchers are submitted for payment.

G. H. Gooderham,
Indian Agent.

/HMc

CLXII
Ottawa, July 31st, 1945.

Memorandum:

THE DEPARTMENTAL PURCHASING AGENT

I attach account amounting to \$63.65 covering the cost of boiler tubes at the Old Sun's Residential School. In forwarding this account the Indian Agent writes as follows:

Early in the year it commenced to leak and A.T. Robinson, a boiler man, was employed to repair it. He could only do a temporary job as the tubes were old and many were beyond re-rolling. It was kept in use till the middle of June when it would no longer hold water.

Cranes Ltd. was contacted and fortunately had sufficient long length pre-war tubing to renew this unit. This was ordered with a gate valve to replace a leaky one connected with the large water line to the main heating boilers.

Then Robinson and a helper were employed to retube it and put in new connections. The whole is now as good as new.

It would be appreciated if you would issue Purchase Order in order that the account may be paid.

OLD SUN INDIAN RESIDENTIAL SCHOOL
(Church of England)

Gleichen,
Alberta.

Principal: J. W. House, B.A., L.TH.

August 17, 1945.

The Indian Agent,
Blackfoot Reserve,
Gleichen,

Dear Mr. Gooderham:-

I am enclosing estimates for 1946 - 1947. You will note that I have transferred item 3 - Pig Pen - from 1945 - 1946 estimates to next year because it is impossible to get lumber for building and the price is out of all reason.

The money thus saved from this year's authority could be far more profitably spent in things which could be procured from the War Assets Corporation - the following.

- ✓ 1. Piano
- ✓ 2. Flat work ironer - 4 ft. electric.
3. Bread Cutter
4. Potato Peller
- ✓ 5. 30 cwt. state body Truck ✓
- ✓ 6. Jeep
- ✓ 7. Two Chesterfield Suites - leather.

Re the piano and chesterfield suites, I wrote you on December 8, 1944 and the Department replied December 26, 1944 asking us to draw this to their attention in the present fiscal year when they hoped to be able to furnish them.

The other things are suggested in order to meet the greatest problem in Indian Schools - that is spending so much time in chores that there is little time for real instruction. All Indians complain about this and we know their complaints are justified by fact, yet the Schools cannot do any thing about it if the Department will not provide labour saving devices.

In this School five children work four days each week trying to get clothes and bedding ironed. One hundred hours per week heating and pushing old fashioned sad irons. The whole lot could be done in a few hours with a good four foot electric flat ironer.

Indian Affairs. School Files.
(RG 10, Volume 6360, File 758-5, part 11)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

-2-

Bread cutting for each meal takes three girls half an hour with knife and bread board. That is a total of $3\frac{1}{2}$ hours lost every week in just cutting bread.

Three girls spend all of every morning peeling potatoes and cutting and cleaning vegetables - a total of nine hours per week per child.

Most of this could be eliminated with proper machines. The Army provided these things in their camps and it would be the course of wisdom for the Department to do the same for Indian Schools.

The reason for suggesting a thirty hundred weight truck and jeep is that our farm is one and a half miles away from the school. We waste two hours every day going to and coming from work. With an average of five boys and a farm instructor this means a loss of twelve hours every day. It also means very many hours spent in farming that would not be necessary if we were properly equipped.

Would you please find out if authority is granted for painting the barn. It was in 1945 - 1946 Estimates but I have not heard anything about it. Paint is procurable and all our buildings are beginning to look shabby.

Yours very sincerely,

Signed JOHN W. HOUSE

Principal

Re: Residential Boarding Schools.

When consideration was given to Estimated requirements in 1946/47, the principals stressed the need of labour saving equipment.

The Rev. Mr. House, Principal of the Old Suns Residential School was asked to put his suggestions in writing. Attached is his letter.

I concur with him in all he says about need of labour saving equipment in boarding school kitchens and laundries.

For your consideration, please.

G. H. Gooderham,
Indian Agent.

File: 104-1-5

Ottawa, 30th August, 1945.

EX'D.

Mr. G.H. Gooderham, Indian Agent, Gleichen, Alberta.

With reference to your letter of the 20th instant enclosing copy of letter which you received from the Principal of Old Sun Indian Residential School.

The Department is prepared to purchase a Flat Work Ironer, however, we would like to know the voltage and frequency of the electric current which will be used. If possible quote the catalogue number of some firm or any other information that will assist our Purchasing Branch in securing the equipment.

The Department also recommends the purchase of a piano. I have noted the Principal's arguments in connection with the purchase of a Bread Cutter and Potato Peeler but I am doubtful if we can obtain approval for the purchase of these two items.

With reference to the request for two Chesterfield suites, please let me know if these are to replace an old suite or are they intended as a new issue.

Regarding the truck and jeep, this equipment is not purchased by the Department. It has always been purchased by the school management from their own funds. It is possible they may be able to secure this equipment from War Assets Corporation but frankly we have not had any success yet in securing equipment in this manner. However, in view of recent changes in the war situation, it is possible more equipment will be available shortly.

Philip Phelan,
Chief, Training Division.

Re: Flatwork Ironer for Old
Sun Indian Residential School

Dear Mr. Gooderham:

We note that electricity will be the medium used for heating the Ironer to be installed. We would recommend, therefore, that the Canadian Simplex Ironer specially made for institutional flat work be installed. This is made in two sizes - 50" wide and 56" wide; equipped with electric motor and two Three-Heat Control Switches, high, medium and low, making it possible to heat half the Ironer when only ironing a few things.

The Ironer can be supplied with a heating element of either 110 or 220 volt. The motor supplied would be 110 volt, A.C., Single phase, 60 Cycle.

We quote as follows:

1. - CANADIAN SIMPLEX ELECTRICALLY HEATED
INSTITUTIONAL FLATWORK IRONER, having
an ironing surface 50" wide. \$397.00
PRICE
Including Dominion Government 8%
Sales Tax and freight prepaid to
Gleichen Station.

As an alternative, the same Iron but with an ironing surface 56" wide.

Indian Affairs. School Files.

CANADA

(2)

Blackfoot Indian Agency, Gleichen, Alberta.

File B/12

Price
Including Dominion Government 8%
sales Tax and freight prepaid to
Gleichen Station.

\$435.00

Delivery would be sixty to ninety days from receipt
of order. We are attaching an illustrated specification sheet
covering this Ironer and if any further information is re-
quired please do not hesitate to call upon us.

Yours truly,

(Sig.) STANLEY BROCK LIMITED

Re: Old Sun Indian Res. School.
Your File 104-1-5.

Replying to yours of August 30th and paragraph about a flat work ironer, attached hereto is a copy of a letter from Stanley Brook Ltd., Calgary, recommending a Simplex Ironer.

The school principal prefers the smaller machine (50" wide). A 110 volt, A.C., Single phase, 60 Cycle motor is satisfactory.

For your disposal, please.

G. H. Gooderham,
Indian Agent.

Ref. Your 104-1-15 dated 30th Aug. '45
and Old Sun Indian Residential School.

The T. Eaton Co., Calgary, is supplying a second hand
"New Seale Williams" piano and bench for \$249.00. This
instrument is in good condition and suits the Principal of
the School, Rev. Mr. J. W. House.

In regard to chesterfield suites, one is needed in the
Principal's residence and the other in the staff sitting
room. These would replace a suite (long since worn out)
purchased for the residence in 1930 and a small wicker set
purchased at the same time for the staff sitting room.
They are badly needed and The Parkhill Bedding Co., Calgary,
can supply 3 piece suites in 60 days after an order is placed
and the cost runs from \$119.00 to \$134.75 according to the
design and covering ordered.

Would authority be given to order two suites at a total
cost of \$250.00?

OTTAWA . March 13, 1946.

Beaver Laundry Machinery Co., Ltd.,
393 Sorauren Avenue,
Toronto, Ontario.

Gentlemen:

On the 11th ultimo we wrote you in connection with
repairs to a Beaver Washing Machine serial #2777 type V-35 $\frac{1}{2}$ -9.
This machine at present is at Old Suns School, Gleichen, Alta.,
and requires a new wooden cylinder to put it in good working
condition.

We asked you if you could supply the cylinder from
the ^{above} description, or if it would be necessary to ship the washer
to Toronto to have the new cylinder supplied and installed. We
also requested information as to the approximate cost of the
new cylinder, and the cost of a similar new washing machine
f.o.b. Toronto.

Will you kindly advise regarding the above at your
earliest convenience.

H. J. Davidson,
Dept. Purchasing Agent.

Re: Brooder House -
Old Sun Indian Res. School.

Rev. Mr. House, Principal of Old Sun's says he will need a small building about 10x12 to be used as a brooder house. For the past two years he used the Workshop for this purpose but it is not available now.

He has secured prices for all necessary material and the total amounts to \$125.00. The labour will be provided by the school and this will give the pupils an opportunity to learn something in the building line.

Mr. House expects to receive the young chicks in about a month. It would be appreciated if authority could be granted immediately to proceed with the erection, so that he will have some place ready when the chicks arrive.

H. E. James,
Clerk-in-Charge.

AIRMAIL

Ottawa, March 23, 1946.

Mr. G. H. Gooderham, Indian Agent,
Gleichen, Alberta.

With reference to your letter of the 20th instant, the Department approves an expenditure of \$125.00 for material for the erection of a brooder house at the Old Sun Indian Residential School. It is noted that the labour will be provided by the school management without cost to the Department.

Philip Phelan,
Chief, Training Division.

Gentlemen:

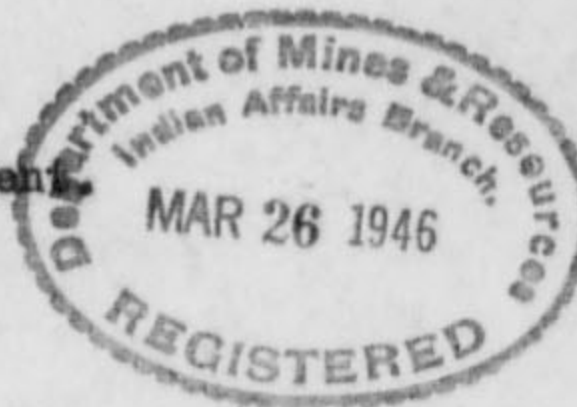

Re: Purchase Order #9258

We note from your letter of the 22nd instant that you have already shipped the new cylinder for Beaver Washing Machine to "Old Sun's Indian Residential School", Gleichen, Alta., and that the correct price for same is \$90.00 instead of \$175.00 as originally quoted in your letter of the 18th ultimo.

I wish to thank you for the prompt attention you have given this order.

104-1-5

Ottawa, April 15, 1946.

Dear Sir:

The Department is in receipt of your voucher No. 559 covering the cost of a piano purchased for the Old Sun's Indian Residential School.

My letter of August 30, 1945, was not as plain as it should have been. The Department favoured purchasing a piano for the Old Sun's School, but as all agents are aware of the purchasing regulations, it was presumed that we would hear further from your office indicating the type and style of piano required, so that purchase could be made by our Purchasing Branch.

I have discussed this account with the Director, and we find that we can pay only \$100.00. A cheque for this amount is being forwarded to the T. Eaton Company, Calgary, Alberta, and the school management should pay the balance of the account.

Yours truly,

Philip Phelan,
Chief, Training Division.

Mr. H. E. James,

Memorandum:

DEPARTMENTAL PURCHASING AGENT.

I attach account amounting to \$126.74, covering the cost of material required for a new brooder house at the Old Sun's Indian Residential School.

For the past two years the Principal has used the work-shop for this purpose, but owing to the requirements of the manual training class, it is not available this year.

The Principal wished to obtain young chickens immediately and consequently the brooder house was essential. Local purchase was, therefore, authorized.

The labour was supplied by the school staff, without cost to the Department.

I would appreciate it if you would issue purchase order so that the account may be paid. The coding is as follows: 758 - 76 - 10-691. (1945-46)

INSPECTOR OF INDIAN AGENCIES

401-11A. C.E.

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

Calgary, April 22nd, 1946.

Indian Affairs Branch, Dept. of Mines & Resources, Ottawa.

ATTENTION: Mr. P. Phelan, please.

Reference yours of the 15th instant, file 104-1-5, addressed to the Clerk in Charge, Blackfoot Agency, re a piano purchased for Old Sun's Residential School: This letter was brought to my attention while I was at this Agency, and as Mr. James was not familiar with this, and had nothing whatever to do with it, I asked him not to advise the Principal of Old Sun's School until I had written further about this transaction.

I have been a great many years an Indian Agent, and have always tried to follow instructions as to purchasing, and what not, and in this instance I did not believe I was acting contrary to your desires or assuming responsibility of a purchase which might have been carried out by the Purchasing Agent.

Owing to pressure of other work by the Principal as well as myself, the matter of purchasing a piano for the institution was not seriously considered until I was aware that I would be spending considerable of this year as Acting Inspector, and in order to try and get the purchase through before the end of the fiscal year 1945-46, I had an interview with the Rev. Mr. House, when I told him to contact reliable firms in Calgary. I did not know of any piano available from a private source.

It was known that pianos had increased in price considerably during the War, and I told Mr. House not to exceed the sum of \$200.00, which price was as low as could be expected and still get a reasonably good instrument. The Director and yourself must admit that that is not an excessive price to pay, and that to purchase a piano for \$100.00 would be very poor business. It is respectfully submitted that \$200.00 should be allowed: The Principal has paid more than that, and it is noted that he purchased a bench with the piano. He was directed to the Manager of the T. Eaton Company, and it is our opinion that this gentleman would see that he would get very good value.

DEPARTMENT OF MINES AND RESOURCES

REQUISITION FOR SUPPLIES

Ottawa, March 11, 19 46.

To The Departmental Purchasing Agent, Ottawa, (FILE 104-1-5)

PLEASE FURNISH THE FOLLOWING SUPPLIES FOR USE OF

Old Sun Indian Residential School

VOTE Allotment

SHIP TO Rev. John W. House, Principal, Old Sun Indian Residential School,

Gleichen, Alberta.

Purpose for which required

NOTE:—Requisition for non-consumable equipment, state if New Issue or Replacement.
“ consumable equipment and supplies use columns 1 and 2.

Quantity		Quantity on hand (1)	Quantity used per month (2)	Unit Price	TOTAL
2	Chesterfield Suites				
Note:—					
In regard to this requisition, Indian Agent Gooderham writes as follows:—					
"In regard to chesterfield suites, one is needed in the Principal's Residence and the other in the staff sitting room. These would replace a suite (long since worn out) purchased for the residence in 1930 and a small wicker set purchased at the same time for the staff sitting room. They are badly needed and the Parkhill Bedding Co., Calgary, can supply 3 piece suites in 60 days after an order is placed and the cost runs from \$119.00 to \$134.75 according to the design and covering ordered.					
"Would authority be given to order two suites at a total cost of \$250.00?"					
While the suites should be shipped to the address shown above, the account should be forwarded to					
G. H. Gooderham, Indian Agent, Gleichen, Alberta.					

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

FILE 13-25-1

Gentlemen,-

Re Ironer for Old Sun Indian School
P.O. 6324

We have your advice, of the 19th instant, that the above ironer can be supplied only at the new price of \$495.00 f.o.b. Gleichen, Alta., due to suspension of price ceiling on laundry and other machinery, as detailed in W.P.T. Board Order #625 effective May 1st, 1946, and to specific approval of the Board to charge this machine at the prices now in effect.

Under the circumstances it will be in order to supply and invoice the ironer at the above price.

Copy of this letter is being sent today to the manufacturers, to facilitate delivery of the machine produced for our order, and now ready for shipment.

Yours very truly,

Departmental Purchasing Agent.

Stanley Brook Ltd.,
523-8th Ave. West,

Re: Old Sun Res. School

The following supplies are required for the Old
Sun Residential School, Gleichen:-

- X 30 Upright Basin Taps (Spring Top)
- X 2 Toilet Bowls with lids
- 8 Rubber line & Fire Hoses
(50 feet long; 2 in. diameter)
- X 3 Gallons Aluminum Paint (Radiators)
- X 5 Gallons Outside Dark Green

The Principal also states that the large barn
and implement shed should be painted this year; this
work, however, cannot be done by the Staff. Material
for this work was included in the 1945/46 estimates.

May the above please be supplied.

H. E. James,
Clerk-in-Charge.

Ottawa, 11 September 1946.

Mr. H.E. James, Clerk-in-Charge, Gleichen, Alta.

With reference to your letter of the 7th instant, an amount of \$1100.00 was approved in the current year's appropriation for repairs, improvements, and purchase of new equipment at the Old Sun Residential School.

We have already either expended or authorized an amount of \$900.00 approximately, consequently there is only \$200.00 remaining. Please let me know what it would cost to paint the barn and if the cost is over \$100.00, you should forward a requisition so that purchase may be made through our Purchasing Branch.

Bernard F. Neary,
Supt. of Welfare & Training.

ATTENTION: Mr. P. Phelan, Please.

Reference yours of the 15th instant, file 104-1-5, addressed to the Clerk-in Charge, Blackfoot Agency, re a piano purchased for Old Sun's Residential School: This letter was brought to my attention while I was at this Agency, and as Mr. James was not familiar with this, and had nothing whatever to do with it, I asked him not to advise the Principal of Old Sun's school until I had written further about this transaction.

I have been a great many years an Indian Agent, and have always tried to follow instructions as to purchasing, and what not, and in this instance I did not believe I was acting contrary to your desires or assuming responsibility of a purchase which might have been carried out by the Purchasing Agent.

Owing to pressure of other work by the Principal as well as myself, the matter of purchasing a piano for the institution was not seriously considered until I was aware that I would be spending considerable of this year as Acting Inspector, and in order to try and get the purchase through before the end of the fiscal year 1945-46, I had an interview with the Rev. Mr. House, when I told him to contact reliable firms in Calgary. I did not know of any piano available from a private source.

It was known that Pianos had increased in price considerably during the War, and I told Mr. House not to exceed the sum of \$200.00, which price was as low as could be expected and still get a reasonably good instrument. The Director and yourself must admit that that is not an excessive price to pay, and that to purchase a piano for \$100.00 would be very poor business. It is respectfully submitted that \$200.00 should be allowed: The Principal has paid more than that, and it is noted that he purchased a bench with the piano. He was directed to the Manager of the T. Eaton Company, and it is our opinion that this gentleman would see that he would get very good value.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

The Principal of the Old Sun Residential School requested us to purchase a piano. There were several of the pupils whom the Principal thought should receive music lessons. Besides, he pointed out that this musical instrument could be used by the members of the staff to provide some innocent amusement for themselves. We recognized the value of a piano in a large Residential School but the Principal went ahead and bought the piano instead of sending us particulars to be sent to you.

An amount of \$100.00 has been paid and there is a balance due of \$149.00. Mr. G.H. Gooderham, Inspector of Indian Agencies, recommends that the Department pay this amount. Under the circumstances, it would be appreciated if you would issue a purchase order for \$149.00. The coding is as follows:-
758-76-12-415.

Bernard F. Neary,
Supt. of Welfare & Training.

DEPARTMENTAL PURCHASING AGENT

I have had brought to my attention Col. Neary's memorandum of October 16th and your reply of October 21st, with reference to a balance due on the piano purchased for the Old Sun C.E. Residential School.

I agree with the statements made in the memorandum submitted by the Superintendent of Welfare and Training and I feel that payment of the balance of the account is a fair charge against the appropriation for Indian education. Therefore, it would be appreciated if you would issue purchase order for \$149.00.

DEPARTMENT OF TRANSPORT

Ottawa, June 6, 1947.

REFER TO FILE NUMBER

6307-5

Sir:

Attached hereto is Radio Licence D 347093 issued, for the fiscal year 1947-48, to cover the operation of a Radio Set or Sets installed for educational purposes only in Old Sun Indian Residential School, Morley, Alberta, in accordance with information contained on your list of May 9th, 1947.

As this Licence was returned by the Post Office Department as undeliverable, would you be good enough to forward same to the school concerned and advise this office, on the enclosed copy of this communication, of the school's correct postal address, in order that our records may be amended accordingly.

Yours faithfully,

G. C. W. Browne

(G. C. W. Browne)
Controller of Radio

Encls. 2.

Bernard F. Neary, Esq.,
Supt. of Welfare & Training,
Indian Affairs Branch,

Dear Sir,

Enclosed please find labor contract estimates for painting school and out-buildings, also approximate quantities of paint needed for each contract.

If only part of these buildings are to be painted, I would like to advise that contract No.2 be first done for appearance sake, and also from the angle of economy.

Hoping that we can get Ottawa to see as we do, I await your favorable reply.

Yours truly,

(Signed) Chas. A. Fogson,

OLD SUN INDIAN RESIDENTIAL SCHOOL- (CHURCH OF ENGLAND)

PRINCIPAL: REV. J. W. HOUSE, B.A., L.T.H.
MATRON: MISS E. J. POWELL

GLEICHEN,
ALBERTA

May 31, 1947

The Indian Agent,
Blackfoot Agency,
Gleichen, Alberta

Dear Mr. Pugh,

As is customary I am giving you this list of requirements from the Department. It would be a convenience if some action could be taken to procure these before the Summer holidays begin as painting and repairs can best be done when the children are away.

1. Interior paint used by Schools management for upkeep of interior of school. This should be "Bapco" paint because most of the walls are already done with this brand and other kinds cannot be used for patching because they do not blend.

10 gals. Inside White gloss	- 50.00
20 gals. Inside Ivory flat	- 95.00
2 gals. White enamel	- 11.00
2 " Russet Brown Inside	- 9.00
6 gals. Bronzing liquid	- 21.00
5 gals. Turpentine	- 13.75
5 gals. Linseed oil	- 13.75
6, 4 inch paint brushes	- 18.00
6, 2 " " "	- 12.00
6, 1 " " "	- 9.00

*my estimate
H. B. Pugh*

2. Barn fixtures - repairs

252.50

1 Loudens Letter carrier complete with hoist	} 100.00
16 pairs snap fasteners for Loudens stanchion neck irons	
1000 feet of lumber - various kinds - for repairs to buildings.	90.50

These were in 1946 estimates but unobtainable. They should be procured as soon as possible.

Indian Affairs. (RG 10, Volume 6361, file 758-5, part 13)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3. Rugs for staff rooms in the School.

4, 9 ft. x 9 ft. Wilton rugs } 550.00 *Q.M.*
10, 9 ft. x 7½ ft. Wilton rugs }

All staff rooms have bare concrete floors and the Department equipped each room with a rug 17 years ago. These are now beyond repair and the above requisition is for replacement of these. This is long overdue.

4. Singer sewing machines for sewing room.

1 Tailor's machine = ?

4 Treadle machines = 220.00 *Q.M.*

The present ones were condemned several years ago, and have been giving a lot of trouble. The above are for replacement.

5. Painting barn and outbuildings.

1 barn and roof
1 cattle shed
1 work shop
1 granary
1 tool shed
2 implement sheds
1 chicken house
1 cottage
1 brooder house

Most of these buildings have not been painted for fifteen years and are a disgrace to a government plant. I would urge that they be done this year without fail.

6. Painting outside of window frames of school

237 windows
237 storm windows
19 doors

Except for a few which can easily be reached on the ground floor, these have had no paint for seventeen years and are beginning to show signs of weather. They should be done right away.

7. For three or four years I have had an item of \$900 for a pig pen in my estimates. No Departmental action has been taken about this so I want to cancel it and substitute therefor an implement shed at about the same cost.

Indian Affairs. (RG 10, Volume 6361, file 758-5, part 13)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

We have only an open-sided shed for storing implements for the Winter, and it is usually full of snow. A school of this kind should have a closed-in shed, big enough to store any implement and a workshop (heated) on one end where farm machinery could be over-hauled and repaired during the winter months as part of mechanical training for the boys. In a farming area such as this, no boy should go out of school without a working knowledge of ordinary machine repairs, but this cannot be done without a place large enough to house machinery and repair it during the Winter. Will you please ask the Department to cancel the pig pen, and substitute an implement shed of this nature.

8. Our pyrene extinguishers are so old that quite frequently they stick and will not work immediately. I think we should renew them all before next Winter. That would be -

- 12 1½ quart pump extinguishers, and -
- 2 doz. Flash Fire Chief automatic extinguishers from the Flash Fire Extinguisher Co., 10 Diana Court, Winnipeg.

I am attaching an estimate from Mr. Fogson, Turner Valley, for painting the buildings (5 and 6). It looks to be a little high, but there is a lot of surface to cover.

Will you please take these needs up with the Department at your earliest convenience.

Yours very sincerely,

John W. House
(John W. House)
Principal

Re: Old Sun Indian Res. School.

I beg to enclose herewith letter received from Rev. John W. House, Principal of the Old Sun Indian Residential School which is self-explanatory and I would comment as follows:-

1. Interior paint: I would recommend that this should be supplied. Labour will be done by the school. Cost \$250.00.
2. Barn Fixtures - Repairs: 1 Loudens Letter carrier complete with hoist and 16 pairs snap fasteners. Cost approximately \$100.00. I would recommend that this be supplied as soon as convenient. 1000 ft of lumber needed for various repairs. Cost about \$90.00.
3. Rugs for Staff Rooms: 4, 9 ft x 9 ft Wilton rugs and 10, 9'x 7 1/2', 11'x11' Wilton rugs, the approximate cost \$550.00. Principal's remarks self-explanatory.
4. Singer Sewing Machines: 1 Tailor's machine and 4 Treadle machines. Principal's remarks self-explanatory.
5. Painting Barn and Outbuildings: Refer to Principal's remarks.
6. Painting outside of window frames of school: Refer to the Principal's remarks.
7. Re new work shop: It was agreed between the Principal and myself that this Estimate should be properly prepared for 1948-1949 Estimates.
8. Re Fire Extinguishers: 12 - 1 1/2 quart pump extinguishers; 2 dozen Flash Fire Chief automatic extinguishers (Glass self breakable). I would recommend that a representative of a Fire Extinguisher Company be asked to attend school, check all extinguishers, equipment and refill and replace where necessary.

You will note the date of this request and I am slow in sending it in but I informed Rev. House that this should have all been set out in 1947-1948 Estimates.

I am passing this along for the Department's information and that requests Nos. 1, 2, 4 and 8 if possible should be complied with by the Department for immediate attention. If the dept. considers further action, please inform and requisitions will be prepared.

W. P. B. Pugh,
Indian Agent.

ARCHIVES PUBLIQUES
CANADA

104-1-5 (WT 1)

Ottawa, July 21st, 1947.

Mr. W.P.B. Pugh, Indian Agent,
Gleichen, Alberta.

With reference to your letter of the 16th instant regarding the Old Sun Residential School, an amount of approximately \$1,000. was provided in the current year's appropriation for repairs, improvements and purchase of new equipment at this school.

We are requesting the purchasing branch to secure the paint, litter carrier and sewing machines.

We feel that the number of fire extinguishers requested by the principal is excessive. We are ordering six 1½ quart Pyrene fire extinguishers and also one 5 gallon Foamite extinguisher.

When the above purchases have been made we will be in a position to decide what additional amount can be authorized for repairs and improvements at the Old Sun School this year.

I doubt if we will be able to handle items 3, 5 and 6. If not, they should be included in the estimates for 1948-49, together with item number 7.

Philip Phelan
Chief, Training Division.

Ottawa, September 2, 1947.

MEMORANDUM:

The Deputy Minister.

October 1st and 18th, 1947, are the expiry dates of the following fire insurance policies covering buildings owned by the Blackfoot Indian Band, located at Gleichen, Alberta.

\$80,000.00 on the "Old Sun" Indian Residential School, situate on the N.E. $\frac{1}{4}$ of Section 1, Township 22, Range 23, West of the 4th M., South of the Town of Gleichen.

\$2,800.00 on a Granary, situate on the N.W. $\frac{1}{4}$ of Section 23, Township 20, Range 22, West of the 4th M.

These properties are located in the Electoral District of McLeod, Alberta.

The present policies are carried with Mr. T. H. Beach, Insurance Agent, Gleichen, Alberta, and I shall be pleased to be advised with whom these insurances are to be renewed.

EXD.

AIR MAIL

Ottawa, September 6, 1947.

W. P. B. Pugh, Esq., Indian Superintendent, Gleichen, Alta.

Please be advised that October 1st and 18th, 1947, are the expiry dates of the following fire insurance risks covering buildings owned by the Blackfoot Band, Blackfoot Indian Agency:

\$80,000.00 on the "Old Sun" Indian Residential School, situate on the N.E. $\frac{1}{4}$ of Section 1, Township 22, Range 23, West of the 4th M.,

\$2,800.00 on a Granary, situate on the N.W. $\frac{1}{4}$ of Section 23, Township 20, Range 22, West of the 4th M.

These are Band properties and while it is desired that the Indian investment in them should be protected I would ask that you please bear in mind that the coverages should not exceed the proper replacement values. You will, therefore, please examine the premises with the view of determining the proper insurable values.

The insurance is to be placed through Mr. T. H. Beach, Insurance Agent, Gleichen, Alberta. The assured is to be described in the new policies or renewal certificates as, "His Majesty the King in the Right of Canada". If possible, each coverage should be for a three year term.

The Insurance Agent's account covering the premiums is to be submitted to the department for payment under cover of your voucher along with the new policies or renewal certificates and action should be taken to ensure that these are received in this office approximately ten days before the expiry dates.

D. J. Allan,
Superintendent, Reserves & Trusts.

of farm implements with the result that pupils who are going to be farmers have no chance of getting practical experience during the winter on farm machinery repairs. A closed-in shed large enough to take heavy farm machinery and which can be heated in winter for use as a repair shop.

Estimated cost \$2500.00

RUGS FOR STAFF ROOMS

All these rooms have rough concrete floors. When the School was built in 1929, the Government provided a rug for each staff room but, after over 17 years of wear, they are pretty well worn out. 14 are required at an estimated cost of

\$550.00

REFILLING OF FIRE EXTINGUISHERS

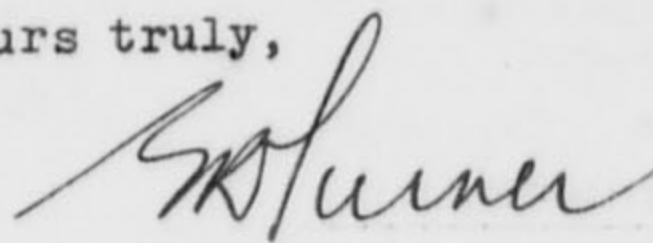

Estimated cost for year \$25.00

The Principal also recommends strongly the provision of labour-saving devices (potato peeler, bread slicer, mixing machine, etc.) advocated by your nutritional experts at a cost of \$300-\$400. I understand from Colonel Neary, however, that he is giving active consideration to the supply of such devices to all schools.

The Principal has drawn our attention to the deplorable state of his farm machinery, giving as examples his binder which is 1920 vintage and his tractor which scarcely has one original part left on it. I am not certain whether you help in the supply of machinery to schools that operate good-sized farms but if you can, we certainly shall appreciate it.

We shall be glad if you will give the fullest possible consideration to the inclusion of the services mentioned above in your Departmental Estimates for 1948-49. I understand that your Blackfoot Agency is aware of these needs.

Yours truly,

G. R. Turner

Major Gen. G. R. Turner

Mr. P. N. Phelan,
Chief Training Division,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ont.

Dear Sir: Re: Estimates 1948-49, Old Sun Residential
School, Gleichen, Alberta.

Further to my letter of 4th October, 1947, on
the above subject, will you please add the following to
the list of items:

"Enlargement of Walk-in Refrigerator \$800.00 "

I understand that this service has been recom-
mended by your nutritional representatives and is familiar
to your local Agent.

Yours truly,

G. R. Turner
for Superintendent

Dear General Turner:

With reference to your letter of the 6th instant careful consideration will be given when we are preparing our appropriation for the fiscal year 1948-49 to provide the funds required for a walk-in refrigerator at the Old Sun Indian Residential School.

Yours truly,

Philip Phelan,
Chief, Training Division.

The Indian Agency,
Gleichen,
Alta.

Dear Sir:

Report on Pump in No.1 Well at the
Old Sun School, Gleichen, Alta.

This pump is in very poor condition and considering
the cost to send this pump in and have it put in good condition
plus the time waiting for repairs.

Taking into consideration this pump has been in
operation about twenty hours per day for eight years. The
Department would be well advised to install a new pumping
unit less the Motor. Which will cost one hundred and eighty
seven dollars and seventy five cents. \$187.75 F.O.B. Gleichen
and delivery in ten days.

Trusting this is the information you require.

Yours truly,

Signed:
L. Michael

Re: Old Sun Indian Res. School.

I beg to enclose letter from Mr. L. Michael, Gleichen, re present pump now installed as the main pump at the Old Sun School.

After careful inspection of the pump I wish to confirm Mr. Michael's findings also that the stuffing box is worn out. Rev. House also informs me that the pump is constantly giving trouble and has been reconditioned three times, and he would appreciate a new replacement.

Mr. Michael in his letter quotes on:- Deleo Well Master Deep Well working head unit Model No. D.W.00 complete (less motor) for 1 1/2 pipe at \$187.75. Depth of Well is 190 ft.
INSTALLATION - about 25' to 35'

I would recommend that this purchase be made.

W. P. B. Pugh

Dear Sirs:-

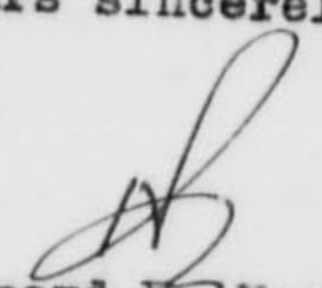

Re: Purchase Order 21785

The above was forwarded to you on July 29th, 1947 ordering six 1½ quart extinguishers and one 5 gallon extinguisher.

In a letter dated November 5th we are advised that these extinguishers have not yet reached the Old Sun Indian Residential School.

Please let me know when you expect to make delivery of the above.

Yours sincerely,

Bernard F. Neary
Supt. of Welfare & Training.

Re: Boys' Urinals - Old Sun Res. School.

I beg to report that on my inspection of the Old Sun Indian Residential School on October 31st last, I found the Boys' Urinals in bad state of repair - being blocked up and apparently have been for sometime. The drainage screens having been removed and apparently the boys put stones or some hard objects in the traps. The clean out is approximately 20 feet from the traps and Rev. House has caused to be tried various methods of cleaning same without results. The traps for the urinals (urinals of full length vertical type) are under the floor which of tiarra construction and it will be a major job to take them up.

I do not think that the urninal of the vertical type with the traps under the floor and inaccessible are advisable, and I would suggest replacing them with the trough type with the traps accessible and the troughs on floor standards. This would be quite costly and I have not obtained price pending your further instructions.

I would again remark that the boys' Urinals are at the present very unsanitary.

Respectfully submitted,

W. P. B. Pugh,
Superintendent.

Re Old Sun Indian Res. School
Pump

Reference to my letter of Oct. 27th last in which I dealt with the condition of the main pump at the above school, I now beg to report that the pump in question broke down completely yesterday. For your information the new pump has been ordered by Mr. L. Michael, just in case of the present breakdown, Mr. Michael also informs me that the pump is on the way, there is hope that it will be here any day. It would appear that this will have to be installed on arrival and trust that the secondary pump carries the load in the meantime.

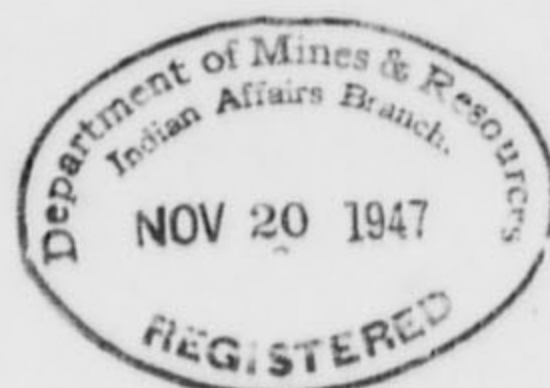

There is no doubt that the old pump has finished its usefulness.

Respectfully submitted,

W.P.B. Pugh

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Re: Purchase Order 21783

The above ordered six 1½ quart extinguishers and one 5 gallon extinguisher for the Old Sun Indian Residential School. It was issued on July 29th, 1947.

We wrote the Company on November 12th asking why delivery has not been made and the following reply has just been received,-

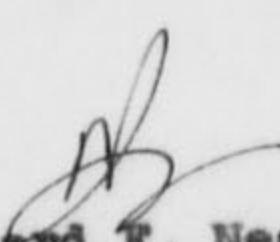

"We have your letter of November 12th in regard to your purchase order 21785 of July 29th.

While we regret our inability to make immediate shipment of this merchandise we have every confidence that same will go forward within the next two or three weeks.

Apologising for this further delay, we are

(Signed) J.M. King,
Pyrene Manufacturing Company."

We wrote you yesterday (our file 119-1-5) regarding an order for extinguishers for the Morley School. This is another example of the delay in receiving fire extinguishers from the Pyrene Manufacturing Company.

8. SKATING RINK EXPENDITURE FOR SCHOOLS

The Chairman told the council that he had been approached by Father Charron re cost of repairs and lights on the skating rink at the Crowfoot School - a discussion followed, during which the emphasis was made if such is granted to one school the other must be obliged. A standing vote resulted as 10 in favor; 4 against and 2 mutual, that 50% of the repair cost of the 2 rinks of both schools, Crowfoot and Old Sun, be met at the expense of Band Funds.

Carried.

FILE Old Sun School.

30th Dec. 1947.

Indian Affairs Branch, Ottawa.

Attention of B.F. Neary Esq.

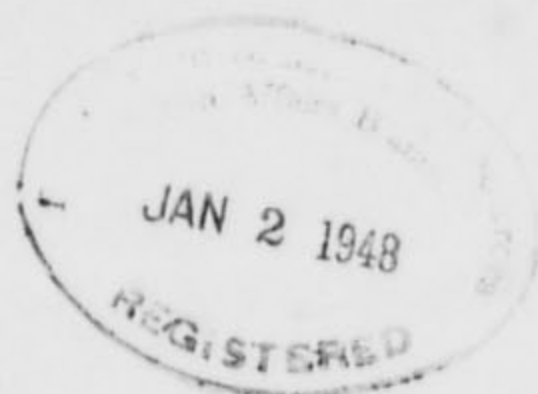

re Old Sun School.

I beg to report that during the Christmas holidays an attempt was made to repair the Upright Hot water heating boiler but owing to the fact that the tubes had been rolled a number of times it was found impossible to repair the same. I regret to report that it has been found necessary to replace the tubes. The cost will be kept as low as possible.

W.P.E. Pugh,
Indian Agent.

EX'D.
M

January 5, 1948.

Mr. W.P.B. Pugh, Indian Agent,
Gleichen, Alberta.

We have your telegram of the 2nd instant in which you state that owing to delay in making repairs to the hot water heating boiler at the Old Sun School, you deemed it advisable to extend the Christmas holiday period to January 10th.

The Department regrets that you considered the action taken was necessary. This is the first year that Christmas holidays at all Indian residential schools were officially recognized and any extension of the holiday period authorized by the Department should not have been extended without our approval.

I hope you can explain to the Indians that the extra holiday period at the Old Sun school was due to conditions beyond control and that such extension is not to form a precedent for future years.

Bernard F. Neary
Supt. of Welfare & Training.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Attached is an account amounting to \$585.73 covering the cost of supplying and installing a new pump in the well at the Old Sun Residential School and also emergency repairs to the hot water heating boiler. Approximately \$216.00 of the total amount represents expenditure for labour.

The pump and the well had been in operation for approximately twenty hours a day for the past eight years and it had reached such a condition that it was impossible to repair it satisfactorily and a new pump was absolutely essential. The hot water heating boiler gave out about the end of December and it had to be repaired immediately. As a matter of fact, the condition of the boiler and the difficulty of securing necessary supplies necessitated keeping this school closed for a few extra days at Christmas.

I would appreciate it if you would issue purchase order so that the account may be paid. The coding is as follows: 516-758-10-691.

Old Sun Indian Residential School.

Archdeacon Cook visited the Department recently and advised that Mrs. House will be leaving the above school in June. He also advised me that most of the furniture in the principal's residence was the property of Mrs. House. It is presumed that most of this furniture was provided some 17 years ago. However, before we begin searching our many files on the Old Sun School, we would appreciate being advised as to when the Department did provide furniture for this school. It is presumed that as in many schools, we provided only that furniture which the Principal did not have.

Re Old Sun School

3725

PLEASE QUOTE
FILE 104-4-2

I beg report that I have been requested by the New Principal of the above School Mr. Cole to ask authority to purchase the following,-

4- Army Tables (to sit 4 men each standard) @ 7.50 each	30	15.00
4 " Benches for above tables 3.00 each	12	6.00

The above could be purchased from War Assets or some firm dealing in War Surplus material in Calgary.

These tables to be used in the Boys & Girls Play Rooms where at present they have no tables to play on.

He also asks that authority be granted to purchase	
100 lin ft of 2 x 10 fir	} Approximate cost of \$70.00 Seventy dollars.
200 lin.ft of 2 x 8 fir	
220 lin.ft of 2 x 4 spruce	
16 pr 6" tee hinges	
25 lbs of nails	

This material to be used in building seat cup boards around the boys play room for the storage of their boots and also to act as seats. The school will do the necessary labor.

I would recommend that the tables and benches be purchased as soon as possible, in regards to the lumber knowing that the dept are short of funds, the lumber could possibly stand over till the new fiscal year.

Respectfully submitted,

Attention of Welfare & Training.

re Old Sun School.

I beg to report that about a month ago the cook stove located in the Farming Instructor's Engineer's house on the grounds of the above school, blew up apparently owing to a corroded water front, a very peculiar accident and it was fortunate that the water ran over the floor preventing a fire, at the time there was nobody in the house.

The ^{original} stove was a purchase by our branch, Mr. Cole, the Principal of the School is now asking for a replacement. This could be discussed with Mr. Gooderham at present in Ottawa as he is conversant with the set up.

Local quotation of a suitable McClary stove with water front- approximately \$125.00. If it is allowed I know the local hardware Merchant would carry the account till the first of April.

I regret that I seem to be asking for these expenditure when I know your school funds are depleted at the end of the fiscal year.

Stove for Instructor's House.

Reference to your letter of the above file dated March 17th last and to the second paragraph, I hereto submit three requisitions in duplicate for one new stove and two second hand stoves.

For your information both second hand stoves are in excellent shape and I was informed have both been in use about a year, they having been replaced with electric stoves.

Rev. Cole checked both second hand stoves and he stated he would be satisfied with the second hand beach stove.

If one of the above purchases are allowed I would appreciate being advised by return mail, or if not allowed. For your information the purchase of a stove is quite urgent by either our dept. or church authorities, in order to facilitate the moving in of the Rev. Cole.

Indian Affairs Branch, Ottawa, Ontario.

Re Old Sun Indian Residential School.

I beg to acknowledge receipt of your letter of the above file dated March 8th 1948, in connection with the change over at the above school. For your information Mrs. House (Rev.J.) left the school residence on March 20th last.

The furniture was provided for this school during the years 1930 and 1931, with a very few replacements in the meantime.

The attached Inventory was found among Rev.J.House's files after his death and it appears to be a good basis to work from. These articles have all been segregated and the late Rev.Mr.House's goods and chattels are now being packed by Mr.House's daughter ready for shipping. Mr.Cole (Rev) is fully conversant with the situation.

Respectfully submitted.

FILE 4-2 (104)

April 9th 1948

Indian Affairs Branch, Ottawa, Ontario.
Attention of Bernard F. Neary Esq., Supt. of Education.
Re Old Sun Indian School
Principal's Residence,
Re-Furnishing.

I am in receipt of your letter of April 2nd of the above file and beg to enclose herewith Requisition for essential furnishings. The remaining few furnishings have been in use for 17 years and have definitely seen their best days.

In regards to the second bed room suite, there has always been a guest room in the school but Mr. Cole is now endeavoring to get a third teacher, who will occupy the school guest room. Any guests of the school will now be occupying a room in the Principal's residence - (apartment in the school)

I would further report that in the kitchen of the Principal's residence is a McClary Electric Range which was installed according to statements at the time the school was built in 1929, this electric range is in a very bad state of repair, and will have to be put in repair and I would estimate at a cost of approximate \$75.00. I doubt the sagacity of repairing this range, a new range could be obtained for about \$175.00 to \$260.00. (Frididaire Electric Stove RJ 10 C -4 burners on top \$259.00)

(ask) Mr Cole is also asking for an electric washer for his residence in the sum of \$160.00, but as your letter did not go beyond furnishing I did not include this item till I hear further from you.

I would take this opportunity of stating I regret the heavy expenditure at the Old Sun School this last three months but it would seem that everything tumbled down all in on fell swoop.

Respectfully submitted,

W.P.B. Pugh,
Supt.

The Superintendent,
Indian School Administration,
102 Bank Street,
Ottawa, Ont.

Dear Sir:

re: 1 H.P. Electric Motor
Bread Mixer

The motor m/n, that has been running for a number of years has keeled over and is completely burnt out. In the emergency I have ordered one from the Bruce Robinson firm of Calgary. I got in touch with the manager but it appears these motors are hard to procure right now.

Wm
I suggested to the Indian agent this was his responsibility, however, as he is new to the school work he does not feel it is his obligation. We will fight it wut when the motor arrives.

In the meantime we are buying bread as we have no suitable bread mixing tub.

I will forward you a copy of my letter to the Indian agent with a request to meet this account when we get fixed up.

Yours truly,

(signed)

ATTENTION

Rev. Canon Henry G. Cook

Colonel B. F. Neary,
Supt. of Welfare & Training,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

1 H.P. Electric Motor for Bread Mixer
Old Sun School, Gleichen, Alta.

I enclose a copy of a letter dated 9th April, 1948, received from the Principal of the above-named school.

I assume from our recent conversations that you are prepared to pay the cost of this replacement at Old Sun, which is a Government-owned school.

It will be appreciated, therefore, if you would be good enough to have your Agent in that area procure the account for this article from our Principal, the Rev. E. S. W. Cole, and pass it direct to you for payment. This would seem a less cumbersome procedure than the purchase by this Administration and our subsequent re-imbursement by your Department.

Will you please advise me of the action you take in this matter.

Yours truly,

Henry G. Cook

Dear Sir,-

Old Sun Indian School
Boys Playroom-Toilets.

As the toilets in the room off the boys playroom are in a frightful condition and most unsanitary with drains badly blocked and urinals not working may I suggest an inspection and subsequent report to be tabled to you for consideration by your Department.

Unless the local plumber has power equipment it is doubtful if he can handle the work. However he might be able to present a problem to our solution.

The partitions or cubicles formerly built round each toilet have disappeared and the lady supervisor cannot comfortably check this room daily until these screens are renewed. I have made enquiries about the old ones but no one seems to know what happened to them.

It was suggested we do away entirely with the urinals (now blocked) however with 47 boys in residence I think after further consideration this would be a mistake.

May this matter have your early attention, please.

Yours very truly,

Signed E.S.W. Cole,

Principal.

W.P.B. Pugh Esq.,
Supt. Blackfoot Agency,
Gleichen, Alberta.

Dear Mr. Pugh,

I much appreciate your prompt action
in getting our boys toilets in ship shape order.

May I assure you that when this
work is finished to your satisfaction I shall make
it my personal responsibility to guard against
further wilful destruction. When this work on the
toilets is completed I suggest you remind our boys
that wilful destruction in the school cannot be
tolerated. It has been my experience that a word from
a Supt. of Agencies has a remarkable effect and from
then our supervision is much easier.

Yours truly,

Signed E.O.W. Cole.

Attention Supt of Welfare & Training- Mr. B. F. Neary.

re Old Sun Indian Res. School
Boys' Toilets.

Reference to the enclosed Voucher in favor of L. Michael, (Plumber) Gleichen, Alta., in the sum of \$231.79, you will note that the large item is for \$160.79 for repairs to Boys Toilets. I would refer you to my letter of Nov. 5th last, in which I dealt with this matter. However when Mr. Cole took over it was our opinion that the urinals could be kept in order. I asked Mr. Michael to make an exploratory inspection of the set up and it was found that repairs could be made so owing to the condition I had him complete the job. I do not anticipate that any further trouble will arise. Regretting that this work was undertaken without your direct authority.

W. P. B. Pugh

Re-Loan to help build Old Sun School

1. Ben Calfrobe asked if there had been any reply to letters written to the dept. re above. Chairman stated there had not, further that he had discussed the matter with Regional Supervisor Gooderham and he stated that the matter was being given very serious attention. It is a serious question. Ben Calfrobe further asked if \$80,000.00 was the correct amount. Chas. Raweather asked if the dept. was paying to the Blackfoot Band Account, interest on the \$80,000.00. Chairman stated he was unable to answer the questions but he had asked these questions of Ottawa by mail, so far had received no reply.

Rev. Canon Henry G. Cook

Colonel B. F. Neary,
Supt. of Welfare & Training,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

1 H.P. Electric Motor for Bread Mixer
Old Sun School, Gleichen, Alta.

On 14th April I wrote you asking if you would have your Agent arrange to procure from our Principal at Gleichen the account for a 1 H.P. Electric Motor for the Bread Mixer at Old Sun School and pass it to you for payment.

We now understand that the cost of this article was \$76.55. The need for its procurement was fully explained in the copy of the Principal's letter of 9th April, 1948, which I enclosed with my letter to you on 14th April.

Will you please advise me whether you are paying for this piece of equipment.

Yours truly,

Henry G. Cook

Dear Canon Cook:

We have your letter of the 13th instant with reference to the electric motor purchased by the principal of the Old Sun Residential School.

On receipt of your letter of April 14th we wrote the Superintendent stating that we would pay the account and at the first of this month he submitted an account for \$76.55, in favour of Bruce Robertson Electric Limited. Cheque for the amount mentioned has gone forward to the company.

Yours sincerely,

Bernard F. Neary
Superintendent of Education.

Rev. Canon H.G. Cook,

, May 25, 1948.

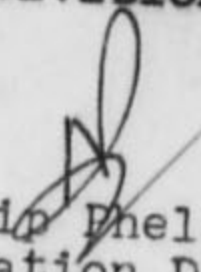

Mr. W.P.B. Pugh, Supt. of Indian Agency,
Gleichen, Alberta.

P.O. No. 23827 of October 27, 1947.

In response to your request of July 16, file 104-4-2, the above order covering 1 carrier, 12 hangers and 16 prs. of latches was placed with Beatty Brothers Limited, Edmonton, Alberta.

To date we have had no word regarding shipment and it is requested that you check with the Principal of the Old Sun's Residential School and determine what action has been taken to complete delivery or when is the expected date of delivery.

Probably, this Principal who took over this school since the order was placed has received the items but has not forwarded the invoices in which case you should advise him as to the proper procedure to follow on receipt of merchandize authorized by this Division.

Philip Phelan,
Chief, Education Division.

Mr. W.P.B. Pugh, Superintendent,
Indian Agency, Gleichen, Alta.

We have your letter of the 3rd instant
with reference to purchase order 23827.

The request for the equipment ordered
on the purchase order mentioned was contained in
your letter of May 16th and we advised you on July
21st, 1947 that the Purchasing Branch was being
requested to secure the articles.

It appears from your letter that the
principal of the school does not urgently require
the equipment and under the circumstances I am
inclined to feel that the purchase order should
be cancelled. Please let me have your comments.

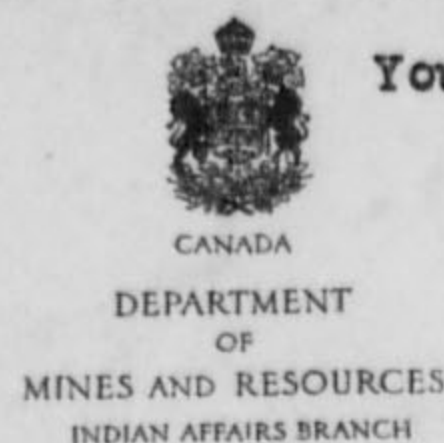

Bernard F. Neary
Superintendent of Education.

Re Purchase Order No. 23827

Reference to your letter of the 10th inst. I beg to inform you that I have discussed the purchase of the Dairy Barn Equipment with the Rev. E. Cole and I agree with him (despite Rev. House's insistence that the equipment should be purchased) that this equipment is not immediate necessity when so many other repairs have developed. I would recommend that the above purchase order be cancelled.

PLEASE QUOTE
FILE 4-2-104

June 21st 1948

Indian Affairs Branch, Ottawa, Ont.
Attention B. Neary, Supt of Education.
re Repairs to Old Sun School
Blackfoot Reserve.

I am in receipt of your two letters of the 4th June and 18th June, I have been conferring with the Principal Rev. E. Cole in this connection and we think we have arrived at considered conclusions.

I would refer you to your letter of June 18th in which you refer in the last paragraph to refrigeration, I would draw your attention that your letter of the 4th inst did not mention refrigeration. General Turner on his recent visit to the Old Sun mentioned that it had been allowed, in the meantime I have contacted a refrigeration man to give some advice. I believe Miss McCready drew attention to the refrigeration on her visit here a year ago.

Reference to your letter of 4th June asking for requisitions for the repair material required, as you are well aware it is exceedingly difficult to prepare these requisitions, in fact just about impossible, not knowing what a repair job is until you get into the repair job. It is case of material and labor.

The following are the proposed repairs,-

1. Repair root house roof only, this roof is now caving in with the excess moisture of this past spring, and I might say this has priority. It is a question of labor with planking for the roof. No estimate available. Costs will be kept within reason.
2. Replacement of 5 toilet seats for Boys' Toilets at a cost of \$15.00 each-installed- Total \$75.00. These are up swing weighted seats, rise to the vertical position when not in use. These seats have not been on since I have been here. Would recommend their installation. Partitions also to be installed between these 5 toilets. No estimate for this work. Time and material.
3. Small general repairs, also locker seats, material & labor.
4. Repairs to wind mill. Blew down during heavy blow this spring.
5. Repairs to implement shed. No estimate available.

In your letter of June 4th last you state there is available approximately \$1200.00. May I suggest that you allow me to purchase the materials locally and employed local skilled help and have account forwarded immediately on completion of the work. I can assure you it would have my close supervision.

After the above repairs are completed, we could then requisition for paint accordingly.

I trust the branch will bear with me in not submitting estimates and requisitions covering the above, but the purchase of materials will be closely supervised.

In the meantime when Major Clark was inspecting the Old Sun School, it was suggested that a sound proof partition be erected in the School Auditorium so that it would be made into two class rooms, this would be a temporary affair. However no doubt you are aware of the situation thru Mr. Clark's report. I would appreciate your comments on this work. If this work is to be proceeded with an Estimate can be furnished.

June 29th, 1948.

Mr. W.P.B. Pugh, Superintendent,
Indian Agency, Gleichen, Alta.

We have your letter of the 21st instant with
reference to the Old Sun Indian Residential School.
The Department approves the following expenditures:

- (1) Repair root house roof.
- (2) Purchase and install five seats in
boys' toilets.
- (3) Small general repairs.
- (4) Repairs to wind mill.
- (5) Repairs to implement shed.

It is understood that you will give the above
repairs your personal supervision and will keep the
cost as low as possible..

It is noted from the second paragraph of your
letter that you will write later regarding the re-
frigeration unit that you consider should be supplied
for this school. With regard to the last paragraph
of your letter, we do not appear to have received Major
Clark's recommendation regarding the partition. We ex-
pect him to return to Ottawa some day this week and
the matter will then be discussed with him.

Bernard F. Neary

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary, re: Old Sun School, Gleichen.

Below is an excerpt from a letter written to
the Administration by Mr. Cole, the Principal of the Old Sun
School, which is self-explanatory.

"While I am indeed most reluctant to advocate capital expenditure of approximately \$2,000.00 at this time, I nevertheless feel confident that, if a stoker is installed in this school, it will pay for itself in three years. I have made a careful check on the performance of the Iron Fireman from two users (a) Roman school here and (b) the S. Army Home in Gleichen. I have seen the stoker at the latter place. I suggest the Crowfoot school is a building similar to size with the Old Sun and not heated as comfortably as our school. The Principal of that school only uses one furnace and his fuel bill for six months was about 40% less than ours. Our fuel account for six months, viz: Oct. 1st to March 31st was in the neighborhood of \$1300.00, kitchen coal included.

" I have been down to the Indian mines this week and talked this matter over with the Manager, Mr. Marshall; incidentally this chap is an expert on coal as he has spent a lifetime in the work. We can purchase steam coal at the mine for \$2.00 per ton plus \$2.75 cartage charges; the cartage price has been set by the Indian office. \$4.75 per ton of coal at the school is a tempting proposition as c.f. \$9.35 f.o.b. Gleichen depot. It is admitted that the B.T.U. Indian mine coal is not rated as high as the Blairmore mines, 9000 as c.f. 1200 per 1 lb. at Blairmore mine. The fact that we can

Indian Affairs. (RG 10, Volume 6361, file 758-5, part 13)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

sent
this letter

purchase coal on the Reserve for years to come seems to warrant favourable consideration of the installation of a stoker.

" There are other stokers on the market as well as the Iron Fireman but an examination of detail has convinced me the one named is the one for our use. For example, the Iron Fireman has an iron-steel worm drive which grinds the lumps. Other stokers have a brass worm which, while operating silently, does not do the job of rolling the coal through and the brass worm quickly chews up.

" Mr. Michael, the town plumber, is a most reliable tradesman and a job done by him is satisfactory. He did submit tenders for the installation of this stoker years ago but nothing was done about it, worse the pity.

" This stoker is bin-feed and will, or would, be installed to enter the furnace on the south side, thus not interfering with any cleaning operations and an aperture of 2' square would be required to fix the main shaft through the coal bin wall."

The sum of \$1900.00 is provided in the Department's estimates for new boiler and painting at the Gleichen school and I respectfully request that the proposition as put forth in Mr. Cole's letter be considered by Indian Affairs Branch. Not only would the installation of an Iron Fireman Stoker result in a considerable saving to the operational costs of the school but it would allow the Principal to purchase and use a type of coal mined on the reserve. Literature is enclosed for your information.

Yours faithfully,

Henry G Cook

Superintendent.

July 5, 1948.

Mr. W.P.B. Pugh, Superintendent,
Indian Agency, Gleichen, Alberta.

Reverend Canon Cook, Superintendent of the
M.S.C.C. has requested us to supply a stoker at the
Old Sun School. Canon Cook recommends the purchase
of a stoker at an approximate cost of \$1,900.00. He
has forwarded to us the attached advertising pamphlet
from the firm that supplies the Iron Fireman but he
does not state the exact type and size of Iron Fire-
man that he thinks should be supplied.

Please consult the principal and let us know
the size number of the stoker.

When we receive your reply the matter will
receive further consideration but it should be under-
stood by the principal that in the event of our
deciding to purchase the stoker, the funds used for
this purpose will be taken from the amount specifically
provided in the current year's appropriation for repairs
and improvements at the Old Sun School.

C O P Y.

2503-15A St. N.W.,
Calgary, Alta.,

June 24, 1948.

Prime Minister MacKenzie King,
Ottawa, Can.

Dear Mr. King:

Please read what I have to write and help me, I am not asking for anything, but what is rightfully my husband's and we are just about desperate. Mr. Sweeney and I are no longer young and in the last two years my husband's sickness has left us without anything financially.

Back in the late 1920's, Mr. Sweeney built several Indian Schools for the Government everything went along well, 'til the last Indian School was built at Gleichen, Alta. to date we have not had a refund of the deposit which had to be put with the Government. The accumulated interest of all these years it is now quite a sizeable sum of money. My husband is ill and not able to work and that money at our age would keep us going without charity for the rest of our lives.

For the life of me, Mr. King, I can not see why the government would hold up refunding at least the principal. Mr. Sweeney worked hard for that money, all the bills towards that school are paid, I know that, because it just about cleaned us of every nickle we had. We used to a letter a month telling us that the money would be refunded in due course, to date we have had nothing. Those letters were addressed to the Yale Hotel, Calgary.

I am writing this, because, my husband is ill and discouraged. Please help me obtain this money, Mr. King and thank you.

Sincerely,

(Sgd) (Dora Sweeney,

MINISTER'S OFFICE

MEMORANDUM

June 30/48

109

To the - Deputy Minister:

Attn: Director of Indian Affairs
--

Attached is a letter addressed to the Prime Minister, dated June 24th, from Mrs. J.F.Sweeney, 2503 - 15th St.N.W., Calgary, claiming that her husband, a contractor, constructed several Indian Schools in the late 1920's and that he has not yet had a refund of a deposit he made on this work, for the construction of a school at Gleichen, Alta. Also attached is an acknowledgment to Mrs. Sweeney from the Prime Minister's Secretary.

If this claim is true, it seems incredible. As this was referred to us from the Prime Minister's Office, please have the reply to Mrs. Sweeney prepared for the Minister's signature.

DEPUTY MINISTER

We have received Mr. Adams' memorandum of June 30th enclosing letter from Mrs. J.F. Sweeney, Calgary, Alberta.

The information contained in her letter is so indefinite that it is not possible for us to identify the matter to which she refers. Therefore, we have sent an Army Signal to our Regional Supervisor, Mr. Gooderham, who was the Indian Agent at Gleichen during the period mentioned in Mrs. Sweeney's letter. We hope to have some information from him within the next day or so. As soon as he replies we will advise you further.

Director.

Rev. Canon H. G. Cook.

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ont.

Dear Colonel Neary:

Frigidaire -
Principal's Residence,
Old Sun School, Gleichen.

When Reverend E. S. W. Cole assumed the appointment of Principal at Old Sun School, he purchased from Mrs. House, the widow of his predecessor, a frigidaire for the Principal's quarters at a cost of \$150.00.

As the provision of such equipment for the Principal's quarters at a Government-owned school is normally a matter for the Department, will you please advise me whether you can see your way clear to reimbursing Reverend E. S. W. Cole for his outlay on this frigidaire so that this equipment would be School property rather than the personal property of the Principal.

Many of our prospective Principals, particularly those with families, are not in a financial position to purchase refrigerators, electric stoves, etc. on assuming appointments and I am certain that you will appreciate that the situation is rendered much easier if such equipment can be provided by your Department in the Government-owned schools.

Yours truly,

Henry G. Cook

Henry G. Cook.
Superintendent.

Mr. W.P.B. Pugh, Superintendent,
Indian Agency, Gleichen, Alberta.

The following is an extract from a letter
received from Canon Cook, Secretary of the M.S.C.C:

" Frigidaire -
 Principal's Residence
 Old Sun School, Gleichen

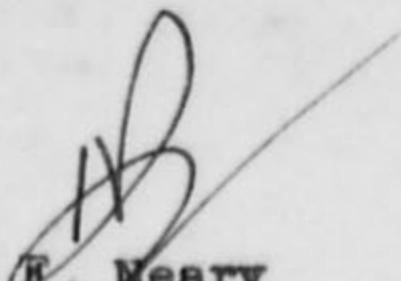

When Reverend E.S.W. Cole assumed the appointment of Principal at Old Sun School, he purchased from Mrs. House, the widow of his predecessor, a frigidaire for the Principal's quarters at a cost of \$150.00.

As the provision of such equipment for the Principal's quarters at a Government-owned school is normally a matter for the Department, will you please advise me whether you can see your way clear to reimbursing Reverend E.S.W. Cole for his outlay on this frigidaire so that this equipment would be School property rather than the personal property of the Principal."

If you consider that the amount involved is reasonable, you should obtain as much information as you can regarding the type of machine secured and

-2-

also a receipt from Mrs. House, acknowledging the payment made by Mr. Cole. You should prepare the usual voucher and submit it for payment.

Bernard E. Neary
Superintendent of Education.

Department of Mines and Resources,
Ottawa.

Dear Colonel Neary:

Re: Old Sun Indian Day School.

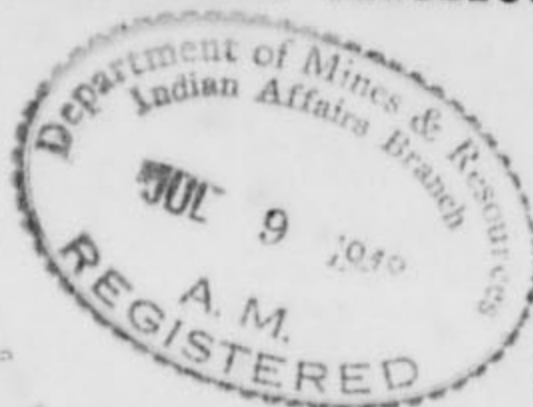

Due to the over-crowded condition of the two classrooms at the Old Sun Residential School, and upon the recommendation of the School Inspector, the Principal has been making an effort to set up a third classroom.

I understand that a requisition for desks, etc. has been submitted, but could you please let me know what progress is being made in supplying the necessary equipment for a third classroom.

Yours faithfully,

Henry G. Cook

Mr. W.P.B. Pugh, Superintendent,
Indian Agency, Gleichen, Alberta.

We are advised by the Secretary of the M.S.C.C. that it is the intention to provide a third classroom at the Old Sun Day School during the academic year 1948-49.

Major Clark states that some desks and blackboards will have to be supplied. Please let us know the size of the blackboards that will be necessary and also the number of desks. The latter are made in three sizes, large, medium and small.

Major Clark also states that it will be necessary to supply some wallboard for partition and possibly some flooring. The expenditure in this connection should not be large and you may arrange for local purchase.

Bernard F. Neary
Superintendent of Education.

Gentlemen:

Reference is made to our Departmental Purchase Order 23827 dated October 27th, 1947, for certain Barn equipment which was to be shipped to Rev. John W. House Principal, Old Sun Residential School, Gleichen, Alberta.

In this connection, I am advised by the Indian Affairs Branch, Ottawa, that the equipment has not been supplied to date and also that they will not now require same. The Branch have requested cancellation of this purchase order. Therefore, I wish to advise officially of the cancellation of this purchase order.

Yours very truly,

W. M. VINCENT

Mark your reply File: Bkft-2

Colonel B. F. Neary,
Supt. of Welfare & Training,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ont.

Dear Colonel Neary:

Heating of Water
Old Sun Indian Residential
School, Gleichen, Alberta.

At the above school the hot water is heated in a jacket heater separate and distinct from the large boilers producing the heat for the buildings.

As it would seem more economical from the standpoint of fuel consumption to utilize the waste heat from the boilers for heating the hot water during the normal heating season, the Principal was asked to look into the matter. He reports that a local plumber considers that this would be too expensive a method because the coils would get quickly corroded and the expense of cleaning them out would not justify their usefulness.

I am not satisfied that the hot water coils would corrode any quicker if incorporated in the main boilers than they would in a separate heater and, in the interest of saving fuel, I would appreciate if you could arrange that the heating engineers of the Department give the matter study at the first convenient opportunity and let us know, through you, what their views are.

Yours truly,

Henry G. Cook

This will confirm my Army Message of the
27th -

"Retel P. J. Sewwney was head of Windles Construction Company who erected Old Sun School Blackfoot Stop He thinks deposit was not returned on completion of job Stop Your files should indicate difficulties in completing Old Sun School Stop Writing"

Upon receipt of your message of the 5th instant, a letter was directed to Mr. Sweeney and the matter was forgotten until the arrival of your second wire on the 27th. Then I made a point of finding this man.

He admitted he received the letter, but stated that his health was very bad and he could not attend to business as he should. I realized this and I also recollected that I had seen him many years ago on the Blackfoot Reserve.

He admitted that his wife had written a letter to Ottawa, which, no doubt, called for the information that you asked me to get. Mr. Sweeney claims that he took over the Windles Construction Company at the death of Mr. Windles at the time the Old Sun School was erected, and so far as he can remember the Company properly completed this contract, therefore the ten per cent deposit should have been returned. He said that the Windles Construction Company erected many residential schools.

Mr. Sweeney stated that he and his wife were now in dire circumstances. He is nearly seventy years of age and was recently a patient of the T.B. San. I promised him that I would give you this information. I told him that I doubted that if at this late date, he had any claim which could be met.

Ottawa, August 9, 1948.

Mrs. J. F. Sweeney,
2503 - 15 A Street N.W.,
Calgary, Alberta.

Dear Madam:

I desire to refer to your letter of June 24th addressed to the Prime Minister and also the acknowledgment of his Secretary dated June 29, 1948.

I understand that Mr. G.H. Gooderham, Regional Supervisor of Indian Agencies for Alberta, interviewed your husband recently in regard to the matter.

From the information contained in your letter, it is understood that you refer to the erection of the Old Sun's Indian Residential School on the Blackfoot Reserve near Gleichen, Alberta, in the year 1930.

Our file indicates that Wyndels Construction Company went into liquidation before the building was completed and the Winnipeg Trustee Company of Canada, Winnipeg, Manitoba was appointed to wind up the business with the Department in connection with the Old Sun's School.

In a letter dated July 21, 1930, the Winnipeg Trustee Company of Canada informed us in part as follows:

"Please find enclosed two certificates No. 11 and 12 totalling \$24,528.63. We also enclose a list of the different amounts due to sub-contractors with authorization from the Wyndels Construction Company to pay these amounts out of these certificates and also out of the deposit made by the Wyndels Construction Company".

Indian Affairs. (RG 10, Volume 6361, file 758-5, part 13)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

The following is a statement of the final settlement:

Certificate No. 11	\$14,528.63
Certificate No. 12	<u>10,000.00</u>
TOTAL:	\$24,528.63
Security Deposit	<u>13,544.75</u>
TOTAL DUE CONTRACTORS:	\$ 38,073.38
Payment of Accounts of Sub-contractors	<u>31,882.03</u>
BALANCE DUE:	\$ 6,191.35

A cheque for this latter amount was sent to the Winnipeg Trustee Company of Canada to close the transaction.

You will note that the Security Deposit was required in connection with the indebtedness of the firm.

Yours faithfully,

Jas. A. MacKinnon.

Memorandum:

DEPUTY MINISTER.

I desire to refer to Mr. Adam's memorandum of June 30th and our acknowledgment of July 5th with reference to a letter received by the Minister from Mrs. J. F. Sweeney of Calgary, Alberta. Enclosed is a draft letter for the Minister's signature. The delay in preparing this communication is due to the fact that we had to search our files and also had to communicate with Regional Supervisor of Indian Agencies, Mr. Gooderham who was Indian Agent at the time on the Blackfoot Reserve, when the Old Sun's Residential School was erected. Mr. Gooderham interviewed Mr. Sweeney, husband of the lady by whom the letter of June 24th was signed. Mr. Sweeney made the following statement to Mr. Gooderham:

" He admitted that his wife had written a letter to Ottawa, which, no doubt, called for the information that you asked me to get. Mr. Sweeney claims that he took over the Windles Construction Company at the death of Mr. Windles at the time the Old Sun School was erected, and so far as he can remember the Company properly completed this contract, therefore the ten percent deposit should have been returned. He said that the Windles Construction Company erected many residential schools.

Mr. Sweeney stated that he and his wife were now in dire circumstances. He is nearly seventy years of age and was recently a patient of the T.B. San. I promised him that I would give you this information. I told him that I doubted that if at this late date, he had any claim which could be met".

Indian Affairs. (RG 10, Volume 6361, file 758-5, part 13)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

On reviewing our files at the time the Old Sun's School was completed in July of 1930, we can find no reference to Mr. Sweeney's name. The information contained in the draft letter which we are forwarding to you has been obtained from our own file.

Director.

Attention Bernard F. Neary Esq., Supt. of Education.

Re Old Sun Indian Residential School,
Stoker.

I am in receipt of your letter of the above file dated July 5th last which arrived when I was on two weeks holidays. I beg to state that I have shown Rev. Cole the contents of your letter and he is well aware of the conditions as stated therein.

For your information I enclose a copy of the original Proposal Forms as set out by the Iron Man Engineer who visited the school. I think this form gives all the details and information that you may require.

It is my opinion that the school would soon save the cost of this equipment in being able to buy much cheaper coal, also the school would be better heated.

W. P. B. Pugh,
Supt.

Department of Mines and Resources,
Departmental Purchasing Agent,
Ottawa, Ontario.

Attention: Mr. W. M. Vincent,

Dear Sir:

This will acknowledge your letter of July 2, wherein you request cancelation of purchase order 23827 of October 27, covering a manure carrier, etc., for the Old Sun Residential School, Cleichen.

We sincerely regret the delay in making delivery of these goods, which we presume was resultant in the cancellation. Please accept our apologies for not being of service to you in this respect.

Yours truly,

BEATTY BROS. LIMITED

Re file: 74296-15/0

Department of Mines and Resources,
Departmental Purchasing Agent,
Ottawa, Ontario.

Attention: Mr. W. M. Vincent.

Dear Sir:

On July 2 you wrote us in connection with your file 74296-15/0 and requested that we cancel purchase order #23827 of October 27, 1947, covering barn equipment which was to be shipped to Rev. John W. House, Principal, Old Sun Residential School, Gleichen, Alberta.

As you no doubt are aware we were obliged to have these goods made up on special order at our factory, and unfortunately they were already enroute to us when we received your request for cancellation.

We now have them in stock in Edmonton, and would greatly appreciate if you would forward your authorization to apply them against the original order. This class of goods is not saleable as they are made up particularly for use on a litter carrier track which we no longer handle for this purpose.

We are forwarding a copy of this letter to Rev. John W. House so that he will have this information, and we shall be pleased to hear from you at your convenience.

Yours truly,

BEATTY BROS. LIMITED.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Re: Purchase Order 23827

The above was issued to Beatty Brothers on October 27th, 1947 and covered certain equipment for the barn at the Old Sun Residential School.

The Company has never supplied the items and the management now states that they are not absolutely essential and they recommend that the purchase order be cancelled. Please arrange for this.

MEMORANDUM:

Mr. B.F. Neery,
Supt. of Education,
Indian Affairs Branch.

Reference is made to your memorandum of June 29, 1948 copy of which is attached for your convenience.

On July 2, 1948, I wrote to Beatty Brothers Ltd., Edmonton, requesting them to cancel Departmental Purchase Order #23827 dated October 27, 1947 and copies of this letter were forwarded to yourself and Mr. W. Lauchlan, Chief Treasury Officer.

I now attach copies of two subsequent letters dated July 2 and July 16th, 1948 respectively, received from Beatty Brothers dealing with the subject of cancellation.

In view of the firm's representations made in their letter of the 18th ultimo, I would be glad to receive your instructions as to the course of action you wish to take in the matter.

The Superintendent.
Blackfoot Agency. Gleichen.

Dear Sir:-

Excerpt from letter rec'd from Reverend Canon H.G.Cook. d/27/7/48..

Vacuum Cleaner:- " Further to my letter of the 22nd July, the Indian Affairs Branch request that you give complete particulars of the vacuum cleaner you need to Mr Pugh, the local Agent, and ask him to forward a requisition to the Department for this machine. I am assured by the Indian Affairs Branch that when this requisition is received, every effort will be made to authorize its early procurement.....".

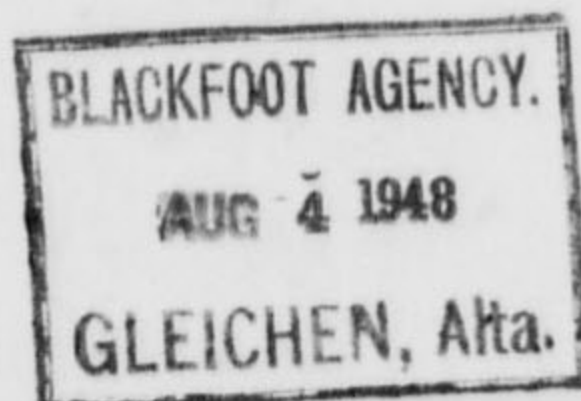

Particulars: Our model.#800. Serial No H-101632.

I recently approached the Hoover Firm representative at the Hudson's Bay departmental store, Calgary, and he informed me that our present machine is of no commercial value on a credit of new machine as the one presently in use at this school is about 20 years old.

Herewith attached letter from Hoover representative with price list folder... \$136.00 less 15% discount.

It will be appreciated if your Department can give this matter favourable consideration.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Attached is an account amounting to \$150. covering the cost of a second-hand Westinghouse refrigerator purchased for use in the principal's living quarters at the Old Sun School.

Indian Superintendent Pugh and the principal of the school consider that this is good value and the principal has already paid for the machine. We promised to give the matter consideration when he submitted the receipted account.

We feel that the refrigerator is required in the principal's living quarters at this school and we would, therefore, appreciate it if you would issue a purchase order so that the account may be paid. The coding is as follows: 516-758-12-415.

Ottawa, August 9, 1948.

Mrs. J. F. Sweeney,
2503 - 15 A Street N.W.,
Calgary, Alberta.

Dear Madam:

I desire to refer to your letter of
June 24th addressed to the Prime Minister and also
the acknowledgment of his Secretary dated June 29, 1948.

I understand that Mr. G.H. Gooderham,
Regional Supervisor of Indian Agencies for Alberta,
interviewed your husband recently in regard to the matter.

From the information contained in your
letter, it is understood that you refer to the erection of
the Old Sun's Indian Residential School on the Blackfoot
Reserve near Gleichen, Alberta, in the year 1930.

Our file indicates that Wyndels
Construction Company went into liquidation before the
building was completed and the Winnipeg Trustee Company
of Canada, Winnipeg, Manitoba was appointed to wind up
the business with the Department in connection with the
Old Sun's School.

In a letter dated July 21, 1930, the
Winnipeg Trustee Company of Canada informed us in part
as follows:

"Please find enclosed two certificates No. 11 and 12
totalling \$24,528.63. We also enclose a list of the
different amounts due to sub-contractors with authorization
from the Wyndels Construction Company to pay these amounts
out of these certificates and also out of the deposit made
by the Wyndels Construction Company".

Indian Affairs. (RG 10, Volume 6361, file 758-5, part 13)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

The following is a statement of the final settlement:

Certificate No. 11	\$14,528.63
Certificate No. 12	<u>10,000.00</u>
TOTAL:	\$24,528.63
Security Deposit	<u>13,544.75</u>
TOTAL DUE CONTRACTORS:	\$ 38,073.38
Payment of Accounts of Sub-contractors	<u>31,882.03</u>
BALANCE DUE:	\$ 6,191.35

A cheque for this latter amount was sent to the Winnipeg Trustee Company of Canada to close the transaction.

You will note that the Security Deposit was required in connection with the indebtedness of the firm.

Yours faithfully,

J. A. MacKinnon
Jas. A. MacKinnon.

Refrigeration Unit - Old Sun Residential School.

I have had an opportunity of discussing with Canon Cook the requirements of the management of this school for a Walk-in Refrigerator. We have recently closed an Anglican Residential School in northern Ontario and it is possible that a transfer of funds might be arranged so that such refrigeration can be installed.

Before a final decision is reached, however, I would suggest that you discuss the matter with the Principal of the School and make a firm recommendation to the Department as to the type of unit required and also as to its possible cost.

Bernard F. Neary,
Superintendent of Education.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Attached is an account amounting to \$150. covering the cost of a second-hand Westinghouse refrigerator purchased for use in the principal's living quarters at the Old Sun School.

Indian Superintendent Pugh and the principal of the school consider that this is good value and the principal has already paid for the machine. We promised to give the matter consideration when he submitted the receipted account.

We feel that the refrigerator is required in the principal's living quarters at this school and we would, therefore, appreciate it if you would issue a purchase order so that the account may be paid. The coding is as follows: 516-758-12-415.

Bernard F. Neary

Memorandum:

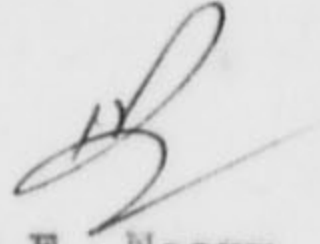

DEPARTMENTAL PURCHASING AGENT

Re: Your file 74296-15-0 - Purchase Order #23827

With reference to your memorandum of August 4th in connection with the above, it is noted that Beatty Brothers were obliged to have the barn equipment for the Old Sun School manufactured on a special order. In view of this we feel that we should accept the equipment and I would appreciate it if you would forward me a memorandum so that when the account is presented, we will be able to have passed by the Treasury.

Bernard F. Neary
Superintendent of Education.

Old Sun Indian Residential School

With reference to our letter of June 10th and your reply of June 21st, regarding barn equipment ordered for the Old Sun School, we decided to cancel the order, but have recently been advised by Beatty Brothers that they had to have the equipment made on a special order and if we do not accept the equipment, they will have considerable difficulty in disposing of it.

Under these circumstances we are authorizing the Purchasing Agent to advise Beatty Brothers that they can ship the equipment to the Old Sun School.

Reggin Roofing and Metal Works
177 11th Ave. West
Calgary, Alberta

Re. Old Sun School Roof

I wish to advise you that a Mr. Jack Miller called during the absence of Rev. Cole, Principal, Old Sun School, and myself, in regards to the complaint of the above roof. Mr. Miller left his phone number, which I called last weekend, and Mrs. Miller informed me that he had broken his back and would be in Hospital for some time. In the meantime, for your information, Mr. Miller put sleeves in the roof drains, and one in particular broke down the original sleeve and caused a young flood on the first floor. I have had to have Mr. Micheal, the local plumber make a temporary repair of this. The sleeves in the roof are all made of galvanized iron and no doubt they will all need replacing.

As I informed you, considerable tar has run off the roof, and into the drains of the School and has caused considerable trouble in the plugging of same under the basement floor, where they are very hard to get at.

You realize the urgency of this situation and I ask you to contact somebody in connection with Mr. Millers work.

Re. Old Sun School Roof.

The attached letter to the Reggin Roofing and Metal Works, Calgary, is self explanatory.

I beg to inform you that the running of the tar into the School sewer system, in my opinion is a major difficulty, and I am not quite clear how it will be overcome. I trust the Reggin Roofing Co. will be able to give us some satisfaction.

In the meantime, if an Engineer from your Department happens to be available, I would appreciate him calling at the Old Sun School in this connection.

Colonel B. F. Neary,
Supt. of Welfare & Training,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

1949-50 Departmental Estimates
Old Sun Indian Residential School
Gleichen, Alberta

It will be appreciated if provision for the undermentioned services (which are listed in order of importance) at Old Sun Indian Residential School, Gleichen, Alta., is made in your 1949-50 estimates:

	<u>Estimated Cost</u>
(a) <u>Complete overhaul of water and heating plant</u>	\$1,000.00
The hot water pipes and radiators are corroded with "sludge" and need cleaning out. The two cold water compression tanks and the hot water tank require to be cleaned out.	
(b) Installation of toilet and plumbing facilities in the Farmer's cottage and the provision of furniture for this building	??
(c) Painting of Farmer's Cottage and painting of barn and outbuildings, including chicken house, brooder house and manual training workshop	1,500.00
(d) Provision of approximately 3,000 feet, b.m. of lumber for repairing implement shed, cattle shelter, tool shed and barn	200.00
(e) Painting exterior of window and door frames of school building.

Attention: Mr. J. W. Johnston

Gentlemen:

Receipt is acknowledged of your letter of July 16, 1948, respecting our Purchase Order No. 23827, dated October 27th, 1947, file No. 74296-15/0, covering barn equipment for Rev. W. House, Principal, Old Sun Indian Residential School, Gleichen, Alberta.

I am now advised by the Indian Affairs Branch, Ottawa, that they are prepared to accept shipment of the equipment as per our purchase order in view of the fact that you went to the trouble of having the goods made up on special order by your factory, and have same in stock at Edmonton.

Steps will be taken to have the purchase order re-instated with the Chief Treasury Officer, Indian Affairs Branch, Ottawa, and in the meantime, you may proceed to ship the materials.

Yours very truly,

W. M. Vincent,
Departmental Purchasing Agent.

CARE

Dear Colonel Neary:

1949-50 Departmental Estimates
Old Sun Anglican Indian
Residential School
Gleichen, Alberta

1. On 26th August, 1948, I wrote requesting that provision be made in your Departmental Estimates 1949-50 for certain specified services at the above school.
2. The Principal of this school has just drawn to my attention the fact that Miss McCready of the Nutrition Division, Department of National Health and Welfare, recommended the provision of the following equipment at this school:
 - (a) Potato Peeler
 - (b) Slicing machine
 - (c) Mixing machine
 - (d) Hood, with fan, over kitchen stove
 - (e) Metal containers for storing flour — *luxury*
 - (f) New kitchen sinks for washing children's dishes — *What is the approved type?*
3. The Principal further points out that a new kitchen range is needed as the lids and top surface of the present range are warped and the ovens do not bake properly despite care and caution. I believe that your Mr. C. F. Clarke is familiar with the condition of the present range.
4. It will be appreciated, therefore, if the items mentioned in paragraphs 2 and 3 above are added to the services listed as required at this school in my letter of 26th August, 1948.

Yours truly,

Henry G. Cook

File: Blft-2

Colonel B. F. Neary,
Supt. of Welfare & Training,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Provision of Stoker
Old Sun Anglican Indian
Residential School, Gleichen, Alta.

On 20th August during a discussion in your office you advised me that approval had been secured for an expenditure of \$1,967.75 for installation of a stoker at Old Sun School.

I passed this information on to the Principal and have a letter today from him pointing out that it will be a great help to him in the matter of coal procurement if your local agent can receive official word from you about this expenditure at an early date. The situation is that the mileage from the school to the Indian Reserve Mine via the ferry (replacing the bridge carried out last spring and which will not be replaced until late next winter) is only 24 miles but, after the ferry ceases operating and until the new bridge is in, the distance involved through necessary circuitous route is 45 miles. The saving of 21 miles one way or 42 miles per round trip is an important consideration in hauling the tonnage required from the mine to the school.

The Principal naturally is hesitant about starting to lay in a stock of this coal (which is of little use for hand-firing) until your local agent receives official notification from you about the stoker installation and so I would appreciate if you could let your local agent have this information as early as possible.

Yours truly,

Henry G. Cook

Dear Sir:-

Please find enclosed (6) six Pressure
Vessel Inspection Certificates covering boilers
located in the Schools and Hospitals at Gleichen
and Cluny.

RE: Boilers A10668 and A10669
old Sun School.

I wish to draw your attention to repairs
which are absolutely necessary to maintain these
two boilers in safe working condition. Badly corroded
threads in the 2" pipe couplings which form the wash-
out holes at all four bottom corners of the fire box
water legs to be repaired by re-welding new 2" coup-
lings to the boiler. New 2" brass plugs may also be
necessary to insure a tight fit in the new couplings.

The brickwork foundations under the water
legs of the fire boxes are also in poor condition.
The outer bricks have been effected by dampness and
are falling to pieces leaving the inner bricks ex-
posed to similar treatment.

This condition could be averted by removing
the defective outer bricks and applying a substantial
cement facing to both sides of the brickwork under
the water legs.

RE: Boiler A3212
Cluny School.

The brickwork in the combustion chamber of
this boiler is in poor condition and requires to be
re-built.

Trusting you will have the above mentioned
repairs attended to before the boilers are again
placed in service for the winter months.

Yours very truly,

James A. Clark
J.A. Clark,
Boiler Inspector.

Re. Refrigeration Unit - Old Sun School

I am in receipt of your letter of Aug. 20, last,
and beg to submit the following:

Re size

I would state that Rev. Coles is of the opinion that the present Walk-in Refrigerator is large enough. See his letter dated Aug. 23 last, addressed to Rev. Cannon H.G. Cook. I am of the same opinion as Rev. Coles, that with a new Blower type unit, and alterations to the present inside shelving, it will be ample for this unit.

Re. Unit

The present unit has completed over 18 years of service and is of the old type, and would appear to in need of repairs. I am of the opinion that a new Blower type unit, will give an effective job, after having discussed the matter with Bruce Robinson Electric Ltd., and Rev. Coles.

I recommend that the enclosed quotation be accepted, in the sum of \$508, that a further sum of \$125 be allowed for the building of a platform for the motor, to put same on window level for ventilation purposes, and also shelving for the inside of Refrigerator, and any unforeseen extras.

The sum of \$125 may not be used in full, but in dealing with this Refrigerator Unit, there is always the unforeseen.

Enclosed herewith is Bruce Robinsons quotation.

Gleichen, Alta.

Dear Sir:-

Night watchmen / Old Sun School

While, as in other Indian residential schools no time and labour is spared here in the safety and welfare of the children I am wondering if your Department would consider allowing us a grant of \$40.00 per month for six months to engage the services of a night watchman. My reasons for this request are :-

- a) For the general welfare and safety of the children.
- b) While the installation of a mechanical stoker is a fuel and labour saver this machine none the less does require periodical checks as clinkers must frequently be removed or shaken up.
- c) While we encourage our graduates to visit their school we do find others wandering hither and yon in the late evenings and, in my opinion, an hourly inspection of barns and outbuildings as well as the main plant would be most assuredly in the interests of the Government.
- d) Our increased pupilage to one hundred and thirty warrants strict vigilance twenty four hours of the day.
- e) Should the Department accede to this request I will employ Bill Weasel Child - an ex-pupil of 20 yrs, and I think you may agree a reliable and hard working chap. Apart from giving him employment for the winter he should earn a small grub stake for the spring and summer's work.

Should you consider this claim as feasible may this letter be endorsed or a covering letter forwarded to the Department for their consideration.

Yours truly,

c/Indian School Admn. Ottawa.

Re. Night Watchman at Old Sun School

I beg to enclose herewith, a letter from the Rev. M. Cole, requesting a Night Watchman for the Old Sun School. The letter is self explanatory. The school as you are aware is supposed to be a fire proof construction, but Rev. Cole does not put all faith in this, he would like to have the Night Watchman for the whole school farm as well as the school.

This, I understand has never been asked for before in the Old Sun School, but it appears to be a reasonable request.

Respectfully submitted

Re: Old Sun School.

Dear Sir:

We have your correspondence re above, and have been able to contact Mr. Miller of the Barrett Co., since he arrived home from hospital; we were awaiting his report before replying.

It would appear that the fumes from the sewerage system is eating the galvanized iron sumps, otherwise they would hardly break down with the pushing in of gravel stop sleeves.

These were originally to be copper, but at the time this work was carried out, due to war restrictions, copper was not available, and I was instructed to use galvanized iron. Under these circumstances, we believe the department should bear a portion of the cost, at least that of the sumps. We would have these made, and at as early a date as possible change them at our expense. It would be over two weeks before a crew would be available, but we would sooner have colder weather to make a better job of scraping the gravel and rejoining the roof.

Awaiting your early reply.

Yours truly,

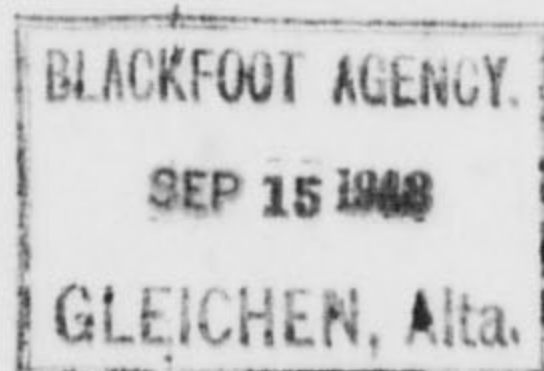

REGGIN ROOFING & METAL WORKS.

ATTENTION Mr. B.F. Neary

Reference to your letter of Sept. 2, last, I beg to enclose herewith, a copy of a letter received from the Reggin Roofing and Metal Workes. It would appear, that owing to War Time restrictions, galvanized iron was used for the drain sumps instead of copper, which was originally to be used.

The Reggin Roofing Co. will put these sumps in at their own expense, if we supply them. I would recommend that this be carried out.

Re. Purchase Order
No. 33671 & 33679
Blowey-Henry Co. Edmonton

I am in receipt of the invoices in connection with the above orders, billing Army double deck beds at \$13.50 each. For your information I enclose a page from the Army & Navy (Regina) Fall Catalogue, which shows exactly the same bed at \$6.95 each, I have checked both beds and find them the same, allowing \$1.05 for freight this still leaves an excess charge of \$5.50 per bed.

Before passing the accounts for payment, I would like to have your comments.

Respectfully submitted

W.P.F. Pugh
Superintendent

DEPARTMENTAL PURCHASING AGENT.

RE: Purchase Order # 33671 -
Old Sun Residential School
Purchase Order # 33679 -
Crowfoot Residential School.

Included on each of the above Purchase Orders was a request for double deck army beds and I enclose for your consideration a copy of a letter received from Superintendent Pugh together with a page of the Army and Navy Fall Catalogue.

I would appreciate it if you would let me know what answer should be made to Mr. Pugh.

Philip Phelan,
Chief, Education Division.

RE. Old Sun School Roof

Reference your letter of Sept. 27,
I beg to inform you, the sumps for the Old Sun
School roof will cost about \$9.50 each, and approx-
imately 12 of these will be needed. It is possible
that some will not need replacing, this is hard to
check until the actual work is started.

Re P.O. 33679 - I.A.B. File 104-5-1 (E.1.)
Crowfoot I.R.School.

Replying to Mr. Phelan's memorandum of the 7th instant, the above order was placed on the basis of acceptance of lowest of five tenders received by this office from Alberta sources of supply. The price charged (\$904.80) is reasonable for new equipment of the class and kind offered by the successful tenderer (Blowey-Henry Co., Edmonton).

We did not request a quotation from Army & Navy Dept. Store, at Edmonton, or Calgary, as in the past this firm has not answered our communications. Likewise we did not ask Army and Navy Stores, Regina, to quote, as we have been instructed to supply goods for delivery in Alberta from firms in the same province, where this is possible.

Mr. Pugh's criticism would have been more constructive if he had advised us before the purchase was made instead of after, that Army & Navy Stores were able to supply the bedding equipment

Indian Reserve.

Oot 20th 1948

19

We, the undersigned, Chief and Councillors of the
Blackfoot Band of Indians owning the Reserve situated
at Gleichen, in the Blackfoot
Indian Agency, in the Province of Alberta.
at a council summoned for the purpose, according to the rules of the
Band, and held on the said Reserve, this 20th day
of October, A.D. 1948, in the presence of the Indian
Agent for the said Reserve, representing thereat the Minister of
Mines and Resources for the Dominion of Canada;

Do hereby for ourselves, and on behalf of the Indian owners of
the said Reserve, request that a sum not exceeding Six-
hundred Dollars, be paid out of money standing
to the credit of this Band, for the purpose of assisting in the
re building of a ska ting rink at each of the Residential
Schools located on the Blackfoot Reserve, The sum of
Three hundred dollars to the Crowfoot School and Three
hu dred dollars to the Old Sun School. Accounts to
pass thru the Indian Office.

Signed and sealed in the

Further to our memorandum of August 19th, with reference
to the above, you are advised as follows:-

On the occasion of a recent visit to the Blood Reserve,
our Mr. Hargreaves called at the above and examined the domestic
hot water equipment. The following report and recommendations are
a result of the investigations carried out.

The domestic hot water heating and storage equipment,
consists of one upright boiler approximately 28" in diameter by
5'-0" high with 24" diameter grates and 52'-3" diameter tubes.
This unit is connected to an upright domestic hot water storage
tank 48" in diameter by 9'-6" high. The boiler tubes were renewed
last March and since the time that Mr. Hoey's memorandum was re-
ceived, the piping connections between the boiler and tank have
been dismantled and cleaned. Some new pieces of pipe were installed
and at present the operation is more or less satisfactory.

The boiler tubes and piping connections had become en-
crusted with scale, due to some extent to the hard water, but due
largely to the fact that no control of the water temperature was
provided.

The draft door of the boiler was missing and when located,
was found to be so badly warped that it was impossible to obtain a
good fit. This results in the fire burning uncontrolled. At times
when the hot water demand is light, the water temperature reaches
a critical high and steam forms in the upper section of the boiler
shell. Since there is no pressure relief valve on the system, an
element of danger exists. It was also observed that a valve between
the return connection from the hot water tank and the return connec-
tion on the boiler had been installed and was partially closed, thus
throttling circulation between the two units.

Due to such a combination of circumstances, rapid scale
formation has taken place. It has been demonstrated beyond doubt,
that when domestic water is heated to a point exceeding 140 degrees,
undue scaling is the inevitable result.

Since the expense of re-tubing the boiler has been in-
curred and since, with the exception of the draft door, the boiler
appears to be in relatively good condition, it is felt that this
unit could be used until further scaling reduces its efficiency to
the point where new equipment is warranted, provided that the follow-
ing revisions and additions are carried out.

R.A. Gibson, Esq.,
Director,
Lands and Development Services Branch,
Department of Mines and Resources,
Ottawa, Ontario.

.2

Indian Affairs. (RG 10, Volume 6361, file 758-5, part 13)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

1. Provide and install an approved pressure relief valve set to release at 65 lbs per square inch and located where indicated on the drawing.
2. Provide a new draft door for the boiler or repair the existing door in a manner suitable so that it may be closed tightly.
3. Provide a coal blower to be controlled by an Aquastat set on the supply line from the boiler to the tank. This Aquastat shall be arranged to control the operation of the blower which in turn will keep the water temperature within a reasonable limit, thereby giving protection from scale due to over-heating.
4. Re-arrange and replace some of the piping between the boiler and tank and remove the gate valve on the re-circulating line.

If the above operations are carried out, it is considered that the existing equipment can be expected to give some additional years of service. When a new heater is required, the blower and Aquastat can be re-used to the same purpose as hereinbefore outlined.

The drainage system was brought to the attention of our officer during his visit. It was reported and verified by our officer, that the roof drains carrying off the roof water, were of a design which permitted particles of tar and gravel to be carried into the system during rain storms. This has resulted in blockages to some parts of the underfloor drains and in some manner not yet clear, has caused a blockage from the sanitary waste from the principal's quarters. It is our intention after a further study has been given to this part of the investigation, to report more fully and make a recommendation which it is hoped will provide a solution.

T. S. Mills
Chief Engineer.

November 24, 1948.

Mr. W.P.B. Pugh,
Superintendent, Indian Agency,
Gleichen, Alberta.

We are in receipt of your voucher No. 669
covering the cost of materials supplied for the root-house and
lockers at the Old Sun Residential School.

Referring particularly to the root-house, the
following statement was made in your letter of June 21, 1948:

"Repair root house roof only. This roof is now caving in with
the excess moisture of this past spring and I might say that this
has priority. It is a question of lumber with planking for the
roof. No estimate available; cost will be kept within reason."

Further in your letter you wrote as follows:

"May I suggest that you allow me to purchase the materials locally
and employ local skilled help and have account forwarded immedi-
ately on completion of the work. I can assure you it will
have my close supervision".

On reviewing your voucher it is found that you
expended an amount of \$348.42 for material. Before we can have
this account passed we will have to submit the matter to the
Purchasing Branch and they will naturally inquire as to why such
a heavy expenditure was incurred without first submitting a
requisition to them and securing a purchase order in the regular
way.

We inferred from the paragraphs of your letter
quoted above, that the expenditure would be much less than the
amount which has been spent.

.... You

You are aware of the purchase regulations and when you found out that the materials were going to cost so much, you should have forwarded a requisition here so that we could obtain the necessary purchase order. As the matter now stands could we please have a detailed explanation for submission to the Departmental Purchasing Agent.

Also returned are your voucher 669 and attached accounts. Please submit a separate voucher for the locker materials, as being under \$100.00; this can be paid at once.

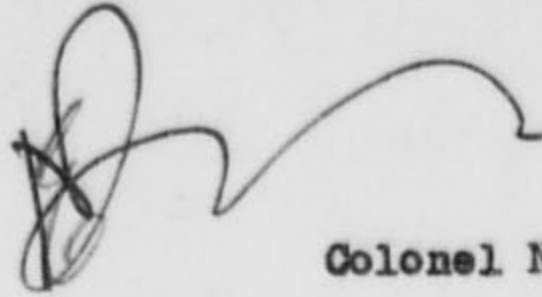

Bernard F. Neary,
Superintendent of Education.

Colonel Neary:

1339

Old Sun Indian Residential School:

Yesterday I looked into parts of this school and had a short talk with the Principal and later with Mr. Superintendent Pugh who expressed satisfaction with present conditions.

The Alberta School Inspector visited the school recently, but not since the appointment of the newest teacher who replaces one whose adjustment to residential school routines was declared inadequate.

The Principal is pleased with the new classroom formed from the room where a platform was originally built in. He found that the floor under the platform was harder to surface than anticipated. The present positioning of the blackboard that was installed should be corrected.

I noted that a good type of toilet seat has been installed in the boys' basement, but that the five bowls are not partitioned singly. One bowl was covered with a plank, as though it were plugged. In another there was a piece of wrapping paper. I did not see any toilet tissue. You are aware of the theory that prompts these distasteful observations.

In the laundry the 10 H.P. pressure boiler is not used because (1) no employee is certified to attend to it and (2) the drier is said to be surplus to requirements. "A good heating stove would be better in its place." I think that a survey of laundry practices in this school should be taken.

The Principal made the suggestion that the curriculum is perhaps, unsuited to the needs of most pupils, but rather than tinker with this, I urge a stronger attempt to place the institutional activities on a truly instructional basis so that agriculture, machine-tending, sewing, cooking, laundry work and physical education may be properly integrated with the present book-work. Some adjustments in the last would follow.

On the evening of my visit it was "movie" night and a number of adults, Indian and White, were in attendance. Community relations appear good and we should look to develop the school as a community centre for education and recreation for resident and day pupils (and ex-pupils). A start along these lines is seen at Crowfoot.

It is gratifying to learn that Mr. Superintendent Pugh has had conversations with the Alberta School Inspector looking toward the prospect of obtaining instructors in practical subjects who will spend part of their time at the two local Indian educational centres and part at nearby white schools.

ATTENTION MR. VINCENT

Dear Sirs:

With reference to your Purchase Order #30413 dated May 21st, File #80586/15-44, covering goods to be shipped to the Principal, Old Sun Indian Residential School, Gleichen, which Order was completed some time ago, with the exception of the two Wilton Rugs, size 9x12, which we have been unable to get delivery of from the Mill until now, and since placing this Order, with the Mill, there has been an increase in price, and Rugs in question have been invoiced to us by the Mill, at their new price, which slightly changes the price on your Purchase Order from \$100.00 each to \$105.50, or in other words, makes a difference in Purchase Order of \$11.00.

We made shipment of these Rugs yesterday, to the above point, which now completes Purchase Order in question, and are enclosing herewith copy of our Invoice covering, with the other four copies going to Mr. Pugh, as directed, which we trust will be acceptable to you.

Awaiting your further favors,

Yours truly,

BLOWEY HENRY LIMITED.

RE. Old Sun School Root House
Voucher # 669

I am in receipt of your letter of the above file D/ Nov. 24, asking for an explanation in connection with the account for materials for repairs to the Root House in the sum of \$348.42. I beg to regret exceeding my authority in the purchase of this material. For your information it was just one of those repair jobs that is hard to get an accurate estimate on until the work is opened up. It was found that the whole of the roof had been covered with two layers of 3/4 inch lumber, with tar paper in between, which was completely rotted, and was rotting the cross beams, also the inside part of the wooden walls. When this work was started it was getting late in the season and as Mr. Cole had 6 tons of potatoes, 2 tons of carrots, 3 tons of turnips and 1600 lbs. of cabbage to store immediately, it was the expediency of the situation that I purchased the repairs direct without requisition.

The old roof was built 8 years ago, it was a make shift job, and one of these things that cost much more in the long run. The present roof will last definitely beyond our time. Trusting this explanation is suitable.

DEPARTMENTAL PURCHASING AGENT

Re: Old Sun Indian Residential School

Attached is an account amounting to \$348.42 covering the cost of repairing the root house at the Old Sun Residential School.

When the Indian Superintendent first wrote to us he intimated that the cost of repairing this root house would not be large and, consequently, he was authorized to proceed. When we received the account we wrote to him for an explanation and I enclose for your information a copy of his reply.

Old Sun School is a Government-owned school and we would appreciate it if you would issue a purchase order so that the account may be paid. The coding is as follows: 758-516-10-691.

Blackfoot Indian Agency,
Gleichen, Alberta.

Attn. Mr. W.P.B. Pugh, Supt.

Dear Sir:

Thank you for your letter of September 20th, 1948.

As requested by you, the writer visited your Indian school at Gleichen on October 14th.

It was found that the extinguishers in this school are not due for annual recharging until February 1949.

However, this school is inadequately protected against fire and our recommendations for adequate First Aid Fire Protection are as follows:

Sun Indian School

On Hand 2 - 2½ gallon Model C.A. Foamite fire extinguishers (new)
4 - #2 Vaporizing Liquid fire extinguishers

Require 7 - 2½ gallon Model C.A. Foamite fire extinguishers

It is recommended that the four Vaporizing Liquid fire extinguishers be removed from the school and installed in the outbuildings for their protection as Vaporizing Liquid fire extinguishers should only be used where there is an abundance of fresh air and room for the operator to keep clear of the gases formed as these gases are poisonous. However, these extinguishers will not freeze.

SUMMARY

No. of new extinguishers recommended 5 - 2½ gallon Model C.A.
Foamite fire extinguishers

Price \$23.50 each f.o.b. Toronto less Sales Tax

We would appreciate delivering any new extinguishers ordered from our Calgary office and Calgary stock at the Toronto price plus freight.

RE. Old Sun School

I beg to state I had the Fire Extinguishers checked at the above School sometime ago and I beg to enclose herewith the remarks of Mr. Clark Chidlow, representative of the La France Foamite Protection.

I did not complete a Requisition for the 5-2½ gallon Model C.A. Foamite fire extinguishers at \$23.50 each, as these are generally purchased by you through a Central Purchasing Agent. I would suggest buying 3 more extinguishers this year, 1948-49 and purchasing 2 more during the next fiscal year. This will give the school ample protection.

Re. Old Sun School Hot Water Boiler.

Reference your letter of Nov. 19, excuse my delay in replying, but getting quotations these days is like trying to get materials - just have to wait.

I beg to inform you that I have conferred with the Principal in this connection, but the Rev. Cole like myself is "very" Laymen in this Engineering business.

The enclosed quotation received from Mr. L. Michael, our local plumber and on whom we solely depend on for local repairs. He is a very competent practical man with vast local experience which does mean alot. For your information he has under his control the Salvation Army Eventide Home of about 150 people and so many matters in regards to plumbing and heating etc. are in common.

I did not make up a requisition in so far as the Blower and Aquastat control are concerned which is to be set at 140°, I have my doubts if this temperature would supply sufficient volume of hot water for wash day purposes and to get hot water to the utilities located in the extreme ends of the building. This was mentioned to Mr. A. Hardgraves when he visited the Old Sun School. In regards to the draft door, - this is in good repair and will be easily fitted.

OK

In regards to the expenditure of \$276.50, I feel this is an Engineers decision. The safety valve should be installed immediately for safety purposes at the approximate cost of \$50.00. I do feel with careful handling the present system should last for some time.

I am now insisting that the hot water boiler be cleaned out regularly. I am of the opinion that the present system should be able to carry on for some time with the installation of the safety valve and careful handling.

3	2 1/2 gallon Fire Extinguishers.		
Note: The La France Foamite Protection Company (Calgary Branch) has quoted the Principal a price of \$23.50 f.o.b. Toronto for these extinguishers. While the extinguishers should be shipped as above, the account should be forwarded to: Mr. W.P.B. Pugh, Supt. of Indian Agency, Gleichen, Alta.,			

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

Re: Old Sun School Root House
Voucher #669.

I am in receipt of your letter of the above file dated November 24, asking for an explanation in connection with the account for materials for repairs to the root house in the sum of \$348.42. I beg to regret exceeding my authority in the purchase of this material. For your information it was just one of those repair jobs that is hard to get an accurate estimate on until the work is opened up. It was found that the whole of the roof had been covered with two layers of 3/4" lumber, with tar paper in between, which was completely rotted, and was rotting the cross beams, also the inside part of the wooden walls. When this work was started it was getting late in the season and as Mr. Cole had 6 tons of potatoes, 2 tons of carrots, 3 tons of turnips and 1600 lbs. of cabbage to store immediately, it was the expediency of the situation that I purchased the repairs direct without requisition.

The old roof was built 8 years ago, it was a make shift job, and one of those things that cost much more in the long run. The present roof will last definitely beyond our time. Trusting this explanation is suitable.

(Signed) W.P.B. Pugh

Memorandum:

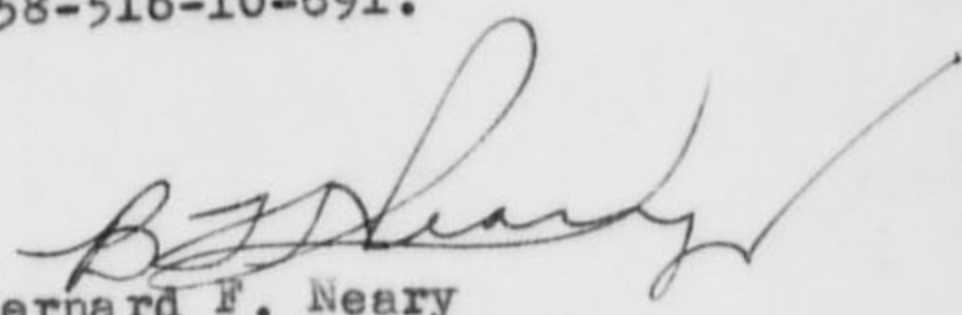

DEPARTMENTAL PURCHASING AGENT

Re: Old Sun Indian Residential School

Attached is an account amounting to \$348.42 covering the cost of repairing the root house at the Old Sun Residential School.

When the Indian Superintendent first wrote to us he intimated that the cost of repairing this root house would not be large and, consequently, he was authorized to proceed. When we received the account we wrote to him for an explanation and I enclose for your information a copy of his reply.

Old Sun School is a Government-owned school and we would appreciate it if you would issue a purchase order so that the account may be paid. The coding is as follows: 758-516-10-691.

Bernard F. Neary
Superintendent of Education.

Rev. Canon H.G.Cook, D.D.,
Superintendent,
Indian School Administration,
102 Bank Street, Ottawa.

Dear Canon Cook:

We have your letter of the 15th instant with reference to the request you have received from the Principal of the Old Sun School, Gleichen, Alta. that he be supplied with an automatic bread slicer.

I regret that owing to lack of funds at the present time, we will not be able to consider the purchase of the slicer during the current fiscal year. However, if the Principal applies again after 1st April, 1949, the matter will be given further consideration.

Yours truly,

Bernard F. Neary,
Supt. of Indian Education

Attn: Mr. W. Vincent

Dear Sirs:

Re: Purchase Order No. 30413,
Dated May 21st for \$685.40

Partial shipment of the above order went forward the early part of June and was invoiced to you on June 11th, totalling \$485.40, covering goods shipped to the Principal, Old Sun Residential School, Gleichen, Alberta, for which we have not received your cheque covering.

Since making shipment of goods covered by the above invoice, we have supplied the two Wilton Rugs size 9 x 12 on this same Purchase Order, and for which we have received settlement.

We might say that we have had some correspondence with the Principal of the above School in connection with the Bed Room Suites forwarded with 4 ft. Beds, and had a request from him to change one of these Beds for a 4'6" size, but unfortunately we were unable to make the the change and advised him accordingly. As a matter of fact we are still endeavoring to procure a Bed from the manufacturers, in order to make the change.

This may be the reason that our invoice has been held up at Gleichen, but in view of the fact that we filled the order as specified, we think settlement should be made, and trust that we may receive cheque to cover at an early date.

Trusting that the above will have your attention, we are,

Yours truly,
BLOWEY-HENRY LIMITED.

DEPARTMENTAL PURCHASING AGENT

Re: Purchase Order 30413
Your File - 80586-15-44

With reference to your memorandum of the 3rd instant attaching a copy of a letter which you received from Blowey-Henry Limited regarding non-payment of their account, we have checked the file very closely and to this date we have not received a Voucher for the first item on the account, namely, 2 Wilton rugs at a cost of \$200.00. This account was forwarded to us at the end of November, and a cheque has been issued.

Incidentally, it might be noted that the cost of the rugs was \$211.00 instead of the \$200.00 authorized on the Purchase Order.

We are communicating with Superintendent Pugh regarding the other items on the Purchase Order, and he is being directed to forward a Voucher immediately if the other items have been received at the School.

Re: Purchase Order 30413

We received your Voucher No. 749 at the end of November for the first item on the above Purchase Order, namely, 2 Wilton rugs.

We have not received any account for the other items on the Purchase Order, and Blowey-Henry Limited have written the Purchasing Department requesting immediate payment. In this connection, I quote from the letter received from the firm:

"Since making shipment of goods covered by the above invoice, we have supplied the two Wilton Rugs size 9 x 12 on this same Purchase Order, and for which we have received settlement.

We might say that we have had some correspondence with the Principal of the above School in connection with the Bed Room Suites forwarded with 4 ft. Beds, and had a request from him to change one of these Beds for a 4'6" size, but unfortunately we were unable to make the change and advised him accordingly. As a matter of fact we are still endeavouring to procure a Bed from the manufacturers, in order to make the change.

This may be the reason that our invoice has been held up at Gleichen, but in view of the fact that we filled the order as specified, we think settlement should be made, and trust that we may receive cheque to cover at an early date."

The Department considers that if the other items on the Purchase Order have been received at the School, you should certify the account and forward by air mail so that payment can be made. If the situation is as stated in their letter quoted above, we believe that the firm is sufficiently responsible to make the change whenever they receive the other bed.

Dear Sir:-

Electric pump. 110 Volt A.C.
Bruce Robinson Electric Co. Calgary.....\$75.00

For many years a hand pump was used in this school for the purposes of:-

- a) Brawing rain water from the reservoir under the laundry room.
- b) Washing out bad drains (and there are many of them)
- c) For frequent necessary changes of water in the boilers.

Note/ Owing to a break in the drains-leading-in-close proximity to the reservoir under the laundry room, drain -refuse-water runs into the rain reservoir and in consequence this must be cleaned frequently and it is practically impossible to use the ancient method of hand,rope and a pail and then have to carry the water up seven steps to be emptied.

I attach herewith a slip of information from the Bruce Robinson Company of Calgary, showing this Sump pump, which would be admirable for our use, at \$75.00

It will be appreciated if this information can go forward to Ottawa for favourable action,.

Attention Mr. W. Vincent

Dear Sirs:

Re: Purchase Order No. 30413
Dated May 21st for \$685.40

We wrote you on December 28th in connection with goods covered by the above Purchase Order as invoiced to you on June 11th, totalling \$1185.40, which unfortunately, we have not as yet received your cheque covering.

Not having received a reply to our letter, we can hardly understand why this matter should be left in abeyance.

In reality, and in view of the close price quoted on goods supplied, we should add interest to our account, which has now been standing just about Eight Months.

We trust that the above will have your attention, and that we may hear from you by early mail regarding same.

Yours truly,

BLOWEY HENRY LIMITED.

11th February, 1949.

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Re: Night Watchman, Old Sun School, Gleichen, Alta.

The Principal of the above school reports that the new stoker recently installed is doing a good job and that the buildings are very comfortable this winter as a result. However, the hopper of the stoker needs to be filled approximately every 2½ hours which imposes an undue amount of night work on the school engineer who is required to do a full tour of duty during the day. In view of this, the Principal requests that provision be made for a night watchman at this school during the period 1st November-31st March annually. I wish to support strongly this request of the Principal, not only because of the need for someone to look after the night firing but also for general security reasons. Admittedly the school building proper is supposed to be fireproof, but the barns and outbuildings are not, and some unauthorized wanderer from the nearby village or Reserve might do considerable damage if not detected through the medium of periodic patrol and inspection during the winter nights. Further, with the authorized pupilage now at 130 I suggest that the expense involved in providing a night watchman for 5 months of the year is not unreasonably heavy.

I shall be glad, therefore, if you will give this request of the Principal favourable consideration and advise me as to what you are prepared to do in the matter.

Yours truly,

Henry G. Cook

Ottawa, Ontario.

Dear Canon Cook:

We have your letter of the 11th instant with reference to applying for an allowance towards the salary of the night watchman at the Old Sun School.

We are somewhat surprised at the contents of the first part of your letter, due to the fact that we purchased the stoker on the recommendation of the Reverend Principal, and we were under the impression that he had chosen the stoker which would meet the needs of the school. In this connection, I would refer you to your letter of 29th June, 1948.

I might also add that before making any allowance for the night watchman at this school, we will be obliged to make certain definite enquiries.

Yours truly,

Philip Phelan,
Chief, Education Division

DIRECTOR, LANDS & DEVELOPMENT SERVICES

Re: Old Sun Indian Residential
School, Blackfoot Indian
Agency, Province of Alberta

It is our understanding that one of your engineers expects to make an inspection trip to Western Canada.

In the appropriation for the fiscal year 1949-50, we have included an amount of \$2,000.00 for overhauling the heating system at the above school.

If possible, your engineer should visit this school and on his return report to us what work is required.

I wish to inform you that the stoker, serial No. 10105-CL, size 135060-CY, installed at the Old Sun School on Jan. 26, the hopper only holds enough coal to operate for approximately two and one-half hours during severe weather. A close check was kept.

You will recall the phone conversation Rev. Cole and myself had with you in which you stated you would see that the hopper was enlarged if it proved too small. I am of the opinion that the hopper is small, and could be enlarged quite simply by some of your experienced men.

The Clinker Tongs for use with the stoker, so far has not arrived.

Dear Colonel Neary:

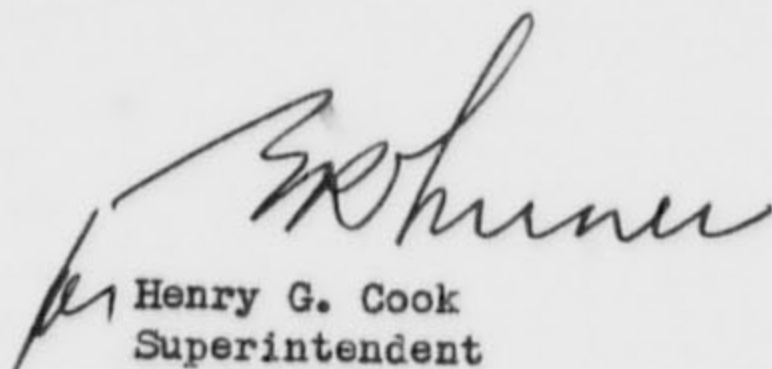

Re Skating Rink - Old Sun Indian School, Gleichen
Appropriation of \$300.00 from Blackfoot Council

We are informed by the Principal of the above school that late last fall the Blackfoot Council authorized a grant of \$300.00 to each of Crowfoot and Old Sun Schools towards building of a skating rink at each school.

The Principal reports that the rink at Crowfoot School has been built but he has not yet received the money voted by the Blackfoot Council for the rink at Old Sun.

The Principal wishes to get the construction of the rink at his school under way not later than 1st August and it will be appreciated, therefore, if you can arrange for the \$300.00 voted by the Blackfoot Council to be made available to him in the near future.

Yours truly,

Henry G. Cook

Gleichen Alta. Feb. 23 rd. 1949

Mr. W. P. B. Pugh.
Indian Agency
Gleichen
Alta.

Dear Sir.

In regards to the condensation pump at the Old
Son School Gleichen Alta. I beg to state that I debated the question
of repairing this pump by installing a new impellor. With Mr. Alix
Walker representative of the A. C. Dunham Co. Toronto. This pump
was installed in 1931. And due to end-play on the shaft, And wear
in the housing. If a new impellor were installed it would either
not pump at all, Or wear out the impellor in a short time.

Trusting this is the information you are saking
for. And thanking you for your inquiry.

Yours truly

L. Michael

RE: Old Sun School

I beg to enclose herewith a report on one of the condensation pumps at the Old Sun School. You will notice that this pump is beyond repair, I have examined the pump and I can quite see why it is. The cost of a new Dunham return pump, complete with motor, F.O.B. Gleichen.

It would appear this pump is a necessity, as one pump is doing all the work, and is over burdened.

RE: Skating Rinks at Schools

I am in receipt of your letter of Feb. 28, I wish to advise you, after long drawn out correspondence with the Trust Branch in Ottawa, the \$600.00 voted on by the Blackfoot Band Council, has been approved. I was advised of same by letter dated Feb. 22, 1949, of file 55-104 (T.1).

In regards to the Crowfoot School, Father Charron did build a rink, irrespective of waiting for the Indian grant and did an excellent job, and was used during the winter to very good effect.

For your information there was an old rink in use at Old Sun Chool with a boarded fence around it. Rev. Cole did not like the location because it left no play ground for the girls, so he took the boards down. However he states that he could not get labour to erect a new rink, so the Old Sun did not have a skating rink this year, or the last three seasons. In talking the matter over with Mr. Coles, as to location and size, as I have pointed out on previous occasions the water supply of this school seems very precarious, and he should keep this in mind.

Mr. P. N. Phelan,
Chief, Training Division,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Mr. Phelan: Stoker - Old Sun School, Gleichen

Reference is made to the second paragraph of your 758-5 (E.1)
of 19th February, 1949.

If you will refer to the last paragraph of the extract from the
Principal's letter contained in our letter of 29th June, 1948, you will
see that he specifically mentioned a BIN-FED, NOT a HOPPER-FED Stoker.
Had the bin-feed type been installed the question of the labour involved
in frequent filling of a hopper would not have arisen.

In view of this, it is requested that further consideration be
given my request of 11th February, 1949, for the authorization of a night
watchman at Old Sun School for the period 1st November - 31st March,
annually.

Yours truly,

Henry G. Cook

ATTENTION: Superintendent of Education

I beg to inform you that a Beaver Vorclonic Clothes Drier, manufactured by the Beaver Laundry Equipment Co., type D 3.9, serial # 2780, with two separate 1 H.P. motors was installed at the Old Sun School at date of erection and has never been used owing to the fact it used too much steam. In view of the fact that this machine was not used, it appears to be in first class condition and no doubt could be used in one of our Hospitals or Schools, with a provision of steam being made.

Mr. Cole would like to have it replaced by some kind of a stove that could be used for drying cloths, or a stove that would give extra heat in the laundry. It extravagant to have a machine occupying space and not in use.

Could you use or place this anywhere?

758-5 (E.1)

23rd March, 1949.

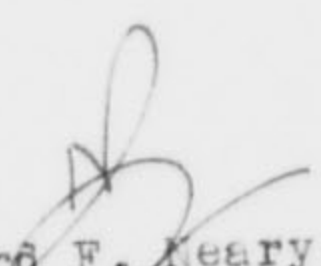

Mr. G.H. Gooderham,
Regional Supervisor of
Indian Agencies,
507 Public Building,
Calgary, Alberta.

The following letter has been received
from Superintendent Pugh:

"I beg to inform you that a Beaver
Vorclonic Clothes drier, manufactured by
the Beaver Laundry Equipment Co, type D 3.9
serial #2780, with two separate 1 H.P. motors
was installed at the Old Sun School at date
of erection and has never been used owing to
the fact that it used too much steam. In
view of the fact that this machine was not
used, it appears to be in first class condition
and no doubt could be used in one of our
Hospitals or Schools, with a provision of
steam being made.

Mr. Cole would like to have it replaced
by some kind of a stove that could be used for
drying clothes, or a stove that would give extra
heat in the laundry. It seems extravagant
to have a machine occupying space and not in use.
Could you use or place this anywhere?"

We do not appear to have received any
further correspondence regarding the stove. Is
there any residential school in Alberta at which
it could be used.

Bernard F. Neary,
Supt. of Indian Education

758-5

23rd March, 1949.

Mr. W.P.B. Pugh,
Superintendent, Indian Agency,
Gleichen, Alberta.

Attached is a copy of a letter received from the M.S.C.C. You will remember that the stoker which we purchased was the type requested by the Principal. At the time it was secured, we were not informed that it would require so much work to operate it.

Previously we have not made any allowance towards the salary of a night watchman at this school, due to the fact that we considered that there was no serious fire hazard. However, you will note from Canon Cook's letter that he is urging that an allowance be made. In cases where such an allowance is paid, it is only for the period 1st October to the subsequent 30th April.

The Deputy Minister recently ruled that no new allowances towards the salary of a night watchman could be made unless under the following conditions:

- (1) Allowance for a night watchman must not be paid to a present member of the staff.
- (2) The allowance must be paid only to schools which are certified by an engineer to be subject to special danger by fire.

Please let me have your opinion of Canon Cook's request.

PP/ST.

Re: Old Sun's Residential School

Arrangements have been completed by the Lands & Development Services Branch to have one of their engineers, Mr. Perrie, visit this school in the near future with a view to inspecting the heating system which has been reported unsatisfactory.

As soon as the results of Mr. Perrie's examination are received, you will be further advised regarding what action the Department is prepared to take during the fiscal year 1949-50.

B. F. Neary, Esq.
Superintendent of Education,
Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA.

Reference is made to your letter of March 23rd, file 758-5 (E.1) in which you ask if there is any residential school in Alberta where we could use the Beaver Vorclonic clothes drier at present lying idle at the Old Sun school. At the present time we know of no residential school in Alberta where this drier could be used. Dr. E. L. Stone, Regional Superintendent of Indian Health Services has been informed that the drier might be made available to his Department if he could find a use for it; to date he has found no place where this equipment can be used.

G. H. Gooderham,
Regional Supervisor of Indian Agencies.

Requestion sent

Dear Colonel Neary:

Labour-saving devices
Automatic slicer

The Principal of our Old Sun School, Gleichen, Alta., strongly recommends the provision of a Berkel Slicer, Model H, as illustrated in the attached cutting. He states that the Berkel representative recently visited his school and gave a practical demonstration of this machine in slicing meats, bread and vegetables; as a result of this demonstration he (the Principal) is convinced that it is eminently suitable for use in an institution where senior pupils may use it.

The price of this particular model is \$220.00, less 2%, f.o.b. Edmonton, Alta.

Will you please advise whether it is possible for you to provide Old Sun School with one of these machines in the near future.

Yours truly,

G. R. Turner

ATTENTION: Mr. W.P.B. Pugh - Superintendent

Gentlemen:

We thank you for your letter dated February 14th, relative to the stoker recently installed at the Sun Indian School. The delay in replying to your letter is due to the fact that we have been trying to locate the Clinker Tongs for this machine. We finally found them and they went forward to you via prepaid transport yesterday, on a no-charge basis.

With regards to your remark relative to the Hopper of the stoker we installed, may we advise that this stoker is designed with a Hopper which will carry 780 lbs. of coal. Normally this amount of coal will be handled by this burner for a six to eight hour period. If you were to have a Hopper on this machine guaranteed to have coal for eight hour operation, during very severe weather it would have to be designed to carry 3,120 lbs. of coal. We believe you will agree that this would be out of all proportion as to the size of the stoker, and then too, it would severely handicap the operator of the burner in his duties of filling the Hopper. We have quite a number of these machines operating in this area now, in industrial uses, and the Hopper supplied with the stoker you have is correctly proportioned for the size of the burner.

Your remarks are noted that a close check was kept on the hours of operation of the stoker, and the Hopper emptied itself in two and one half hours. This is rather exceptional, but it is probably due to the very severe weather you encountered during last month. We do not believe you will experience any difficulties with the size of the Hopper on the stoker under normal operation.

May we have your comments.

Yours truly,
CANADIAN FAIRBANKS MORSE COMPANY LTD.

ATTENTION: Bernard F. Neary
Supt. of Indian Education

RE: Old Sun School Stoker

I beg to acknowledge your letters of 23rd March and 1st April and regret my delay in replying thereto, but it was owing to the fact that I was waiting a visit of Mr. McLean, Fairbanks-Morse Service Manager in Calgary and he arrived yesterday afternoon.

With reference to your letter of 23rd March and to the advisability of hiring a Night Watchman at the Old Sun School, as this building is, to the best of my knowledge, of fire-proof construction, I would not anticipate that an engineer would certify that the school is subject to special danger by fire.

In the meantime I am holding Fairbanks-Morse account for the installation of stoker in the Old Sun School in the sum of \$1165.00, pending arrival of Mr. Perrie, as mentioned in your letter of 1st of April last.

In discussion with Rev. Cole, Mr. McLean and myself, it was opinion expressed that Mr. Perrie should pass on this stoker installation. I would ask

Rev. Canon H.G. Cook, D.D.,
Superintendent,
The Indian School Administration,
M. S. C. C.,
102 Bank Street,
Ottawa, Ontario.

Dear Canon Cook:

With reference to your letter of the 3rd instant regarding your request for an allowance towards the salary of a night watchman at the Old Sun's School, I wish to point out that we have received a ruling to the effect that before any new allowances are made for night watchmen, the following conditions must be observed:

- (1) Allowance for a night watchman must not be paid to a present member of the staff.
- (2) The allowance must be paid only to schools which are certified by an engineer to be subject to special danger by fire.

We wrote Indian Superintendent Pugh regarding the necessity for a night watchman at the Old Sun's School, and pointed out to him the above conditions. In his reply he states that the building is to the best of his knowledge reasonably fireproof, and he does not consider that an engineer would certify that the school is subject to special danger by fire. Under these circumstances, we are not prepared to authorize an allowance for a night watchman.

Re: Old Sun School Wells

I beg to state as I have previously advised that we are constantly having a near shortage of water at the Old Sun School.

In discussing the matter with the local well driller Mr. A. Rassmunsen, he stated he cleaned one well out some fifteen years ago and he thought the cleaning of both out at a cost of \$60.00 each would be well worth while. I beg to recommend having this done.

For your information over the original well or well No. 1 there is a solid brick building built with the necessary holes in the roof for ordinary cleaning purposes but Mr. Rassmunsen stated that the building was too high for his machine to set up if he thought it was necessary to drill the well a little deeper.

I asked the local house mover if he would remove the brick building but he stated he would not take on the job of moving the solid brick building.

Under the circumstances it is possible that a further expenditure might be incurred for the lowering of the roof on this brick building in order that the well driller could be set up the same. This would be time and material and I am unable to obtain an estimate and it is possible that it might not be necessary but if it is I will further advise.

Old Sug Indian School,
Gleichen. Alberta.
14/ 4/ 49.

Superintendent,
Blackfoot Agency.
Gleichen. Alberta.

Dear Sir:- re / Additional classroom. (classrooms now 3)

1/ The attached list in detail indicates:

Present enrolment.....	121.	
" " day pupils....	4.	
Graduating 1949.....	12.	
Returning 1949	109.	
To be admitted by/or/before		
September 49....	22.	Expected enrolment. 131.
		Day pupils..... 4.
		TOTAL..... 135

2/ To be admitted in New Year, 1950... 6 ...

3/ In view of the figures given above and the fact that we have experienced a little over-crowding in classrooms this year, may I suggest the Indian Affairs Branch at Ottawa be approached as to supplying the necessary school materials and equipment to be installed in the summer recess.

4/ The room (now used as a sewing room) on the main floor and immediately opposite the junior classroom will make a splendid classroom. The measurements of this room are:..... 22' 9" by 20' 2". Windows are low and extend the full length of the room facing west.

5/ It is proposed to move the sewing room to the large bedroom which has the adjoining sun-porch. Room measurements... ~~14' x 16'~~ ^{9'10" x 9'4"}
Sun porch ... " .. ~~8'~~ by ~~12'~~ ^{7'8" x 7'8"}
The sun porch seems to be the ideal spot for operating sewing machines in the dull winter days. I have mentioned this proposition as some money will be required to put the sun-porch into winter shape as the radiators were apparently frozen years ago and since that time this place has been a catch-all which is not good. At the moment I cannot ascertain whether new radiators will be needed here or not.

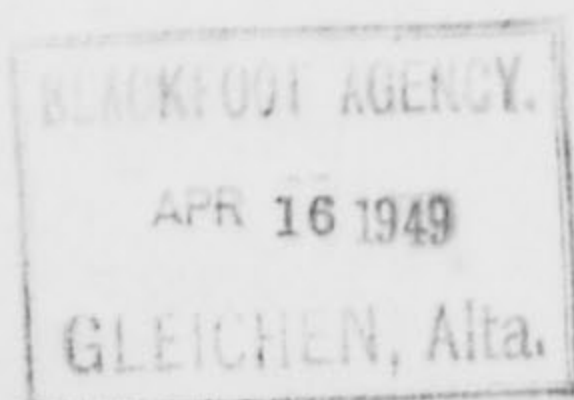

6/ It is further proposed to employ a well qualified handicraft teacher for the new classroom. This lady, Miss E. North, would teach the beginners in the mornings and in the afternoons she would take the intermediates and seniors in handicraft study. The Beginners do not assimilate much book-work in the afternoons and it would therefore appear a sound move to permit them to rest for three hours every afternoon. Miss North has her diplomas in Handicrafts and teaches weaving, leather and pottery work.

I shall be glad if you will pass this information to your Department with your observations.

Yours very truly,

E. S. W. Cole
E.S.W. Cole.

2 - Mr. G. H. Gooderham

Further requirements for class-room in addition to the enclosed requisition as follows:

Class Room 2 locally made book shelves - each 12" deep, 32" high, and 7 ft. long.
For Sewing Room Open shelving 18" deep, 7 ft. wide and 9 ft. high.

One closed cupboard 12" deep, 34" wide and 6 ft. high with hinged door.
These can be made locally out of first-class material and labour for approximately \$125.00 to \$150.00.

Please find copy of letter received from Mr. Cole together with his requisition attached.

This would make an expenditure of approximately \$400.00 but as you are well aware there are always some unforeseen odds and ends occurring and I would say that a cost not exceeding \$500.00

Accommodation would be given of the expected increase in pupils at the Old Sun School for approximately two years.

W.P.B. Pugh

RE: Additional Accommodation
Old Sun School

With reference to the increased accommodation required at the Old Sun School this coming fall as you and the Department are both aware of, I beg to submit an estimated cost that will give this accommodation for the expected increase this fall 1949 and also 1950.

The proposal is to use the present sewing room for a class-room which measures 20'2" x 20'9", this room is well lighted with windows extending the full length of the room facing west. It is proposed to move the sewing room up into the Sun Porch up-stairs at present not used. This Sun Porch measures 7'8" x 17'8" which is also exceptionally well lighted, adjoining is a small room 9'10" x 9'4", which in the past has been used for catch-all storage, and can be used in conjunction.

In the heating of the Sun Porch apparently according to local plumber Mr. L. Michael there was insufficient radiation installed and the radiation froze some years ago and has not been used since. Mr. Michael estimates the cost of installing sufficient radiation to be \$246.00. He is confident that this will keep the Sun Porch warm in all climatic conditions.

Re: Additional Accommodation - Old Sun Residential School

On a recent visit to the Blackfoot Reserve it was indicated that there was no need for a day school in the vicinity of the Old Sun Residential School. This institution can care for a larger enrollment, and, as nearly all the families on that part of the reserve are Protestants, it is only necessary to make some changes in the building to supply necessary classrooms. Superintendent Pugh has written, as per the attached, and indicated what work and material are required. The estimated cost is \$500.00.

The Principal of the school, Mr. Cole, has submitted a statement, copy attached, which shows the number presently enrolled and the expected enrollment for the school year 1949/50. With these known facts, I recommend that authority be given to make the necessary changes.

The quotation by the plumber Mr. Michael is the only one that is definite, and, as there are no other plumbers within fifty miles, I believe this should be accepted. As for other work and material, Mr. Pugh can get this material locally and I believe obtain the services locally of very good carpenters, Messrs. Kelly and Reid, who have done nearly all the work on the reserve for some years.

I hope it is possible to give him authority to proceed with this work at the commencement of the summer holidays.

G. H. Gooderham,
Regional Supervisor of Indian Agencies.

Re: Old Sun's Indian
Residential School

We have your letter of the 13th instant and it is noted that you consider there is no need for a day school in the vicinity of the Old Sun's Residential School, as the latter can provide the accommodation for the children eligible to attend it.

The Department approve an expenditure not exceeding \$500.00 for material and labour to provide increased accommodation in the building.

An order will be placed for 25 desks as requested by the Principal.

Re: Additional Accommodation - Old Sun
Residential School.

In reply to your letter of May 23rd in which you ask if you can proceed with the work authorized by Mr. Neary in his letter of May 19th, file 758-5 (E.1).

In my covering letter of May 13th, addressed to Col. Neary, copy of which you received, I stated that Mr. Michael's quotation on the plumbing work is the only one that is definite and that this should be accepted. I also said that you could make local purchase of the materials and obtain the services of very good carpenters, Messrs. Kelly & Reid.

Col. Neary replied on May 19th that the Department approved an expenditure, not exceeding \$500.00 for material and labor. I take this to mean that you can proceed with the work and you should therefore do so.

G. H. Gooderham,
Regional Supervisor of Indian Agencies.

KODAK SAFETY ▲ F

758-5 (E.1)

June 10th, 1949.

Mr. W.P.B. Pugh,
Superintendent, Indian Agency,
Gleichen, Alberta.

We have your Voucher No. 199
issued in favour of the Canadian Fairbanks-
Morse Company covering the cost of a stoker
purchased for the Old Sun's Indian Residential
School. Arrangements are being made to pay
this Voucher.

However, I would point out that
as the Purchase Order was issued during the
fiscal year 1948-49, funds were allotted
and when the Voucher was not forwarded during
that fiscal year, the amount of \$1,165.00
lapsed at the end of March. As a result, we
are obliged to provide funds out of the current
year's appropriation for which no provision
was made.

In future, it would be appreciated
if, unless under very exceptional circumstances,
Vouchers for expenditures authorized in one
fiscal year be forwarded during that fiscal year,
so that funds specifically segregated by Purchase
Order will not lapse.

Dear Sir:-

re/ Invoice - Moyer School Supplies.

With reference to the m/n invoice for grade 1X school texts and reference books; I much regret I did not obtain authority for the purchase of these books from the Indian Affairs Branch.

It appears these books were authorised for grade 1X ^{Alberta} as supplementary reference books and only RECENTLY. This necessitated prompt action at this end to quickly obtain the books.

I trust this is sufficient reason for the Department to authorize payment.

Yours truly,

E. S. W. Cole

ATTENTION: Education Division

Reference enclosed voucher #423 in favour of L. Michael, plumber, Gleichen, Alberta, I beg to draw your attention to the fact that considerable work is on the sewerage system at the Old Sun School and as I have mentioned before I am anxious for Engineer Perry to call in order that the sewers may be checked. For your information the drainage sewers and particularly the soft water sewers appear to be in bad shape and I am anxious for him to check the sewers as far as he can.

It will be noted that the pump rods were replaced in #2 well. These rods were badly pitted with rust and were in no condition to repair, hence the replacement at a cost of \$58.43.

The above expenses were totally unforeseen.

RE: Old Sun School

Reference to your letter of the 10th June and the contents noted, I regret that voucher #199 in favour of Canadian Fairbanks-Morse Company covering the cost of stoker purchased for the Old Sun Indian Residential School, the rendering of the voucher was delayed owing to the fact we had some discussion with the Fairbanks-Morse Company. I wrote you to this effect on March 29th, thinking that you would hold the amount of the voucher pending the rendering of same.

Please advise if the \$1165.00 is charged against this years appropriation of the Old Sun School or do I understand that \$2750.00 is available over and above the stoker.

RE: Old Sun Indian Residential School

In accordance with your letter of June 14th I beg to enclose herewith requisition for one stove, which is considered necessary as the old stove is beyond repair. If the McClary Junior Chef #20 is supplied ~~and~~ the shelf off the old stove can be placed on the new stove.

I also enclose a requisition for a potato peeling machine, which if allowed will take the place of floor maintenance machine asked for in 1949-50 estimates.

Also enclosed requisition for 1000 pounds of boiler covering cement to be used on the two boilers at the Old Sun School.

ATTENTION: Mr. Bernard F. Neary
Supt. of Indian Education
RE: Old Sun School

Reference to your letter of July 29th after considerable delay I have received the attached quotation from General Steel Wares on a # 20 Junior Chef coal range.

This, it is noted will be in the sum of \$379.20 less high shelf \$56.00 - \$323.20 plus sales tax and freight to Gleichen - \$33.54.

In regards to the labour, ^{book} for setting up of same, this is impossible to obtain as it is a question of time and getting the stove down into the basement and dismantling the present stove to get it out will be a considerable amount of labour, but I cannot obtain estimates from the local plumber and I will not hazard an estimate myself, as you can run into a lot of grief taking these large ranges in and out. However, it will be done as reasonable as possible.

I note General Steel Wares have one in stock at Calgary and if you are considering purchasing this one I think a wire or airmail should be forwarded.

August 23, 1949

Colonel B. F. Neary,
Supt. of Indian Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Nightwatchman - Old Sun Indian
Residential School, Gleichen,
Alberta.

Referring to previous correspondence on the above subject
(your file 758-5 (E.1), I send you hereunder an extract from a letter,
dated 20th August, 1949, received today from the Principal of Old Sun
School:

" I feel strongly the Indian Affairs Branch should authorize
a grant for a night watchman at this school, for reasons stated
in previous communications and others, for e.g. This school stands
at the intersection of well travelled cross roads, also barely
2 miles from the town of Gleichen. I mention this now as I have
to report that outside boys got into the senior girls dormitory
by ladder some weeks prior to school closing. It would be useless
to say a night watchman could prevent the outside men and boys from
roaming around the school at night time, but at all events, a
watchman on the job would most certainly stop others entrance into
the building. Were this school a mile or more from the main road
I would not request these additional governmental services; but,
I feel, and I am sure you agree, that were we have 130 children
living under one roof, their safety and comfort demand our con-
stant vigilance."

In view of the above factors it is strongly urged that
the matter be reconsidered and that a nightwatchman be authorized for
Old Sun School even though the main building is reasonably fireproof.

An early reply will be appreciated.

Yours sincerely,

Henry G. Cook

Dear Canon Cook:

Re: Night Watchman -
Old Sun's Residential School

We are in receipt of your letter
of the 23rd instant with further reference to the
above.

In connection with this matter, I
would refer you to official letter of May 10th,
1949, in which you were advised that the Department
is not prepared to authorize an allowance for a
night watchman at the Old Sun's Residential School.

Sincerely yours,

Bernard F. Neary,

Dear Canon Cook:

Re: Old Sun's Residential School,
Estimates 1950-51

I am in receipt of your letter of August 23rd, listing items which you consider should receive consideration when preparing our estimates for the 1950-51 fiscal year.

Careful consideration will be given to your request at the time the estimates are being prepared.

Sincerely yours,

PP/ST

Bernard F. Neary,
Supt. of Indian Education

Note: Canon Cook's letter of August 23rd has been placed on special file 1950-51 Estimates.

ATTENTION REV. E.S.W. COLE

Dear Rev. Cole:

We wish to acknowledge receipt of your letter of the 9th instant, which is in respect to a Chesterfield Suite of three pieces that you require for your Residential School.

We are attaching hereto a cut of our #773 Suite, which we think might prove suitable for your requirements. This Suite, covered in the attached material, either ~~Wine~~ or ~~Green~~, or a combination of the two colors, wholesales at \$178.50.

If you have in mind a covering of a Tapestry nature, this too can be supplied at the same wholesale price.

We shall be glad to hear further from you regarding this particular Chesterfield, and if it is not suitable, we shall be glad to forward to you other cuts for your inspection.

Yours truly,

BLOWEY HENRY LIMITED.

re/ Furniture for school cottage

Reference my requisition of the 18th inst.

Explanation : Unfortunately, at the time of my predecessor's death, no inventory of Government or Indian School Admin furnishings etc was retained; and in consequence this school residence and the farmer's cottage was vacated by previous tenants, practically bereft of furniture etc...

School cottage We have robbed peter to pay paul in the matter of cottage furnishings to fix the farmer's up a little.

Requisition:.. I did not requisition this last year as I considered the Department had used up Chesterfield & two chairs. their monies for this school. I would now request that the Department consider the requisition - already forwarded to you - of the Chesterfield suite. The price as quoted by Blowey-Henry seems to be inexpensive.

Inventory: Attached herewith inventory of government furnishings in residence....

E.S.W.Cole.
E. S. W. Cole

Note/ The school purchased 3 squares of linoleum for the farmer's cottage last year.....

Re: Old Sun's Residential School
Your File 104-8-3

With reference to your letter of
August 29th requesting us to supply a chester-
field suite at a cost of \$178.50 for the farmer's
cottage at the above mentioned school.

In place of this we are requesting the
Departmental Purchasing Agent to secure a studio
couch and two arm chairs. This will be similar
equipment to that supplied for teacher's living
quarters at a day school.

With reference to the requisition for
60 blankets, we have been unable to locate the
letter to which the Rev. Mr. Cole refers. Please
let me know the date and file number of the letter
which he states he received from the former Director.

Sept. 19, 1949

Colonel B. F. Neary,
Supt. of Indian Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Drains
Old Sun School,
Gleichen, Alberta.

The following is an extract from a report just received from the Principal of the above School regarding the drains in the building:

" In the centre of the Boys' Washroom there is a drain with the usual brass cover which lifts off easily but underneath it is a solid block of concrete. Every drop of water gravitates to this spot and this washroom always has a puddle of water in the centre of the floor every hour of the day. Sixty boys cannot wash four or five times a day without spilling some water.

In the Boys' Playroom adjoining the above washroom we have precisely the same thing."

Perhaps you will be good enough to have a representative of the Engineering Services of your Department look into the matter of these drains the next time he is in the vicinity of Gleichen.

Yours sincerely,

Henry G. Cook
for Henry G. Cook,
Superintendent.

Re: Old Sun's Indian Residential School.

Canon H. G. Cook, Superintendent,
Indian Residential School Commission, M.S.C.C.,
writes us as follows :

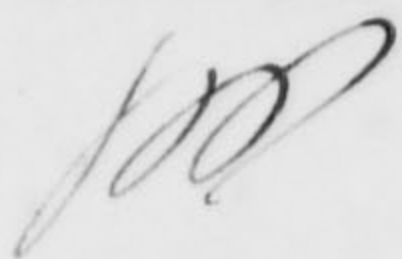

"The following is an extract from a report just
received from the Principal of the above School regarding the
drains in the building:

" ' In the centre of the Boys' Washroom there
is a drain with the usual brass cover which lifts off easily
but underneath it is a solid block of concrete. Every drop
of water gravitates to this spot and this washroom always
has a puddle of water in the centre of the floor every hour
of the day. Sixty boys cannot wash four or five times a day
without spilling some water.

" ' In the Boys' Playroom adjoining the above wash-
room we have precisely the same thing.'

"Perhaps you will be good enough to have a
representative of the Engineering Services of your Department
look into the matter of these drains the next time he is in
the vicinity of Gleichen."

Please let me have a report from you regarding the
above. We do not appear to have received similar information
previously.

Philip Phelan,
Chief, Education Division.

Colonel B. F. Neary,
Supt. of Indian Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Heating of Water,
Old Sun Anglican Indian School,
Gleichen, Alberta.

The hot water required in the above School is now heated by a jacket heater. This is satisfactory during the summer season when the main heating plant for the building is not in operation but it is wasteful in fuel and labour during the heating season when water might well be heated in the low pressure steam heating plant.

Following investigation and inquiries we are informed that a satisfactory solution would be the installation of an indirect steam-fed heater consisting of a cast-iron shell and removable copper tube element, having a capacity to heat water at the rate of 500 gallons per hour through a range of 100 degrees (40 degrees to 140 degrees) and equipped with a temperature control valve. We are informed that the heat absorbed in this equipment would still leave ample reserve boiler horsepower for any reasonable overload on the heating plant.

We understand that the cost of provision and installation of the equipment described would be between \$400.00 and \$500.00 and we shall appreciate if you can allot funds for the early execution of this service.

Will you please advise us what you are prepared to do in this matter.

Yours sincerely,

Henry G. Cook

Memorandum:

DIRECTOR, LANDS & DEVELOPMENT SERVICES

Re: Old Sun's Indian Residential School,
Blackfoot Indian Agency, Province
of Alberta

I desire to direct your attention to my memorandum of February 23rd, with reference to overhauling the heating system at the above mentioned school. Subsequent to that memorandum, we were verbally informed that Mr. Perrie would visit the school.

We have just received a letter dated September 15th from Superintendent Pugh, reading as follows:

"Reference to your letter of 1st April 1949, in which you stated Mr. Perrie of the Lands & Development Services Branch would visit the Old Sun's School in the near future (1st April), up to the time of writing we have not heard from Mr. Perrie.

I beg to inform you that the drainage system at the Old Sun's School as has been repeatedly pointed out, requires some alterations and repairs, which I think would be quite an expensive job and I would appreciate one of your engineers from Banff or Mr. Perrie calling as soon as possible, before freeze up."

Please let us know what action you can take in this matter.

Director.

ATTENTION: Mr. Philip Phelan
Chief, Education Division

RE: Old Sun Indian Residential School

Reference to your letter of September 23rd last asking for a report in regards to the drainage system at the Old Sun School, the report as rendered by Cannon Cook is correct and I have asked all summer for a Department engineer to be sent here to examine the same, and up to the time of writing I have not heard from Mr. Perry, the man you stated was coming from Regina. I would refer you to my letter of September 15th in which I asked if Mr. Perry was not available if an engineer could be sent from Banff.

For your information the drainage at this school is so poor that as a layman I am unable to give the details and it is definitely an engineer's job. I would further state that the drainage system has given trouble for years but as time goes along it is definitely getting worse.

RE: Old Sun School

Reference to your letter of September 24th attaching a copy of a letter from Rev. Cannon Cook dealing with the hot water heating at the Old Sun School, for your information there is a system already installed connected with the boiler with copper tube element, but the thing corrodes so fast with the water we are using in the school, that the thing was discontinued in favour of the jacket heater, and Mr. Michael, our local plumber, does not think the copper tube element would work out satisfactorily. However, this is another matter that can be investigated when and if, a Department engineer checks the school. In the meantime I would suggest that the present hot water heater be left as it is.

BANK STREET CHAMBERS
102 BANK STREET
OTTAWA
Sept. 28, 1949

Major D. M. Mackay,
Director, Indian Affairs Branch,
Dept. of Mines & Resources,
Booth Building,
165 Sparks Street,
Ottawa, Ontario.

Dear Major Mackay:

Re: Nightwatchman - Old Sun Anglican
Indian Residential School,
Gleichen, Alberta.

During our discussion in your office on 2nd September, 1949, I pointed out various factors which appear to warrant the authorization of a nightwatchman at the above School.

We now have received a report from this School advising that under normal winter conditions 250 lbs. of local (Blackfoot Reserve) coal are consumed per hour in the heating plant and that the capacity of the hopper of the Stoker is 750 lbs. of this coal. This means that under normal winter conditions the hopper must be re-filled every three hours during the night and more frequently under severe winter conditions. I am certain you will agree that it is unreasonable to expect any member of the staff who is employed continuously throughout the day to get up and shovel 750 lbs. of coal every 3 hours, or more frequently, during the night.

If, notwithstanding all the factors presented to you, the fact that the main school building is classified as "fireproof" renders it impossible for you to authorize a "nightwatchman" it is suggested that a night "fireman" be authorized as is now done for certain schools. Such an employee could, of course, do nightwatchman duties generally as well as fire the boilers and, in consequence, the present unsatisfactory situation would be remedied.

Yours truly,

for Henry G. Cook,
Superintendent.

Required.... 30.

I regret that omitted to requisition, with the blankets, 30 pillows for the extra children we now have in residence.

It will be appreciated if this requisition can go forward to Ottawa.

Army surplus stock will suffice and it is assumed purchases from this supply would be considerably cheaper.

Indian Affairs Branch, Dept. of Mines & Resources, Ottawa, Ont.

ATTENTION: Education Division

I beg to enclose herewith four requisitions from Rev. E.S.W. Cole, Principal of the Old Sun School:

- 1 - Six double beds and thirty blankets. These are for additional pupilage and necessary for the extra housing required.
- 2 - Four benches, needed for extra accomodation in the dining room. These could be made locally as stated on the requisition.
- 3 - Lumber, to be used for general repairs around the school and out-buildings. Lumber will cost about 70¢ a thousand, purchased locally.
- 4 - Requisition for additional furniture for staff room, owing to another teacher being employeed this year on the staff of the Old Sun Scool it is necessary to furnish another room.

Respectfully submitted

Indian Affairs Branch
Dept. Mines & Resources
Ottawa, Ontario.

Dear Colonel Neary: Re: Steam Drier Old Sun School

In the laundry room at the Old Sun School, Gleichen, Alberta, is a high pressure steam boiler which has been unused for some years as the boilers in current use at the school do not supply steam at sufficient pressure adequately to operate the drier.

As the laundry is rather small it would be appreciated if the drier could be disconnected and removed from the room and the space used for other purposes. If permission is given to remove the drier would you please instruct me as to its disposal?

Yours faithfully,

HGC:MMA

Re: Old Sun's Indian Residential
School. Your File 104-4-2

With reference to your letter of the 19th instant, the Department approves an expenditure of \$25.00 for 4 benches.

With regard to the request for lumber, please let us know the name and address of the firm from which this lumber can be purchased for \$300.00, and if possible, forward a quotation from them.

When the pupilage at this school was increased, our records indicate that we supplied beds, mattresses and blankets for the additional pupilage authorized. You are aware that we only supply beds and mattresses when a school is first opened and when additional pupilage is authorized.

The Departmental Purchasing Agent will be requested to secure the additional furnishings for the staff.

October 25, 1949.

Colonel B.F. Neary
Supt. of Education
Indian Affairs Branch
Dept. Mines & Resources
Ottawa, Ontario.

Dear Colonel Neary:

Re: Old Sun School

Recently General Turner made a visit of inspection to the Old Sun School and I thought you might be interested in some of his observations as quoted from his report:

" Repairs - The Principal suggests that the Indian Affairs Branch be asked to hire a couple of men for about a month each spring to carry out various carpentry, etc. repairs beyond the capacity of personnel on School Staff and which fall in the category of responsibility of the Department under their "Formula". I consider this a sound suggestion which, if adopted, would tend to keep the building in a better state of repair.

Wells - Both have been cleaned out but No. 1 was found to contain an old section of casing which could not be removed. So far they appear to be working satisfactorily, but a longer period of trial is necessary before it can be determined whether they must be replaced by a new well.

Windmill - This is still out of action (for pumping water at the barn) because it has been impossible to get anyone to take on the repair job to date.

Heating Plant - A Mr. Clarke from Regina (presumably representing the Engineering Branch of Department of Mines and Resources) visited the School on 8th of October. He stated that he favours the installation of a stoker (with large hopper) on the second boiler to supplement the first boiler during the heating season.

An order has been placed by the Agency Superintendent for repairs to the asbestos lagging of both boilers.

MEMORANDUM

Re: Old Sun's Indian Residential School,
Gleichen, Alberta.

Further to our memorandum of March 19th, with reference to the above, you are advised as follows:-

We are in receipt of a letter from Mr. Perrie, dated October 18th, in which he includes a report prepared by Engineer Clark, who inspected the mechanical services at the above as requested in our letter dated September 29th.

The report outlines in some detail, certain heating discrepancies together with blockages to the drainage system and is accompanied by a rough sketch of the boiler room. The boiler room sketch shows no piping of any kind and merely outlines approximate locations of the various items of equipment.

From the information received, it is not possible to make a definite recommendation or to prepare the necessary plans and specifications covering the necessary operations.

We are therefore writing Mr. Perrie requesting him to provide the data which is lacking and upon receipt of same, we will prepare our recommendation together with plans and specifications covering the requirements.

When this has been done, you will be further advised.

MEMORANDUM

OTTAWA November 8, 1949.

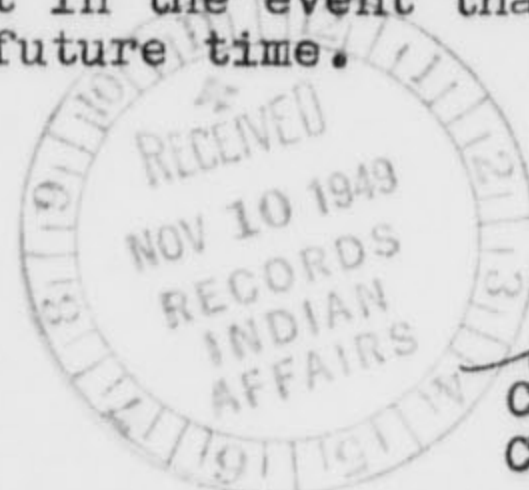

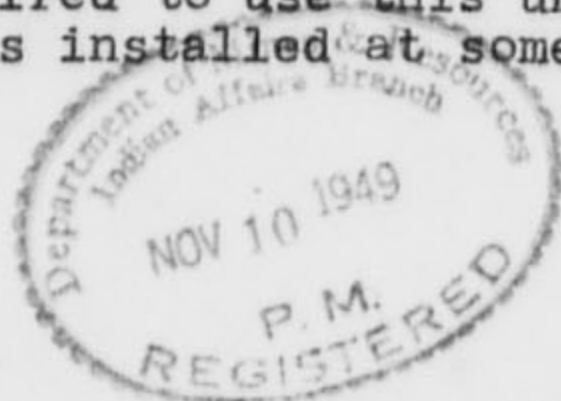

Re: Old Sun's Indian Residential School,
Gleichen, Alberta.

With reference to your notation of October 29th on
Major MacKay's memorandum dated October 27th in connection with
the above, you are advised as follows:-

The original specification outlining the laundry equip-
ment for this school was written in 1929 and called for a washer,
tumbler dryer and extractor for use in connection with laundry
operations. The tumbler dryer was to be served by a steam line
from the 10 horsepower high pressure laundry boiler.

Since the high pressure laundry boiler has been changed
to operate on low pressure, and arranged to heat domestic hot water,
no high pressure steam is available for the tumbler dryer.

Therefore unless it is contemplated to install a high
pressure boiler in the near future, the tumbler dryer is of no use.
If the Principal wishes to remove this unit to provide more space
in the laundry room, we see no reason why it should not be unbolted
from its present position and moved to any convenient storage space
in the basement. Care should be taken to protect the dryer and its
gearing assembly from rust, as it is conceivable that it may be de-
sired to use this unit in the event that a new high pressure boiler
is installed at some future time.

Victor F. Warr
Chief, Engineering and
Construction Division.

R.A. Gibson, Esq.,
Director,

, November 14, 1919.

Dear Canon Cook:

Old Sun's Residential School

Please find attached a self-explanatory letter in reply to the point raised by you concerning the tumbler dryer at the above school.

May the Engineer's report be returned here when you have noted its contents.

We have also received a further report concerning the mechanical services at this school reading as follows:

"The report outlines in some detail, certain heating discrepancies together with blockages to the drainage system and is accompanied by a rough sketch of the boiler room. The boiler room sketch shows no piping of any kind and merely outlines approximate locations of the various items of equipment.

From the information received, it is not possible to make a definite recommendation or to prepare the necessary plans and specifications covering the necessary operations.

We are therefore writing Mr. Perrie requesting him to provide the data which is lacking and upon receipt of same, we will prepare our recommendation together with plans and specifications covering the requirements".

This means that the Engineer Services will be preparing plans and specifications in order that the necessary repairs can be carried out if possible during this winter. I believe that this clarifies the point raised in your letter of October 25.

- 2 -

With regard to the Principal's suggestion concerning repairs, we provide each year a considerable sum for each school and it would be necessary for the Principal to provide a specific list of jobs which he wants done and the materials which he wishes the Department to provide. In other words, we could not allow the Principal's suggestion to be followed without some control over expenditures insofar as labour and materials are concerned.

I would like to discuss this labour point with you on your next visit to this office.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

MEMORANDUM

Re: Old Sun's Indian Residential School,
Gleichen, Alberta.

With reference to your notation of October 29th on Major MacKay's memorandum dated October 27th in connection with the above, you are advised as follows:-

The original specification outlining the laundry equipment for this school was written in 1929 and called for a washer, tumbler dryer and extractor for use in connection with laundry operations. The tumbler dryer was to be served by a steam line from the 10 horsepower high pressure laundry boiler.

Since the high pressure laundry boiler has been changed to operate on low pressure, and arranged to heat domestic hot water, no high pressure steam is available for the tumbler dryer.

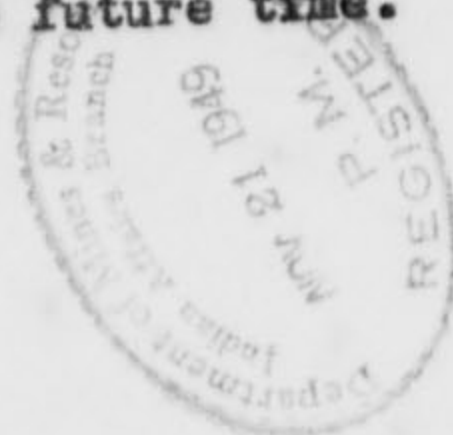

Therefore unless it is contemplated to install a high pressure boiler in the near future, the tumbler dryer is of no use. If the Principal wishes to remove this unit to provide more space in the laundry room, we see no reason why it should not be unbolted from its present position and moved to any convenient storage space in the basement. Care should be taken to protect the dryer and its gearing assembly from rust, as it is conceivable that it may be desired to use this unit in the event that a new high pressure boiler is installed at some future time.

Rev. Canon H.G. Cook, D.D.,
Superintendent,
The Indian School Administration,
M.S.C.C.,
102 Bank Street,
Ottawa, Ontario.

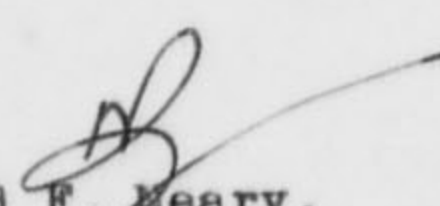

Dear Canon Cook:

Re: Old Sun's Indian Residential
School

As I mentioned to you, it is our
intention to make extensive renovations to the heating
system at the above school during the summer of 1950.

At the present time there may be some
fire hazard due to the present equipment having been
installed many years ago. It has, therefore, been
decided to allow for the current heating season, an
allowance of \$60.00 a month towards the salary of the
night watchman. Payment of the allowance at this rate
will be effective from October 1st, 1949, to April 30th,
1950.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education

MEMORANDUM TO THE DIRECTOR

Old Sun's Indian Residential School,
Gleichen, Alberta.

Further to our memorandum dated the 7th of December in connection with the above, we are in receipt of additional inspection data from Mr. Perrie.

We have studied this data together with that contained in his report of the 12th of October and it is evident that the plumbing and drainage system is in a serious state of disorder.

Some discrepancies in connection with the heating system have been pointed out, but these do not appear to be abnormal. However, claims that the existing stoker is unsatisfactory are not substantiated and Mr. Perrie's suggestion that an additional bin feed type of stoker be installed under the second boiler, requires further clarification.

The underfloor drains are said to be blocked solid. It is claimed that deposits of tar and gravel from the roof have entered the system through unprotected roof hoppers and have lodged in the fittings and the soil pipe system. All efforts to clear the soil lines have been unsuccessful and there are many instances of flooding in the basement. This results in an unsanitary condition which could develop into a serious health hazard. Mr. Perrie concludes his report by stressing the need of immediate action.

There is no record of any plumbing or drainage plans; therefore an investigation should be carried out to find where the underfloor drains are located. After having made preliminary sketches on the job, it will be necessary to break into the basement floor slab and open the drainage lines at strategic points in order to determine the extent of the blockages.

The investigation will have to be carried out by an officer who is thoroughly familiar with this kind of work and it will involve the assistance of one plumber and the necessary labour in connection with breaking up certain sections of the floor slab and disconnecting some of the drain lines.

Following this detailed examination, it will be possible to make a definite recommendation and to prepare plans and specifications on which tenders may be based. There is no doubt that an inspection of this kind would result in a worthwhile saving.

We desire approval to make detailed plans as outlined above at which time the necessary instructions will be issued.

Walter F. Wain

Mr. Philaps:

Drier to complete laundry at
Portage La Prairie Residential School:

For years Old Sun has let their
drier stand unused - "costs too much
to operate."

It might suit Mr. McLean who
has very poor facilities for drying clothes
and has a smaller pupilage which
would not require so much use of the
machine. Moreover, I think Manitoba
Power gives a cheaper rate.

We would need to know:

Type, current-consumption

Also dimensions (L x W x H), for as
you know, Mr. McLean took out part of
a wall to get the washer in.

I saw floor space where the drier
should be installed at Portage.

Re: Old Sun's Indian Residential
School

It has been brought to our attention on several occasions that there is a drier at the above school which has not been used for some time.

It is possible that it might be used at the Portage la Prairie Residential School. Consequently, it would be appreciated if you would let us have the following information as soon as possible regarding the drier:

- (a) Type
- (b) Current consumption
- (c) Dimensions (length, width and height).

Supt. of Education

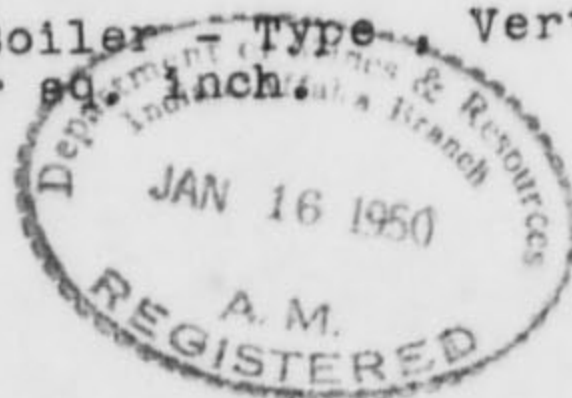

RE: Old Sun Indian Residential School

Reference to your letter of January 7th dealing with the drier at this school which has not been used for some years but is in fairly good condition, I beg to answer the questions as follows:

- (a) Type - Vorclone, dry by air, manufactured by Beaver Company. Type D 3.9, Serial 2780.
- (b) Current Consumption - Two- one h.p. motors drawing 220 volts. 14 amps.
110 volts. 28 amps.
- (c) Dimensions, overall measurements; length 7', width 4', height 6'2". Tubular frame - 30" by 40" length.

Current consumption, two one h.p. motors. This is the point to be remembered. It has a steam consumption of 80 pounds and requires a high pressure boiler to operate the same, which was installed together with this drier at the Old Sun School.

Boiler - Type - Vertical F.T. boiler, 100 lbs. pressure, per sq. inch.

/2

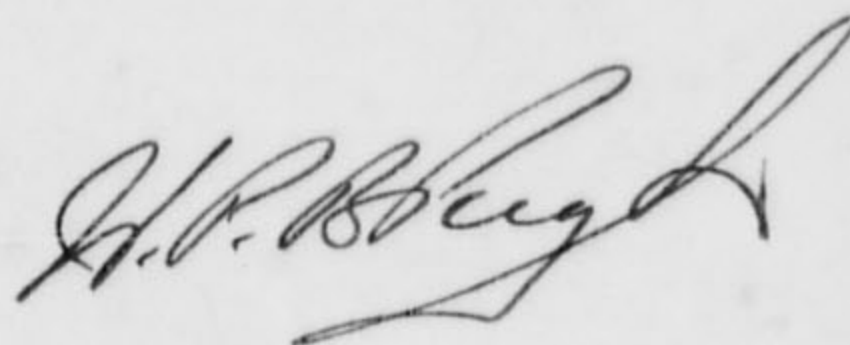

Indian Affairs. (RG 10, Volume 6361, file 758-5, part 14)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- Page Two -

The difficult part of this drier is the high steam pressure required and this was the cause of it being put in the discard at the Old Sun School. I would point out that it cannot be hooked up to a low pressure heating boiler.

I appreciate your interest in this and trust we can have the same moved out in due course.

Re: Portage la Prairie Indian
Residential School

Mr. Clark has mentioned to us on several occasions that a drier is required at the Portage la Prairie School. We have a drier surplus to requirements at the Old Sun's Residential School. I enclose a copy of a letter received from Superintendent Pugh which describes this drier.

You should consult the Principal of the Portage la Prairie School and ascertain if this particular drier would meet his requirements. An early reply would be appreciated.

Dear Colonel Neary:

Re: Nightwatchman - Old Sun
Indian Residential School.

On receipt of your 758-5(E1) of 20th December, 1949, advising that you had authorized a night-watchman for Old Sun School from 1st October, 1949, to 30th April, 1950, at a rate of \$60.00 per month we informed the Principal and requested him to submit vouchers in the normal manner.

The Principal now reports that he has submitted the appropriate vouchers to your Superintendent Pugh but that the latter can do nothing about them as he has not received notification from your office of the authorization.

May Superintendent Pugh be notified about this nightwatchman as soon as possible, please.

Yours truly,

758-5
23/1/50

Director

QUOTE FILE I.A.1680-2

5527

OTTAWA 23 January, 1950.

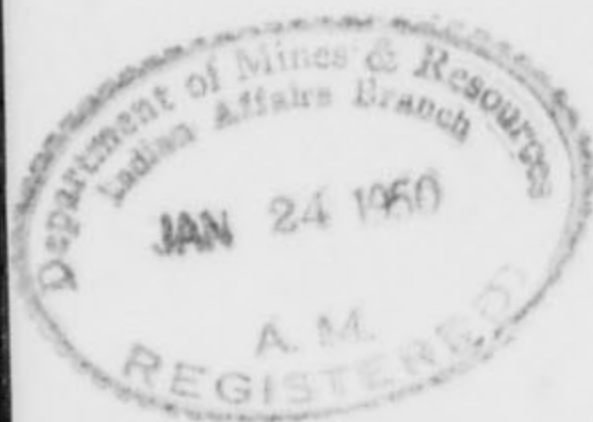

MEMORANDUM TO THE DIRECTOR

Old Sun's Indian Residential School,
Gleichen, Alberta.

Major MacKay's memorandum of the 4th of January bearing your marginal notation of the 5th instant, is acknowledged.

Building plans were mailed to Mr. Perrie on the 12th of January for his use in carrying out additional investigations outlined in our letter of the 23rd of December, 1949. It is considered that he has not had time to provide the data requested.

The results of Mr. Perrie's report will determine whether or not it will be necessary to assign an officer from this Service to visit the school before final recommendations can be made. When Mr. Perrie's report has been received and analyzed, you will be further advised.

W. F. Wan
Chief.

Ottawa, Ontario.

Old Sun Indian Residential School.

Dear Canon Cook:

Please find attached a copy of a memorandum
received from the Department of Resources and Development.
We will advise you further when a decision is reached
concerning the repairs required to the heating and
plumbing system at this school.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Attention : Philip Phelan Esqr, O.B.E.

Dear Mr Phelan:-

I wonder if we may have some hockey equipment, please?.

We would like the following items:-

- 4 pr hockey gloves,
- 4 pr shin pads.
- 4 pr hockey pants, (neutral colour)
- 6 hockey sticks, (left)
- 6 hockey sticks, (right).

I trust you will be able to help us.

Yours truly,

E.S.W.Cole.

IN YOUR REPLY REFER TO

No. 2. / 12.

ALSO

TO DATE OF THIS LETTER

Sir,—

Old Sun's School requires more seating capacity in their class rooms as the present enrollment is higher than ever before. I had the old seats and desks gone over some time ago but parts are missing and cannot be found for a few old desks.

A traveller from the firm of F.E. Osborne, School Supply House, Calgary, was here yesterday and his company can complete the needs as follows:—

- (1) For the Junior Class Rooms:—
2 Eclipse adjustable rears - (No 34) \$10.75 each
3 " " " (No 12) \$13.25 "

- This will make seating capacity for 34 pupils
(2) For the Senior Class Room:—
3 Commercial Box Desks (complete) \$17.00 each

The types herein mentioned are similar to those already in use in the respective class rooms.

I submit the F.E. Osborne quotations as I believe it will be saving to purchase parts to complete desks rather than call for tenders for complete new desks and seats.

Awaiting your instructions.

Your obedient servant,

G. H. Gooderham
G. H. Gooderham.

12.

Ottawa, May 25th, 1923.

Sir:

I have to acknowledge the receipt of your letter of the 16th instant, regarding the desks required to complete the seating equipment at the Old Sun's Indian Boarding School.

In reply I beg to say it is noted that 5 "Eclipse" adjustable rear seats and 3 commercial box desks are required, which are the type of desks already in use in the respective classrooms. You may arrange for the purchase of the above number of rear seats and box desks, complete, and these should be supplied at the prices mentioned by you in your letter. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred.

It is noted that you have had the old seats and one over and, as far as possible, put in good condition. If any extra parts are required for these old seats you may also arrange for the purchase of same.

Your obedient servant,

J. D. McLEAN

J. D. McLean,
Asst. Deputy and Secretary.

Sir:-

Herewith a voucher for School Desks for which authority was not given, although the writer took the matter up verbally with Mr. Inspector Christianson during his visit, the latter part of November.

Inspector Boyce noted that Old Sun School required more seats and desks when he inspected this School in the fall. He brought to my attention the fact that good equipment could be secured through him from School Districts in the Province, which had been forced by lack of Funds, to close their Schools. He shipped, subject to approval, the required desks, and herewith is the account. The price is two-thirds of Catalogue price, and insures a saving to the Department. This Equipment is now in use and entirely satisfactory.

your obedient servant,

Asst. Deputy & Secretary,

Ottawa, January 14th, 1926.

Sir:

With reference to that portion of your report on your inspection of the Old Sun's Indian Residential School during the month of December, last, in which you state that the junior room needs 5 more desks to accommodate new pupils, I have to request that you will state the name of the manufacturer of the desks at present in use in this school, and also give the sizes and number of each size of the extra desks now required. When we have this information consideration will be given to authorizing you to arrange for the purchase.

Your obedient servant,

J. D. McLEAN

Dear Sir:-

In reply to yours of the 14th inst.
I beg to inform you that the following is the description of the desks needed at Old Sun School:

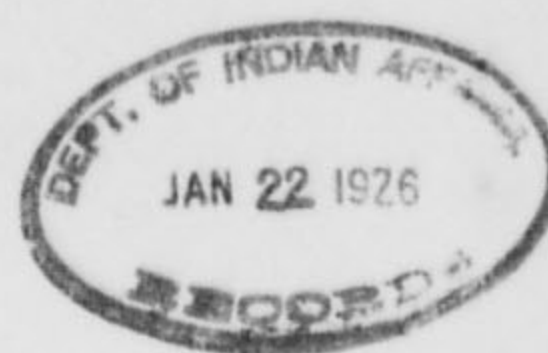

No. 56 Endurance Adjustable School desk.

The Principal informs me that the Agent for these is F.E. Osborne Calgary Alta. and the List price is \$13.35 each.

Your obedient servant,

The Secretary

Sir:

I have your letter of the 18th instant, relative to the extra desks required for the junior room in the Old Sun's Indian Residential School, and stating the kind of desk required and the price of each.

In reply I beg to say that you may place an order with F. E. Osborne, Calgary, Alta., to supply 5 No. 56 "Endurance" Adjustable School Desks.

You should obtain an account, in duplicate, from this firm, and when the desks have been delivered, you should certify the account and send it to the Department for payment.

INDIAN AGENT'S OFFICE
BLACKFOOT

Gleichen, Alta.

13th August, 1926. 19

Attention Mr Ferrier.

Sir,—

The fall term of Blackfoot Schools opens on the 16th inst.:. There are twenty children of school age and if physically fit they will start this term.

It is assumed that Old Sun School will get at least half of these children and more beds will be required. The actual number required is not yet known but authority is asked to purchase 10 small sized (30 inch) beds—such as are in use at the Bloods and Stoney Schools.

If authorized, please state the make, etc, of the small beds used on the other reserves, as beds used here for some years were from disbanded military hospitals.

Your obedient servant,

C.H. Cooderham.
Indian Agent.

Asst: Deputy & Secretary,
Dept: of Indian Affairs,
OTTAWA. Ont.

Ottawa, August 19, 1926.

Sir:

I have your letter of the 13th instant, stating that ten more institution beds are required to provide accommodation for the children who are attending the Old Sun's Indian Residential School.

In reply I beg to say that you are authorized to arrange for the purchase of this number of beds. You should obtain prices from the representatives of both Simmons Ltd. and the Ives Bedding Co., Calgary, and any other firms you wish for the supplying of ten institution beds, similar to Simmons' design No. 4000 or Ives Bedding Co.'s design No. 73. These beds should be of the length required and should be equipped with rust proof twisted link fabric springs. This is the same type of bed as we supply to other schools. The purchase of these beds should be made from the firm quoting the lowest price. I may add that these beds are manufactured in lengths of 5½', 6' and 6½' and are 2½' wide.

When the beds have been delivered, please forward properly certified vouchers, in duplicate, covering the expenditure incurred.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

June 13, 1939

Dear Sir:-

I attach hereto a list of furnishings for the house erected for the Farm Instructor at Old Sun's Anglican School. The Principal sent this to me with a covering letter stating that the W.S.C.C. cannot supply the furnishings and that he was to submit the list to me. I understand that the Commission supplies furnished quarters to all employees.

As I have no reason to believe that the Department is looking after W.S.C.C. obligations, I am submitting this to you. I do so as apparently Mr. Commissioner Graham is of the same mind. I may say that a beautiful cottage has been erected equipped with electric lights, soft water tank with pump and basin in the kitchen as well as a small built in cupboard. The house will be ready for occupancy by the 15th inst.

Your obedient servant,

Indian Agent.

RE; Vouchers # 273, 274, 275 & 276.

Dear Sir:-

I submit herewith Vouchers for the purchase of furniture and blinds for the cottage erected at Old Sun School.

On receipt of authority for the purchase the Reverend Mr. F. M. Gibney went to D. V. Cope Co Ltd a wholesale Furniture store in Calgary and chose the furniture represented by inclosed accounts. A complete assortment of furniture for the cottage was purchased and at the prices charged may be considered bargains.

The blinds were purchased in Gleichen and competitive prices secured when blinds for the hospital were also purchased. Abstract of tender accompanied Voucher #233.

Nov. 19, 1929.

Sir,-

Replying to your letter of the 23rd ultimo with reference to the furnishings required for the new Indian Residential School at Gleichen, I beg to say that it will be early in the spring before this equipment will be required. Lists will be prepared here for all equipment needed and when tenders are being invited you will be advised and a list of the articles required sent you.

Your obedient servant,

A. F. MacKenzie.

Dear Sir:

Mr. W. M. Graham of Regina has referred us to you in connection with furniture and equipment for the Old Sun's School at Gleichen.

We are in a position to make very satisfactory quotations on all lines of furniture, floor coverings, school desks, etc., and if you will be good enough to let us know what equipment will be required, we will be glad to send you illustrations and prices. Awaiting your favor, we are,

Yours very truly

Dear Sir:

We are informed that two Indian Schools are being built, in Gleichen, Alta, and Punnichy, Sask., respectively, and, as you will possibly call for tenders at some later date, for School Desks, we would consider it a favour if you would be so good as to give us the opportunity of quoting on your requirements.

We understand that the blackboard is supplied by the contractors.

Hoping to hear favourably from you in the near future, we remain,

Yours very truly,

Mr. Gurney Orr,
Department Architect,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Sir:

Our representative, Mr. N. B. Ireland recently called upon Mr. Gooderham of the Old Sun School with reference to the installation of a bake oven and the purchase of other equipment necessary for the opening of this school and he was informed that this matter should be taken up with you.

We are sending you under separate cover a copy of our #4 Bakery Equipment Catalogue and you will find ovens listed on pages, 6, 7, 8 and 9. We would ask you to kindly forward us any specifications which you may have prepared with reference to the installation of a bake oven for this school, so that we may be in a position to quote. Our prices are given in the #4 Catalogue and to your department we will allow a discount of 10%.

We would also ask you to have our name placed on your department purchasing list so that your Mr. Gooderham may be able to purchase from us any supplies necessary for the school. We would allow your department a discount of 10% on these items also.

You will find a small list giving the names of the institutions and people using our ovens on page 11 of the catalogue. We might state that we have had the privilege of installing all the ovens for the T. Eaton Co. since the inauguration of their Winnipeg store. We have also supplied all the bake ovens for both the Canadian Pacific Rlys. and the Canadian National Rlys, besides the various Government Institutions throughout the Province of Manitoba.

MOP TRUCK, OR PORTABLE SINK

Two heavy galvanized tanks—one for clean rinse water, the other for wringing out dirty mops.

Patent Mop Shield—prevents mop from getting into dirty water.

Wringer has 75 to 150 lb. pressure. Solid steel or maple pliable rollers. Do not tear the mop.

Bath-Tub Outlet System eliminates projecting faucets and protects walls: empties 50 gal. truck in 1½ minutes.

No. 3A Mop Truck, 26 gal. cap'y.
No. 2D Mop Truck, 50 gal. cap'y.
No. 2B Mop Truck, 50 gal. cap'y.

Dustbane Products Ltd.,
Ottawa.

Gentlemen:—

"The problem of clean floors, which was always very intricate in our establishment, was solved when we adopted the No. 20 Finnell Scrubber—No. 7 Mopping Machine and No. 6 Mop truck, and we are pleased to state that we have not been disappointed in our expectations, as there is an improvement of 100% in the appearance of our floors."

A. J. Freiman Limited, Ottawa, Ont.

The Finnell Equipment for our new building consists of a No. 20 Scrubber; No. 7 Mopping Machine; No. 17 Scrubber-Polisher; No. 30 Household Model (for scrubbing the stairs); No. 10 Water absorber; two No. 6 and two No. 4 Mop trucks. This gives very superior floors and lightens the work of the cleaning staff—while it shows us considerable economy. We would not like to get along without it.

Ottawa Electric Co. Limited.
R. O'Connor, Building Supt.

"Our Company have been using two of your No. 7 Finnell scrubbing machines for eight years past, during which time we have had entire satisfaction from same. They are a real labour saving machine."

Canada Bread Company, Toronto, Ont.

"Your Finnell electric Waxed is giving every satisfaction, and is quiet in operation."

"Your efforts to give service I can commend by reason of my experience with your firm."

Calgary General Hospital,
Per J. Barnes, Mgr.

"We have been using the Finnell System Machine for 4 years and are quite satisfied with it."

20th Century Progress

No. 15A Scrubber and Polisher

Dark Ages

Dustbane Products Ltd.,
Ottawa, Ont.

"We like your No. 50 Finnell better all the time and it is certainly a great labor saver."

Mrs. H. —, Sackville, N.B.

"The No. 50 Household Waxing Machine which we are using on hardwood and linoleum is giving splendid satisfaction and is much superior to the machine which we were previously using. It is all you claim for it. We have no hesitancy in recommending it to anyone requiring a high class polisher for floors."

Pincher Creek Motors, Pincher Creek, Alta.

No. 50 HOUSEHOLD FINNELL
Waxes, Polishes, Scrubs, Removes Varnish.

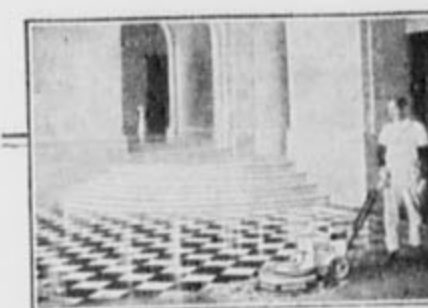

We recommend D.B. LUSTA WAX
because of its hard brilliant lustre finish.

Dustbane Products Ltd.,
Ottawa,
Gentlemen:—

"In the cleaning of the linoleum floor, we are able to get through in almost the same length of time with a staff of three, as we did previously with a staff of six. Also using a set of dry brushes, we have obtained very good results in the polishing of our hardwood floors, in a great deal less time than by hand method."

Yours very truly,

Ryrie-Birks, Limited, Toronto.
Per W. A. Jay.

"The 50A Finnell installed in Hart House has proved to be quite satisfactory. It has been used for the following purposes:—

- (1) Scrubbing travertine and mosaic flooring.
- (2) Cleaning dirt and old wax from the oak floors of the Common Rooms.

These floors receive very heavy use while the University is in session.

- (3) Polishing the floors of the Common Rooms.
 - (4) Polishing waxed linoleum in the Billiard Room.
- We are very pleased with the results obtained so far with the use of this machine both from the quality of the work performed and also in the saving of labour."

Hart House, University of Toronto,
J. R. Gilley, Comptroller.

Attention of Mr. Gurney Orr- Architect.

Dear Sir,-

Agreeable to your suggestion we are enclosing herein illustrations of the Finnell Electric Floor Cleaning Units recommended for the Indian School at Gleichen, Alta. which we understand are in agreement with the ideas of Mr. E. H. Gooderham, Indian Commissioner at Gleichen.

#15A	Finnell Scrubber	\$195.00
#10	" Water absorber	25.00
#4a	" Mop truck	45.00

These prices are F.O.B. Gleichen, Alta.

The present model Finnell Machines are the result of 25 years experimenting by the manufacturers in order to perfect a machine for this class of work, and the Canadian Factory is located here at Ottawa, so that prompt service is assured when parts of machines are required. Our Branch at Winnipeg would always be in position to service machines throughout the West as our regular salesmen call on our customers at regular intervals.

Thanking you for courtesies extended,
we are,

Yours very truly,

BEAVER SOAP AND CHEMICAL LIMITED.

WINNIPEG? Canada.

Calgary, Alta.
Feb. 10th, 1930.

Mr. E. Gardner-Smith,
Inspector,
Dept. of Indian Affairs,
Gleichen, Alta.

Dear Sir:-

We are enclosing herewith photograph of our special single roll Beaver Flatwork Ironer, which machine is made in the 12"x64" roll or 12"x75" roll. The chest on this machine is made of high grade close grain semi-steel composition, and the machine is constructed for goods to be fed straight through or returned to the feed side. In the motor driven machine an automatic safety finger board is used to comply with the Accident Prevention Laws.

The prices are:-

Special Beaver Single Roll, 12"x64"
Flatwork Ironer, Belt driven \$715.00

this one available
// Same as above, Motor driven 805.00

Special Single (Beaver) Roll, 12"x75". 750.00
Flatwork Ironer, Belt driven.

12"x75" machine, Motor driven 900.00

The above prices are F.O.B. Toronto. Sales Tax extra, if applicable to your Department.

The necessary device for applying or releasing the pressure is very conveniently arranged and our gears are fully guarded. We recommend our Special Single Roll Ironer very highly, and we hope to be favored with your esteemed commands.

Yours very truly,

Rev. F. M. Rose Gibney,
Gleichen, Alta.

Dear Mr. Gibney:-

Re Typewriter Table

We attach herewith a cut of typewriter
table #0117. This is an oak table with top 38 x 20
and two drawers on the right hand side as shown.

The price on this table is \$17.50.

While nothing was said regarding a
chair for this table I enclose also three cuts of
stenographers chairs as follows:-

#1404	@	\$22.00
#1403	@	19.00
#216	@	18.25

Another one similar to #216 in a
little cheaper construction sells at \$16.00.

Thanking you for your enquiry.

Yours truly,

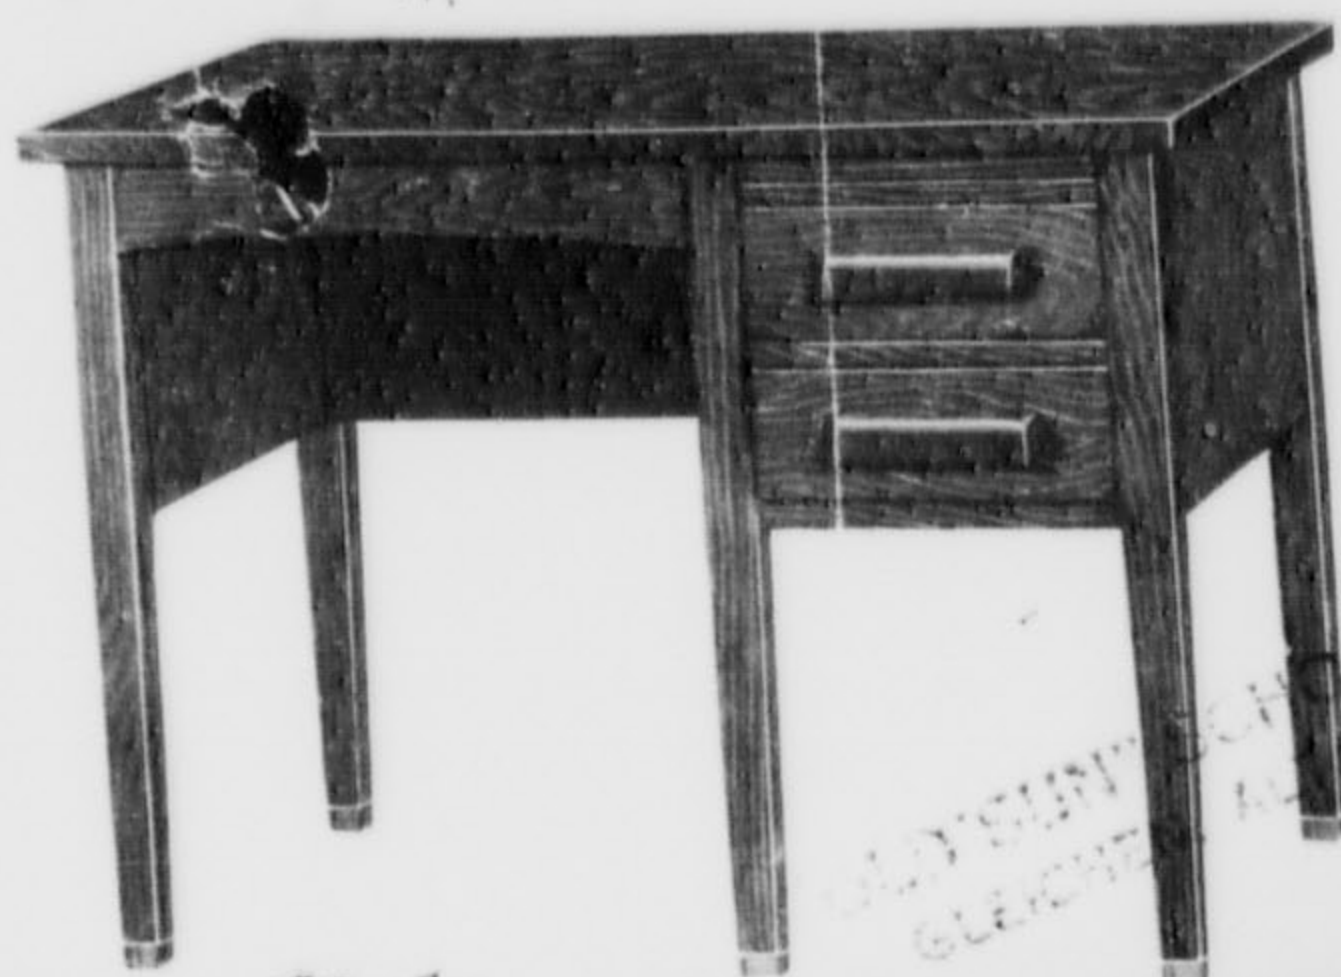

F. E. Osborne,

The Brantford Divider and Rounder

THE DIVIDER

THE BRANTFORD is a sturdily constructed two-pocket Divider running at correct speed and does not rack itself like the ordinary single loaf Machine, eliminating breakages and unnecessary repairs. Extremely economical for operation, and only One Horse Power motor is required. Our patented large side roller allows just the right amount of dough to fill the hopper entirely free from air pockets, producing a uniform loaf throughout the run.

THE ROUNDER

THIS MACHINE rounds a perfectly formed loaf—without tearing or cutting the skin. Very little dusting is required. It can be cleaned in a few minutes time, as all parts are easily accessible. The Machine is arranged to round loaves of a uniform size from 1 oz. to 40 ozs.

The Brantford Mixer

10
"OLD SUN" SCHOOL
GLEICHEN, ALTA.

IT IS OUR AIM to build a Mixer that will not only do its work well for many years, but will also be prized for its beauty of line and sanitary appearance. In this well proportioned Machine we have combined beauty with an improved design producing a high grade Mixer.

It is equipped with Canopy Top, Approved Oiling System, Enclosed Base, Adjustable Bearings, Special Packing System, Extended Shaft and Clutch. The four-way Mixing Action of the Arm is an important feature, which produces a super quality Loaf in less time. It is in the medium priced field, and these important factors should recommend it for your earnest consideration.

The Brantford Moulder

THE IMPROVED BRANTFORD MOULDING MACHINE is an absolutely new and re-designed Machine embodying all the good points but eliminating all of the objectionable features. Many improvements have been incorporated in this Machine, and it has proved most efficient in every way. We have no use for the flanged narrow feed rolls commonly used, for the reason that they are too harsh on the dough and small pieces will be clipped off every few loaves in passing through. The work is performed with practically no noise and makes no scrap.

BRANTFORD OVENS BAKE PROFITABLY

This Oven (formerly known as the New Homestead), will do all kinds of baking profitably, and in your bakeshop will earn the money to pay for itself just as it is doing in many other shops.

Decks are of particularly smooth tile,—peeling is remarkably easy—pans last much longer. The walls are extra heavy and the flue construction distributes all the heat to the best advantage. The deck linings hold this heat, making it simple for the baker to maintain a steady, lasting temperature at the desired degree.

*"OLD SUN" SCHOOL
GLEICHEN, ALTA.

Brantford Portable Ovens, Medium Sizes

Any fuel may be burned—the oven may be operated continuously or part time, always proving economical.

The side heat chambers, continued to the top on each side, are individual compartments independent of the sides.

No. 6 size only is regularly equipped with lights. No dark corners. Everything in the oven is clearly seen.

A reliable pyrometer is furnished which tells you at a glance, the exact heat of the oven.

Ovens with gas installations are illustrated on pages 12 and 13.

No.	Baking Surface	Single Pans	Double Pans	Bun Pans	Deck Measurements	Outside Dimensions	Weight

BRANTFORD OVENS BAKE PROFITABLY

Brantford Heavy Duty Pastry Ovens

This Oven has established an enviable reputation as the BEST HEAVY DUTY PASTRY OVEN EVER OFFERED TO THE BAKING TRADE. It will supply a large store with all classes of pastry, pies, cookies and cakes. It is a perfect baking oven for sponge goods, rolls, buns, coffee cakes, etc., and while it is not big enough for a large volume of bread, it will conveniently handle small batches splendidly.

This Oven is built true to the heavier type oven with heavy insulated walls, smooth deck tile, large fire brick lined furnace giving even radiation. The shield deck over the furnace is full tile and not merely an asbestos covered iron pad. The doors fit snugly and retain the heat for minimum consumption of fuel.

This Oven may be supplied with gas burners, advantages of which are outlined on page 13 of this catalogue.

No.	Baking Surface	Single Pans	Bun Pans	Deck Measurements	Floor Space	Weight

BRANTFORD OVENS BAKE PROFITABLY

Brantford Heavy Duty Portable Oven

The Brantford Heavy Duty Portable Oven (formerly known as the Black Diamond Oven), has been on the market for many years. They have been built to give lasting service and many of the first ovens are still in daily use. There is no portable oven made that embodies so many and valuable practical features as this heavy Oven.

It is not possible to fully describe the massive way in which these Ovens are constructed. Every section is reinforced, strongly braced and the heavy sheet steel on all sides prevents sagging.

Instead of the heat being given out and heating the workroom, all the heat generated is retained and evenly distributed to all parts of the baking chamber. The saving thus brought about is remarkable.

Despite this radical saving in fuel, and the further advantages attained in baking, the cost is remarkably moderate.

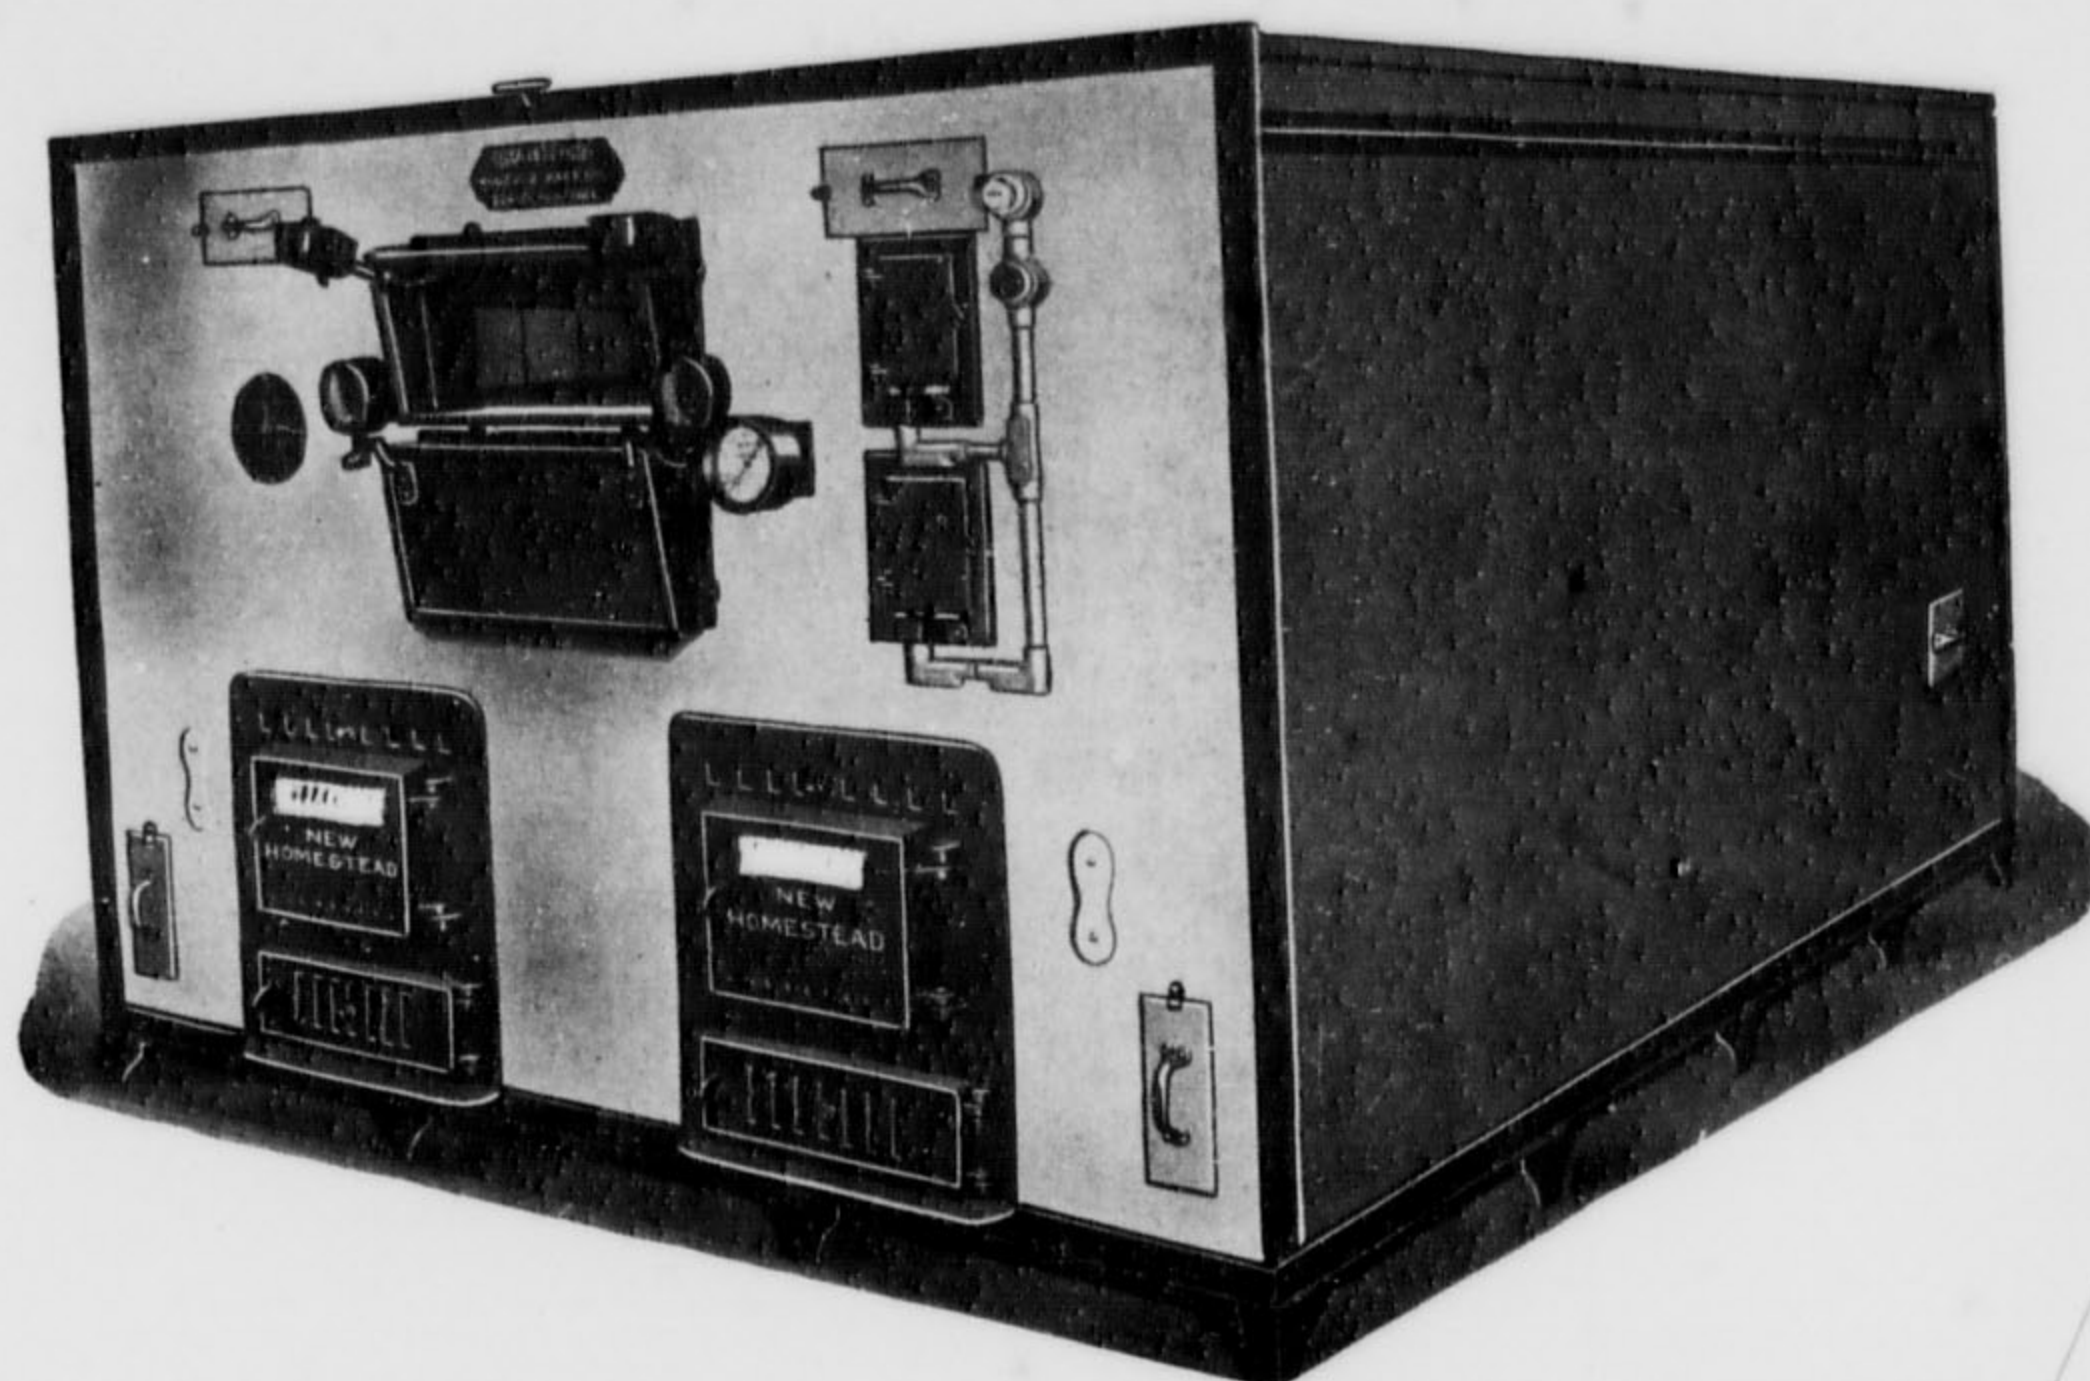

No.	Baking Surface	Single Pans	Double Pans	Bun Pans	Deck Measurements	Floor Space	Weight
72	63 sq. ft.	156 loaves	168 loaves	22	56" x 81"	6' 6" x 7' 9"	7630 lbs.

BRANTFORD OVENS BAKE PROFITABLY

Brantford Portable Ovens, Large Size

"ECONOMICAL ON FUEL." "HOLDS THE HEAT." "EASY TO FIRE." "A PERFECT BAKER," SAY OWNERS OF THIS SPLENDID OVEN.

Such expressions of enthusiasm are corroborated by other Canadian bakers whose letters we have on file—conclusive evidence that this oven is helping bakers everywhere to make more money.

INSULATION

All the walls are heavily insulated. The heat is kept within the oven. Practically none is lost in outside radiation. Fuel is saved and because the bakeshop is cooler it is more comfortable for the operator.

FURNACES

There are two furnaces, each lined with heavy fire brick. This means an abundance of heat without forced firing, and results in economy of fuel. At all times, because of this great reserve of heating power, the oven bakes with a steadier, more prolonged heat.

No.	Baking Surface	Single Pans	Double Pans	Bun Pans	Deck Measurements	Floor Space	Height	Weight
10	124 sq. ft.	316 loaves	388 loaves	50	80" x 112"	108" x 129"	6'	10,000 lbs.

Electric Ranges

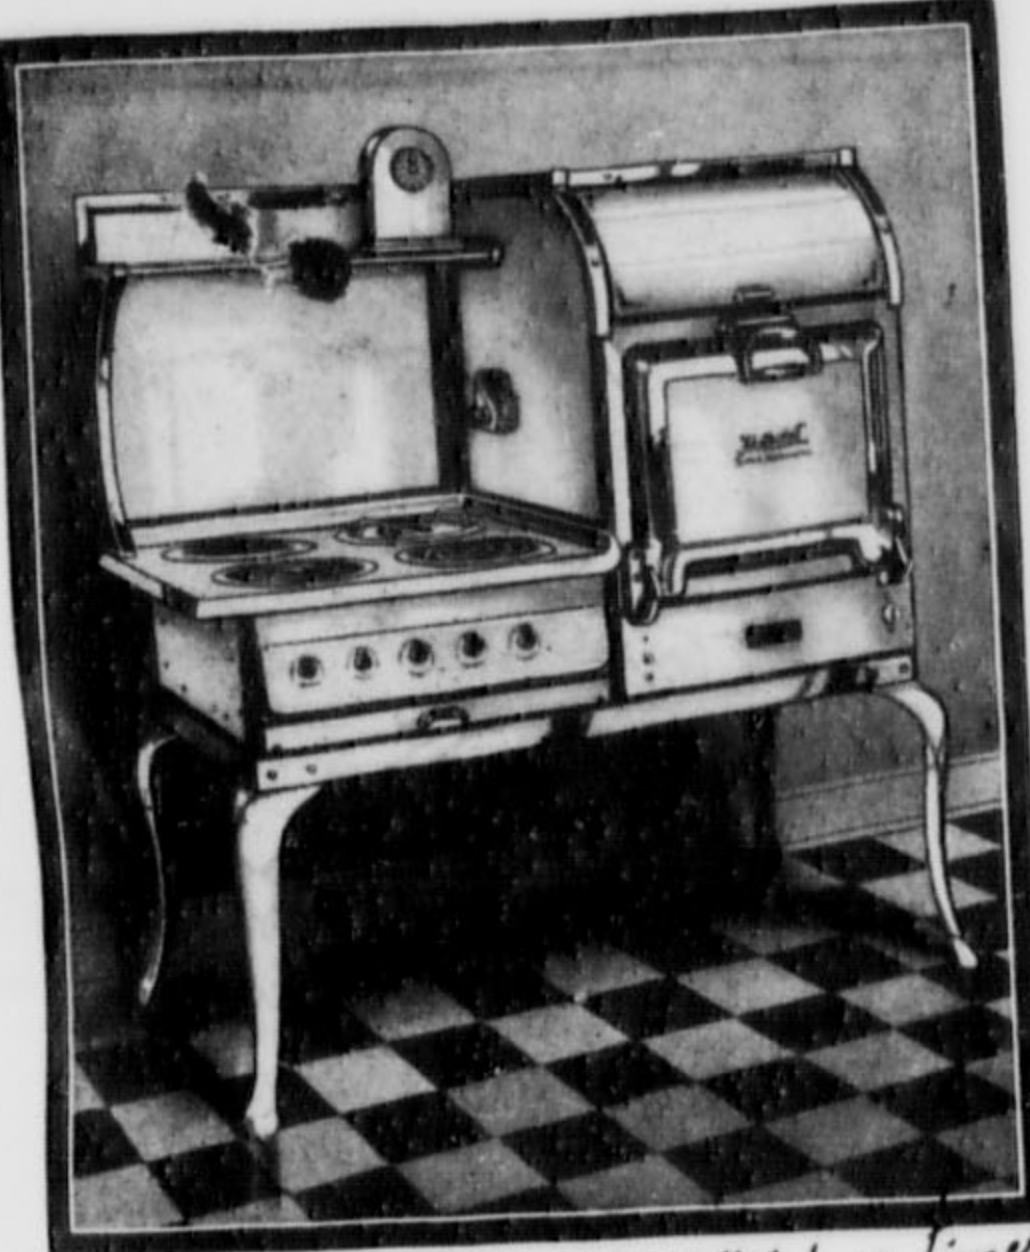

PICTURE the charm that a Hotpoint Hi-Speed Electric Range adds to your kitchen. Imagine the many delights of cooking the modern electric way. Think of the convenience of being able to get at the turn of a switch a quick steady heat that cooks food so deliciously.

When you purchase a Hotpoint Hi-Speed Range you are assured of the utmost in speed, convenience, durability, cleanliness and economy. You are offered advantages to be found in no other electric range—the Hi-Speed Element—Economy Cooker—Super-Automatic Control—All Steel Construction—and Stainless Enamel Finish. In addition, you have the satisfaction of knowing that your Range is the last word in electric range manufacture.

The Hotpoint An Exclusive

HEREIN is illustrated and described the most outstanding development in electric range manufacturing—the Hotpoint Hi-Speed Calrod Heating Element, which boils water 25 to 50 per cent. faster and at less cost than any other electric cooking element in use to-day.

Since the introduction of the indestructible Calrod Heating

Element, Hotpoint engineers have devoted their efforts to reducing the body of insulation necessary to protect the Element from "burning out," which also served to insulate the cooking utensil from the heat. Through the wonderful heat-conducting and radiating qualities of this famous construction, amazing results have been secured.

The Hotpoint Hi-Speed Elements installed in the cooking surface. Economy Cooker also shown.

Hotpoint
16

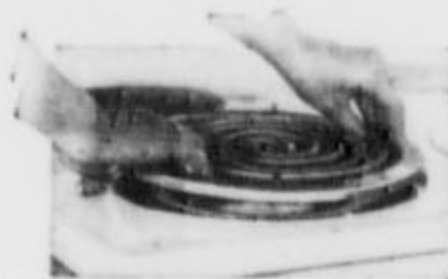

The Hotpoint Hi-Speed Element.

Hi-Speed Element Hotpoint Feature

The Hotpoint Hi-Speed Element has been proven, by actual test, the fastest electric range heating element on the market.

All Hotpoint Ranges are now equipped with two Hi Speed Elements for fast cooking operations.

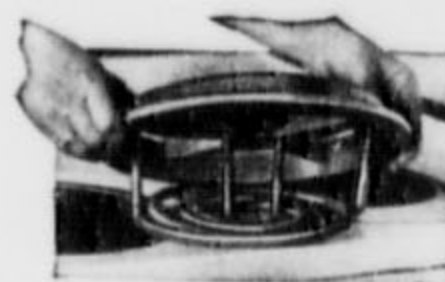

Easily removable for cleaning. Simply grasp nickel plated ring and lift element out.

The remainder, of course, are the famous cast-in type of Calrod Heating Element which has proven the most

practicable construction possible for all ordinary cooking requirements.

Hi-Speed Elements can be obtained only on Hotpoint Ranges. They are an exclusive patent and have rendered all other types of so-called "speed elements" obsolete.

To remove heating coils, turn face down. The container can then be washed as easily as a pie plate.

Patented Calrod (Sheathed Wire) Elements

ELECTRIC cookery has been denied many homes because of the persistent expense due to service and replacement of the heating elements.

Exhaustive experiments and tests have been conducted in the Research Lab-

Fig. 2
Showing the position of the coils
embedded in solid cast iron.

Fig. 1
Showing the position of the coils
beneath the cast iron surface.

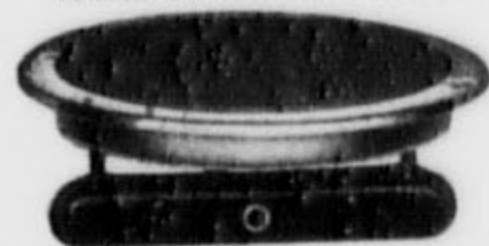

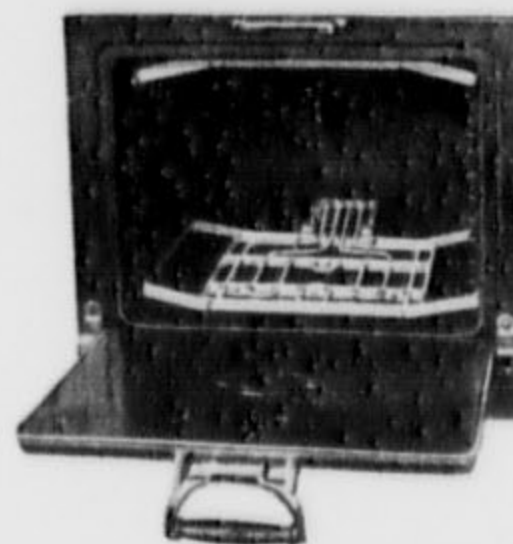

Fig. 3
Showing the complete surface type
heating element, the top of which is as
flat and smooth as the lid of an old-
time coal range.

oratories of the Canadian General Electric Co. Limited, in an endeavour to produce an electric range element which would be practically indestructible. The element here illustrated is the outcome of these experiments. The heating element wire is surrounded by an insulating powder and enclosed in a metal tube or sheath. The element sections are then wound into a circular form and are CAST IN SOLID IRON, thus forming a complete self-contained element which is practically indestructible.

Hotpoint

Patented Calrod (Sheathed Wire) Oven Elements

IN this construction the element sections are wound into a form which will give the most even distribution of heat. They are then set into a welded steel frame which will neither buckle nor warp. The

Hotpoint Oven—Showing Calrod
Elements

steel frame is formed into a guide which makes the withdrawal and replacement of elements simple.

The Terminal Construction is such as to make contact solid and positive. Calrod Oven Elements are Standard in all Hotpoint Ranges.

Oven Linings

All oven linings are full vitreous enamel.

Automatic Oven Control

(Accurate Operation)

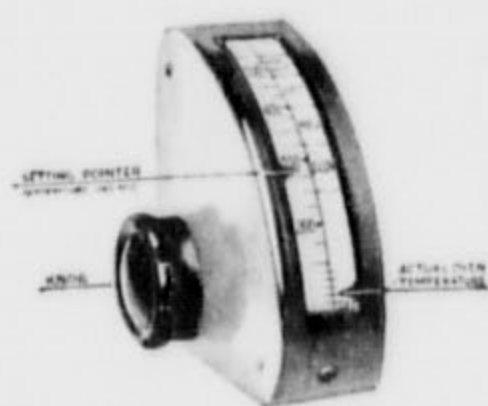

THINK of a range with an "Electric Timer" that turns the oven on automatically when the cooking is to be started and turns it off when the food is cooked—all without care or attention.

Think of a range that has "heat control" which automatically maintains the oven at just the right temperature for the food being cooked—just right—neither too hot nor too cool.

Hotpoint Electric Timer

This is what Hotpoint gives you in its Super-Automatic Ranges—the last word in range construction—the finest, most modern electric ranges manufactured.

Hotpoint Oven Heat Control

Hotpoint

Hotpoint Economy Cooker

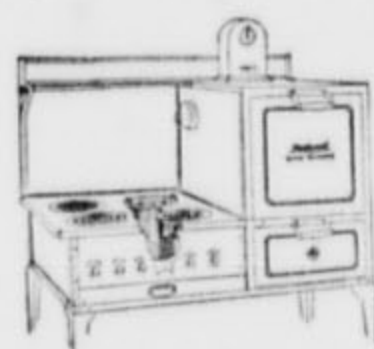

Cat. No. C-6—ECONOMY Cooker with a 5-quart Kettle.
Cat. No. C-7—Set of Utensils.
(Clover Leaf Pots, 2 Pans and Rack.)

Economy Cooker With Utensils

A COOKER that bakes, roasts, boils, steams, stews and even fries, and can be installed in any four-burner cabinet model Hotpoint Range or the Cafeteria Cooking Table. It consists of a large insulated container which is set into one of the rear element openings flush with the cooking surface.

The Cooker contains a heating element controlled by a switch on the front of the range. It is fitted with a five-quart kettle for general cooking operations, and a set of utensils, which is optional. It is heavily insulated, has a rustproof lining and a drawn aluminum cover, also insulated, and provided with a vent for the escape of excess steam.

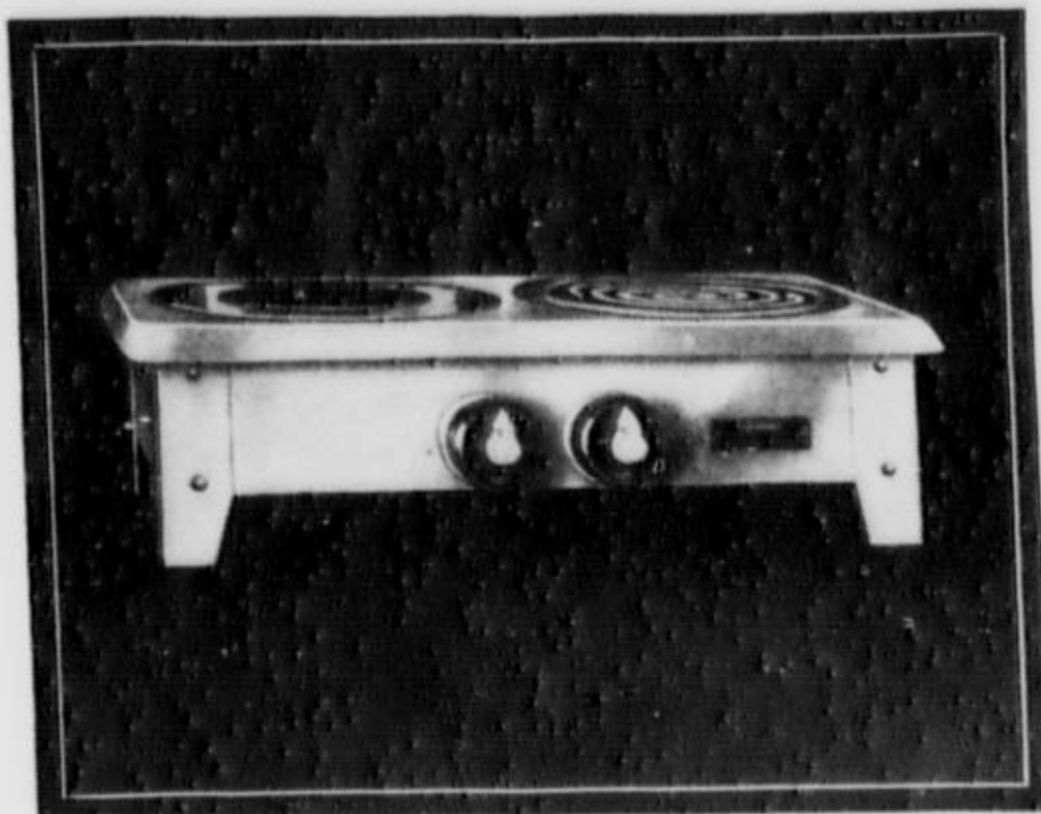

Economy Cooker installed in Cooking Surface of Range.

Many appetizing dishes, and even complete meals, can be cooked economically and completely in the Economy Cooker. The Economy Cooker is optional equipment, at extra cost.

Guarantee

We guarantee SLATEBESTOS blackboard, when properly installed and cared for according to our printed instructions to give satisfactory service during the life of the school building.

Simplex Bulletin Boards and Tack Strips

THESE are as essential as blackboards in the modern school, and are easily installed. Simplex Bulletin Boards and Tack Strips are placed above and at the ends of the blackboards in panels and strips; also in panels in doors and partitions.

Simplex Bulletin Boards are uniform $\frac{1}{4}$ -in. thickness pressed cork of uniform color and resiliency with burlap backing. The cork surface holds pins or thumbtacks securely and does not show holes when tacks are removed.

Simplex Bulletin Boards do not warp or buckle, and when soiled can be cleaned easily with soap and water. They are easily installed by any carpenter by cementing to the wall or nailing along all edges before putting the moulding in position. Furnished in light brown or green color in 12 and 18 inch widths.

Blackboard Mouldings

For Use With Slatebestos

No. 1. Base moulding for use at bottom and which forms a support for No. 5 chalk trough. 2 inches wide.

No. 2. Rabbeted Moulding used for top and ends or for frame all around. 2 inches wide.

No. 4. Quarter-round Moulding used at base of blackboard to hold in place, also used in corners and against window casings. $\frac{5}{8}$ inch wide.

No. 5. Improved Chalk Trough for use with mouldings. Center "hump" corner pockets collect and hold dust. Crayons and erasers can not pick it up. 2 inches wide.

Simplex Invisible Blackboard Joining Strips

"H" SHAPED

For use with Slatebestos Blackboards. The modern way of joining blackboards where necessary to use more than one piece on long walls.

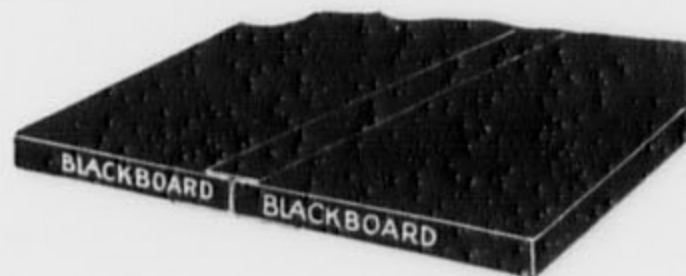

Illustration shows how Simplex Joining Strips are fitted to the blackboard

The illustration shows the proper method of covering joints on large wall spaces when more than one piece of blackboard is used. This method does away entirely with the unsightly "hump" produced by the half-round moulding which many manufacturers of composition blackboard use. The installation is most simple—the strips merely being fitted in between the two slabs of blackboard, the moulding at top and bottom holding them in place. Made in two lengths to fit width of blackboard.

Joining strips are furnished to match color of the blackboard, thus making one continuous writing surface.

The Permanent Blackboard

YOU WILL FIND SLATEBESTOS ALL THAT WE CLAIM FOR IT

A Tested, Superior Blackboard

Slatebestos has established a new standard of blackboard excellence by practical proof and demonstration of its durability, economy and desirability.

How Slatebestos is Made

The base of Slatebestos consists of asbestos fibre, hard minerals and cement, united under a tremendous pressure of 24,000 lbs. to the square foot.

Slatebestos has great tensile strength because of the fine, extra long, tough, clean, selected asbestos fibres employed in its manufacture, which preclude any tendency to buckle or warp.

Slatebestos contains a special, high grade cement mixture with hard minerals, which improve with time. In fact, it actually becomes tougher and harder the longer it is used.

Slatebestos is as hard as rock, possesses extreme density with almost no expansion. It is built solid throughout its full $\frac{3}{16}$ " thickness.

Perfect Writing Surface and Color

The writing surface of Slatebestos is produced through a series of liquid blackboard surfacing coats, which penetrate the body of the board. The method is to apply each coat and then rub it down, thus building up the incomparable, velvet like, non-reflecting, dark slate color writing surface.

The result is ideal for rapid legible writing. The chalk marking surface contains just enough "bite" to cut crayons, without noise and makes a clean, white, sharp mark, which can be plainly seen from all parts of the schoolroom without eyestrain. Erasures can be made easily and rapidly.

Just a few of the many good reasons why Slatebestos has the advantage over other types of Blackboards

MORE ENDURING: Slatebestos actually improves with age. It will render years of satisfactory service. Due to its composition of asbestos and cement, Slatebestos is the greatest fire-resisting and enduring blackboard on the market today.

NO BREAKAGE: Because Slatebestos possesses elasticity, it is subject to practically no breakage. Users of natural slate know from experience a shipment seldom arrives in perfect condition, with consequent delays, expense and annoyance.

LONGER LENGTHS: Slatebestos is manufactured in long lengths up to 8 feet. Hence it requires fewer joints. You are assured of a more continuous and better writing surface.

LOW UPKEEP: Slatebestos surface is perfect and uniform, and remains so indefinitely. Refinishing is infrequent and far less costly than slate. When necessary it can be done at a very small expense. Cost of maintenance is reduced to a minimum.

SAMPLES AND PRICES
UPON REQUEST

Permanent, Durable, Dependable

There is no better blackboard made than Slatebestos for installation in new schools or for replacement in old ones where a permanent blackboard is required.

Low Cost — Saving in Freight

Slatebestos costs considerably less per square foot than natural slate. Your cost of installation is much less. But that is only a part of the actual saving. You pay freight on two-thirds less weight. There is little or no breakage, no inconvenience, no delays. And above all you have a better blackboard.

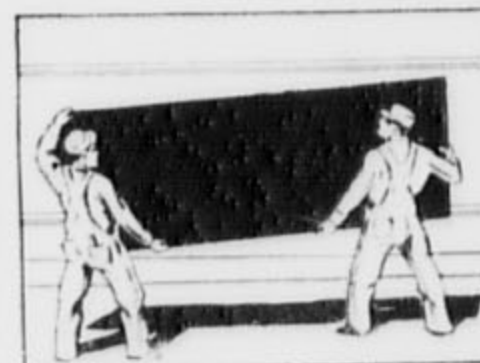

Sizes and Widths

Slatebestos is made in standard widths of $3\frac{1}{2}$ and 4 feet, and in any length up to and including 8 feet. Any desired length will be cut, but a fraction of a foot is charged as a full foot. Slatebestos is $\frac{3}{16}$ " thick and weighs $2\frac{1}{4}$ lbs. to the square foot.

Easily and Quickly Installed

Slatebestos can be installed over any kind of even wall of plaster, stone, brick or tile. Joints can be made secure with Simplex Joining Strips, so that writing over them is always possible, thus forming a continuous writing surface.

We furnish complete directions for the installation of Slatebestos—directions so simple that it is possible for any one to install it.

Service

Slatebestos is carried in stock in Chicago and immediate shipments are assured.

We have a thoroughly efficient Service Department, competent to advise in all questions pertaining to blackboards. If there are any points not clear, write us.

THE CANADA INDESTRUCTO ADJUST- ABLE MOVABLE DESK

The best desk obtainable and the price the lowest. Installed in more than eighteen hundred schools and giving universal satisfaction. The top is adjustable in height, in tilt and has a leveling adjustment not possessed by any other desk. The position of the quartered oak back slats are also adjustable.

Wood part are of oak, finished dark golden and packed in crates, while the steel frames are finished olive green and shipped in bundles of two, wired together. These desks may be assembled more quickly and more easily than the combination desks.

The 24 points of a perfect desk, as decided by leading educators, are all possessed by the CANADA chair desk.

THE SUSSEX PRESSED STEEL DESK

No. 46

THIS desk has pressed steel standards of four-wall construction which gives them unusual strength and rigidity. The foot also is exceptionally durable, having an inside shoe over which the steel is formed. The seat hinge has its working parts exposed and the friction will not change.

These desks have the dividing line feature so that more than one size of desks may be used in the same room. For illustration, the larger size desk has its seat lowered to fit the smaller one placed in front of it.

The wearing qualities of the combination type are longer than those of the other styles and they are more rigid as well.

Woods are of birch, walnut brown color, duco finished. Metals have baked-on enamel.

TO THE
SCHOOL TRUSTEES AND SECRETARIES OF SASKATCHEWAN:

We are pleased to report a further increase this year in the volume of school supplies handled by our Association. The value of co-operative purchasing in holding down the cost of school supplies is more and more being realized by the school trustees and secretaries of the province.

You will notice in this catalogue that we were able to obtain a reduction in price on many articles and also on several lines secured the further advantage of having transportation charges paid to your station. The substitution of steel desks for cast iron desks, without an increase in price, should meet with general approval.

We have found it necessary to make a charge of 2% over the prices quoted herein, to meet the cost of the services provided by the Association and relieve our general funds from that burden.

Our school supply service has saved many thousands of dollars to the parents and ratepayers of Saskatchewan, and will be continued so long as we receive your support. Please arrange with your teachers to make up an order covering your yearly requirements and send us your order early.

Orders should be addressed to the office of the Association as given below, but payment plus exchange should be made to the firm from whom goods are received within thirty days from date of invoice.

For convenience to our customers, if requested we will be pleased to prepay carrier charges on your orders and include the amount of such (actual) charges in your account.

When ordering simply say "Pre pay" and add to our account.

Please remember you are charged with only the ACTUAL transportation charges on your own shipment—not an averaged charge—no guess work.

This is a convenience in that you do not have to issue a second cheque for transportation charges or make a second charge in your books.

Terms—All accounts must be closed inside 30 days by cheque, plus exchange.

Yours sincerely,

Saskatchewan School Trustees' Association,

CHARLES E. LITTLE,
Secretary.

"CANADA" STEEL DESKS

(The Best Desk Made)

A Word about Construction and Design

IN designing and constructing its product, the CANADA Seating Company has been guided constantly by the ideas and standards of experienced educational and medical authorities. There are no mere theories embodied in Steel School Room equipment.

Structural steel is used wherever possible for lightness and strength. The lightness saves 30 per cent of freight costs and facilitates moving about in the school room when necessary. Its great strength insures absolutely against breakage in shipment or in long, hard service in actual use.

Fixed School Desks

The CANADA Combination Desk is known the entire country over because of its flawless design and enduring service.

The CANADA line of Adjustable Desks has adjustments that are both positive and simple. Once locked into the proper position, the wandering fingers of curious students cannot alter its height. The CANADA High School Desks have the same adjustment feature and restless little bodies can squirm about at will

without annoying the students directly in front or behind.

The design is free from meaningless curves and scrolls, which might tear clothing and catch dust and germs. All models are of simple, dignified proportions which are in keeping with the finest surroundings and modern ideas of aesthetic fitness.

The smooth steel and carefully selected and seasoned woods are finished with the best of materials. Baked on enamel on the steel parts and fine varnish on the wooden construction will give enduring service.

Movable School Desks

Demand on Movability in school desks is increasing due to changes in type of school building construction, especially class-room teaching methods, and many rural schools being used occasionally for social gatherings. The 192 Steel Movable Chair Desk has been developed after extensive research and experimentation to fill this growing need.

The old-fashioned cast iron desk is fast going out, and the steel desk taking its place.

THERE ARE IMITATIONS, BUT THERE IS NOT A DESK

Factory Shipment.**A Tested, Superior Blackboard**Slatebestos has established a new
standard of blackboard excellence by
practical proof and demonstration of
its durability, economy and desira-
bility.**Just a Few of the Many Good Rea-
sons Why Slatebestos Has the
Advantage Over Other Types
of Blackboards:****MORE ENDURING:** Slatebestos
actually improves with age. It will
render years of satisfactory service.
Due to its composition of asbestos
and cement, Slatebestos is the great-
est fire-resisting and enduring black-
board on the market today.**NO BREAKAGE:** Because Slate-
bestos possesses elasticity, it is sub-
ject to practically no breakage. Us-
ers of natural slate know from ex-
perience a shipment seldom arrives
in perfect condition, with consequent
delays, expense and annoyance.**LOW UPKEEP:** Slatebestos sur-
face is perfect and uniform, and re-
mains so indefinitely. Refinishing is
infrequent and far less costly thanslate. When necessary it can be done
at a very small expense. Cost of
maintenance is reduced to a mini-
mum.The writing surface of slatebestos
is produced through a series of li-
quid blackboard surfacing coats,
which penetrate the body of the
board. The method is to apply each
coat and then rub it down, thus
building up the incomparable, velvet
like, non-reflecting, dark slate color
writing surface.The result is ideal for rapid legible
writing. The chalk marking surface
contains just enough "bitt" to cut
crayons, without noise and makes a
clean, white, sharp mark, which can
be plainly seen from all parts of the
schoolroom without eyestrain. Era-
sures can be made easily and rapid-
ly.We guarantee SLATEBESTOS
blackboard, when properly installed
and cared for according to our print-
ed instructions to give satisfactory
service during the life of the school
building.Price per sq. ft.50
Length to 8 feet Widths 3½ and 4 ft.**SLATOPLATE—"AS GOOD AS THE BEST" FOR LESS**The Slatoplate has exactly the same merits and advantages found
in blackboards of similar ingredients and namesake. It is also guaran-
teed, providing it is properly installed according to manufacturer's
instructions.Black, per square foot \$.31
Green, per square foot32

CANADA STANDARD SCHOOL MAPS

This new Series is devised expressly for use in the school room, and is the embodiment of the most modern ideas in the teaching of Geography.

These maps are of a practical size for the school room: large enough for clearness but not cumbersome.

The cellulose WASHABLE surface is an exclusive feature of CANADA Maps, the importance of which cannot be over-estimated. This surface not only protects the map, but by enabling you to wash it with a wet sponge, as you would a blackboard, it facilitates cleanliness and sanitation, also it enables the teacher to mark special information on the map with ink, water colors or crayons, and later to remove these markings without affecting the map. The maps of the Series are:

North America	44x51 Ins.	Asia	51x44 Ins.
South America	44x51 Ins.	World, Hemispheres	51x44 Ins.
Africa	44x51 Ins.	World, Mercator	51x44 Ins.

Canada Translucent Window Shades

For many years CANADA Adjustable Window Shades have been providing correct control of sunlight and affording better ventilation in schools and other public buildings throughout Canada. CANADA shades are the standard to which all other adjustable shades are compared. Note the important and unequalled features:

The very rugged construction of blinds was described by a school official as "boyproof."

- Adjustable**—May be controlled from the top as well as from the bottom.
- Sanitary**—Exclusive control features keep hands from touching any portion of shade fabric, and permit free ventilation through any portion of window.
- Durable**—Best grade of materials throughout; may be expected to outlast three or four of the ordinary old-fashioned shades.
- Translucent**—Modify and diffuse light correctly to all parts of room.
- Attractive**—Tasteful design and careful workmanship insure dignified and handsome appearance.
- Practical**—May be easily and quickly adjusted to meet all light conditions. Shade cloth is selected grade of cotton duck—strong, pliable and long-wearing. Color—Tan (light).

This shade is simple in construction and is a popular type in schools and public buildings. It can be furnished to overlap the window casings or to hang between the casings as may be desired. It is controlled by means of a cord and automatic lock pulley. It is simple in construction and has no intricate parts to get out of order.

Translucent Adjustable Folding Shades

Inches	Width	Inches	Length
No. 5/30	60		\$2.95
No. 10—34	66		3.60

No. 50—36	84		5.75
No. 55—40	84		6.00

Important—Be sure to specify whether inside or outside brackets are required—send exact measurements of full sized window between casings. All blinds made to order and cannot be returned.

Prices on Translucent window shades on single rollers on request. Sample of cloth on application.

The double roller shade consists of two spring rollershades attached to a double hanger at the centre of the window. The lower shade operates in the usual way while the upper is raised by a cord passing through an automatic lock pulley fastened to the window cap. Thus light and ventilation may be obtained either at top or bottom.

F.O.B. YOUR STATION

**TANK**

Made of high grade copper bearing steel. On large size units, only heavy metal used. All joints are welded and all are water tight. Coated inside and outside with special acid proof enamels which further protect this steel from corrosion. Exhaustive tests have proved that this material gives the most rust resisting qualities. All connections to tank made of same metal.

A NEW CLEANOUT
See Fig. 6)

A practical improvement has been made in the cleanout. A one-piece joint of threaded steel pipe four inches diameter screwed into a bushing on the tank and with a screw cap at the top. With special welded hump for padlock which eliminates interference. This new cleanout is strong and rigid, water-tight and fits the cleanout pump snugly.

CANADA SIPHON DRAFT ACCELERATOR

It will give a continuous upward draft in a two mile an hour breeze. A revolving ventilator cowl combining the positive ventilating features of the siphon and the injector.

CANADA Siphon Draft Accelerator adopted as standard equipment for the CANADA Chemical Toilets after exhaustive tests of this and many other styles of vent cowl.

MACERATOR

The CANADA System has the efficient agitator which keep the contents of the tank well mixed with the chemical located at the proper place right below the bowl at the point of deposit, where it has complete action on the sewage. An occasional turn or two of the handle back of bowl, and the work is thoroughly done. No pulley or cord to get out of order. This is a big advantage. The agitator does not occupy any unnecessary space as it may be necessary occasionally to remove foreign substances from the tank. We strongly recommend this agitator but those preferring the swinging or rotary type we can furnish same at no extra cost.

VENTILATION

To be fully efficient the chemical toilet must have a proper system of ventilation. The primary circulation of air must be from the tank itself with a downward circulation through the bowl. Suitable areas of ventilation pipe must be maintained throughout. When the vent pipes are carried through the roof, independent of flues, the system must be protected and completed by a positive draft accelerator.

The CANADA Chemical Toilet is the only one having these features. The main vent duct connects directly with the tank, and thus removing promptly all obnoxious gases.

BOWL

Made of white vitreous china which contains a very valuable inner sleeve. Bowl and sleeve are all one piece. This inner sleeve protects the dip-tube and helps keep the toilet clean. Besides the gases coming into the bowl of the CANADA Chemical Toilet follow the outside margins and are held in the space between the sleeve and the outer bowl until carried off through the ventilation pipe. They cannot go out in the room. This is our exclusive important feature.

SEAT

The famous never split construction seat made of carefully selected quarter-sawed oak. Each seat is skillfully fashioned in four sections so that the grain of the lumber runs around the hole. The sections are then united in an inseparable unit by four bolts concealed in the wood. Each seat is fitted with nickel-plated post hinge fittings. To insure long service. Wood part sanded smooth and Duco finished.

STERILIZATION

CANADA Caustic Chemical is a very powerful alkaline solution which practically liquifies all solid matter. All bacteria in the fresh sewage is completely destroyed within 24 hours so that it may safely be disposed of either on top of ground or run into a form of cess pit under the ground.

CANADA CHEMICAL—100 PER CENT. EFFICIENT Page 17
For use with CANADA Chemical Toilets or any other make of inside closets.

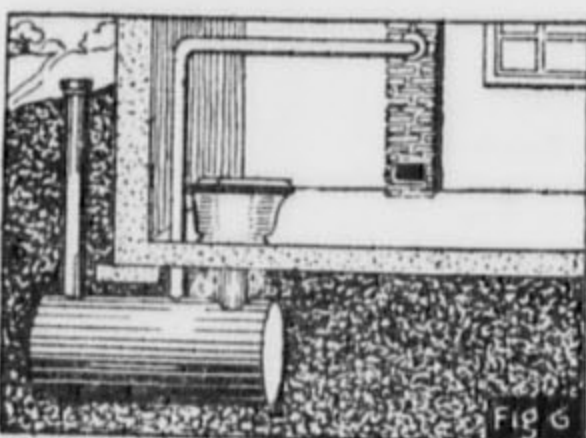

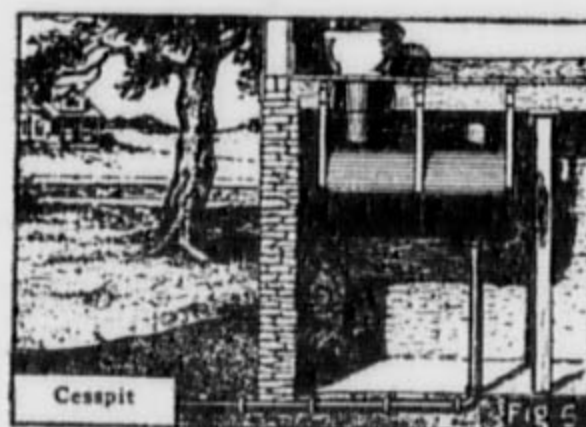

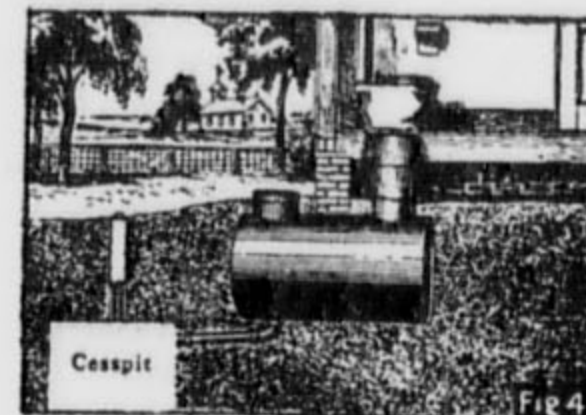

The CANADA Chemical is a powerful alkaline solution which practically liquifies all solid matter. One single drum of 30 lbs. required for each 125 gallon vault capacity each time the closet is charged. A double drum will recharge two toilets. Prices:

No. 30—Single Drum of 30 lbs.	\$ 3.60
No. 303—3 Single Drums each of 30 lbs.	10.50
No. 60—Double Drum of 60 lbs.	7.00
No. 602—2 Double Drums, each 60 lbs.	13.75

JUMBO HEAVY DUTY PUMP—No. 824

The Jumbo Pump is very powerful and speedy, capable of pumping two barrels a minute. Has 6-inch bore with 8-inch stroke and is easily taken apart. Suitable for 2 or 2½ inch rubber suction hose. Hose comes in lengths of 20 feet.

Complete with Hose	\$35.00
Vault Type Pumps	\$11.00 to \$15.00

**INSTALLATION SUGGESTIONS****Underground Tank**

Where there is no basement under the room in which toilet is being placed, this installation method is satisfactory, but to insure absolute satisfaction we strongly recommend to place top of tank below frost line. The tank may be emptied by draining into cesspit, or pumped out through manhole outside building. Cesspit should not be nearer than fifty feet from well.

Tank in Basement

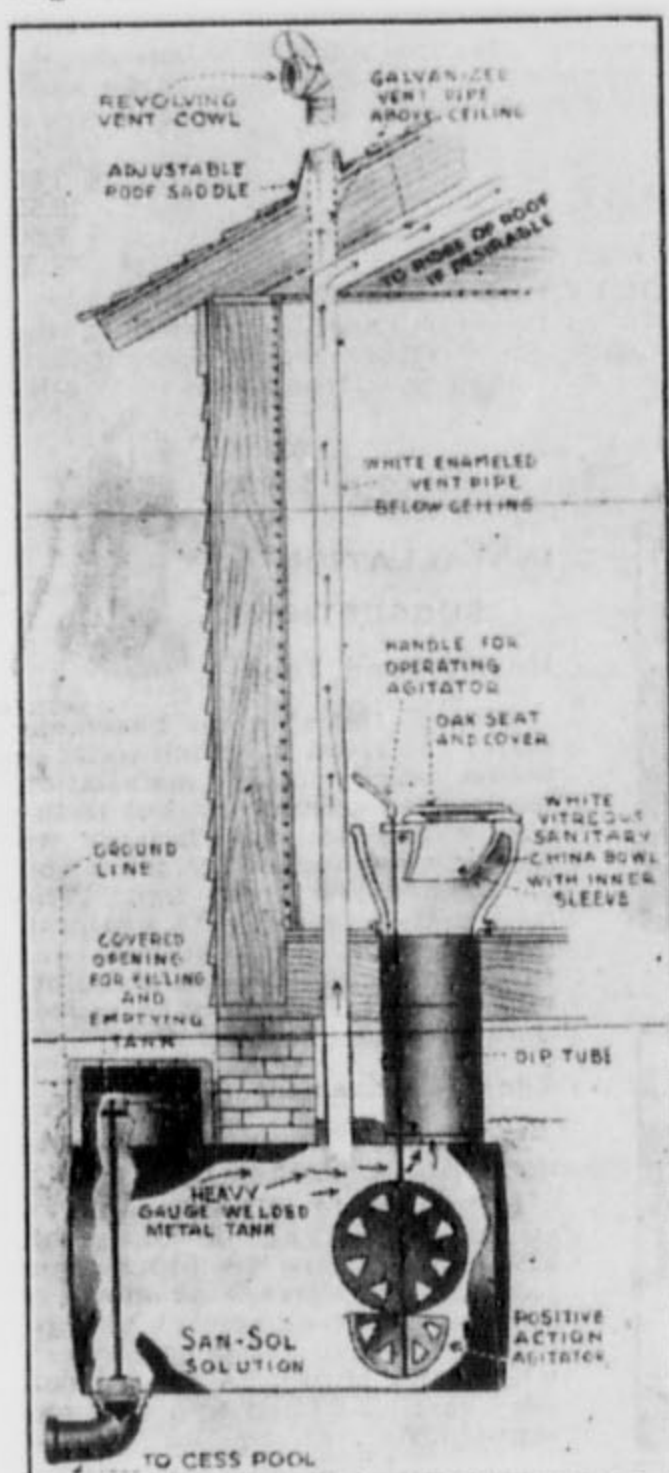

In Figure 5 we show a splendid method of installing tank.

It is best to support tank on strong scaffolding in basement, although it may be hung from joists by steel straps as shown if building is strong enough to support the weight (over half a ton) when tank is full. A cesspit can very easily be built to drain contents into.

Tank Under Basement

Basement installations must be carefully figured out. Fig. 6 shows a very simple method of emptying tank. An ordinary plunger pump will satisfactorily empty tanks up to 375 gallons. Larger installations, as in schools, should empty tanks with heavy duty pump. Chimney Ventilation is possible when there are no other openings above our connection into chimney.

Other installations can be arranged. Correspondence invited.

PRICES

Single Bowl Equipment

No. 125C.—Single Bowl Equipment with 125-gal. tank, as above.....\$ 90.00

Multiple Equipments

No. 250C.—Complete 2 Bowl Equipment with 250 Gal. Tank.....\$180.00
No. 375C.—Complete 3 Bowl Equipment with 375 Gal. Tank..... 275.00
No. 500C.—Complete 4 Bowl Equipment with 500 Gal. Tank..... 375.00

Note—Multiple Equipments of two or more bowls include a corresponding number of above parts, including header and proper size vent pipes.

STANDARD SPECIFICATION No. 125C

The following standard equipment is furnished with a single bowl system and usually sufficient to make the installation on the ground floor of a one-story building:—

1. Tank with Agitator, 125-gal. capacity.
2. Bowl with Inner Sleeve.
3. Seat and Cover.
4. Agitator Rod and Handle.
5. Dip Tube, as needed, up to 20 in.
6. 10 feet Galv. Vent Pipe.
7. 10 feet Enamelled Vent Pipe.
8. CANADA Siphon draft accelerator.
9. Roof Saddle.
10. Nuts, Bolts and Washers.
11. Drum of Chemical.
12. Can of Cement and Putty.
13. Instructions.

EXTRAS

Extra material may be needed if Chemical Toilets are installed in unusual places and same will be furnished at factory cost. Extras arise from:—

1. Unusually long run of vent pipe—over 20 feet.
2. Dip Tubes over 20 ins. long.
3. Clean-out Extensions to reach ground level if tank is buried.
4. A Pump to empty tank.
5. Drain Valve.

Pipe Furnace, less Casing, Steel Radiator, Cast Combustion Chamber.

THE CANADA SCHOOL FURNACES

The CANADA Warm Air Furnace provides both heat and moisture in the proper proportions. The fire pot is amply big to assure proper combustion, while the large water-pan set in the main front furnishes the proper degree of moisture to every air current.

The CANADA Furnace is well made throughout, careful attention having been given to every detail of its manufacture. We can unhesitatingly recommend it as efficient and durable.

IMPORTANT!

To insure most satisfactory heating installation which will give 100 per cent. efficiency, let us have blue print or a rough plan of your school showing all openings such as doors, windows and partitions, with measurements.

SCHOOL, TEXT, REFERENCE
AND LIBRARY BOOKS

All text and literature books for supplementary reading may be obtained through the Association at the publishers' prices quoted in the circular issued by the Department of Education listing all authorized text and literature books for supplementary reading.

As it is impossible to carry a complete stock of library books it is necessary to allow at least ten days to fill orders for school library books.

To save express charges, arrange for all books required for the school term being shipped on one order, if possible.

A price list of all authorized text and reference books will be supplied on request.

Books will be shipped from Regina. Prompt service assured.

TERMS:—30 days net, F.O.B. Regina, payable at par Regina.

Please make cheque payable direct to firm from whom you receive invoice.

NOTE:—All text and reference book orders should be on order forms separate from general supplies.

Address all orders to—

SASKATCHEWAN SCHOOL TRUSTEES' ASS'N.

CANADA SEATING COMPANY

WHOLESALE MANUFACTURERS OF

SCHOOL, CHURCH AND ASSEMBLY HALL FURNITURE
THEATRE CHAIRS

809A EIGHTH AVENUE WEST

CALGARY
CANADA

'Phone M. 5172.

May 21, 1930.

Rev. Mr. Gibney,
Principal, Old Sun's School,
Gleichen, Alta.

Dear Sir:-

We understand that you are in the market for a quantity of School furniture, and we enclose herewith, one of our catalogues, and literature illustrating our lines.

The prices quoted in the catalogue are, of course, subject to discount for quantities, but as we are not in possession of the specifications of your requirements, we cannot give you exact prices. We have in Calgary, samples of desks etc. and if necessary we could bring one or two on to Gleichen for your inspection.

The Canada Seating Co. is the official Supply House for the Saskatchewan School Trustees' Association, and has also supplied considerable quantities of desks etc. to the Calgary and other large School Boards. We specialize in steel-pressed school furniture, believing this far superior to the cast-iron. However, if you would prefer cast-iron, we can quote you prices on it. We also sell a complete line of Folding Chairs and Auditorium furniture.

If you will forward us your specifications, we will give you a tender on the whole contract.

Should you require any further information, kindly write, or 'phone this office at our expense.

Yours truly,

CANADA SEATING COMPANY,

(Miss) *G. E. Bridle*
for W. H. Ashead,
Alberta Representative.

MASSEY-HARRIS ELECTRIC CREAM SEPARATOR

Made in Four Sizes—400, 500, 700 and 900 lbs.

The Massey-Harris Electric Cream Separator with Governor Pulley

WHEN electric power is available the Massey-Harris Electric Cream Separator is the ideal equipment. It is a very close skimmer under any conditions—in fact, even when running cold milk it gives splendid results. It is dependable, simple and convenient to operate and possesses several exclusive features which make it the favorite of experienced dairymen.

Compact in Design

All the attachments are mounted on the Separator—no motor or Governor Pulley on the floor.

Powerful, Efficient Motor

Equipped with special type motor—ideal for use with cream separator.

Takes Up Little Room

Neat and compact—easy to work around.

Reliable Speed Indicator

Automatic indicator tells when proper speed is reached. There is no guesswork with the Massey-Harris.

Certain Control

The Governor Pulley may be set to run at any speed and always exercises absolute control. If you have electric power on your farm do not fail to ask your local Massey-Harris Agent for all information about this wonderful Separator. Ask for a demonstration; you will readily see how this machine saves you money.

THE FOUR BIG FEATURES

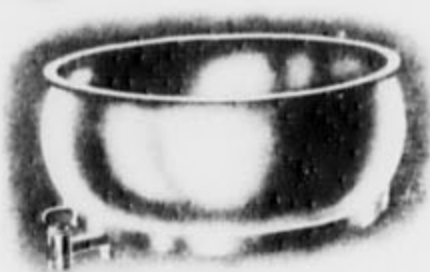

Cleanliness, Close Skimming, Easy Turning, Reliability for Long Service—these are the features a Cream Separator must have to ensure correct and profitable separation.

MASSEY-HARRIS No. 6 CREAM SEPARATOR HAS THEM ALL

EVERY day in the year you use your Separator. It must be always ready to give prompt and reliable service when you want it. And you have a right to expect this service for many years. That is the kind of service the Massey-Harris No. 6 Cream Separator is giving to users on thousands of farms in all parts of Canada today.

1. Cleanliness

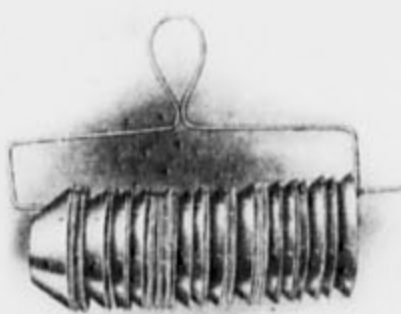

All parts are designed for simplicity and ease of taking apart for thorough cleaning.

Seamless Supply Can

The supply tank is drawn from a single sheet of steel. There are no seams or corners and the bottom is evenly rounded so that dirt will not cling. The bulging sides are specially designed to prevent the milk splashing over when poured in. All the other tinware is substantially made of steel heavily tinned. They are easily kept clean with brushes which are provided for the purpose.

Convenient Disc Holder

Discs on Holder

Seamless Tank

The supply tank is drawn from a single sheet of steel. There are no seams or corners and the bottom is evenly rounded so that dirt will not cling. The bulging sides are specially designed to prevent the milk splashing over when poured in. All the other tinware is substantially made of steel heavily tinned. They are easily kept clean with brushes which are provided for the purpose.

The discs are removed as one piece by means of our improved disc holder which is furnished free with each separator. They are easily and quickly washed and hung up to dry.

Separate Spindle

For ease of handling the bowl is separate from the spindle. When wanted for washing it simply lifts off. This possesses many advantages over separators which have their spindles solidly attached.

How to Keep Separator Clean

After using, wash bowl and tinware thoroughly in luke warm water (not boiling) and brush thoroughly with the brush that is provided. Then rinse in boiling water, which cleanses and sterilizes, and hang up to dry. If this method is followed the separator will be sweet and clean—always.

2. Close Skimming

The Massey-Harris No. 6 Cream Separator is famous for close skimming.

Bowl Skims Close

The bowl is so designed that it skims close under the most difficult conditions. Even when running a thick cream with cold milk there is no possibility of clogging, and only the merest trace of cream is left in the skim milk.

6 V-shape Openings Make for Better Skimming

No Re-Mixing

Both the skim milk and cream have clearly defined courses and there is consequently no struggle or conflict between the two. They cannot re-mix after being separated so no additional effort is required or loss of butterfat results.

The Cream Screw

The density of the cream can be easily and quickly regulated by means of the cream screw. Once set this screw needs no attention whatever unless it is decided to vary the thickness of the cream. There is no tendency to clog, no matter how thick the cream may be.

Easily Adjusted Cream Screw

3. Easy Turning

Owing to its smooth-running gears, simple positive clutch and other refinements of mechanical design, the Massey-Harris Cream Separator has a widely-known reputation for easy running. In actual dynamometer tests these famous separators have always proved their superiority in this respect. In one instance in which a Massey-Harris machine was tested against a slightly smaller machine of another make, the difference was approximately 25% in favor of the Massey-Harris Separator. This difference persisted when the machines were either full or empty. Every dairyman will realize that this represents a considerable saving in the amount of power or daily hand labor necessary.

Milk Evenly Distributed Over Discs

The split-wing with its 6 V-shaped openings—more than on any other separator—delivers the milk to the disc in such a way as to give more even and better distribution over the entire skimming area, making for easier turning and closer skimming.

4. Reliability and Long Life

Chief among the main features of the Massey-Harris No. 6 Cream Separator are its reliability and long service under all conditions. All parts are so strong and well made that the adjustments are permanent, and uniform results may be relied upon at all times for many years.

Spring Cushion Bearing

Smooth running at the bowl is always assured by our improved spring cushion bowl spindle bearing. It is designed to allow for the swaying motion of the bowl when it is not skimming at full speed.

Strong Main Frame

The main frame is very strong. It is cast in one piece and holds all bearings in perfect alignment.

Double Lubricating System

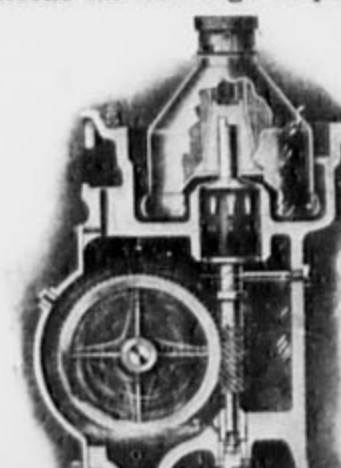

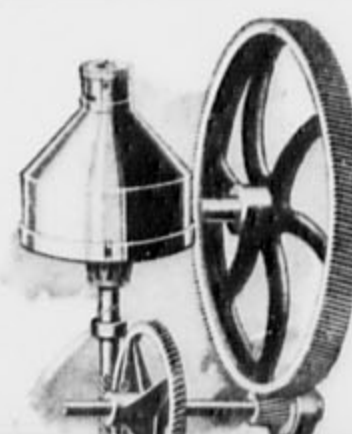

The machine is lubricated by an efficient splash system and is also equipped with oil cups, providing two complete lubricating systems. Thus long service and easy running are assured.

Smooth Running Gears

All gears are absolutely correct as to pitch and mesh. The large gear and the pinion have diagonal teeth which run more

HAS THEM ALL

EVERY day in the year you use your Separator. It must be always ready to give prompt and reliable service when you want it. And you have a right to expect this service for many years. That is the kind of service the Massey-Harris No. 6 Cream Separator is giving to users on thousands of farms in all parts of Canada today.

1. Cleanliness

All parts are designed for simplicity and ease of taking apart for thorough cleaning.

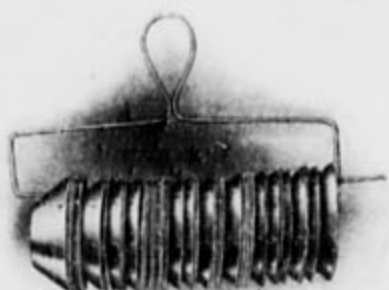

Seamless Supply Can

The tinware is substantially made of steel heavily tinned. They are easily kept clean with brushes which are provided for the purpose.

Seamless Tank

The supply tank is drawn from a single sheet of steel. There are no seams or corners and the bottom is evenly rounded so that dirt will not cling. The bulging sides are specially designed to prevent the milk splashing over when poured in. All the other

Convenient Disc Holder

Discs on Holder

The discs are removed as one piece by means of our improved disc holder which is furnished free with each separator. They are easily and quickly washed and hung up to dry.

Separate Spindle

For ease of handling the bowl is separate from the spindle. When wanted for washing it simply lifts off. This possesses many advantages over separators which have their spindles solidly attached.

How to Keep Separator Clean

After using, wash bowl and tinware thoroughly in luke warm water (not boiling) and brush thoroughly with the brush that is provided. Then rinse in boiling water, which cleanses and sterilizes, and hang up to dry. If this method is followed the separator will be sweet and clean—always.

2. Close Skimming

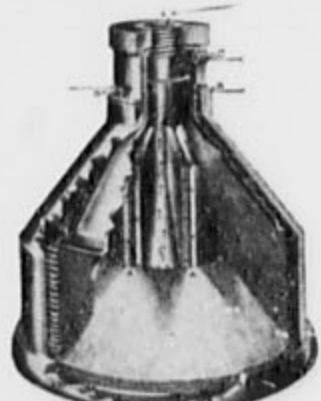

The Massey-Harris No. 6 Cream Separator is famous for close skimming.

Bowl Skims Close

The bowl is so designed that it skims close under the most difficult conditions. Even when running a thick cream with cold milk there is no possibility of clogging, and only the merest trace of cream is left in the skim milk.

6 V-shape Openings Make for Better Skimming

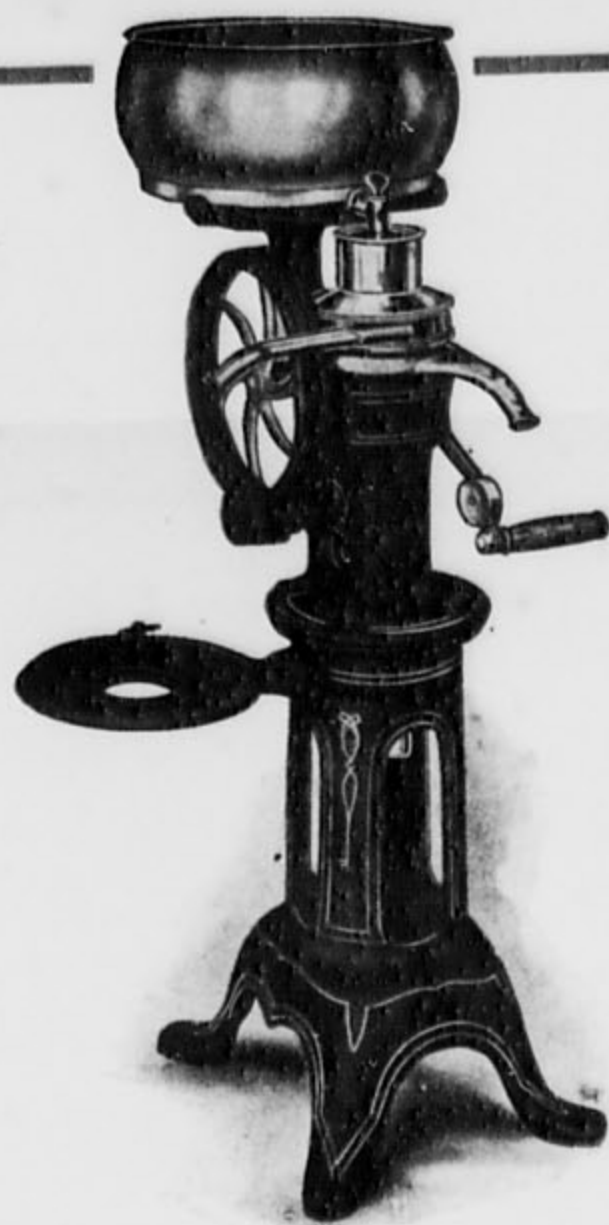

The whole milk enters at the top. It passes down into the split wing which, with its 6 V-shaped openings, distributes the milk uniformly from top to bottom of the bowl as shown in the accompanying illustration. Skimming takes place between the discs and the entire skimming area is utilized. The skim milk passes outward and upward to the skim milk outlets (three in number) while the cream passes up between the wings to the cream outlet. As the skim milk and cream outlets are at the top of the bowl, there is no loss should the bowl be stopped for any reason during the process of skimming.

Strong Main Frame

The main frame is very strong. It is cast in one piece and holds all bearings in perfect alignment.

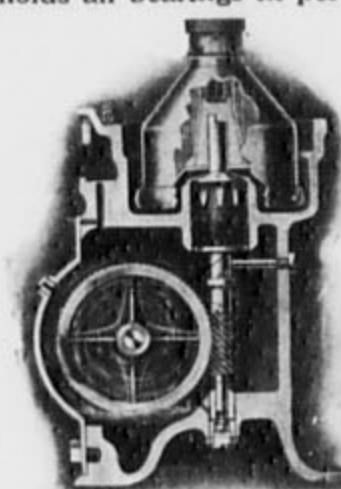

Double Lubricating System

The machine is lubricated by an efficient splash system and is also equipped with oil cups, providing two complete lubricating systems. Thus long service and easy running are assured.

Smooth Running Gears

All gears are absolutely correct as to pitch and mesh. The large gear and the pinion have diagonal teeth which run more smoothly and with less wear than straight teeth.

Every Massey-Harris Separator Thoroughly Tested

There is no guess work about the Massey-Harris. Every machine is run empty for several hours to be sure that all parts are properly fitted and running smoothly. Then a supply of milk is run through and both cream and milk are submitted to the Babcock test and the machine adjusted. Every machine is ready to give best results before it leaves the factory. Remember, Massey-Harris Cream Separators are built in a special separator department, and carry the guarantee of the great Massey-Harris organization.

Equipment

The equipment furnished with each Separator includes 1 speed indicator, 1 quart can of separator oil (no other kind of oil should be used on a cream separator), 1 extra neck bearing spring, 2 spare discs, 1 oil can, 4 wrenches, 2 cleaning brushes, 1 extra rubber ring, 4 lag screws for fastening separator to the floor or table, 1 spirit level and 1 wire for holding and washing discs.

MASSEY-HARRIS No. 2 GOVERNOR PULLEY

Can Be Fitted to Massey-Harris Nos. 4, 5 or 6 Cream Separators Now in Use or Furnished with No. 6

Speed Indicator

The Massey-Harris No. 2 Governor Pulley can be run at a speed of anywhere from 800 to 1,400 r.p.m. and instantly takes care of any variation in speed within this range, continuously governing so as to run the separator at exactly the proper speed. A reliable speed indicator clearly shows the speed and is so sensitive that the slightest variation is recorded.

Smooth and Easy Running Assured

Four sets of ball bearings assure smooth and easy running and long wear. The only attention this pulley needs is to be oiled regularly. The case is dust-proof, keeping all working parts clean.

Indispensable for Power Separators

As uniform speed is essential to close skimming if your separator is to be operated by power, you should have a Massey-Harris No. 2 Governor Pulley. It is easy to control, positive in action and is neat and compact. It can be driven from front or back, or from overhead shafting, as desired.

Showing Speed Indicator

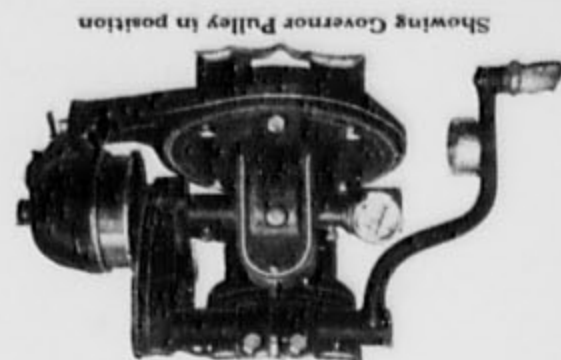

The Massey-Harris No. 2 Governor Pulley is something new and better in a cream separator governor pulley. It can only be had on Massey-Harris Cream Separators. It can be set to govern at exactly the right speed for close skimming and once set controls speed of separator absolutely and positively.

A Perfect Governor

This governor pulley is an assembly of metal and fibre discs with governor weights, compactly arranged and enclosed in a neat clutch case. The governing is done by allowing a slippage of the clutch plates for all speed over that necessary to turn the separator bowl the required number of revolutions. The pulley is set to govern by means of a thumb screw on the end of the shaft on the outside of the clutch case.

Efficient Safety Clutch

The clutch case and the pulley are separate giving a safety clutch, which in the event of the power going off unexpectedly, allows the separator to run down gradually, thus preventing the separator from being damaged, and at the same time gives audible warning that the power has gone off. When through separating, the power is shut off by a convenient little lever on the outside of the clutch case, which allows the separator to run down gradually.

Showing Governor Pulley in position

A Complete Line

THE Massey-Harris Line includes nearly everything in the way of Farm Implements, every unit of which is guaranteed to be up to the well-known standard of quality for which the name Massey-Harris stands. Seventy-seven years' experience in good implement building is back of every machine.

Massey-Harris CREAM SEPARATOR

"Skims Closest"

FOR GREATER PROFITS

PROFITS are of great importance on all dairy farms. Every progressive dairy farmer realizes this and welcomes all machines and equipment which lighten the work and yet make more money for the owner.

Massey-Harris Cream Separators do this. Every day they give steady, efficient service and save money over old and inefficient methods. Every machine is tested and must skim to less than 2-100 of 1% before it leaves the factory. When it is remembered that every 1-100 of 1% of butterfat left in the milk represents a loss of one pound of butter per cow per year and that some other makes of separators leave as much as .17 of 1%, it is readily seen how greatly Massey-Harris Tested Separators benefit the farmer.

The guarantee of the Massey-Harris Company, Limited, an organization which reaches nearly every part of the civilized world, with an enviable record extending over more than 80 years, is your protection when you buy a Massey-Harris Cream Separator.

Plate Steel Stationary Desk

Single Desk for Each Pupil

The Simplest and Strongest Single Desk Made

Each standard is made of one strong piece of open hearth sheet metal of drawing quality. It is formed, pressed and drawn into rectangular shape with flanged edges which are welded at intervals.

While the purchase price of steel desks is a trifle more, the difference between steel and iron service is so great that the small additional cost is amply justified.

We know that steel instead of iron is used in the construction of buildings, bridges, ships, railroad coaches and hundreds of other things where iron could not possibly serve the purpose. We know that iron is brittle and easily broken when subjected to sudden shock. We know that rolled steel cannot be broken, not even with the use of a hammer.

For any kind of structural purposes, steel, without question, is superior to iron in every point of comparison. As applied to school desks its advantages over iron are as great as when applied to bridges.

FURNISHINGS & EQUIPMENT LISTS. Sheet 17

SPECIAL:-

ORGAN & PIANO.

Organ:-

The school organ was destroyed in the fire. We shall, therefore, require to have this replaced from some source. I am enclosing herewith under separate cover information re types of organ suitable for our chapel. I beg to point out particularly the cutting from the Alberta Piano Co., Calgary. This would be a very suitable organ, and could be purchased very reasonably as it is one that had to be taken back from a church on account of non-payment of instalments.

Piano:-

We have on hands a very good piano, which was saved from the fire, and is in the safe keeping of our Reserve Dr., Dr. Windsor. This piano was purchased on the instalment system by the school Staff, but since the fire only one or two payments have been met. We were endeavouring to pay for this by our own local efforts, but it seems that under the circumstances, I must ask that the balance of this be met by the Department or by some other source. You will please find enclosed copy of outstanding account in this connection, which I beg may be favourably considered.

Ottawa, Canada.

My dear Sir,-

Your File No. 104-1-12

Will you kindly send me
at your earliest convenience the specifications
necessary for the seating in the Indian School
at Gleichen, Alberta. I believe there are some
special models or kinds of chairs that you re-
quire. You will remember that in a previous letter
you stated I would be informed as to the spec-
ifications, etc. when the time arrived.

HBA/MEW.

Yours very truly,

H.B. Adshead

Dear Mr. Adshead:

AGM
A.M.

I have your letter of the 26th instant, with reference to seating for the classrooms of the new Old Sun Indian Residential School at Gleichen, Alta. I may say it is not the intention to supply any special model of classroom desk. The intention is to supply the ordinary ball-bearing single school desk, non-adjustable, such as made by the largest manufacturers of school seats. You might let the Department have the name of any supply house whom you wish to have quote on this business.

Yours very truly

A. F. MacKenzie

Gentlemen:

Please arrange to supply, for the use of the Old Sun Indian Residential School, Gleichen, Alta., from your nearest branch office, four (4) Singer sewing machines described in your catalogue as follows:

No. 2 - 5 Drawer Machine, 127 - 3.G.O.

Your representative should notify Mr. G. H. Gooderham, Indian Agent, Gleichen, Alta., when these machines are available, and he will then supply the necessary shipping instructions.

Your account, in duplicate, covering the cost of the machines should be forwarded to Mr. Gooderham. This account should show the retail price and discount of 50% allowed off the 90 day list price "on which terms purchase is made".

Please arrange to supply these machines at an early date.

Yours very truly,

spd F. H. Paget
F. H. Paget,

Rev. Sir:

Referring to sheet No. 17 of the furnishings and equipment lists prepared by you for the use of the new building at the Old Sun Indian Residential School, I have to say, with reference to the payment of the balance due on the piano which was purchased on the instalment system by the school staff, and to the supplying of an organ for use in the chapel, that it is not the practice of the Department to supply musical instruments to residential schools. The Department will, therefore, be unable to supply the organ or pay the balance due on the piano. The statement which you submitted showing the payments made and the balance due on the piano is returned herewith.

Your obedient servant,

A. F. MacKenzie

Ottawa, June 2, 1930.

Sir:

I have to inform you that we are today placing an order with the Singer Sewing Machine Company here to supply from their nearest branch office for the use of the Old Sun Indian Residential School four (4) Singer sewing machines, described in their catalogue as follows:

No. 2 - 5 Drawer Machine, 127 - 3 G.O.

The agents supplying these machines will notify you when they are available, and you should then give them the necessary shipping instructions.

An account, in duplicate, covering the cost of the machines will be sent you. This account will show the retail price and discount of 50% allowed off the 90 day list price, "on which terms purchase is made". When these machines are delivered, if in good condition, you should certify the account and send it to the Department for payment.

I may add that this is the same type of machine as supplied to all Indian residential schools.

I have to request that you will consult the school authorities and ascertain definitely the quantity of blankets and sheeting saved from the old building, if any, and state the number of both blankets and sheets that will be required for the new school after taking into account any supplies of this kind that may be on hand. This information should be forwarded as soon as possible, as the Department is now arranging for the purchase of furnishings for this school.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

June 19th, 1930

Mt. F. J. Paget,
Accountant & Purchasing Agent,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir: YOUR FILE 104/1/12

In reply to your favor of the 16th.
inst. I beg to quote you as follows on Globe
No. 101 Steel Automatic Single Desks, delivered
knocked down, F.O.B. Gleichen:

	30 to 99	100 to 249
Sizes 1 & 2	9.55	9.05
" 3 & 4	9.30	8.80
" 5	9.05	8.60

Rears & Fronts - Ea. 8.35 7.90

(Ink wells to be supplied with all but the
No. 5 Desk)

In estimating the number of Desks
a Rear or a Front will count as one unit - that
is to say a row with both a Rear and a Front will
count as two units plus the number of completed
Desks in that row. You speak of requiring
approximately ninety Single School Desks. With
the Rears and Fronts counting as one unit each I
presume you will be able to use one hundred units
and therefore get advantage of the lower price.

I trust that this quotation will prove
to be satisfactory and I look forward to receiving
your kind order.

Yours truly,

FED/JV

-- COPY -- (Original on...133-0-12.)

Ottawa, June 26, 1930.

Gentlemen:

This Department requires for the use of three new Indian residential schools approximately 788 grey woollen blankets, size 54" x 80", and 116 white woollen blankets, size 60" x 90", for delivery at the points mentioned hereunder:

Indian Residential School, Brandon, Man.	- 356 grey blankets, 56 white "
Old Sun's School Gleichen, Alta.	- 240 grey blankets, 24 white "
Gordon's School Punnichy, Sask.	- 192 grey blankets, 36 white "

The grey blankets are to be four pounds in weight and of the same quality as supplied this Department this season. They should contain approximately 35% black and 65% white pure Canadian fleece wool, to be grey in colour, and whipped each end with blue woollen yarn, and brushed or napped lightly. The white blankets are for the use of the staff and should be of a better quality. The price quoted by you should be F.O.B. ~~points mentioned above~~, Government sales tax included. Please state how soon you could make shipment. If convenient, please bring samples of the blankets you quote on to the Department for inspection.

Your early attention to this enquiry will be appreciated.

Yours very truly,

104-1-12.

Ottawa, July 7, 1930.

Gentlemen:

Your quotation of the 4th instant for the supplying of the quantity of S 22 grey sheeting required for delivery at three of our Indian residential schools is accepted at the price quoted, viz., 34½ cents per yard F.O.B. the various schools. Please arrange to ship as soon as possible to the following addresses the quantity of sheeting in each case as mentioned: -

- 1100 yards S/4 S 22 cotton sheeting, 72" wide,
to - Rev. J. A. Doyle,
Principal, Indian Residential School,
Brandon, Man.
- 1000 yards S/4 S 22 cotton sheeting, 72" wide,
to - Gordon's Indian Residential School,
c/o J. W. Waddy,
Indian Agent,
Punnichy, Sask.
- 700 yards S/4 S 22 cotton sheeting, 72" wide,
to - Old Sun's Indian Residential School,
c/o G. H. Gooderham, Esq.,
Indian Agent,
Gleichen, Alta.

Separate accounts, in triplicate, should be prepared and forwarded to the above named consignees covering the cost of the material sent to them. They are being informed in each case of the order placed with you, and requested, upon receipt of the sheeting, if in good condition and as per sample enclosed in your letter, to certify the account and send it to the Department, when payment will be made. It is understood that the price quoted, viz., 34½ cents per yard, is F.O.B. the above points, sales tax extra.

Ottawa, July 7, 1930.

Sir:

I have to inform you that the Department is today placing an order with the Dominion Textile Co. Ltd., Montreal, to ship, addressed to you, Gleichen, Alta., the following:

700 yards 5/4 S 22 cotton sheeting, 72" wide.

The price quoted is 34½ cents per yard F.O.B. Gleichen. When you receive the goods, you should compare same with the sample enclosed, and, if satisfactory, certify the account which the above firm have been requested to send you, and you should forward the account, in duplicate, to the Department, retaining one copy for your file.

This sheeting should be cut up by the school staff and pupils for sheets and pillow cases. The 72" width will be sufficient for the length of the beds.

The Department supplies this type of equipment when furnishing new Indian residential schools, but replacements must be made from school earnings.

I may add that the Department has placed an order with Watchorn & Co. Ltd., Merrickville, Ont., to supply 240 grey and 24 white blankets for the pupils and staff. You will be advised at a later date when shipment will be made.

Your obedient servant,

Dear Sir: YOUR FILE 104-1-2

I have your favor of June 25th.
in regard to my quotation on No. 101 Globe
Steel Automatic Desks. This quotation is
based on delivery F.O.B. Gleichen and I
regret to advise you it is the lowest price
which I can quote you on this particular
Desk. If you are ordering sufficient
additional Desks for another school in
Alberta to bring the order up to a total
of two hundred and fifty I would be glad to
give you a revised quotation, but in the
quantity you order, namely, approximately
one hundred Desks, the quotation which I
have given you cannot be bettered.

ADD 1

You are aware, of course, that the
Globe Steel Desk is a much better desk than
the ordinary cast iron desk, but I presume
have taken this fact into consideration.

I would sincerely appreciate being able
to fill your kind order as per my quotation of
June 19th.

Yours truly,

A. M. [Signature]

FEO/JV

SEND FOR CATALOGUE

104-1-12.

Ottawa, July 10, 1930.

Sir:

I have your letter of the 2nd instant, referring to your quotation of the 19th ultimo for the number of Globe No. 101 steel automatic desks required for delivery at Gleichen, Alta. In this connection I have to say that the price quoted in your letter of the 19th ultimo is accepted. We will require seating accommodation for 100 pupils, and the desks, front and rear seats in the different sizes should be supplied at the price as mentioned in your letter, F.O.B. Gleichen, Alta., viz. :

Sizes 1 and 2	-	\$9.05 ea.,
Sizes 3 and 4	-	8.80 " ;
Size 5	-	8.60 " ;
Rears & Fronts	-	7.90 " .

The Department is not aware as to the size and number of each size of desks, fronts and rears required, but suggest the following as a tentative list:

12 No. 1,
20 No. 2,
20 No. 3,
20 No. 4,
18 No. 5,
5 Fronts,
5 Rears.

We are informing Mr. G. H. Gooderham, Indian Agent, Gleichen, Alta., of the order placed with you, and requesting him to consult with you regarding the seating required in order to determine the size and number of each size of single school desks, front and rear seats that will be satisfactory. Any assistance you can give in determining the proper seating for the new Indian residential school for which the desks are required will be appreciated. It is to be understood that seating accommodation is not to be provided for more than 100 pupils.

After the desks have been delivered, you should forward your account, in duplicate, covering the cost to Mr. Gooderham, who will certify same and send it to the Department.

Yours very truly,

Sp. F. H. Paget

Schools

Ottawa, July 10, 1930.

Sir:

Relative to the single school desks required for the use of the new school building at the Old Sun's Indian Residential School, I have to inform you that we are today placing an order with F. E. Osborne, 112 - 8th Avenue West, Calgary, Alta., to supply a sufficient number of their Globe steel automatic desks to provide seating accommodation for 100 pupils.

In this connection I enclose herewith, for your information, a copy of our letter to Mr. Osborne, and I have to request that you will co-operate with him in determining the proper sizes and number of each size of desk, front and rear seats sufficient to provide seating accommodation for 100 pupils only. You will note in our letter to Mr. Osborne that a tentative list of the sizes of school desks considered suitable is given. The Department will leave the matter in the hands of yourself and Mr. Osborne to complete satisfactory seating arrangements.

The price quoted for the supplying of the desks of the various sizes is as mentioned in our letter to Mr. Osborne, and this price is for their Globe No. 101 steel automatic single desks, front and rear seats, delivered knocked down, F.O.B. Gleichen, Alta. Ink wells are to be supplied with all but the No. 5 desk.

Mr. Osborne has been requested to forward his account to you in duplicate. When the desks have been satisfactorily delivered, you should certify the account and forward it to the Department for payment.

When the desks are delivered at the school, you should arrange to have them assembled and set up in the classrooms.

Your obedient servant,

A. F. MacKenzie
A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

July 15th, 1930

Mr. F.H. Paget,
Accountant & Purchasing Agent,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:

YOUR FILE 104-1 -12

I have your favor of the 10th. inst. accepting my quotation of June 19th. for the supply of at least one hundred units of Globe No. 101 Steel Automatic Desks.

I am, as you suggest, getting in touch with Mr. Gooderham, Indian Agent at Gleichen in order that the sizes may be assorted as desired for the Indian School at that point.

I note that your letter states that seating accommodation is not to be provided for more than one hundred pupils. May I draw your attention to the fact that this tentative list provides seating accommodation for ninety five pupils only, the five fronts and five rears together providing accommodation for five pupils, not for ten pupils. I take it from your letter that accommodation is to be provided for one hundred pupils and consequently the units will total slightly more than one hundred according to the number and rows in which fronts and rears are used.

I will take my instructions regarding the assortment to be supplied, from Mr. Gooderham and in due course, after delivery has been made, will forward invoice to Mr. Gooderham for certification.

I thank you for this order and trust that I may have further orders as the necessity arises.

Yours truly,

FEO/JV

MEMORANDUM

The Superintendent General of Indian Affairs -

The new Old Suns Indian residential school is nearing completion and it will be necessary to arrange for the purchase of furnishings required. Will you please give me the names of firms from whom the following may be purchased; beds, furniture, kitchen equipment.

It has been customary in the past when inviting tenders for beds to get prices only from the manufacturers such as Simmons Company, Globe Bedding Company and Ives Bedding Company, all of Winnipeg.

A. S. Williams

Acting Deputy Superintendent General.

Sir:

I have your letter of the 15th instant, relative to the order placed with you for supplying Globe No. 101 steel automatic single desks for the new school building at the Old Sun Indian Residential School.

In this connection I have to say that the list of desks as mentioned in our letter of the 10th instant was a tentative one only, and Mr. Gooderham and yourself can decide the sizes and number of each size of desks and what number of front and rear seats are required in order to complete the number of rows of desks. The total seating accommodation should, if possible, be limited to 100 pupils.

Yours very truly

Ottawa, July 24, 1930.

Gentlemen:

I have your letter of the 22nd instant, advising the Department that you have the blankets ordered for the Old Sun Indian Residential School, Gleichen, Alta., ready for shipment. I enclose herewith a requisition covering the transport of these blankets. Please ship same by C.P.R., most direct route, addressed as follows:

G. H. Gooderham, Esq.,
Indian Agent,
Gleichen, Alta.

Please fill in on the requisition the number of bales, weight, rate and amount of freight charges. The local agent of the C.P.R. at Merrickville will accept this requisition.

The total number of blankets to be supplied on this order is 240 grey and 24 white blankets. They should be supplied at the price quoted by you, viz., \$2.40 per blanket for the plain grey and \$3.00 per blanket for the white, F.O.B. Merrickville, Ont.

Please forward your account, in triplicate, covering the cost of the blankets to Mr. Gooderham, who is being informed of the order placed with you, and requested, upon receipt of the blankets, to certify the account and send it to the Department, when payment will be made.

Yours very truly,

Ottawa, July 24, 1930.

Sir:

We are advised that the blankets for the Old Sun new Indian Residential School are ready for shipment. As you were informed by official letter of the 7th instant, the order was placed with Watchorn & Co. Ltd., Merrickville, Ont. This firm will make immediate shipment, via C.P.R., freight charges prepaid, addressed to you, Gleichen, Alta., of the following blankets:

240 Gray blankets,
24 White blankets.

The grey blankets are to be 4 pounds in weight, size 54 x 80. The white blankets, size 60 x 90, which are for the use of the staff, are of a better quality.

The price charged for these blankets, F.O.B. Merrickville, Ont., is \$2.40 per blanket for the grey and \$3.00 per blanket for the white. The account, in triplicate, covering the cost will be sent you. When the blankets arrive, you should check them over carefully and see that the above number of each kind is supplied and that they are satisfactory. You should then certify the account and forward same, in duplicate, to the Department for payment, retaining one copy for your file.

These blankets are the same as have been supplied to a number of our other Indian residential schools.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Sir:

I have to request that you will inform the Department as soon as possible regarding the fire equipment on hand at the new building of the Old Sun Indian Residential School. You should state the number of fire extinguishers, if any, and the size and type. You should also forward a requisition for the number of extinguishers and other equipment which you consider necessary for the school building and outbuildings. I may say that the type of extinguishers we usually supply is the Pyrene, 1½ quart size and two gallon size. You might consult the Principal regarding the fire equipment and advise the Department as soon as possible. Only the equipment considered absolutely necessary should be requested.

FURNITURE & EQUIPMENT LISTS. Sheet 11

GROUND FLOOR:-

~~PERMIT-RISE;--(3).~~ CLASSROOMS:- (3).

Item:-	Quantity:-	Remarks:-
Classroom		
I. S. East Dormitory:- Senior Room :-		
Desks..... #400	10	High School size, 18" Ht. of seat. Ht. of top: 26"-29".
#402	20	VI, VII, VIII size, 16" Ht. of seat Ht. of top: 25"-28".
#403	10	III, IV, V size. Ht. of seat 15". Ht. of top: 24"-27".
Total	40	(Osborne's Instructor stool chair desks. These can be supplied with Rubber tips to feet in order to safeguard Terazzo floors, @ 30¢ per desk extra.)
✓ Teacher's Desk	1 only	With book rail, one long drawer and three small ones.
✓ Teacher's Chair	1	With arms.
✓ Visitors' chairs	2	

II. S.-West Classroom:- (Beginners' Room:-)

N.B. All platforms have been eliminated from classrooms, as per plans, and a 10' platform erected at the West side of this room instead. Rooms I and II are divided by accordion doors, so that these two classrooms can be used as a school auditorium.

Desks	#403	5	III, IV, V size. Ht. of seat 15". Ht. of top: 24"-27".
	#405	5	I, II size. Ht. of seat 13". Ht. of top: 22"-25".
	Total	10	
(Osborne's as above).			
Teacher's Desk.....	I	only....	as above.
" Chair	I	" " "	" "
Visitors' chairs	2	" "	" "

N.B. In order to utilise these classrooms as above indicated, we are asking for supply of folding chairs, which can be readily stored away when not in use.

ask Folding Chairs 150..... See attached letter re type of chair.

Classroom III. At N. East- Intermediate pupils:-

Desks	#402.....	10 ...	V, VI, VII size. Ht. of seat 16".
			Ht. of top: 25" - 28".
	#407.....	30 ..	III, IV, V size. Ht. of seat 15".
			Ht. of top: 24" - 27".
	Total	40	(Osborne's as above. All seats to be provided with rubber tips, if possible)
Teacher's desk.....	I only...		as above.
chair...	I	,,	,,
Visitors' chairs	2	,,....	,,

N.B. The type of desk asked for is as cheap as any other type, considering that front & rear are required. These desks would be the most convenient & practical for us for several reasons.

Re Furnishings for Old Sun School,
Blackfoot Reserve, Gleichen, Alberta

Dear Sir:

We have not been favored with specifications of furnishings required for the above school, nor have we been furnished with tender form, but one of our salesmen was in Gleichen this week and has advised us that the building is ready for furnishing and eagerly awaited by Mr. Gooderham, your local agent. Having supplied you in the past, we take the liberty of quoting as follows for the necessary supplies.

JUNIOR BOYS' DORMITORY:

20 only No. 50 Bungalow Beds	2'6" x 5'6"	\$7.45 each
20 " No. 3 Hospital Mattresses - all white cotton felt filling	2'6" x 5'6"	5.25 "
20 " All feather Pillows	19" x 26"	.95¢ "

JUNIOR GIRLS' DORMITORY:

Same as foregoing.

SENIOR BOYS' DORMITORY:

25 only No. 50 Bungalow Beds	2'6" x 6'0"	\$7.45 each
25 " No. 3 Hospital Mattresses - all white cotton felt filling	2'6" x 6'0"	5.25 "
25 " All feather Pillows	19" x 26"	.95¢ "

SENIOR GIRLS' DORMITORY:

Same as Senior Boys' Dormitory.

STAFF:

10 only No. 929 Walnut Beds	3'3"	\$5.75 each
10 " No. 300 Cable Springs	3'3"	5.65 "
10 " No. 3 Hospital Mattresses	3'3"	6.15 "
10 " All feather Pillows	19" x 26"	.95¢ "

VISITOR'S ROOM:

Gleichen, Alta.

September 5, 1930.

Dear Sir:-

In reply to yours of the 28th ultimo, I beg to say that the Principal with Mr. E.C. Smith suggest that the following FIRE EXTINGUISHERS would be sufficient for Old Sun School as the building is practically fireproof:-

Boys Dormitory	1	1 1/2 qt size.
Girls "	1	"
First Floor	3	"
Ground floor	3	"
Residence	1	"
Basement	3	"
	<u>9</u>	

Your obedient servant,

[Signature]
Indian Agent.

Ottawa, September 15, 1930.

Gentlemen:

I have to request that you will forward,
addressed to G. H. Gooderham, Esq., Indian Agent, Gleichen,
Alta., for the use of the Old Sun Indian Residential School,

9 - 1½ Quart Pyrene Fire Extinguishers, complete with
charges and brackets for hanging same.

These extinguishers should be supplied at the lowest
possible cost F.O.B. Gleichen, Alta.

Please forward your account, in triplicate,
covering the cost of the extinguishers F.O.B. Gleichen
to Mr. Gooderham, who is being informed of the order
placed with you, and requested, upon receipt of the
extinguishers, if in good condition, to certify the
account and send it to the Department, when payment will
be made.

Yours very truly,

Sgd. F. H. Paget

Ottawa, September 15, 1930.

Sir:

I have your letter of the 5th instant, relative to the fire extinguishers required for the use of the new school building at the Old Sun Indian Residential School.

In this connection I have to inform you that we are today placing an order with the Pyrene Mfg. Co. of Canada Ltd., Toronto, to ship, charges prepaid, addressed to you, 9 - 1½ quart Pyrene extinguishers, complete with charges and brackets for hanging same. The above firm have been requested to forward their account, in triplicate, to you covering the cost F.O.B. Gleichen. When the extinguishers are received, if in good condition, you should certify the account and forward same, in duplicate, to the Department, retaining one copy on file in your office.

When these extinguishers are delivered at the school, the Principal should see that they are distributed in the dormitories and on the various floors as per the quantities stated in letter above referred to.

Your obedient servant,

A. F. MacKenzie,
Secretary.

the hall is also required for many other purposes very seriously
as the League's work and rehearsals have to be held elsewhere.
y, the entirely proper conditions under which the League is per-
to use the hall prevent any charge being made for admission,
e League is therefore compelled annually to resort to the
ive expedient of renting the large Russell Theatre for the purpose
sing a revenue in addition to membership fees.

These handicaps can be removed.

wing to the small accommodation of the lecture hall in the Victoria
, the League has never made any effort to obtain members, and its
ng growth in membership has been wholly due to the remarkable
ic talent of the players it has developed and to the excellence
productions. There is no doubt that the removal of the handicaps
which its work is now carried on would greatly extend the scope of
tivities, and broaden the basis of its support. Even without any
erable addition to its membership it would, with a Little Theatre,
e easily to improve its productions and to show a satisfactory
balance sheet. Sketch plans for a Little Theatre have accordingly
repared, and rough estimates obtained which indicate that an up-to-
ittle Theatre with a seating capacity of between 450 and 500 can
structed at a cost of between \$50,000 and \$60,000, this figure
ng both the land and the building fully equipped. Without any
embership as the Ottawa Drama League now has, and without any such

Dear Sir:

We have much pleasure in attaching hereto our tender on the equipment required for the Indian School, at Gleichen, Alta.

In submitting this tender we are enclosing illustrations of our No.4000 and No.477 beds.- Our No.4000 bed is made of 1 1/16" round tubing and you will note the fillers and frenchers are securely welded to the post by steel castings, preventing any possibility of damage, even on the roughest handling.

The No.477 bed is made of 1 9/10" round post, fully grained walnut finish, protected by coats of lacquer baked on at high temperature to guarantee the finish from being easily marked. This method gives the grained coat a much longer life and ensures durability.

Please note that Government Sales Tax is included in the prices quoted.

Trusting we may have the pleasure of serving you, we remain

Yours very truly,

SIMMONS LIMITED.

Gentlemen;-

Attention Mr. R. G. Orr.

It has just come to our notice that the quotation which we put in for kitchen equipment for the Gleichen Old Sun School was not signed by us. We enclose a copy of this quotation which we have signed, and we hope that the prices quoted will be found satisfactory, and will be very pleased to receive your order for this equipment, which will have our very best attention.

Yours truly,

GENERAL STEEL WARES LIMITED

Sales Manager
Eastern Ontario Sales District.

Purchasing Dept.,
Department of Indian Affairs,
Dominion Government,
Ottawa, Ont.

Gentlemen:

Attention - Mr. Paget.

We have recently become aware that tenders
have been called for the furnishing of the Old Sun
Indian School at Gleichen. Alta.

In view of the fact that we have been doing
business in Calgary for the past thirty six years and
have enjoyed some of your business during that time,
we are naturally disappointed at not being favored with
the opportunity of submitting prices on your furniture
requirements for the school in question.

We shall be pleased to hear from you in
this connection.

Yours truly,

THE NEILSON FURNITURE CO. LTD.

M. Mac Donald

Manager.

OLD SUN INDIAN RESIDENTIAL SCHOOL
GLEICHEN. ALTA.

September 25th. 1930

The Secretary,
Indian Residential Schools Com.,
Bible House,
Winnipeg.

Dear Sir:-

Mr. Gooderham, Mr. Gibney and I have been over the internal arrangement of the school this week, and there are two things which we thought would be worth while taking up with you.

The first is concerning the beds for the dormitories. We thought that it would be very much nicer to have brown enamel beds than the usual white. The white has a habit of getting chipped and looks horrible when that happens. Then everything in the room is white, except the wood work, and we thought that the brown would relieve the general appearance. If the order has not already been filled, our suggestion would be that the Brown be purchased instead of white.

The next is concerning the mattresses. We hear that in some schools, ticks to be filled with straw have been provided. Now, if this should be the case here, it would mean considerable delay in the opening of the school, and very inconvenient, for there is hardly any straw in the district. What little the farmers have is being carefully conserved to help out the problem of feed for this winter. Mr. Gooderham said that he did not know where we could purchase straw within a good many miles of the school. If at all possible, we would suggest that the regular filled mattresses be provided.

With kindest regards,
Yours very sincerely,

(Sgd) John W. House,
Acting Principal.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

Enclosed herewith you will find a copy of a letter just received from the Rev. John W. House, B.A., Acting Principal of the Old Sun School, and I commend to your sympathetic consideration his request for brown enamel beds for the Old Sun School, instead of the usual white ones, and also his request for mattresses.

If the beds have already been ordered, no further action need be taken in connection with that part of Mr. House's letter, but the lack of straw in that part of the country this year, appears to me to make the provision of mattresses an absolute necessity.

The furnishing of the new Old Sun School will, I trust, be completed at an early date, as some of the agents who were engaged some time ago and fully expected to begin duty at the 1st. of September, have expressed their concern at the delay and the inconvenience to which they are being subjected through failure to draw any salary. Any steps, therefore, which you may be able to take to complete the furnishing of this building and to make it ready for occupation, will be deeply appreciated by our Commission.

I have the honour to be, Sir,

Your obedient servant,

T. B. R. Westgate

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

I have just been informed by the Acting Principal of the Old Sun School that no equipment whatever has been provided for the chapel, and I write to ascertain what steps have been taken by your Department in this connection. If the seating accommodation has not yet been ordered, I trust that this step may be taken immediately, as it will scarcely be possible to make any use of the chapel until this accommodation has been provided. There are certain furnishings for the chancel and sanctuary which our Society is quite prepared to provide, but it seems to me that the major and more permanent fixtures, such as a Communion table, (5' long 3' high 2½' wide) reading desk, lectern, etc. should be provided by your Department, and I shall be glad to know if you will provide these for the Old Sun School.

The delay in opening this school on account of the lack of various furnishings is causing our Commission considerable inconvenience, and I trust that the above matter may receive your prompt and sympathetic consideration.

I have the honour to be,

Sir,

Your obedient servant,

T. B. R. Westgate

OCT. 7th, 1930.

Mr. F. A. Paget,
Purchasing Agent,
Department of Indian Affairs,
Ottawa, Canada.

Dear Sir :

We thank you for your order of October 1st, covering goods required for the Old Sun School, Gleichen, Alta. The goods are being assembled and we expect to make shipment of the complete order about October 21st. There is no delivery date specified on the order and we sincerely trust that the date we have mentioned will be entirely satisfactory.

The order calls for 6 #171 Beds, White Enamel finish, with Rubber Tired Casters. We would like to point out that the #171 Bed is made with 26" elevation, and if used with 4" Rubber Tired Casters, is much too high. As we have had some complaints on this score, we are taking the liberty of supplying, in this instance, #171 Beds, with shorter legs, so that when used with 4" Rubber Tired Casters the elevation will be the same as our standard Hospital Beds. This does not alter the appearance of the bed as the height of the Head and Foot Ends will be the same as the regular bed.

The order also calls for 20 #4000 Beds, size 2'6 x 5'6, which we presume is the inside measurement? These beds are required for "Dormitories" and we take it that the 20 additional beds, required for the Dormitory on the Top Floor, are to be the same size? We are, therefore, supplying 40 #4000 Beds, in this special length, and if we have not interpreted the order correctly we will appreciate hearing from you before the goods are despatched.

We will have the goods consigned to "G. H. Gooderham, Esq., Indian Agent, Gleichen, Alta." and forward invoices, in triplicate, and Bill of Lading, to him, in accordance with your instructions.

Again thanking you for this order, and awaiting your further commands, we remain.

Yours very truly,

SIMMONS LIMITED,
Manager,
Prairie Division.

Sir,-

With reference to your letter of the 29th ultimo regarding the furnishings required for the Old Sun's Indian School, I beg to say that orders have today been placed for practically all the equipment required. In the order for beds white enamel beds were specified. It is hoped that these furnishings will be delivered in the very near future.

With reference to your letter of the 2nd instant, I beg to say that in the furnishing of the chapel the only furnishings supplied by the Department are the pews and arrangements will be made to have these provided.

Your obedient servant,

A. P. MacKenzie.
SECRETARY.

WINNIPEG, MAN. Oct. 14th, 1930.

The Secretary,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Sir:-

On August 13th last, I wired to your Department recommending that the Indian Agent of the Blackfoot Agency be authorized to purchase cooking utensils, dinner set, and other crockery were required for the residence of the Principal of the Old Sun School. In a letter from the Principal dated Oct. 9th, he states that nothing has been done about this, and that neither Mr. Gooderham the Agent, nor himself, have had any word from your Department about it. As there are no cooking utensils whatever, and no crockery ware for this part of the building, I beg to repeat my recommendation that the Indian Agent be authorized by telegram to secure all that is necessary.

Further, in the same letter, the Principal directs attention to the need of three kitchen chairs, and also to the need of an electric stove for the residence. He states that in the construction of the building no provision was made for any other type of stove, and mentions the fact that there is no chimney in the kitchen, but that it has been wired purposely for an electric range. At the present time all the cooking is done upon an old broken stove in the basement. This condition, I feel, should be altered at the earliest moment possible.

In the same letter the Principal states that no bedroom chairs have been provided for his residence. There are four bedrooms, and I beg to recommend that the Indian Agent be authorized by wire to secure at once these and all the other items enumerated above.

I have the honour to be, Sir,
Your obedient servant,

TBRW/EMW

Department of Indian Affairs,
Office of the Purchasing Agent,
Ottawa, Ont.

Dear Sirs:

We enclose herewith our bid on miscellaneous utensils for the Old Sun's Indian School, Gleichen, Alta. Would advise that all prices are net, sales tax included, f.o.b. Gleichen. Should we be favored with your most valued order, we will endeavor to have it shipped complete within the fourteen days, as specified on our tender.

Thanking you for this opportunity of quoting you and trusting that we may have the pleasure of serving you, we are,

Yours truly,
GENERAL STEEL WARES LTD.

Oct. 30, 1930.

Rev. Sir,-

Replying to your letter of the 14th instant, with reference to the items required for the Principal's residence, in connection with the Old Sun's School, I beg to say that I am having a copy of your letter sent to Mr. Orr, who is now on his way West, and he will probably be able to arrange with Mr. Gooderham for the purchase of whatever furnishings are required for the residence. On the list of furnishings submitted for this school no mention was made of dishes, crockery, chairs, etc. for the Principal's quarters, consequently they were not ordered.

With reference to the pews I am today sending Mr. Orr the names of firms from whom to obtain prices for these pews, and he will make arrangements to have them ordered and installed.

Your obedient servant,

WOM
A. F. MacKenzie.

Gleichen, Alta.

November 13, 1930

Dear Sir:-

[Handwritten signature: J. G. ...]
I enclose herewith a copy of Sheet No 15 showing certain articles required for Old Sun School. The Principal informs me that none of this equipment has been received to date and he would like to know if the order has been placed. As the goods are necessary to furnish the rooms I would like an early reply, please.

*Really necessary
certain material
no unnecessary expense

Sir:

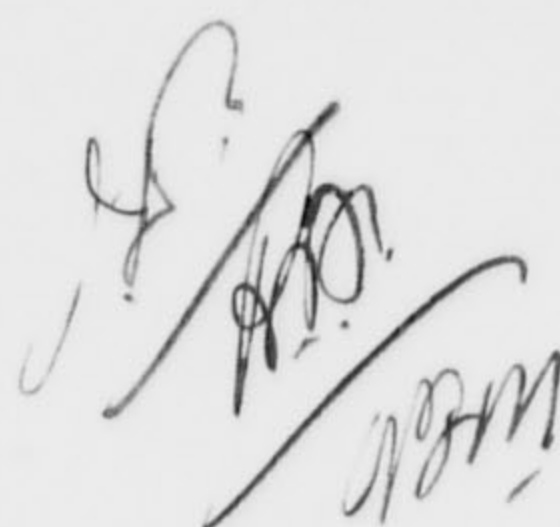

I have your letter of the 13th instant, regarding the supplying of curtain material, rods, etc., for the use of the Old Sun Indian Residential School.

In reply I have to say that either the Principal or yourself may arrange for the purchase of the really necessary curtain materials and rods required. While serviceable material, etc., should be obtained, it is not intended that any unnecessary expense be incurred.

After the purchase has been made, you should forward an account, in duplicate, properly certified, covering the cost.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Old Sun School,
Gleichen,
Alta..
Nov. 28th. 1930

The Superintendent of Education,
The Department of Indian Affairs,
Ottawa.

Dear Sir,

In my requisition for school supplies covering this present quarter for Old Sun School, I asked for a school clock similar to that shown on page 78 of Osborne's catalogue. As I have not received this, Mr Gooderham, our Indian Agent, told me to write you and explain our situation.

We are commencing school on Monday Dec. 2nd, and have no clock in the whole building. The co-ordination of all our work will have to depend upon the various wrist watches carried by the members of my staff until we get a clock to set school time.

We really should have one big clock to hang in the hall to act as standard time for the school. Then as the class rooms are off at either end of the building, we ought to have two small inexpensive desk clocks for the teachers.

I imagine you know already how impossible it would be to run one of these schools with half a dozen different times in the building, so I need not say more about my problem.

I am, Sir,
Your obedient Servant,

John W House. Principal.

Attention Mr Ferrier.

Ottawa, December 9, 1930.

Rev. Sir:

I have your letter of the 28th ultimo, requesting that a large wall clock for use in the hall and smaller clocks for use in the classrooms at the Old Sun Indian Residential School.

In this connection I have to say that the Department is authorizing Mr. Agent Gooderham to arrange for the purchase of three clocks - a large wall clock for the hall and two wall clocks of a smaller type for use in the classrooms.

Your obedient servant,

A. F. MacKenzie,
Secretary.

~~XXXX~~
Ottawa, December 9, 1930.

Sir:

The Principal of the Old Sun Indian Residential School requests that clocks be supplied - one for use in the hall and two for use in the classrooms. In this connection I have to request that you will arrange for the purchase of a wall clock of the type as described in catalogue No. 16 of F. E. Osborne, Calgary, the price of which is quoted at \$12.85. It is considered that wall clocks of a similar but smaller type would be the most satisfactory for the classrooms, and you may also arrange for the purchase of two of these clocks. Please give the matter of the purchase and delivery of the clocks your early attention.

After the purchase has been made, you should arrange to have the clocks forwarded to the school, and you should also obtain an itemized account, in duplicate, covering the cost. This account you should attach to proper voucher forms, certify in the usual manner and forward to the Department for payment.

Your obedient servant, *over*

A. F. MacKenzie,
Secretary.

RE: Vouchers #³513 & ³517.

Dear Sir:-

I enclose herewith Vouchers #³513 & ³517 covering the cost of labour and material in making bread box, racks, table etc. for the Old Sun School bakery.

You will remember that the bakery at this institution was not giving entire satisfaction and I got a master baker to make suggestions which would answer the purpose. These accounts cover everything that was necessary. The school authorities are pleased with the equipment and all works smoothly. The large metal dough trough is still at the school.

I trust that these vouchers are in order. I am sending them direct to you, Sir, for further disposition.

Your obedient servant,

RE: Voucher #13.

Dear Sir:-

The casters on the beds in the dormitories at Old Sun School were found to be too light and after two months' use 50% were broken beyond repair. The Principal and I went to Simmons Limited Calgary and took the matter with the Manager. He showed us steel shoes which would not break and would answer the purpose. He offered to replace the casters with the shoes at the difference in price. This account is for the difference. The shoes have been in use for some time and are satisfactory.

Memorandum:

MR. BUSKARD.

With reference to your memorandum of yesterday's date, concerning blankets for the Old Sun Indian Residential School, at Gleichen, Alta., I may say that no blankets have been purchased this year. Practically all the equipment for this school was completed during the summer of 1930, the order for blankets being awarded on June 30th. It was given as an extra to Watchorn & Company, of Merrickville, Ont., who had the contract for Indian Affairs blankets last year.

August 31, 1928.

Dear Mr. Gooderham:

I am under the impression that both Archdeacon Tims and Dr. Westgate informed me there was a largely-signed petition of the Blackfeet, urging the Department to replace the Old Sun's Indian Residential School at once and asking that Band Funds be loaned for this purpose until such time as reimbursement could be made from Parliamentary Appropriation. Please let me know the facts of the case.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

September 6, 1928.

Dear Captain Gooderham,-

The Reverend Canon Gould of the Anglican Church yesterday handed me the inclosed petition from the Blackfeet Indians, which is I presume the document referred to in my letter to you of the 31st ultimo. Would you kindly report upon this and give me your opinion as to whether it is a fairly unanimous feeling of the Indians. If it were so it might assist us in financing the erection of the school, but of course the whole cost in the end would be paid from Parliamentary Appropriation.

Yours sincerely,

G. H. Gooderham, Esq.,
Indian Agent,
Gleichen, Alberta.

Dear Sir:-

In reply to yours of the 6th inst. and the petition from the Blackfoot Indians, I beg to say that a copy of this petition was forwarded with my letter of the 6th inst.

The petition is a fairly unanimous feeling of the Indians, in fact, no Indian who was approached refused to sign and in many instances they voluntarily came and signed the petition.

I am sure that the Band is prepared to assist in the erection of the School on the condition that the cost will eventually be met from Parliamentary Appropriation.

Your obedient servant,

Duncan C. Scott

MEMORANDUM:

Dr. Scott.

With reference to the attached letter regarding electrical refrigeration at the Old Sun's School, I beg to give you the following facts. On Feb. 1 Mr. Gardner Smith submitted the following prices for the installation of a suitable refrigerating plant,-

Bruce Robinson Electric Co.,	\$725.00
Kelvinator Electric Refrigeration,	\$765.00
Welsbach Electric Refrigerator,	\$850.00

On December 3rd last year you instructed that arrangements be made for the purchase of the electrical refrigerating plant from the Bruce Robinson Co. As the price submitted by them was lowest Mr. Gardner Smith was instructed on March 14th to arrange with the Bruce Robinson Co. for the installation of the plant.

Memorandum:

MR. PRATT.

Ninety school desks are required for the new Old Sun Indian Residential School at Gleichen, Alberta. The undermentioned supply houses have asked for an opportunity to quote:-

Western Seating Company,
179 Bannatyne Ave. E., Winnipeg.

Canada Seating Company,
809A Eighth Ave. W., Calgary.

F. E. Osborne, 112 Eighth Ave. W., Calgary.

Christie School Supply Company, Brandon, Man.

Mr. S.
I may add that Mr. H. B. Adshead, Calgary East constituency, has written, asking for specifications of the classroom desks required. A letter was directed to him, giving the information and asking that he let the Department have the name of any house that he wished to have quote on the business.

W.C.S.
Will you please indicate how Mr. Stewart would like this business awarded.

MEMORANDUM

Minister's Office

August 30, 1930

DR. SCOTT -

In connection with your memoranda of August 14 and August 19, regarding the purchase of kitchen equipment for the new Old Sun's Indian Residential School,-

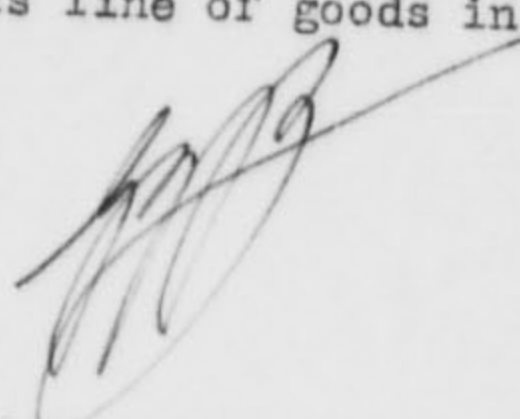

Please be advised that, in addition to the firms mentioned in my memorandum of August 16th, prices should be asked from the following:

BEDS

Parkhill Bedding Company	)	
Simmons Bedding Company	)	all of
J.A. Banfield	)	Winnipeg

KITCHEN
EQUIPMENT

I do not see how the department can very well overlook the General Steel Wares Ltd., as they are one of the leading manufacturers of this line of goods in Canada.

Private Secretary.

P.S.- This replaces my memorandum of August 21st.

PERSONAL.

Dear Mr. Gooderham,

Would you let me know how many pupils there are at present in residence at the Old Sun's school and whether the bake-oven is of sufficient capacity and is giving satisfaction. I do not want it known that this inquiry comes from headquarters; just inquire casually and let me know.

We are getting through the winter nicely and today is our first violent storm.

My regards to Mrs. Gooderham,

Yours very truly,

WCH

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF
INDIAN AGENT

Gleichen, Alta.

January 27th. 1931.

Dear Doctor Scott:-

Answering your personal letter of the 19th inst. in regard to Old Sun School, there are at present 73 pupils attending and it is not likely that this number will increase very much.

The bake oven was used for the first time yesterday and the Principal is satisfied with it. On enquiry I learned that it bakes well but it was necessary to make two bakings to meet the requirements. The electric bread mixer is good and certainly saves a lot of labour. The bake room is too small for all the equipment in it and the main source of trouble is a large metal dough trough. It is twice the size needed and stands in the way of workers. I believe a smaller wooden trough will answer the purpose much better. However, I am taking an experienced master baker to see the room and he should be able to suggest minor changes which will help the workers.

The Staff is mostly new to the work but the school is running smoothly and Mr. House will shortly have a good organization.

Weather continues fine and warm. Light influenza is going about but so far, the Indians are mostly free from it. Mrs Gooderham joins in sending our regards to you.

Your obedient servant,

Duncan G. Scott Esq.

Memorandum:

MR. BUSKARD.

With reference to your memorandum of yesterday's date, concerning blankets for the Old Sun Indian Residential School, at Gleichen, Alta., I may say that no blankets have been purchased this year. Practically all the equipment for this school was completed during the summer of 1930, the order for blankets being awarded on June 30th. It was given as an extra to Watchorn & Company, of Merrickville, Ont., who had the contract for Indian Affairs blankets last year.

15/6/8 of
from 31/8/38
September 8, 1931.

Memorandum:

MR. BUSKARD.

With reference to your memorandum of the 4th instant, regarding blankets for the Old Sun Indian Residential School, at Gleichen, Alberta, I have to inform you that the prices paid to Watchorn & Company, of Merrickville, Ont., were as follows:-

Plain grey blankets, 54 x 80,
4 lbs. each - \$2.40 per blanket.

Plain white blankets, 60 x 90,
4 lbs. each - \$3.00 per blanket.

both prices f. o. b. Merrickville, Ont.

I may say that, pursuant to the blanket competition held by the Department in April, last, it was decided to supply for institutional use a somewhat better blanket than we were purchasing last year.

The Secretary,
 The Department of Indian Affairs,
 Ottawa, Ont.

Dear Sir:-

In a letter just received from the Indian Commissioner at Regina, he informs me that in a report on his recent visit to the Old Sun School "he made a note of the fact that the cattle there were not what are desired", and recommends that when others are procured these should be of the Holstein class.

As to the need of a better strain of milch cows than the school possesses at present there is no doubt. Whether these are Holsteins or Shorthorns I am of the opinion that it does not greatly matter, but as our Society has provided the school with a thoroughbred bull of the Shorthorn breed Mr. Minielly, who is our Farm Instructor and a graduate of the Ontario Agricultural College at Guelph, has advised that any stock purchased should be of the same class.

To inaugurate a system of mixed farming which would meet the requirements of the school, somewhere between twelve and sixteen cows would be required, and I write to ascertain if your Department will come to the assistance of our Society in providing not less than ten of these. Without your assistance I can see no possibility of their being secured for some time to come, and if you will be good enough to give us a start in this way I shall be very grateful indeed and very deeply obliged.

Believe me,

Sir,

Your obedient servant,

T. B. R. Westgate

R

Sir:-

I beg to inform you that I visited the Blackfoot Agency on the 23, 24, 25, 26 and 27th of November.

x x x x

Old Suns School.

This school is in a bad way for horses and cattle, a milching strain of cattle should be put here as milk should be the main article of diet in a school of this kind and the Holstein breed such as we put at Qu'Appelle and File Hills are the cattle that should be used and not the so called Shorthorn milching strain that we have put in at Elkhorn. Time will prove that no mistake was made in putting Holsteins at Qu'Appelle and File Hills, most of the Provincial institutions are using the Holstein breed and I think the matter has been thoroughly gone into by the Provincial authorities before making a decision.

DEPT. OF INDIAN AFFAIRS
MAR 8 1924
RECORDED

Dear Sir:-

I beg to take the liberty of drawing your attention to the following matters in connection with our School, and I ask for your kind consideration in regard to them.

Art Graham & Co
Recd
Farm: As you know we have now a very complete new Stock-barn, and we are very anxious to have it filled with a good herd of Milch cows. At present we have only two good cows, which we purchased ourselves last month. The purchase was made from the returns ~~of~~ from the sale of four useless animals from a milking point of view. These new cows are pure bred Holsteins, and costing us \$100.00 each. We have, besides these, six grade cows of more or less value. From the latter we could raise some animals for Beef purposes. Our great need is, however, a good stock of milkers. To complete our herd with what we have already got, we require ten new cows.

I may say that through your Department, all our stock were T.B. tested, including a Shorthorn bull. Three two-year-old heifers reacted, and we had to let them go to a cattle buyer for \$32.00 for the lot. With this money, we anticipate buying a registered Berkshire Boar.

If your Department can come to our assistance in this very *important* matter, we should feel that our barn was being used to the very best advantage. At the present time, I am rather ashamed to have visitors come and find us in the position we are in. Our great aim here is ~~to~~ to have sufficient butter and milk for the children as well as the staff, all the year round. In having these very necessary things, we shall feel that we are doing something to build up the physique of the children.

Our Commission is doing all that it finds itself able to do at the present time for our Farm. I may say that out side ~~the~~ the new Barn your Department has not done anything for the farm, except to make a grant last year of \$100.00 for fence posts. We are very grateful for what the Dept. has done, but we feel that we must ask for assistance in this very vital matter.

I am enclosing you a few of the items of expenditure by the Commission during the last two years; just giving the larger items.

Sum of \$100.00 Range & equal
Household Equipment: I also beg to call your attention to the fact that our present Kitchen Range is old, with parts that cannot be repaired, and too small for the school. Our Kneading trough, which was granted last year with our new equipment, is made of

Indian Affairs. (RG 10, Volume 6361, file 758-14, part 1)

-2-

Secretary,
Dept. of Indian Affairs.

wood, and is, therefore, very difficult to keep in a sweet condition in spite of every effort on the part of those responsible for the baking. Complaints have been made to me and I find that they are reasonable. If it is possible to have the present Kneading trough metal-lined, it would do, but if not, we should be supplied with an all-metal trough.

I have been requested to write you in regard to these matters at once. I regret that our Agent is away at present in Ottawa. If he is still there when this letter reaches you, I believe that he would endorse my requests. If the matter must be held in abeyance until his return, I shall ask him to go carefully into these matters with me.

Believe me, it our aim here at the school to serve the Indian Department and our Church faithfully and well, so that I feel that the considerations I am asking at the present time, and may ask for in the future, are asked with this sole object in view, that we may be the better enabled to make this Institution first class in every way.

Believe me,

Yours very faithfully,

J. M. Ross Gibson

Principal.

Ottawa, March 11, 1924.

Reverend Sir:

I have to acknowledge your letter of the 28th ultimo, with reference to milch cows for the Old Sun's Indian Residential School. In reply I have to inform you that Mr. Commissioner Graham, of Regina, is being instructed to make a recommendation in this connection and he will in due course be authorized to take whatever action is considered advisable.

That portion of your letter which refers to the kitchen range and to the kneading trough will receive attention.

Your obedient servant,

J. D. McLEAN

J. D. McLean,
Asst. Deputy & Secretary.

104-1-14.

Ottawa, March 11, 1924.

Sir:

I have to inform you that the Department has been requested to supply ten milch cows for the use of the Old Sun's Indian Residential School. There is a new stock barn at this institution and the Rev. Principal reports that the school has two good milch cows and six grade cows. You were informed in my letter of January 4th that it is the Department's policy to ask school authorities to make replacements to stock. However, I am convinced that there should be more milking cows at the Old Sun's Indian Residential School; and the Deputy Superintendent General has directed that you be asked to make a report and recommendation. You should also intimate if it is possible for you to secure the proper type of milch cow in the West.

Your obedient servant,

J. D. McLEAN

J. D. McLean,
Asst. Deputy & Secretary.

COMMISSIONER'S OFFICE,

M REGINA, SASK., Sept. 24th, 1924

Sir

I have just received a letter from the Office Secretary of the Missionary Society of the Church of England in Canada, Winnipeg asking if some arrangements can be made to supply the Rev. Principal of the Old Sun School with more milk cows, and I should like to be advised if the Department has changed the decision it arrived at, as communicated to me in Department letter No. 104-1-14 dated the 10th of April last.

If the renewed application for the provision of additional cows for the Old Sun School is re-considered and allowed I wish to point out that the Crowfoot School has just as good a claim also to be provided with additional stock.

Your obedient servant,

W. M. Graham
Indian Commissioner,

The Secretary,
Dept. of Indian Affairs,

Sir:

I have your No. 401-11A, with reference to the purchase of stock for the Old Sun's Indian Residential School. I have noted that you consider the residential schools on the Blackfoot Reserve have had an opportunity to build up a herd during the years they have been in operation. The Department, after giving the matter further consideration, has decided not to purchase stock for either institution at this time.

Your obedient servant,

J. D. McLEAN

COMMISSIONER'S OFFICE,

D REGINA, SASK. April 5th, 1924

IN YOUR REPLY REFER TO
No. 401-11A
ALSO TO DATE OF THIS LETTER

Sir:

I have the honor to acknowledge receipt of your letter of the 11th inst. informing me that the Department had a request from the Principal of the Old Sun School to purchase ten additional cows for that Institution. You reminded me I was informed on January 4th last, that it is not the Department's policy to supply stock for schools, but that you are convinced that this school should have more milking cows than they have at present. I am taking from your letter that you propose to supply these cows outright, if you found they were necessary.

I visited this school last week, and I saw eight cows in the stable; two Holsteins that were recently purchased by the school, I was not impressed with them, in fact they are only giving a gallon each at a milking; and six grade cows, which are not of a bad type, in fact I would consider them an average-grade Shorthorns- two of these cows are about to freshen. This will add considerably to the quantity of milk. However, I do not think that even with this additional supply in prospect there will be sufficient milk at the school. I am of the opinion that with an additional three cows, this is all that will be needed at the present time. I am not prepared, however, to leave the choice of these cows to the school authorities.

I presume the Department are anxious to treat all alike, and I wish to inform you that it was only a couple of months ago the Crowfoot School authorities found it necessary to purchase a couple of new cows, and they paid for these out of their grant, and are prepared to buy another couple cows. When they hear the Government are doing this for the Old Sun School, they will naturally want the same treatment, and I think they should have it.

It seems to me these two schools have an ample

-2-

opportunity to build up a herd, and not call upon the Department to spend money in this direction; as a matter of fact they should be selling milch cows at these places, instead of the Department buying them for them, especially as these schools have been in operation for so many years. I would, therefore, recommend that three cows be bought for the Old Sun School and three for the Crowfoot School.

Your obedient servant,

*Dir. directed
no stock to be purchased at this time.

ALSO TO DATE OF THIS LETTER

Sir:-

I beg to inform you that I am in receipt of a letter from Indian Agent Gooderham, in which he reports that one of the milch cows at the Old Sun School was slaughtered by the Government Inspector, and that no compensation has been received.

The Principal in writing to the Agent says "The animal which was slaughtered was a pure bred Holstein cow, costing the school \$100 about two years ago. We desire to get together a good herd of dual purpose Shorthorns. In a communication from our Commission I received the following instructions."

" Inform the Indian Agent in writing of the
" slaughtering of the animal mentioned in the
" report, and request him to take the necessary
" steps, in accordance with the agreement of his
" Department, to have this animal replaced by one
" of the class you consider most suitable. I am
" of the opinion that one of the Shorthorn class
" would be the best one to secure."

The Agent goes on to say that he knows nothing about arrangements made with the Department, and that the animal mentioned by Mr. Gibney was not worth \$100 at the time it was slaughtered. I may say also that I do not know of any arrangement with the Department as mentioned by the Commission.

Your obedient servant,

The Secretary,
Dept. of Indian Affairs,
Ottawa.

Extract from Report of Agent Gooderham on the
Old Sun Residential School
dated March 5, 1926.

[Handwritten signature]
Original on file 104-1-7

The barns were inspected and found to be
in good order but the milk supply was very low.
This matter was taken up with the Principal and
he stated that the M.S.C.C. had the matter in hand
and promised, if possible, to authorize an increase
of the milch cows immediately. This is the only
solution as the present herd is small and for the
most part, very low grade.

I beg to submit the following report for the
month of February 1926.

x

x

x

SCHOOLS

Old Sun's was visited while under quarantine for
measles and only the barns and stock were inspected. Found a
distinct shortage of milk as only one cow was milking. Other
cows will be freshening in a short time. All stock was receiving
good care and were in fairly good condition but the cattle are
a rag-tail bunch. The Principal has asked the M.S.C.C. for
more and a better type of milch cows and I cannot state too
strongly that there is a need for them.

S. M. P.
Sir:

I am enclosing herewith Indian Agent Gooderham's report on the Blackfoot Agency for the month of February.

x x x

I regret that the Agent found it necessary to report that the children at the Old Sun's School are getting no milk, or at least milk from only one cow, and that the herd is just as I have described it, a very inferior lot. The Church should be called upon without delay to remedy this matter. Keeping a lot of Indian children in a school and not giving them a proper supply of milk is to say the least, most unsatisfactory.

Your obedient servant,

W. M. Graham.

Indian Commissioner.

Ottawa, March 16, 1926.

Reverend Sir:

It is reported that there is an inadequate supply of milk at the present time for the pupils of the Old Sun's Indian Residential School. Our representatives properly point out that this is a serious matter and calls for immediate remedial action. I should be grateful if you would let me know what steps your Society is taking in this connection.

I might point out that last month the Department authorized Mr. Commissioner Graham to purchase one suitable animal for this school, to replace a cow that was destroyed by order of the Veterinary General. The reports indicate, however, that several head are necessary before a sufficient supply of milk is possible.

Dear Sir:-

In reply to your letter of the 16th instant, (104-1-14) relative to the milk supply at the Old Sun School, I am pleased to be able to inform you that three cows have recently been added to the school herd, one provided by your Department to replace the one slaughtered in January by order of the Veterinary Director General, and two by our Society. A still further addition of three good cows is under contemplation at the present time, and it is hoped and expected that when these have been secured, the school will receive a regular and adequate supply of milk and butter throughout the year.

Trusting that this information may be satisfactory to you, I remain, Sir, with very kind regards,
Yours very truly,

M.S.C.C. Herd Passes Test

It is very interesting to notice the progress which is being made at the Old Sun Indian Mission of the Missionary Society of the Church of Canada in the way of improving the originally mixed grade herd. Last week the second 60-day retest in the way of accreditation has been successfully passed by the government veterinarian. Another clean test in the next 60 days means that the herd will be fully accredited according to the rules and specifications of the department of agriculture at Ottawa. Not only will the school then have an accredited herd, but also the beginning of a fully purebred herd, as the grade cattle are being gradually fattened and butchered off and are being replaced with the dual purpose short-horn.

On January 24, 1926, the first test for T.B. was taken on the herd which proved to contain one reactor which was slaughtered immediately. It was very gratifying to receive the report from the government veterinarian that last week that not a single reactor was found.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

Re- Seed Drill for Old Sun School.

The Principal of the Old Sun School has directed my attention to the urgent need of a new Seed Drill if the farming activities at this institution are to be properly carried on and developed. He states that the old drill, a LaCrosse, is now so obsolete that it is difficult almost to impossibility to get new parts or repairs. Moreover, he states that it does not seed evenly, and even misses rows from time to time. The cost of a new single disc, 20 run drill, of the latest all metal type, he estimates at approximately \$225.00 f.o.b. Gleichen, and I am writing at the urgent request of our Commission to ascertain if your Department can provide this very necessary item of equipment in time for the seeding operations this Spring.

I may mention for your information that in the same letter in which the Principal asked for the seed drill, he also requested an extra team of horses, and our Commission have agreed to purchase this team at a cost of approximately \$200.00. As we have also expended during the last few months approximately \$500.00 for pure-bred milk cows for this School, and were confronted at the close of last year with a heavy cash expenditure in excess of cash receipts from all sources, including the per capita grants, you will understand the circumstances which have prompted our Commission to solicit your help in the purchase of the seed drill.

I shall be glad to hear from you at your earliest convenience, and remain, Sir,

Your obedient servant,

T. E. R. Westgate
Field Secretary, M.S.C.C.

IN YOUR REPLY REFER TO

No. 401-11A C.E.

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,

W. REGINA, SASK., 18th May, 1929.

Sir:-

The Principal of the Old Sun School on the Blackfoot Reserve has written through the Agent in regard to equipment required on the school farm. The items asked for are:-

- 1 heavy wagon gear with yoke & trees
- 1 wheel barrow
- 1 post hole digger
- 1 saddle

Mr. Gooderham explains that the saddle they now have in use there is the property of the Farming Instructor, but it can be purchased for \$20.00, which he considers is good value, and estimates that the total cost of the articles requisitioned for will not cost in excess of \$150.00. I am referring this matter to the Department, but I may say that I do not see why the Department should be called upon to expend this amount for the purpose named.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Ottawa, May 22nd, 1929.

Sir:

I have your 401-11A C.E. of the 18th instant, relative to the request of the Principal of the Old Sun Residential School to be supplied with the following:

1 heavy wagon gear with yoke and trees,
1 wheel barrow,
1 post hole digger,
1 saddle.

In this connection I have to say that it is the Department's policy to ask the school management to make replacements to agricultural implements and stock. The Department is, therefore, not prepared to authorize the expenditure required in the purchase of the equipment asked for at the present time.

Your obedient servant,

J. D. McLean

J. D. McLean,

Dear Sir:-

The Principal of Old Sun School has asked that six milch cows be purchased to be added to the school herd. I agree that the cows will be needed when the school is opened.

The Missionary Society inform the Principal that the Department is responsible for the complete equipment of a new school before its administration is taken over. What are your instructions in the matter, please?

This school has been in operation many years & that the old milk herd plus natural increase should be sufficient. If as you report 6 more cows are needed why.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Your obedient servant,

Indian Agent.

Ottawa, September 30, 1930.

Sir:

I have your letter of the 23rd instant, relative to the request of the Principal of the Old Sun Indian Residential School to be supplied with six milk cows to be added to the present school herd.

In this connection it is considered that, as this school has been in operation for a number of years, the old milk herd, plus natural increase, should have provided the number of cows sufficient to meet present requirements. If, as you report, six more cows are required, you should state the reason why the herd was decreased.

Your obedient servant,

A. F. MacKenzie

BLACKFOOT AGENCY

OCT 8 1930

GLEICHEN, ALTA.

Old Sun School,
Gleichen.

Oct. 6th. 1930.

Mr Gooderham,
Indian Agency,
Gleichen.

Dear Sir,

With regard to our conversation re the Milk herd at Old Sun School, I have made investigation and beg to report as follows:

The Herd belonging to the School prior to 1927 was made up of 5 scrub milch cows, some bought in the stock yards at Calgary. Two of them were defective, one was of Holstein and Jersey stock, another was more or less of pure holstein breed, and the other just scrub. In 1927 the Indian Commission of the M.S.C.C. sold the two defectives and bought two pure bred Holstein cows to replace them. In addition to this they bought a pure bred Holstein bull which we now have. The scrub cow was traded for a holstein heifer later on.

This makes our present herd to consist of one old more or less Holstein, one half Jersey and Holstein, and three pure bred Holstein cows. The natural increase of these consists of five heifers, one just over a year old, and the others younger.

You will see by this that our effective strength is four good cows and one old one which will soon be useful only for breeding purposes. Our increase has been fairly normal, but the heifers are too young to be producers for the next year at least.

Now the situation that I am trying to handle is this. Within a few weeks we shall have from 80 to 90 children in this school, all of them having been living at home for over a year and in consequence under nourished. When we receive them, we shall be immediately faced with the problem of building them up to normal strength, for unless they are in good health, our time will be wasted in trying to educate them.

I thoroughly discussed the care of the children with Dr. Windsor, our Indian Reserve M.O., and she was most emphatic about the desirability of being able to give each child at least one pint of whole milk and one ounce of good butter as a minimum ration (daily).

Upon this basis we would need 13 gallons of whole milk, and 7 pounds of butter daily to provide a minimum ration for children and staff. Then, taking our present rate of production as a basis of calculation, we would require 7 cows to produce the whole milk, and 5 from which to make butter. That means that we ought to have at least a dozen cows to give us our minimum supply.

You will note that I only asked for six new cows to make our herd up to eleven. I did this because I thought that with a little more care we might possibly increase our supply per cow a little over what it now is. Assuming that this is a possibility I made the requisition six as an absolute minimum.

Yours very sincerely,

John W. House.
Acting Principal.

B.13.

104-1-14.

SIR:-

Answering yours of the 30th ult. in ~~reference~~ ^{regards} the milch herd at Old Sun School. I attach hereto a letter from the Principal of the school and I believe you will find it to be a satisfactory explanation of the existing condition of the herd. All animals are T.B. tested and the herd is now certified by the Department of Agriculture as being free from t.b. When the animals were first tested, two re-acted and had to be destroyed.

More milch cows will be needed to supply the milk when the pupils return. Rev. Mr. House has lately assumed his new duties and I have confidence in him. If the M.S.C.C. cannot supply him with more cows, we cannot expect the pupils to get all the milk they should have. In such event, I recommend that the Department purchase the cows. In this connection, I beg to submit that the Holstein breed is not my choice of breed for this school. What is needed is a dual purpose breed and if I were making the purchase, I would try to get milking Shorthorns or some breed which can be readily beefed.

Milch herds which are T.B. tested are limited in these parts - in fact, it may be necessary to go out of the Province to locate fresh milk cows of the type required. Whether it be the Department or the M.S.C.C. that purchase the cows, arrangements to do so should be made right away.

Your obedient servant,

Indian Agent.

Ottawa, October 15, 1930.

Reverend Sir:

Additions to the milch herd at the Old Sun Indian Residential School have been engaging the attention of the Department. It appears that six additional cows should be secured, and it has been recommended that dual purpose Short-horns be selected. I have informed Mr. Indian Agent Goederham that the Department will supply three such animals if your Society will purchase a like number. The general practice is for the Department to ask the school management to make necessary replacements to live stock. At most schools, the natural increase keeps the herd at required strength. However, in view of the circumstances at the Old Sun School, the Department makes the foregoing offer.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

I have received your letter of the 15th. inst. #104-1-14, in which you inform me that you have authorized Mr. Indian Agent Gooderham to purchase three cows for the Old Sun School. Only last week I received a letter from the Principal of this school dealing, in detail, with the whole question of the herd of stock now on the school premises. In reply to his communication, our Commission instructed me to authorize the Principal to take the matter up direct with the local Indian Agent, and to arrange, so far as possible, for the building up of a herd of pure-bred Holsteins. For some time our Commission desired to have at this school a herd of Shorthorns, or a dual purpose strain of stock, but the Indian Commissioner favoured the Holsteins and consequently a goodly number of Holstein animals are there at present. It seemed to our Commission that considerable expense would have to be incurred to make a complete change of the herd, and consequently it would be better to adhere to the one breed instead of having a mixture. The Principal has been authorized by our Commission to exchange some of the animals for Holsteins, and I trust that your Department may authorize Mr. Gooderham to purchase three good Holsteins as well. An authorization from your Department to Mr. Gooderham and the Principal to take whatever steps they consider best in the matter, will be much appreciated by our Commission.

I have the honour to be,

Sir,

Your obedient servant,

Rev. Sir:

I beg to acknowledge receipt of your letter of the 20th instant, with reference to the additional cows required at the Old Sun Residential School. You will note from official letter of the 15th ultimo that the Department considers that six additional cows are required, and that Mr. Agent Gooderham was instructed to supply three animals, if your Society will purchase a like number. I am not certain from your letter whether or not your Society is prepared to secure the three additional cows, and I would appreciate receiving a definite statement from you in connection with this.

It is noted that you prefer Holsteins to Shorthorns, and, when definite instructions are being given our Agent, your wishes in this regard will be presented to him.

Your obedient servant,

RE: Voucher #392

SIR:-

Re attached voucher - the writer scoured the country for suitable fresh milch cows for Old Sun School during the past two months and found it impossible to locate them. Only T.B. tested animals were acceptable.

Mr. Durno, Calgary Auctioneer, scouted about and advised me of a sale of milch cows at Calgary on the 3rd. inst. He checked over the herd when I attended the sale and six of them were purchased. The school has just taken in 60 children and needed the milk. I would prefer dual purpose Shorthorns but as there were none available, Holsteins were secured.

The demand for milch cows at present is heavy and prices are higher than last year. It is hoped that the herd may be gradually made up of dual purpose Shorthorns. This may be possible in the coming summer.

You will note that one-half of the account is to be paid by the School authorities. I trust that all is in order.

Your obedient servant,

Indian Agent

B.12.

Gleichen, Alta

July 10th. 1931.

Dear Sir:-

On a recent visit by Mr. Inspector Christianson to Old Sun School the matter of securing a new bull for the school was taken up as the bull now in use has been there a number of years and should be disposed of. Mr. Christianson mentioned the fact that Dr. Murray of the Sarcee Reserve had a bull on hand which might be suitable for the Old Sun School and I would like to ask the Department if arrangements could be made for an exchange of bulls, that is, if Dr Murray is prepared to accept the bull now in use at Old Sun.

I may say that the Old Sun school bull is inclined to be somewhat ferocious and perhaps would not be suitable for the Sarcee Reserve. If an exchange is not acceptable to Dr. Murray the bull could be disposed of in some other way. In any case, the bull now at the Sarcee Reserve can be taken over by the Old Sun School.

Your obedient servant,

Indian Agent.

OFFICE OF
INDIAN AGENT

Gleichen, Alta.

August Sept. 17th. 1931.

RE: Voucher 341.

Dear Sir:-

Reference your letter of July 16th. I submit herewith a voucher in favour of R.S. McQueen for the sum of \$10.00 for taking the bull from Old Sun School to Sarcee Reserve. This represents one-half of the cost of making the exchange of bulls from these two places, the Principal of Old Sun School is meeting the other half of the bill. I trust that this arrangement will be satisfactory.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Your obedient servant,

Indian Agent.

R

Both schools were visited. The Old Suns school graduates put on a banquet and dance on the 11th. The banquet was at the school and the dance at Crowfoot Hall. It was a creditable performance and we were impressed particularly by the fine meal prepared by school girls under staff supervision. This school has crops and garden seeded where irrigation is available and has also broken about 50 acres to raise feed. The acreage is a bit large, I feel but we will see what is done with it.

Schools

The writer visited both residential schools in connection with repairs and improvements. The children, of course, were still on holidays and did not return until the sixth of July. The improvement and repair work to the Crowfoot school was being carried out with local labor and the acting Principal is to be commended on the class of work and the amount that he was able to do with very limited expenditure. This school was in good shape to properly care for all the pupils this year. The crop at this school was excellent and is now being threshed. At the Old Sun School the staff was concentrating on the harvesting which came off irrigated lands. This land has produced abundance of feed and a good garden as well as some threshed grain. Both schools had done well with their exhibits at the Calgary Fair and prize money was here for the pupils on their return this fall. This coming year more stress will be given to handicraft work and the general work will undoubtedly be more pleasing to the Indian pupils.

EXTD.

At the Old Sun School, the irrigated farm produced 850 bushels of oats, 225 bushels of wheat, 50 tons of alfalfa, and 75 tons of hay; besides a garden which was a revelation as to what irrigation will do. For example; they raised 20 tons of potatoes; 2000 cabbages; 100 pumpkins; 100 marrows; 10 sacks of cucumbers; 50 bags each of turnips; carrots and parsnips and numerous other small vegetables.

The cattle herd totals 34 head, of which there are 20 milch cows.

Classwork and vocational work was proceeding in an orderly fashion and generally everything was quite satisfactory at this school.

Gleichen, Oct. 5, 1939.

AGENT'S REPORT ON BLACKFOOT AGENCY FOR SEPTEMBER 1939.

EXD.

The outfits working on the reserve threshed the crops on both school farms. The Old Sun School had 400 bushels of wheat and over 1500 bushels of coarse grain. This farm produced, also, sufficient alfalfa, greenfeed and hay to carry their herd through the year and the garden is quite good, although the potato crop is lighter than last year. This is true all over Alberta, however, where the potato crop is light.

SCHOOLS

Arrangements were made with both Principals for one boy pupil to feed a calf, the property of the parent, under the scheme put out by the Alberta Junior Livestock Clubs. The boy or girl must feed, water and care for this calf from the 1st of December until the early summer when it is hoped that some competition with other clubs can be arranged and a prize given to these boys. The main reason for this is to encourage and educate these young Indians in the care and feeding of stock. At least one other, outside the schools, will also care for a calf so that we will have a local competition at any rate. An ex-pupil of the Old Sun School was sent to Calgary to take the Dominion Provincial Youth Training course in mechanics; this boy is paying his own expenses. Four pupils of this school and nine ex-pupils of the two schools were started on a 6 weeks course in farm mechanics, carpentry, blacksmithing and agriculture under supervision of the Dominion Youth Training project. This school is held in Gleichen and arrangements were made for the boys to live at Crowfoot Community Hall where the wife of the Indian caretaker supplies the meals. An allowance is given by the Government for transportation and board, and this will be turned over to this woman. The boys are getting something out of this course at very little cost to their parents.

X

SCHOOLS:

Both schools were visited. The writer was particularly impressed by the number of stock at the Old Sun School; there were 55 head of cattle, of which 16 cows are milking. There were three sows with three large litters of young pigs, besides 25 feeders and one boar. Two hundred odd hens were laying an average of 5 dozen eggs daily. Owing to the male staff being the manual training supervisor at Old Sun could only give a small part of his time to carpentry work. At Crowfoot a good start has been made in this and the building used for this purpose has been fitted with benches and was sufficiently large to handle all those who are taking this work. More or less as an experiment and also because children had been retained in school almost continuously since summer holidays the pupils of both school got a week's holidays at Christmas time. Rations were issued to their parents and it was the first time that I have ever noted that the parent or guardian realized he had a responsibility to look after his own. The enthusiasm of getting the children out wasn't so great when they realized that they would have to feed them and keep them warm and in good health for the period that the Indian normally ran here and there all over the country. The pupils are now back in school and I believe they are mostly in good health. I have noted one thing that there was less travel to the city and fewer ~~at~~ Indians drunk and in trouble than in former years; possibly this is due to the fact that they had to remain at home and look after their family - at any rate it was good training for the parents.

RE DAMAGE OF SCHOOL CROP BY INDIAN STOCK:

A letter from Mr. House, Principal of Old Sun Indian Res. School about damage of School crop by Indian cattle and horses, the Councillors showed regret and discussed this situation.

1. They will broadcast it at the Sun Dance camp. and do all in their power to preserve this farm intact.

2. They recommend that signs be made and placed on fences and gates where some Indian may be inclined to enter or pass then through the farm.

AGENT'S REPORT FOR THE QUARTER ENDING DECEMBER 31, 1948.

XX

XX

XX

Education: Two boys are attending Gleichen High School in grade 10; they are doing alright.

There are 200 pupils at the two residential Boarding Schools. They are healthy and happy. Vocational training has been improved and the calibre of the instructors satisfactory.

Classroom work always appears to be lacking in something; possibly this is due to lack of interest by the pupil but it is so easy for a teacher to get in a rut and lack that spirit which the child needs so much to retain its interest and enthusiasm. Indian children love to sing and they are good singers. We need to practice a little more psychology to get nearer the desired results.

All children who were school age and physically fit at the beginning of the term are attending the schools.

At both institutions, the farms produced ample feed for stock. Good milch herds are retained while the flocks of fowl produced sufficient eggs. Some cattle and pigs are slaughtered for school consumption. The Crowfoot School has a splendid lot of pigs. The Old Sun School had a splendid garden on its irrigated farms.

GLEICHEN, Alberta

Dear Sir:

This will acknowledge your letter of November 26th, relative to testing of the dairy cattle at the Old Sun Indian Residential School, Gleichen, and the Crowfoot Indian Residential School, Cluny.

In reply, I may say that while it is realized here these herds have not been tuberculin tested since April, 1945, I would suggest that you take the matter up with Dr. T. Childs, Veterinary Director General, Dept. of Agriculture, Confederation Building, Ottawa, as I have been requested to suspend all tuberculin testing under supervised herd plan in the Calgary District indefinitely in order that more time may be given to Restricted Area Work.

Yours truly

(signed)

Doctor T. Childs
Veterinary Director General
Department of Agriculture
Confederation Building
OTTAWA, Ontario

Dear Doctor Childs:

I beg to inform you that I have asked Mr. Storey, District Veterinarian for Calgary, to test two cow herds of approximately twenty animals each, located at the Old Sun Indian Residential School, Gleichen, and the Crowfoot Indian Residential School, Cluny, located approximately fifty-five miles east of Calgary. The herds have not been tested since April 1945. I enclosed a copy of Mr. Storey's letter which is self-explanatory.

If you could take the matter up with our Department in Ottawa it would be much appreciated and if the herds can be done, this would also be appreciated.

Yours truly

Re: Old Sun's Indian Residential
School

We are in receipt of a copy of your letter of the 10th instant which you have written to the Veterinary Director General with regard to testing the herds at the Old Sun's Indian Residential School.

It is considered that this is a wise precaution to take, but I would point out that any expenditure in connection with it will have to be paid from school funds, as the livestock is considered the property of the school management.

RE: T.B. Testing of Dairy Herds

Reference to your letter of December 15th last, in which you approve of the T.B. testing of dairy herds at both Crowfoot and Old Sun Indian Residential Schools, I beg to state that your last paragraph is contrary to what has happened in my experience in the past, in so far the Department have always paid the costs, if any, for carrying out these tests, and not the school authorities.

May I suggest in view of the immense amount of money being spent on T.B. hospital cures, I think this charge should be borne by Appropriation, in so far that I think it is a good preventative and the school milk should be protected from T. B.

Needless to say, the school authorities do not approve of paying the costs of the T. B. tests. Trust you will reconsider the matter.

Re: T.B. Testing of Dairy Herds
Your File 104-15-8

We have your letter of the 29th ultimo
and we feel that the school management is responsible
for testing the herd at the Old Sun's Residential
School if there is any expenditure.

It is doubtful if the officials of the
Agriculture Department will charge for their services.
Many of our residential schools in Canada have their
herds tested at frequent intervals at their own expense.

nothing more than is now done

Chairman-Indian Agent.

DEPARTMENT OF INDIAN AFFAIRS

Memorandum of an inquiry into the cause and circumstances of the death of

Rose Mary Lowhorn, Pupil No. 0237
of the Old Sun Indian Residential School at Gleichen,
who died at The Blackfoot Hospital (place) on Jan 29th 19 46

INSTRUCTIONS

When a pupil of an Indian Residential School dies, the Principal is required to inform the Indian Agent at once.

On receipt of the Principal's notice the Indian Agent shall convene a Board of Inquiry, consisting of himself as Chairman, the Principal of the Residential School, and the Medical Officer who attended the deceased pupil. These members of the Board shall, in each other's presence, complete this memorandum, which shall then be forwarded to the Department of Indian Affairs, Ottawa, in one copy.

The Board of Inquiry shall, if at all practicable assemble within 48 hours of the pupil's death.

The parents or guardians of the deceased pupil shall be given notice of this inquiry and be permitted to attend it or to send a representative. They or their representative shall be asked if they wish to make a statement. In the event of their so wishing, their statement shall be attached to the report. The inquiry, however, shall not be delayed more than 72 hours after the time at which it would otherwise be held, to enable them to attend it.

If the Indian Agent is located at such a distance from the school as to make it impracticable for him to attend the Board, he shall request a responsible local resident to act for him. A suitable person for this duty would be a Justice of the Peace or a member of the Royal Canadian Mounted or Provincial Police. A more or less permanent arrangement of this kind might be necessary in some cases. The Department is prepared to pay a reasonable fee for this duty, on the Agent's recommendation. The report of the Board, in any case, must reach the Department through the Indian Agent's office.

This inquiry is not designed to take the place of, or prevent, any other inquiry, including an inquest, which may be required by law.

If the pupil died as the result of an accident, the Indian Agent is required to take the statements of the witnesses of the accident, and attach them to this memorandum.

RECEIVED FOR THE INDIAN
DEPARTMENT
April 24 1895

SCHOOL BRANCH
Indian Agents Office. Piegangs.
April 19th 1895.

Sir:-

Referenced Agents' March 1895 School Report and marginal note thereon.
21st.
ass't Comm.

In reply to your letter of 10th inst, re compulsory attendance of children at the R.C.Day School, I beg to say that I consider that it would be unwise to enforce this at present, owing to the amount of sickness (Scrofula) amongst the children, and the distress of the parents caused by the deaths which have lately taken place. The spring is always an unhealthy time for Indians.

I have, etc,
sgd, H.H.Nash.
Ind, Agt.

118153-1
134508

Commissioner of Indian Affairs,

North-West Territories,

Regina, 22nd November 1895

Sir:-

I have the honour to report for the information of the Department, the receipt of a letter from His Lordship Bishop Grandin, advising me of His Lordship's intention to send two Sisters to take charge of the school on the Peigan Reserve, now carried on as a Day School. On the arrival of the Sisters they will open a Boarding School, and His Lordship, who asks that the usual assistance may be given for 8 boarders, *would* *no doubt be* willing, for the current year, to accept supplies to the amount of \$60.00 per cap per annum, as authorized for the Ermineskin's School by Departmental letter No 117201 of August 26th last.

I would recommend His Lordship's application to the favourable consideration of the Department, and also that provision be made in the Estimates of 1896-7 for a cash grant of \$72.00 each for eight pupils.

I have the honour to be,

Sir,

Your obedient servant.

The Deputy,

of the Superintendent General
of Indian Affairs,

Ottawa.

A. J. A. J.
Commissioner.

THIS LETTER HAS BEEN SENT

OTTAWA 27th November 1895

035

Sir,

I have to acknowledge the receipt of your letter of the 22nd instant reporting the receipt from His Lordship, Bishop Grandin, of a letter advising you of His Lordship's intention to send ~~two~~ Sisters to take charge of the Roman Catholic School on the Peigan Reserve now being carried on as a Day School, when it would be opened as a Boarding School, and asking that the usual assistance be given for 8 boarders; and in reply I beg to say that the Department does not approve of the way in which these changes are proposed to be made. Application should in the first place be made for permission to open a Boarding School as it places the Department in an awkward position in having to contribute towards the support of a school for which no provision has been made. However, as this course has been allowed before, the Department will, in this instance consent to an issue of provisions and clothing to an amount equivalent to a grant of \$60 per capita.

Where such an arrangement is taken advantage of a tuition grant only will be paid for the number of pupils in attendance.

Your obedient servant,

The Indian Commissioner,

Regina, N.W.T.

OTTAWA 8th January 1896

Sir,

With reference to Departmental letter to you of the 27th November last relative to the provision for the Roman Catholic Boarding School on the Peigan Reserve, I beg to inform you that a personal application has been made to the Department by Rev. Father Lacombe, to have the \$300 grant formerly paid as a salary to the teacher, continued to the Boarding School in addition to the rations and tuition grants, and in this connection I beg to say that Father Lacombe has been informed that the Department regrets its inability to meet his wishes in this direction, ~~owing to the lack of funds, and~~ ^{the regulation of the Department} in view of the fact that the Church of England School upon the same Reserve is in receipt of a ~~maintenance grant of \$72~~ ^{tuition grant} per capita ~~only~~. Kindly inform Father Legal to this effect.

Your obedient servant,

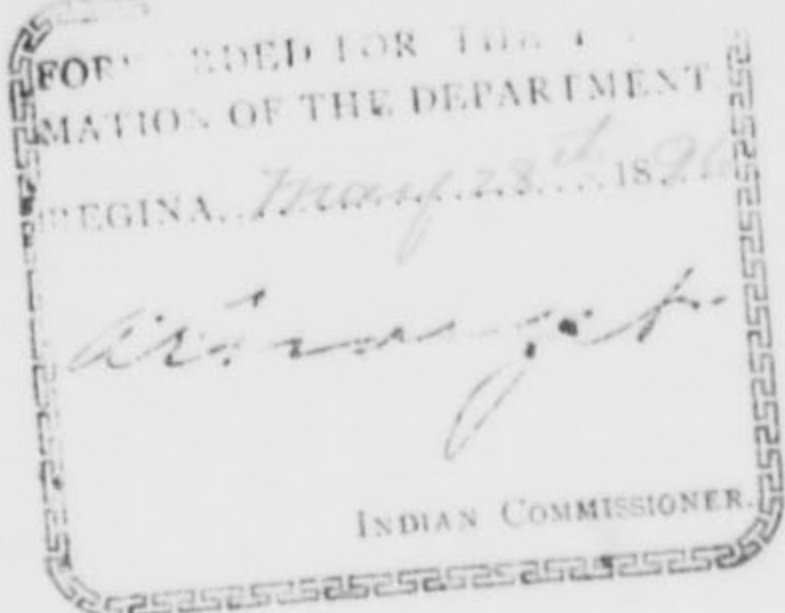

Deputy Supt: Genl:
of Indian Affairs.

Piegan Reserve. May 20th 96.

A.E. Forget Esq.

Commissioner of Indian Affairs.

Regina.

Dear Sir:-

*Referred Department
Letter No 118153 of Nov
27th 1895.*

at

Comm.

Allow me to state that in order to comply with the instructions received in a previous letter, Rev Father Poisy, on the date of the 26th of April, had made a requisition for a certain amount of supplies, in prevision of the impending opening of the Boarding School, at the Roman Catholic Mission on the Piegan Reserve. Said requisition having been forwarded to Regina by the Indian Agent, the answer has come that most of the dry goods supplied asked for could not be supplied from the store at Regina; and on the other hand such supplies are exhausted at the Agency. Yet these it was absolutely necessary to get at once viz:- Blankets ticking for mattresses, cotton for bed sheets gingham for dresses, etc and there was no alternative except to purchase the most necessary things.

As the same inconvenience may occur again at any time, it would be a great deal more satisfactory that the per capita grant for the support of children should be paid, as far as possible out of the moneys at the command of the Department, in consequence of the regular salary for the day school being discontinued.

It cannot be said that there is no provision made for the purpose. There shall be a balance of \$75.00. for the last quarter of the present year and \$300.00.

for

Indian Affairs. (RG 10, Volume 6362, file 759-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

141561

for the whole of next year, for which provision was made in the Estimates. If such sums be secured for the maintenance of the boarders, the balance only of the grant would have to be made up in goods, and this I am sure would be more satisfactory to all concerned.

Consequently I would ask the Department to allow a sum of \$75.00. to be paid at the end of this quarter towards the support of the Boarders who are to be taken in a few days, in order to help to defray part of the first expenses of the opening of the school.

I am, etc.

sgd Em Legal, Ptr O, M.I.

*The Rev Father Legal
is being reminded
of prior correspondence
advising him that
per capita tuition
grant of \$12.00 per annum
will be paid for each
unit of average attendance
of all taught whether day
pupils or boarders.*

THIS LETTER HAS BEEN SENT

Sir,

I have to acknowledge the receipt of a return and requisition for September quarter last from the Piegan P.C. Boarding school, and in reply I beg to say that as 8 pupils at \$72 per capita were provided for at this school in the Supplementary Estimates for 1896-7, the allowance for last quarter is \$111:60, instead of \$18:60 as shown by your requisition, calculated upon the tuition allowance only, and a cheque for the former sum has been sent to Rev. Father Davis as requested.

If, however, rations were drawn by this school for last quarter, a corresponding deduction should be made from the requisition for the current quarter.

R.C. Boarding School,
Peigan Reserve.
8th. March 1899.

Sir,

I beg to acknowledge your answer of
13rd. February last to my letter of the 2nd.
of February last, by which I asked the
Department grant for the five pupils of
this school not paid for. Let me
kindly reiterate the same request.
If the Department could find the means to
pay for these five pupils, it would help
this school, as it is rather expensive
to live here. I am sure the Department
can assist us in this matter.

Hoping that you will give me a
favourable answer, I remain, Sir.

Yours truly,

L. Doucet,

Principal.

EVECHE DE ST. ALBERT.

Alberta, T.N.O., Canada.

Calgary March 9/99.

To the Indian Commissioner,
Winnipeg.

Dear Sir,

On the occasion of a recent visit to the Catholic Boarding School, on the Peigan Reserve, I have been made pleased to notice the progress made by the pupils during a comparatively very short time.

It had been complained, for some time, that the person in charge of the class was not sufficiently qualified to teach English and especially to give the true and exact pronunciation. By looking only at the results there would not seem to be much foundation to the objection, as it would be hard to find any instance of such a remarkable transformation having been more rapidly accomplished in the training of Indian children. Yet to comply with the wish of the Department, the services of an English lady teacher have been secured and she has just taken charge of the class work.

The object of my present letter
is

Indian Affairs. (RG 10, Volume 6362, file 759-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

-2-

is to call the attention of the Indian Department to the fact that there are only 20 children authorized for that school, which could furnish accommodation for 40 or even 50 pupils.

At present there are 25 children admitted in the school, with the consent of the Department, but for the 5 supplementary pupils, the usual grant is not given, the Agency providing only the rations of beef and flour for them.

At this time of the year, it would be an easy matter, by making a special allowance in the supplementary estimates, to secure the usual grant for these five children and even for other children who could be admitted before the end of the fiscal year. The school is large enough for about fifty children and it seems that it should be filled as soon as possible.

I believe that the number of children recommended for next year is 40. I would respectfully ask that, even before the end of the fiscal year, it should be allowable to admit, if possible, that number or at least 30.

It cannot be said that funds are not available as there are good many schools where the authorized number of pupils is far from being completed and cannot be completed before the end of the year. To give only one instance, I

will

-3-

will point out the St. Joseph's Industrial School, Dunbow, the number of pupils admitted therein being at least twenty short of the authorized number.

While visiting the school on the Peigan Reserve I could not help being struck with the poor accommodation there to be found as far as desks and blackboards are concerned. In fact they have nothing of the kind worth notice. I would therefore strongly recommend also that the Department should kindly make appropriation for 2 dozen of Desks (4 of each size) and 2 large blackboards.

These of course, should be attended to at once, if it is wished not to thwart the work of the school.

Without doubt the Rev. Principal of the School shall have communicated with you, of late, on these subjects. I hope that the Department will be willing to take the matter in the most serious consideration, and grant our requests.

While the Principal of the School shall be notified, it would be a favour conferred on me, if I could also receive the information.

I have the honour to be,

&c., &c., &c.,

189

Sir,

I beg to enclose copies of a letter from His Lordship the Bishop of St. Albert and of one from the Principal of the Roman Catholic Boarding School on the Peigan Reserve, asking that a grant be paid for five pupils now at this school, over and above the number allowed. I may say that although there are no funds for this purpose and that the Department may feel averse to the idea of diverting appropriation from their intended use, or at least to use one school's unexpended appropriation for the purposes of another school, I still think it a pity that a school which can obtain more than its full complement of pupils should be refused the grant for the extra number whilst the same is allowed to lapse in the case of other schools not as favourably situated, such as the Crowfoot Boarding School which is practically not in existence, and the Blood R.C. School which has only succeeded in obtaining 5 pupils up to the present, and in consequence only a small or no part of their grant is received. I therefore beg to submit the request of His Lordship to your favourable consideration with my recommendation. The matter of purchasing furniture for the above school will be submitted later on.

Your obedient servant,

The Secretary

Memorandum respectfully submitted to
the Indian Department, by Bishop Legal
Coadjutor of St. Albert - Alberta, N.W.T.

Ottawa, November 28th 1899.

A grant of \$1440⁰⁰ for 20 more additional
pupils at the Pegan Reserve Catholic
Boarding school. There were admitted
last year 25 pupils, during the whole
year, with the consent of the Department,
which however refused to pay for more
than 20 pupils. We were made to under-
stand then that 40 would likely be
the number of children approved for
this year, and instead the former number
of 20 has been left to stand. By Treaty
the Government has assumed the duty
to provide instruction for all the Indian
children.

SCHOOLS.
DEC 4 1899

Respectfully submitted to the consideration
of the General Superintendent of Indian
Affairs.

Original on File 116622-3

Legal.

20

OTTAWA, 7th December, 1899

The Secretary:-

His Lordship, Bishop Legal, asks for an additional grant of \$1440.00 to provide for 20 more pupils for the Roman Catholic Boarding school on the Piegan Reserve.

Twenty pupils are now provided for with twenty-five on the roll.

The last census shows that there are 102 children of school age living on the Reserve, -37 Roman Catholics, 46 Anglicans and 19 pagans. There are no day schools on this reserve, and if a grant were given for forty pupils it would provide for three more children than they are shown to have by the census. Provision is made for thirty pupils at the Church of England Boarding school.

They have ample accommodation at the Roman Catholic school for forty pupils, if allowed.

Evêché de St-Albert,

ALBERTA, T. N. O. (Canada)

St. Albert, April 9/ 1900

To the Acting Superintendent-g^l
of Indian affairs.

Sir,

Allow me to forward you a copy of a letter that I am writing to Honourable David Laird Commissioner of Indian Affairs: "Honourable Sir, R^l Father L. Dorset of the Peigan Reserve is writing to me; giving communication of an official letter in which, after informing him that only 20 pupils will be given the grant, you go on to say: "I do not know yet what I will be able to do after June 30th next, but will advise you as soon as I am informed. Allow me to say that after it has been realized, at Winnipeg & Ottawa, as well, that it could only be out of an overlook that the same number of 20 pupils had been maintained, while 25 had been admitted for a whole year, I am really amazed to see that nothing has been done as yet, and that there is nothing certain for the future. The Department is by Treaty bound to provide for the education of his wards, and it should be its duty to help and encourage those who are devoting themselves to that thankless task. Yet too often we are painfully surprised to find rather indifference & neglect where we should look for sympathy & a generous support. — I consider it very unfair that these 5 additional pupils admitted during the whole previous year with the knowledge & consent of the Department have not been given the usual grant and I formally ask that this grant be paid for the whole present fiscal year". — I have the honour

As I suppose that the matter will be brought before you I hope that you will acknowledge the justice of my demand and that you will be able to give a satisfactory solution of the case.

I have the honour to remain,

your very respectful servant,

Sir,

Emile Legal B^l of Pepla.
Coadj. of St. Albert.

Ottawa, 27th April, 1900.

My Lord,

I duly received your letter of the 9th instant, with regard to the application of the Peigan Roman Catholic Boarding School to have their per capita grant extended to twenty-five pupils, instead of twenty as at present provided for. In reply, I beg to state that this matter was brought to the attention of the Department in the spring of last year when the decision arrived at was that the request could not be acceded to, and the Indian Commissioner was so advised. I have again had the matter looked into and I regret to say that there would appear to be no way in which the grant could be increased.

Yours truly,

Deputy Minister.

His Lordship

Bishop E.J. Legal, O.M.I.,

St. Albert, N.W.T.

cc.

ARCHIVES PUBLIQUES
CANADA

Department of Indian Affairs,
OTTAWA, 23rd April, 1900

The Secretary:-

Re Peigan R.C. Boarding school.

I can find nothing on file to indicate that the Department had any intention of providing for more than twenty pupils for this school, that being the number for which the per capita grant is now paid.

The school has had an enrollment of twenty-five since December quarter '98 and in March '99 the Commissioner submitted the request of Bishop Legal and Rev. Father Doucet (the Principal) for payment for the extra five pupils to the favorable consideration of the Department and he was informed in reply that the Department regretted that it could not accede to his request and pay for the pupils as suggested, - that is, out of the unexpended vote for other Roman Catholic schools.

The letter to which the Bishop refers as being addressed to Father Doucet stating that he would be advised later on what could be done after the 30th of June was not written in the Department.

Provision is made in next year's estimates for the same number of pupils as at present, no consideration being given to the five extra pupils still on the roll.

Indian Affairs. (RG 10, Volume 6362, file 759-1, part 1)

PUBLIC ARCHIVES

CANADA

It would be well if the Church authorities and different missionary societies could disabuse their minds of the idea that because money is voted for one particular school and not used, it therefore becomes available for any other school of the same denomination, which has more than the authorized number of pupils in attendance.

Sir,

I hear that in a couple of weeks Indian Cattle
will be killed for rations in this Reserve,
for about 3 months, and if the Department
refuses to let me have the beef necessary, for
I am at loss to find out how we can get our
meat; it will be an heavy expense to get it
outside of the Reserve

^{gash}
I to day the permit to get it from the Agency.
Last year, several times we could not get our
meat because of the bad weather of other
causes, and we had only a little flour and a
few vegetables, as the agent told me that he
had not the permit to give us even a few pounds
of meat, and we suffered consequently.

Let the Department kindly give power to the
Agent to furnish us with meat, as long as Indian
Cattle is killed, till we can get it again from
the Contractor.

I hope that the Department will not consider
my demand as extravagant. Having twenty

July 3/1910

Very Honorable Sir,

As you are aware, it is myself who has started and continued the controversy about the admission into our ^{Indian} schools, of the children slightly affected by tubercular disease. Now in the course of my pastoral visitations, I have been able to notice that it is the Protestant Boarding school of the Peigan Reserve which is made to profit first, of the new provisions of out-dormitories and other improvements devised for the admission of such children, I beg to pass the remark that this is scarcely fair to us.

I have the honor to remain,

Very Honorable Sir,

Yours very respectfully,

+ Emile J. Legal;

Min. of the Albat.

Ex'd

Ottawa, July 12, 1910.

Right Reverend Sir,

I have the honour to acknowledge the receipt of Your Lordship's letter of the 3rd instant in further reference to the admission of children to the Indian boarding and industrial schools.

In reply I beg to say that this is a matter which has for a considerable length of time been receiving the earnest and careful consideration of the officials of the Department. At the sametime the suggestions offered by Your Lordship and others interested in educational work among the Indians have been gladly noted and, where practicable, acted upon.

As to the establishment of fresh air dormitories as a part of the programme of the Department in alleviating the present unsatisfactory health conditions I think that the following statement will show that Your Lordship is under a misapprehension in supposing that any discrimination against the Roman Catholic schools has been exercised.

The policy of the Department is to treat ~~all~~ religions bodies in a fair and equitable manner and there was no departure from this policy in the case of the Peigan school.

In February, last, Mr. Inspector Markle submitted plans for a pure air dormitory in connection with the Peigan school.

Right Rev. E. J. Legal, O.M.I., D.D.,
Bishop of St. Albert,

2.

Church of England school and on the 18th of that month instructions were given to have the work proceeded with. In the same communication Mr. Markle was asked to prepare plans for similar dormitories at the Roman Catholic school. These were received on March 29th and on April 14th authority was given for their construction. At the sametime Rev. Father Doucet was advised of the action taken and on the 23rd of April he acknowledged the Department's communication.

This action on the part of the Department was unsolicited and I think Your Lordship will agree prompt. If there has been delay in completing the work it is no doubt due to the fact that Mr. Markle's many and varied duties have prevented his giving the matter the attention he would wish. Owing to his experience it was thought expedient to leave the whole work in his hands and there is no doubt that when completed these dormitories will be appreciated by the staff of the school.

These explanations will, I think, show that there is no ground for the assertion that that Roman Catholic Church was unfairly treated in the matter of the erection of these dormitories.

Mr. Inspector Markle will be written to with reference to the completion of this work.

I have the honour to be, Right Reverend Sir,

Your obedient servant,

Secretary.

Ottawa, March 17th., 1911.

Right Reverend Sir,-

I have the honour to enclose herewith Five Agreements, in duplicate, between Your Lordship and His Majesty the King, represented by the Superintendent General of Indian Affairs, for the future maintenance and management of the Peigan, Ermineskin's, Crowfoot, Blue Quill's and Onion Lake Roman Catholic Boarding Schools and I have to request that you will be good enough to sign these documents in the presence of a subscribing witness and affix your official Seal, returning same to the Department at your earliest convenience, as the Agreements will go into effect on the 1st. of April next.

On the return of these documents the signature of the Deputy Superintendent General will be affixed, and a copy of each will then be sent you. Certain alterations and improvements may be necessary to bring the buildings at these five Schools up to the required standard. An officer of the Department has been instructed to inspect and report on the improvements required at these Schools. A reasonable time will be granted by the Department to allow you to have the necessary improvements made, and in the meantime, provided these Agreements are completed, the increased grant will be paid from the 1st. of April next.

In the afternoon Dr. Gillespie came up, with his motor from Pincher Creek, and took Mr. Gunn and myself on to the R.C. school. In their case I found the children healthy, clean and well clothed as I have found in all the R. C. schools, there

As I was told that they are likely to be removed from there to another place more adjacent to the railway so there is nothing for me to suggest. Where they are is a beautiful spot and there is splendid water and lots of it and a most desirable place for the disposal of the sewage. The ventilation and food is also well looked after.

Respectfully yours,

O.I. Grain,

Medical Inspector of schools, etc.,

PINCHER CREEK, ALTA. 191

I have innoculated all the children with Typhoid vaccine the second time and gave three of the sisters their first inoculation. I expect to complete the inoculation of the school children by the end of the month.

Of the three cases there, two of them have regained normal conditions but the girl is still running a temp of 103 in the evenings. I think it is a true case of Typhoid, though the first I have ever seen amongst the Indians.

Dr Laferty wrote me & said he would send containers for water analysis but they have not arrived as yet.

All the usual precautions are being taken & I think I have the conditions well in hand. In conclusion, I think everything is satisfactory as far as it is possible to make it. I had good cooperation in the work. I hope you & yours are well.

Yours faithfully

Dear Dr

I have just returned today from a visit to the Agency & the Schools on the Peguian Indian Reserve and beg to report as follows.

I have succeeded in improving the surroundings viz - The Pig pen has been placed back of the barn. The original sty has been cleaned and sprinkled with lime. (plenty of it too) The agent & farmer surveyed the latrines and decided they were not worth moving. Two new ones have been built and sanitary pailsystem inaugurated. The old ones torn down, filled in after a good quantity of lime was used.

The new ones are located - on the girls side in the farthest corner. - on the boys side. outside the grounds 50 feet from the farthest corner from the buildings

Sir,-

Dr. Gillespie of Pincher Creek met me at Brocket Thursday September 7th, and we drove to the Roman Catholic School, where we discovered three cases of typhoid fever. We immediately took steps to find out the source of the trouble, and came to the conclusion that it was from the water in the well, as there is a pig sty with a small open yard, covered with mud and water, and the pigs were wallowing in it, about twenty (20) feet from the well and about ten (10) feet farther on was a pit closet, which was used by the boys. The soil in that locality is gravel and easily penetrated by fluids. We had the patients isolated to one of the sleeping balconies, instructed them to boil the water, have the closet removed and the pit filled in, also the pig sty placed at a greater distance away. We drove back to the Agency and left instructions for a closet to be made with a seat to lift up, and the Doctor was going to order some galvanized pails to be used, and they are to be emptied in a place a distance away from the Institution, chosen by ourselves. We also ordered a lot of lime to be used about where necessary. Dr. Gillespie was going to inoculate the rest of the inmates of the School, with typhoid vaccine, and have the water sent to be analyzed. There is another well farther away, which has not been used for a time, and Dr. Gillespie was going to have it looked into for getting the water supply. As the School is a very old building, and in an

- 2 -

out-of-the-way place, and I was given to understand from Mr. Markle and others, that there is a chance of them having a new one in another locality, as soon as conditions permit, I would suppose that the Department would not care to go to the extra expense of putting down another well, at the present place. I expect the Agent will communicate with the Department for further instructions.

I happened to meet Dr. Lafferty at Okotoks, who is now Provincial Health Inspector, and he said that he would have sealed bottles sent for the water, and see that it was analyzed himself.

The School was clean and as well kept as an old building of this sort could be expected.

I also visited the Church of England School and Hospital and found everything in good order, with the exception of flies coming through the windows, and I requested that they get some cheese cloth to cover the windows, which would be opened. I heard them ordering the man to get the cheese cloth, while I was there.

They are going to have all the houses on the Reserve, cleaned and fumigated before they go back to occupy them for the winter.

Rev. Mr. Haynes, Principal of the Church of England School took me to look at another site for a new school. The site is admirably situated, if there is any intention of building one. His idea is to get trees planted and the ground worked up before a building is erected. Of course, I have no idea of what the Department contemplates in the matter.

I was more than pleased to find that Dr. Gillespie had returned from the war, and was back to his position again to attend to the Indians on this Reserve, as there were a great many complaints about medical attendance to the Indians during his absence. In fact I had received a letter from Agent Gunn about it sometime ago, and I wrote to Dr. Dubuc in regard to it. A copy of my reply I enclose. The people all seemed pleased that Dr. Gillespie was back again to renew his work. They had had a epidemic of measles among the Indians with a very heavy death rate.

Your obedient servant,

D. C. Scott

Original on file 63634-1
Sir,
In this Agency there are two Boarding Schools.
The Victoria Home (Church of England) and The Sacred
Heart (Roman Catholic) Boarding Schools.

The Victoria Home School is situated just off
the Western Boundary of the Reserve. The Principal,
Rev. W.R. Haynes, resides on the Reserve as Missionary,
and the school is run by an assistant principal. This
has been vacant lately but there is a new man who is to
take over the duties of Principal after he has been here
three months. The same objection as before still re-
mains, too many changes and the lack of an energetic man.
There have been five boys discharged from this school
lately and I think it wasted money that they cannot speak
better after being in school ten or eleven years. There
is no farming at all done and the garden was an almost
total failure last year. The outbuildings are poor
and hardly worth keeping in repair.

THE Sacred Heart Boarding School.

The Sacred Heart Boarding school is situated
near the site of the old Agency about the centre of the
reserve. The Principal, the Rev. Father Levern, the
Teacher is Sister Lewis. The Staff seem efficient and
the place is well kept and clean. The garden was a
failure last season and no farming is done.

The effect of education on the reserve
is slightly improving especially among the women.

I have been given to understand that new
schools have been promised when the war is over to both
denominations and under the present government it should
be possible to have one Government school situated on the

best land on the reserve and self-supporting and non-denominational, the Department securing the best teachers possible and best farm instructors. This seems to me to be the only way to get the best returns for the money spent on education as well as saving the cost of one building which should pay for running expenses until it could be made self-supporting.

It is certain to me here that the present system is nearly a waste of money as the boys get no training in the care of horses and usually under no competent men as the church schools cannot afford to keep men of this description owing to lack of finances.

I have the honour to be,

Sir,

The Secretary, Dpt of Indian Affairs, Ottawa
Dear Sir

I beg to acknowledge receipt of your letter of the 22^d inst,
no 118153/4, re Condition of affairs at the School,
and to say in reply that it certainly caused us a
great and painful surprise, as we were not prepared
at all to receive such a sad news, for many
good reasons:

1. The Inspectors, Agents and Doctors have regu-
larly visited this School and they always had
but one voice to praise our work, - and their
reports in the Annual Blue Books show that
they seemed to mean what they used to
tell us. Did not even Mr. Markle, after his last
visit here, make a personal appeal to the Indian
Department to try and build a new school for
us as soon as possible?

2. The proper time to speak about closing this
school was eight or nine years ago when the
Indians were all removed away from us and
new farms were arranged for them around
Brockton and close to the other School: who could have
believed at that time that we would have been
able to recruit any more pupils? However, in spite
of the river and of the long distance, the Indians
have kept on giving us their children and, even
to-day, we have three pupils over the number for
whom the grant is paid.

3. I must say also that our pupils seem to appre-
ciate the care and the attention they receive
from us: they are happy, contented and quite

Indian Affairs. (RG 10, Volume 6362, file 759-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2/

at home here, and at the end of their vacation they are all in a hurry to come back.

4) And now you are informing me that "in view of the very unsatisfactory condition of affairs at the Peigan R.C. Boarding School, the Dept will be forced to close it unless a very decided improvement is noted in the near future..." A thunder clap in a cloudless sky could not have made on me a stronger emotion: is it possible that we have been deceiving ourselves when, in the circumstances just mentioned, we thought that our work had not only the approval, but also the congratulation of the Department? On the 20th of last march Mr. Gunn came here with the Head Doctor and Dr. Gillespie and, after having made their inspection, they claimed they were greatly pleased and praised us for the cleanliness of the house, the good manners of the children, etc, etc.

5) If, in spite of all this, it is true that you find the condition of affairs "very unsatisfactory" and wish for a "very decided improvement", kindly let us know what is unsatisfactory and what kind of improvement you want: I believe that I am entitled to say that we have always been anxious to comply with the wishes of the Department.

6) You complain that "the results do not justify the Department in continuing the expenditure incurred here". I admit, very willingly, that our work is not very encouraging nor the results so good as desired: but, on the other hand, do the other schools obtain a better success on the Indian Reserves? The transformation of an Indian race is necessarily a slow work.

3/

after all, is even the white race perfect, after nineteen centuries of civilization and christianity?

Hoping you will kindly excuse the strong emotion which shows itself through my letter and take into consideration the few remarks I am submitting you and answer promptly and satisfactorily. I remain dear Sir,
your faithful servant,
J. A. Levern, omc. pr.

July 23rd, 1916,

Dear Father Levern,

I have just read for the first time a departmental letter of the 22nd April, 1916. This letter was written without my knowledge and authority and in complete disregard of my wishes. My attention was not drawn to it or to your reply of April 29th or else I would have immediately written you at that time. The Department has no intention whatever of closing the school as you must have been aware from my past correspondence. I have been personally interested in this school and I know well the difficulties under which you have been operating it and have endeavoured so far as possible to ameliorate the conditions.

Kindly place this letter with your correspondence in order that it will remove the impression conveyed in the previous communication. My sentiments towards the school have not altered since I wrote you on November 20th, 1916.

Please convey to the devoted sisters my regret that you and they should have been troubled so unnecessarily in this matter.

Reverend J. L. Levern, O. M. I.,
Principal, Roman Catholic School,
Peigan Reserve,
Brocket, Alberta.

Yours sincerely,

James L. McMillan

Deputy Supt. Gen. of Indian Affairs, Ottawa
Dear Sir

How could I thank you for your so kind and encouraging letter of July 23^d, which I just received!

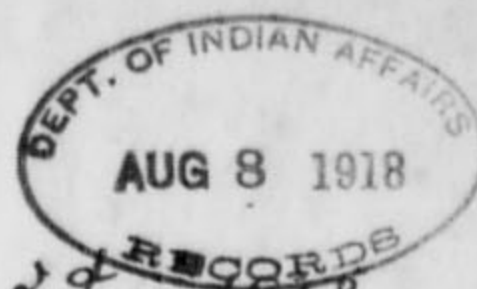

The letter of the Indian Department had caused me indeed a great surprise and, as I never got any explanation about it, finally I made up my mind to apply to Bishop Mc Nally; and I easily imagine your indignation when he told you about the matter: many, many thanks!

I have pinned your kind letter on the one of April 22^d.

I had kept all this completely secret as I did not wish to cause to the Sisters any useless pain: but now that the affair is settled, I have spoken to them about it and they ask me to forward you also their most heartfelt thanks.

The attic is finished, a good while ago, and is now a good and comfortable room, giving accommodation for a few more pupils.

The Sisters have been painting nearly all summer and all the inside of the house looks

REPORT OF INSPECTOR MARKIE ON THE PEIGAN P.C. BOARDING SCHOOL.

The attic of the main building was finished last spring and accommodation provided for about 10 more pupils, so I was informed. The authorized number is only 30 grant earners and the Rev. Principal earnestly petitions you to increase the number of grant earners to 40. Owing to the high cost of food, clothing, etc, the institution cannot afford to keep any children who are not grant earners and it seems a hardship on the children who seek admittance if they are turned away.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, January 14, 1921.

MEMORANDUM.

Mr. Scott,-

In a personal letter to yourself from the Rev. J. L. Levern, Principal of the Peigan (R.C.) Boarding School, he requests that the number of grant earning pupils be increased. They are at present receiving a grant for 30 pupils only and he states that they are in the school, with ample accommodation for 45, and that alterations were completed in the spring of 1918 to accommodate that number.

In December, 1918, Mr. Inspector Markle recommended that the grant earners be increased to 40 pupils. This was noted, on your authority, for the Supplementary Estimates for 1919-20, but, at the time these estimates were prepared, it was disallowed.

There will, no doubt, be sufficient funds in the appropriation for the next fiscal year to provide for an increase of 10 pupils, and, as the school can obtain that number and has accommodation for them, I would recommend that the Principal's request be granted. His letter to you, referred to above, has been returned for your private files.

MEMO FOR FILE:

Schools

The Provincial Public School Inspector, Mr. J. H. Hutchison, in his report on the Peigan R. C. Indian Boarding School, states that Sister Oline Cartier is not meeting with success. "She teaches beginners to read by the alphabetical method and their progress is extremely slow. She has not mastered the art of teaching the individual through the class: although classes are called, only one pupil at a time is taught - all the others meanwhile being passive. Another outstanding defect in her instruction is the leaving of pupils for long periods at seats without anything whatever to do."

[Handwritten signature] Secretary, Dept. of Ind. Affairs, Ottawa,

Dear Sir

I beg to acknowledge receipt of your letter of the 12th inst., - N^o 116-2-1, and to say in reply that Sister Superior has sent this morning a copy of it to the Reverend Mother General, Nicolet, Que.- At the same time I wish to make a suggestion regarding this matter: if it is not too much trouble, M^r. D. C. Scott should write a personal letter to R^e Rev. J. S. Brunault, bishop of Nicolet, Que., - who is the ecclesiastical Superior of these Sisters and who does not seem to realize the urgent necessity of preparing better teachers for our schools. The Mother General is willing to do whatever is required by the Department, - but she cannot take any measure of importance, such as sending some young sisters to a Normal School, - without the agreement of the Bishops, - and such is the reason of my suggestion.

Begging pardon for all the trouble I remain, dear Sir,

your obedient servant,
J. L. Levern, o.m.c. pr

Ottawa, April 25, 1923.

Rt. Reverend Sir:

I have been requested to draw your attention to the increasing importance of providing properly qualified teachers for the classrooms in Indian residential schools. The Grey Nuns of Nicolet have kindly placed Sisters in certain of the institutions financed and controlled, jointly, by this Department and the Roman Catholic Church. It is extremely desirable that certain Sisters, who are destined to give academic instruction, should receive professional qualifications at some Normal School in Quebec. I should be grateful if Your Lordship would exercise your influence to this end.

Yours very truly,

Duncan C. Scott *over*

Monsieur le Député Surintendant Général, 583294

J'accuse réception de votre honorée lettre, en date du 25 avril, adressée à Sa Grandeur Mgr l'Evêque de Nicolet présentement absent en Europe, et pour encore deux mois.

Sans attendre ce retour, j'ai cru bien faire en portant votre lettre à la connaissance de la Révérende Mère Supérieure des Soeurs Grises de Nicolet, laquelle se croit certaine, malgré plus d'un obstacle, de vous donner pleine et entière satisfaction dès le prochain exercice.

Quoiqu'il en soit, Monsieur le Député Surintendant Général, Votre lettre sera remise à Sa Grandeur dès sa rentrée ici.

J'ai l'honneur d'être, Monsieur,
votre humble serviteur en N.S.,

The Deputy Superintendent General,-

I have to acknowledge the receipt of your esteemed letter dated April 25th addressed to His Lordship the Bishop of Nicolet who is at present absent in Europe and will be so for about two months.

Without awaiting his return I have brought your letter to the attention of Rev. Mother Superior of the Grey Nuns of Nicolet who considers it certain in spite of more than one obstacle that you will have full satisfaction during the coming term.

Your letter, however, will be forwarded to His Lordship on his return here.

I have the honour to be,

Sir,

Your obedient servant,

J.E. Bourret, V.G.

ROMAN CATHOLIC SCHOOL:

As you are aware, a heating plant was installed
in this school this Fall. I went over the building and
inspected the work, and in my opinion the heating plant
is giving good satisfaction, the work being performed in
a workmanlike manner.

As water works were installed in the school a
year ago, this institution is now in pretty fair shape
for a few years.

The sum of \$250.00 was authorized last summer
for painting this school. The paint has been purchased,
but, as yet, the work has not been done. The school
authorities claim they did not have time to paint the
building this fall. They state, however, that the work
will be done first thing in the spring. They have
sufficient material to paint the school both inside and
outside.

COMMISSIONER'S OFFICE,

REGINA, SASK., April 3rd, 1929

IN YOUR REPLY REFER TO
NO. 406-11
ALSO TO DATE OF THIS LETTER

Dear Mr. Graham:-

I have the honour to report that while at the Peigan Agency I inspected both Boarding Schools on the reserve.

At the R.C. School I found 22 boys and 30 girls in residence, and the grades being taught were from one to seven. 46 of these children are from the Peigan Reserve, but there are six girls there from the northern part of the province, being orphans and admitted to this school by the Department. Everything at this institution was in first-class shape, the premises well looked after and clean. The children all looked to be in splendid condition, and I must say are well cared for. The school had an excellent crop last Fall. They threshed 5000 bushels of wheat and had 12 tons of potatoes and a lot of other garden truck. The grade of the wheat, of course, was low, but the Principal told me that this extra money certainly helped the school out greatly. I cannot speak too highly of the work that is done here. I believe the class-room work is good. The children are well fed, well clothed and are receiving a good training.

W. M. Graham, Esq.,

COMMISSIONER'S OFFICE,

W. REGINA, SASK., 4th April, 1929.

IN YOUR REPLY REFER TO

No. 406-11

ALSO TO DATE OF THIS LETTER

Sir:-

I enclose herewith a report on an inspection of the Roman Catholic and Church of England schools in the Peigan Agency. The report shows that excellent work is being done at the Roman Catholic school. Everything in connection with the institution was found to be in first class shape. The premises were clean. The children were in good condition and the Father had reaped his first crop, which yielded 5,000 bus. wheat and 12 tons of potatoes, as well as a lot of garden truck. This goes to show what can be done with proper management. I consider that the Principal of this school should be congratulated on the manner in which he has managed this institution. There is no doubt in my mind that the boys and girls here are getting a real training.

With regard to the Church of England school, conditions have not changed and it seems too bad that this work is to suffer through absolute incompetence on the part of the management. The Indians are not receiving the proper training for their children under the management of the present Principal. In the first place he is impracticable. He knows nothing about farming, which after all is the most important branch of the work to be carried on at the institution. He has in his employ Mr. Hillier, who was dismissed from our service as being incompetent, lazy, and a failure generally, and it seems to me that this school is going to get worse instead of better. I am quite aware that when the Inspector's last report went in Doctor Westgate replied to the charges therein and it was thought that we could let the matter ride for a while. This inspection, however, goes to show that there has been no improvement. Just fancy a new place of this kind, with all the equipment we have supplied, and no land ready for crop, and no summerfallowing done. The Department should take serious steps in regard to this matter.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

IN YOUR REPLY REFER TO
No. 406-11A., R.C.
ALSO TO DATE OF THIS LETTER

INSPECTOR'S OFFICE.

CALGARY, ALTA. December 7th, 1932.

Sir:

I have the honour to report on a recent inspection of the Sacred Heart Indian Boarding School on the Peigan Reserve. At the time of my inspection there were 55 children in residence. I spent practically a whole day at the school, and during that time I spent quite a little while in the two classrooms.

Mr. Bremner, the Provincial School Inspector, has recently inspected the classroom work at this school and according to his report everything is quite satisfactory. I will not dwell on this phase of the work any more than to say that both teachers are performing splendid work; especially Sister Gertrude Roy. She has been at the Blood and Peigan Schools for a great many years and I have always found her work most satisfactory. She takes a great interest in her pupils and gets splendid results. Sister St. Joan of Arc is also a good teacher, but she has not had the experience of Sister Gertrude Roy.

HEALTH:

I was very well pleased with the appearance of the children. They are certainly getting exceptionally good care and are being well looked after in every way. They receive good food and there was no sickness of any kind to be seen in the school.

The secretary,
Department of Indian Affairs,
OTTAWA.

Indian Affairs. (RG 10, Volume 6362, file 759-1, part 1)

2.

SACRED HEART SCHOOL, Health (Cont'd),--

Their clothing was clean and tidy and in looking over the stock of clothing on hand for the children, I found that they were probably better supplied than any school I have ever visited: They have five changes.

BUILDINGS:

The school building and outbuildings were all in A1. condition. The same applies to furnishings throughout the building.

All the machinery was also in good order.

WATER SUPPLY:

This is proving very satisfactory and the school has an ample supply of water. The Engineer informed me that a short time ago he wanted to clean out the tank at the spring, and he pumped for 9½ hours steadily before the reservoir was pumped dry.

FARMING OPERATIONS:

Their farming operations were very successful during the present year. They threshed 3000 bushels of wheat, 1400 bushels of oats, 700 of barley, and summerfallowed 80 acres. They put up 100 tons of hay and green feed.

The school owns 80 head of cattle and are milking 14 cows. They have 14 work horses, 21 hogs and about 100 chickens.

They had about 400 bushels of potatoes and an abundance of all kinds of vegetables consisting of 18 different varieties.

GROUNDS:

I reported on the grounds, garden, &c., of this school in June last.

Teaching other than classroom work:

The girls are taught to make bread and

3.

SACRED HEARD SCHOOL (Teaching other than classroom work) Cor
they are instructed in the method of doing all kinds of cooking, sewing, &c. Practically all the clothing used in the school is made up by the girls, and the Sisters informed me that the girls have become very interested in this work. It seems that a great change in this respect has taken place in the last ten years. Formerly they had to be practically driven to do any sewing, whereas now they show an eagerness to do it.

The older boys assist with the farming and look after the stock, gardens, &c., and as this work is exceptionally well performed at this school, it is a splendid example for the children.

Seven of the pupils will be discharged this coming spring, but I understand that there is quite a number of children on the reserve who will be of school age, and there will be enough starting school next summer to replace those who will be discharged.

STAFF:

At the time of my inspection of this school, Father Laverne, the Principal, was absent. He left some time in August for Rome and he is now on his way back and is expected to arrive about the middle of the month.

The staff consists of the Reverend Principal, a combined farmer and engineer, a lay brother who looks after the grounds and garden, &c., and nine sisters.

SACRED HEART SCHOOL (Continued),-

This school is very well managed in every respect, and affords the children an excellent opportunity to prepare themselves for the time when they are to graduate and start up for themselves.

I have the honour to be,

Sir,

Your obedient servant,

M. Christianson

Sir:

I have your 406-11A., R.C., of the 7th instant, reporting on your recent inspection of the Sacred Heart Indian Residential School. The Department is pleased to note that conditions generally at this school are satisfactory: that the children are receiving every care and are in good health and that the school is well managed, affording the pupils an excellent opportunity to prepare for the time when they will graduate and start for themselves.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Dear Doctor McGill:

I have the honour to report that
I recently visited the Roman Catholic Boarding
School on the Peigan Reserve, and found that
everything was in good order.

The children looked well and
there was no sickness of any kind in the school.
The staff appear to be performing their duties
in a satisfactory manner.

I have the honour to be,
Sir,

Your obedient servant,

M. CHRISTIANSON,
Inspector of Indian Agencies,
Alberta Inspectorate.

CANADA

INSPECTOR'S OFFICE,

CALGARY, ALTA., November 30th, 1933.

IN YOUR REPLY REFER TO
No. 406-112.R.C.
ALSO TO DATE OF THIS LETTER

Dear Doctor McGill:

I have the honour to report that on a recent visit to the Peigan Agency I inspected the Roman Catholic Indian Residential School on that reservation. At the time of my visit there were 55 children in residence. I was pleased to note that everything was in Al. order at this institution.

I visited the classrooms and found that good work was being performed. As the Public School Inspector had inspected the classrooms just a few days previously I shall not dwell on this phase of the work here. The children were well dressed and looked very healthy and there was no sickness of any kind at the school.

As you are aware this school farms considerable land and also has quite a large herd of cattle. Their farming operations, of course, were very much retarded this year on account of the dry weather. They did, however, thresh enough wheat and oats for feed, and sufficient wheat to grind into flour. I believe they also have enough over for seed. The balance of the crop was cut for feed. They also raise an exceptionally good garden and have an abundance of garden truck, but

Doctor Harold W. McGill,

- 2 -

their potato crop this year was a failure compared to other years. The school owns about 100 head of cattle which is more than they really should have. It will be seen from this that they will have some cattle for sale and all the beef they require.

The training afforded the children at this institution compares most favourably with the best schools in the province. They receive good academic training in the classrooms as well as being taught all kinds of outside work. The school garden is well maintained and the grounds kept in first class shape, although the school has been handicapped by lack of water. The well at the school only produced a small amount of water and with the number of live stock there the spring which was developed a couple of years ago to take care of the water requirements is not, of course, sufficient to provide for the school and the stock in dry weather. Father Levern had to get an Indian to look after his live stock.

The buildings were all in good shape both outside and in.

I have the honour to be,
sir,

Your obedient servant,

M. Christianson

Dear Mr. Christianson,

I have read with interest your reports on the Peigan agency and also of the Church of England and Roman Catholic Schools on the Peigan Reserve.

Taking into consideration the fact of the unfavourable climatic conditions of last summer, I think the report on the whole is a very favourable one.

Yours faithfully,

H. W. McGill.

Deputy Superintendent General.

Edmonton - Alberta

23 mars 1934

M. J. D. Sutherland,
Acting Supt of Indian Education,
Ottawa, Ont.

Cher M. Sutherland,

Je n'ai pas eu depuis assez longtemps de nouvelles de notre fameux puits à notre Ecole Indienne de Brocket; j'espère qu'on y travaille et que le Département pourra enfin jouir de la paix sur cette question au moins. Je vous en ai parlé plusieurs reprises parce que l'approvisionnement d'eau est une chose vitale dans une institution comme celle-là. Heureusement que vous le comprenez et que vous êtes bien décidé à voir à ce qu'un bon puits soit donné au cher Père Levern.

Quant au nombre de têtes d'animaux que possède actuellement l'Ecole, j'ai voulu m'en assurer moi-même afin qu'on n'en gardât pas un stock plus considérable qu'il est nécessaire, et je n'en ai compté que 44 en plus des chevaux et de 5 porcs. Il me semble que c'est un nombre plutôt inférieur à ce que l'Ecole devrait avoir pour répondre aux besoins des enfants et du personnel. Ne pensez-vous pas que, dès que l'approvisionnement d'eau sera suffisant, il faudrait encourager le Principal à augmenter le nombre de ses bestiaux, de façon à trouver dans son troupeau toute la viande requise.

En visitant cette Ecole, je trouve aussi qu'il n'y a pas assez grand de terrain de mis à la disposition de la ferme. Vous savez combien l'herbe est rare dans le sud de l'Alberta et combien il faut d'espace pour fournir assez de pâturage à quelques têtes d'animaux seulement. Nous ne nous plaignons pas à l'Ecole Ste Marie de Cardston, parce que nous disposons de plus de deux sections de terre et que nous pouvons couper sur la réserve autant de foin qu'il nous en faut. Dans ces conditions, la ferme dont nous avons charge est d'un grand secours pour le soutien de l'Ecole. Pourquoi ne pas être un peu plus libéral à l'égard de la petite Ecole de Brocket? Moins il y a d'enfants dans une Ecole, et plus elle est difficile à maintenir, au point de vue financier; il me semble alors que le Département aurait tout intérêt à avantager ces petites Ecoles, afin que ceux qui en ont l'administration ne trouvent pas leur tâche trop lourde.

Pardonnez-moi, cher M. Sutherland, de vous entretenir si souvent de cette Ecole; c'est que je m'y intéresse beaucoup et que je voudrais aider de toutes mes forces le Principal si dévoué à en faire un véritable succès.

Avec l'assurance de mes meilleurs sentiments,

D. Langlois O.M.I.

Sacred Heart #1

Ottawa, March 28, 1934.

Dear Father Langlois:

With reference to your letter of the 23rd instant, I may say that the question of the water supply at the Sacred Heart Residential School has been taken up with the officers of the Dominion Water Power Branch. They suggest that the old well be cleaned, as possibly this would result in securing sufficient water and avoid the necessity of incurring the heavy expenditure required for drilling a new well. Arrangements have been made to have the well cleaned during the month of April, and before taking further action, the Department will await a report regarding the results secured.

The last annual report submitted to the Department by the Principal of the Sacred Heart School states that the school has the use of 800 acres of land on the reserve, of which amount 340 acres is under cultivation. I am inclined to feel that this should be sufficient land to meet the purposes at this school.

Reports received also indicate that quite a large herd of cattle is kept at this school. As a matter of fact, one of our Inspectors recently stated that he considered more cattle are being kept than are really necessary.

Yours very truly,

J. D. Sutherland
J. D. Sutherland,
Acting Supt. of Indian Education.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sacred Heart School for the Quarter ended December 31. 1941.
Principal E. Ruesson
Dated 19

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

CANADA

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the Sacred Heart School for the Quarter

ended March 31, 1942.

Principal E. Ruan & Co.

Dated April 7th 1942

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

W. Victor Wells
Indian Agent

Dated at.....
this.....19.....

NOTE

Principals will please be guided by the instructions printed on the last page.

FORM No. I. A. 403
Reqn. No. 288

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter."
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sacred Heart School for the Quarter ended June 30th 19342.

Principal E. R. R. R. R. R.

Dated 1934

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sacred Heart School for the Quarter ended September 30th 1942
Principal E. Quark omi
Dated October 3rd 1942

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.
7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance
and tuition at the Sacred Heart R.C. Ind. Res. School for the Quarter
ended March 31. 1943.

Principal E. P. Quaver O. C. 1.

Dated **April 1,** 19**43**

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sacred Heart Indian Residential School for the Quarter ended September 30th 1943

Principal Rev. George Crepeau

Dated September 30th 1943

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the SACRED HEART INDIAN RESIDENTIAL School for the Quarter ended March 31 19 44

Dated April 1 19 44
Principal Rev. George Crepeau O.M.I.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at PLIGAN AGENCY APR 5 1944

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the SACRED HEART INDIAN RESIDENTIAL School for the Quarter ended September 30 19 44

Dated September 30 19 44
Principal Rev. George Crepeau O.M.I.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the SACRED HEART INDIAN RESIDENTIAL School for the Quarter ended June 30 1945.

Principal Rev. George Creplan O.M.I.

Dated June 30 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the SACRED HEART INDIAN RESIDENTIAL School for the Quarter

ended December 31 19 45

Principal Rev. George Creplean O.M.I.

Dated December 31 19 45

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Indian Agent

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the SACRED HEART INDIAN RESIDENTIAL School for the Quarter

ended June 30 1946

Principal Rev. G. Crepeau O.M.I.

Dated June 30 1946

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.
